

List of Pension Funds for statistical purposes

- Article 3 of the Regulation on statistical reporting requirements for pension funds states that the ECB shall establish and maintain a list of pension funds and pension managers that form the reporting population.
- A list containing a subset of the required attributes will be published on the ECB website.
- Similar lists have been compiled and published for other institutional sectors. These lists can be found [here](#).
- Examples of the attributes collected for other sectors are provided on the next slide.
