The Notes are limited recourse obligations of the Issuer which are payable solely out of amounts received by or on behalf of the Issuer in respect of the Collateral (as defined herein). The net proceeds of the realisation of the security over the Collateral upon acceleration of the Notes following an Event of Default (as defined herein) may be insufficient to pay all amounts due to the Noteholders (as defined herein) after making payments to other creditors of the Issuer ranking prior thereto or *pari passu*

therewith. In the event of a shortfall in such proceeds, the Issuer will not be obliged to pay, and the other assets (including the Issuer Irish Account and the rights of the Issuer under the Corporate Services Agreement (each as defined herein)) of the Issuer will not be available for payment of such shortfall, all claims in respect of which shall be extinguished. NOTICE TO INVESTORS

NOTICE TO KOREAN INVESTORS

The Subordinated Notes may be characterised as "debt securities" as defined under Article 4(3) of the Financial Investment Services and Capital Markets Act of Korea (the "**FSCMA**") or as any security listed under Article 4(2) of the FSCMA. No communication (whether written or oral) with the Issuer or its Affiliates, representatives, agents or counsel (including the usage of the terms or expressions of "**note**", "**security**", "**bond**" or "**instrument**") shall be deemed to be an assurance or guarantee that the Subordinated Notes will be characterised as debt securities under Korean laws and regulations and the generally accepted accounting principles in Korea ("**KGAAP**"). Each resident of Korea who purchases any Subordinated Notes shall be considered to be capable of assessing or analysing the legal nature or characterisation of the Subordinated Notes under Korean laws and regulations and KGAAP (based upon its own judgement and upon advice from such advisers as it has deemed necessary) and understanding the consequences and risks from the re-characterisation of the Subordinated Notes.

RETENTION REQUIREMENTS

Each prospective investor in the Notes is required to independently assess and determine whether the information provided herein and in any reports provided to investors in relation to this transaction are sufficient to comply with the EU Retention Requirements or any other regulatory requirement. None of the Issuer, the Investment Manager, the Initial Purchaser, the Retention Holder, the Collateral Administrator, the Trustee, their respective Affiliates or any other Person makes any representation, warranty or guarantee that any such information is sufficient for such purposes or any other purpose and no such Person shall have any liability to any prospective investor or any other Person with respect to the insufficiency of such information or any failure of the transactions contemplated hereby to satisfy the EU Retention Requirements or any other applicable legal, regulatory or other requirements. Each prospective investor in the Notes which is subject to the EU Retention Requirements or any other regulatory requirement should consult with its own legal, accounting and other advisors and/or its national regulator to determine whether, and to what extent, such information is sufficient for such purposes and any other requirements of which it is uncertain.

The Investment Manager has informed the Issuer and the Initial Purchaser that it does not intend to retain a risk retention interest contemplated by the U.S. Risk Retention Rules in connection with the refinancing transaction described in this prospectus or the Refinancing Notes in reliance on the Foreign Safe Harbor. None of the Trustee, the Initial Purchaser, any Agent, any Hedge Counterparty or any other party (other than the Retention Holder) provides any assurances regarding, or assumes any responsibility for, the Investment Manager's compliance with the U.S. Risk Retention Rules prior to, on or after the Issue Date.

See "*Risk Factors – Regulatory Initiatives*", "*Risk Factors – Risk Retention in Europe*", "*Risk Factors – Restrictions on the Discretion of the Investment Manager in Order to Comply with European Risk Retention*", "*Risk Factors – The Dodd-Frank Act and the U.S. Risk Retention Rules*" and "*The Retention Holder and the EU Retention Requirements*" below.

VOLCKER RULE AND ISSUER RELIANCE ON RULE 3A-7

As of the Issue Date, the Issuer has not been registered under the Investment Company Act and has relied on both Section 3(c)(7) of the Investment Company Act and Rule 3a-7 under the Investment Company Act. However, the Issuer (or the Investment Manager on its behalf) may elect, subject to satisfaction of the Opt Out Condition or the Regulatory Change Condition, as applicable, not to rely on the exemption from the Investment Company Act provided by Rule 3a-7. So long as the Issuer relies on Rule 3a-7, its ability (and the ability of the Investment Manager on its behalf) to acquire and dispose of Collateral Debt Obligations may be limited, which could adversely affect its ability to realize gains, mitigate losses or reinvest principal payments or sale proceeds. See "*The Portfolio – Sale of Collateral*

Debt Obligations" and *"The Portfolio – Reinvestment of Collateral Debt Obligations"*. If the Issuer (or the Investment Manager, acting on behalf of the Issuer) elects not to rely on, or if the Issuer were otherwise determined not to qualify for, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule. However, whilst the Issuer may take these and other steps to comply with a different exception to the definition of "covered fund", there is no guarantee that any such steps would be successful. Accordingly, the Issuer may become a "covered fund" in the future and banking entities and other entities subject to the Volcker Rule would be restricted from acquiring and retaining certain ownership interests in the Issuer. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Initial Purchaser, the Investment Manager, the Trustee or any of their Affiliates makes any representation to any prospective investor or purchaser of the Notes regarding the application of the Volcker Rule or Rule 3a-7 under the Investment Company Act to the Issuer, or to such investor's investment in the Notes on the Issue Date or at any time in the future.

In addition, the holders of the Class X Notes and the Class A-2 Notes are disenfranchised in respect of any IM Removal Resolution or IM Replacement Resolution. However, there can be no assurance that this feature will be effective in resulting in investments in the Class X Notes or the Class A-2 Notes by "banking entities" subject to the Volcker Rule not being characterised as an "ownership interest" in the Issuer.

See *"Risk Factors – Non-compliance with restrictions on ownership of the Notes and the Investment Company Act could adversely affect the Issuer"* below.

The Notes of each Class sold outside the United States to non-U.S. persons in reliance on Regulation S ("**Regulation S**") under the Securities Act (the "**Regulation S Notes**") will each (other than, in certain circumstances as described below, Class E Notes, the Class F Notes and Subordinated Notes) be represented on issue by beneficial interests in one or more permanent global certificates of such Class (each, a "**Regulation S Global Certificate**" and together, the "**Regulation S Global Certificates**"), or in some cases by definitive certificates of such Class (each a "**Regulation S Definitive Certificate**" and together, the "**Regulation S Definitive Certificates**") in fully registered form, without interest coupons or principal receipts, which will be deposited on or about the Issue Date with, and registered in the name of, a nominee of a common depositary for Euroclear and Clearstream, Luxembourg or, in the case of Regulation S Definitive Certificates, the registered holder thereof. Neither U.S. persons nor U.S. residents (as

determined for the purposes of the Investment Company Act) ("**U.S. Residents**") may hold an interest in a Regulation S Global Certificate or a Regulation S Definitive Certificate. Any Class E Notes, any Class F Notes and any Subordinated Notes sold to Plans will be issued in definitive, certificated, fully registered form, registered in the name of the holder (or a nominee thereof) pursuant to the Trust Deed, and will be offered (i) outside the United States to non-U.S. persons in reliance on Regulation S and (ii) within the United States to persons and outside the United States to U.S. persons, in each case who are both QIBs and QPs (in reliance on Rule 144A) and, in each case, will be registered in the name of the holder (or a nominee thereof). In each case, purchasers and transferees of notes will be deemed and in certain circumstances will be required to have made certain representations and agreements. See "*Form of the Notes*", "*Book Entry Clearance Procedures*", "*Plan of Distribution*" and "*Transfer Restrictions*" below.

The Refinancing Notes sold in the initial syndication of this Offering may not be purchased by, and will not be sold to any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Waiver from the Investment Manager. Purchasers and transferees of the Refinancing Notes, including beneficial interests therein, will be deemed and in certain circumstances will be required to have made certain representations and agreements, including that each purchaser in the initial syndication of this Offering (1) either (a) is not a Risk Retention U.S. Person or (b) has received a U.S. Risk Retention Waiver from the Investment Manager, and (2) is not acquiring such Refinancing Note or a beneficial interest therein as part of a plan or scheme to evade the requirements of section 15G of the Securities Exchange Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules. Further, interests in any Regulation S Note may not be exchanged for interests in a Rule 144A Note or otherwise sold or transferred to a Risk Retention U.S. Person at any time during the U.S. Risk Retention Restricted Period. Any purchase or transfer of the Refinancing Notes in breach of this requirement will result in the affected Refinancing Notes becoming subject to forced transfer provisions. See "*U.S. Risk Retention*" and "*Forced Transfer*" below.

The Issuer has not been registered under the Investment Company Act and has relied on both Section 3(c)(7) of the Investment Company Act and Rule 3a-7 under the Investment Company Act, provided that the Issuer (or the Investment Manager on its behalf) may elect, subject to satisfaction of the Opt Out Condition or the Regulatory Change Condition, as applicable, not to rely on the exclusion from the Investment Company Act provided by Rule 3a-7. If the Issuer (or the Investment Manager, acting on behalf of the Issuer) elects not to rely on, or if the Issuer were otherwise determined not to qualify for, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule. However, whilst the Issuer may take these and other steps to comply with a different exception to the definition of "covered fund", there is no guarantee that any such steps would be successful. Accordingly, the Issuer may become a "covered fund" in the future and banking entities and other entities subject to the Volcker Rule would be restricted from acquiring and retaining certain ownership interests in the Issuer. Whilst the holders of the Class X Notes and the Class A-2 Notes are disenfranchised in respect of any IM Removal Resolution or IM Replacement Resolution, there can be no assurance that this feature will be effective in resulting in investments in the Class X Notes or the Class A-2 Notes by "banking entities" subject to the Volcker Rule not being characterised as an "ownership interest" in the Issuer.

Each purchaser of an interest in the Notes (other than a non-U.S. person outside the United States) will be deemed to have represented and agreed that it is a QP and will also be deemed to have made the representations set out in "*Transfer Restrictions*" herein. The purchaser of any Note, by such purchase, agrees that such Note is being acquired for its own account and not with a view to distribution and may be resold, pledged or otherwise transferred only (1) to the Issuer (upon redemption thereof or otherwise), (2) to a person the purchaser reasonably believes is a QIB which is also a QP, in a transaction meeting the requirements of Rule 144A, or (3) outside the United States to a non-U.S. person in an offshore transaction in reliance on Regulation S, in each case, in compliance with the Trust Deed and all applicable securities laws of any state of the United States or any other jurisdiction. See "*Transfer Restrictions*".

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Notes and the offering thereof described herein, including the merits and risks involved.

THE SECURITIES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

This Prospectus has been prepared by the Issuer solely for use in connection with the offering of the Notes described herein (the "**Offering**") and for the admission to trading of the Notes. Each of the Issuer and the Initial Purchaser reserves the right to reject any offer to purchase Notes in whole or in part for any reason, or to sell less than the stated initial principal amount of any Class of Notes offered hereby. This Prospectus is personal to each offeree to whom it has been delivered by the Issuer, the Initial Purchaser or any Affiliate thereof and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire the Notes. Distribution of this Prospectus to any persons other than the offeree and those persons, if any, retained to advise such offeree with respect thereto is unauthorised and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited. Any reproduction or distribution of this Prospectus in whole or in part and any disclosure of its contents or use of any information herein for any purpose other than considering an investment in the securities offered herein is prohibited.

U.S. TAX DISCLOSURE

NOTWITHSTANDING ANYTHING IN THIS PROSPECTUS TO THE CONTRARY, EACH PROSPECTIVE INVESTOR (AND EACH EMPLOYEE, REPRESENTATIVE OR OTHER AGENT OF EACH PROSPECTIVE INVESTOR) MAY DISCLOSE TO ANY AND ALL PERSONS, WITHOUT LIMITATION OF ANY KIND, THE TAX TREATMENT AND TAX STRUCTURE OF AN INVESTMENT IN THE NOTES AND ALL MATERIALS OF ANY KIND (INCLUDING OPINIONS OR OTHER TAX ANALYSES) THAT ARE PROVIDED TO THE PROSPECTIVE INVESTOR RELATING TO SUCH TAX TREATMENT AND TAX STRUCTURE. FOR THESE PURPOSES, THE TAX TREATMENT OF AN INVESTMENT IN THE NOTES MEANS THE PURPORTED OR CLAIMED U.S. FEDERAL INCOME TAX TREATMENT OF AN INVESTMENT IN THE NOTES. IN ADDITION, THE TAX STRUCTURE OF AN INVESTMENT IN THE NOTES INCLUDES ANY FACT THAT MAY BE RELEVANT TO UNDERSTANDING THE PURPORTED OR CLAIMED U.S. FEDERAL INCOME TAX TREATMENT OF AN INVESTMENT IN THE NOTES.

AVAILABLE INFORMATION

To permit compliance with the Securities Act in connection with the sale of the Notes in reliance on Rule 144A, the Issuer will be required under the Trust Deed to furnish upon request to a holder or

beneficial owner who is a QIB of a Note sold in reliance on Rule 144A or a prospective investor who is a QIB designated by such holder or beneficial owner the information required to be delivered under Rule 144A(d)(4) under the Securities Act if at the time of the request the Issuer is neither a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended, nor exempt from reporting pursuant to Rule 12g3-2(b) under the Exchange Act. All information made available by the Issuer pursuant to the terms of this paragraph may also be obtained during usual business hours free of charge at the office of the Principal Paying Agent.

GENERAL NOTICE

EACH PURCHASER OF THE NOTES MUST COMPLY WITH ALL APPLICABLE LAWS AND REGULATIONS IN FORCE IN EACH JURISDICTION IN WHICH IT PURCHASES, OFFERS OR SELLS SUCH NOTES OR POSSESSES OR DISTRIBUTES THIS PROSPECTUS AND MUST OBTAIN ANY CONSENT, APPROVAL OR PERMISSION REQUIRED FOR THE PURCHASE, OFFER OR SALE BY IT OF SUCH NOTES UNDER THE LAWS AND REGULATIONS IN FORCE IN ANY JURISDICTIONS TO WHICH IT IS SUBJECT OR IN WHICH IT MAKES SUCH PURCHASES, OFFERS OR SALES, AND NONE OF THE ISSUER OR THE INITIAL PURCHASER, THE INVESTMENT MANAGER, THE TRUSTEE OR THE COLLATERAL ADMINISTRATOR (OR ANY OF THEIR RESPECTIVE AFFILIATES) SHALL HAVE ANY RESPONSIBILITY THEREFOR.

THE NOTES ARE SUBJECT TO RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD EXCEPT AS PERMITTED UNDER THE SECURITIES ACT 1933, AS AMENDED, AND THE APPLICABLE STATE SECURITIES LAWS, PURSUANT TO REGISTRATION OR EXEMPTION THEREFROM. INVESTORS SHOULD BE AWARE THAT THEY MAY BE REQUIRED TO BEAR THE FINANCIAL RISKS OF THIS INVESTMENT FOR AN INDEFINITE PERIOD OF TIME.

COMMODITY POOL REGULATION

IF TRADING IN HEDGE AGREEMENTS WOULD RESULT IN THE ISSUER'S ACTIVITIES FALLING WITHIN THE DEFINITION OF A "COMMODITY POOL" UNDER THE COMMODITY EXCHANGE ACT, THE INVESTMENT MANAGER EXPECTS TO BE EXEMPT FROM REGISTRATION WITH THE COMMODITY FUTURES TRADING COMMISSION (THE "CFTC") AS A COMMODITY POOL OPERATOR (A "CPO") OR COMMODITY TRADING ADVISOR (A "CTA") PURSUANT TO CERTAIN GUIDANCE PROVIDED BY THE CFTC. THEREFORE, UNLIKE A REGISTERED CPO, THE INVESTMENT MANAGER WOULD NOT BE REQUIRED TO DELIVER A CFTC DISCLOSURE DOCUMENT TO PROSPECTIVE INVESTORS, NOR WOULD IT BE REQUIRED TO PROVIDE INVESTORS WITH CERTIFIED ANNUAL REPORTS THAT SATISFY THE REQUIREMENTS OF CFTC RULES APPLICABLE TO REGISTERED CPOS.

1 Applicable at any time prior to the occurrence of a Frequency Switch Event, provided that the rate of interest on the Rated Notes for the period from, and including, the Issue Date to, but excluding, the first Payment Date will be determined by reference to a straight line interpolation of 3 month EURIBOR and 6 month EURIBOR. Payment of interest on the Subordinated Notes will be made on an available funds basis in accordance with the Priorities of Payment. The Applicable Margin or spread over EURIBOR, in the case of the Floating Rate Notes, may be reduced pursuant to a refinancing in accordance with Condition 7(b)(ii) (*Optional Redemption in Part – Refinancing of a Class or Classes of Notes in whole by Subordinated Noteholders, Investment Manager or Retention Holder*).

2 Applicable following the occurrence of a Frequency Switch Event.

3 The ratings assigned to the Class X Notes, the Class A Notes and the Class B Notes by Fitch address the timely payment of interest and the ultimate payment of principal. The ratings assigned to the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes by Fitch address the ultimate payment of principal and interest. The ratings assigned to the Notes by Moody's address the expected loss posed to investors by the legal final maturity on the Maturity Date. A security rating is not a

recommendation to buy, sell or hold the Notes and may be subject to revision, suspension or withdrawal at any time by the applicable Rating Agency. As of the date of this Prospectus, each of the Rating Agencies is established in the European Union and is registered under Regulation (EC) No 1060/2009 (as amended) ("**CRA3**"). As such, each Rating Agency is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with CRA3.

4. The Initial Purchaser may, on behalf of the Issuer, offer the Notes at other prices as may be negotiated at the time of sale.

Eligible Purchasers

The Notes of each Class will be offered:

- (a) outside of the United States to non-U.S. persons in "offshore transactions" in reliance on Regulation S; and
- (b) within the United States to persons and outside the United States to U.S. persons, in each case, who are QIB/QPs.

The Refinancing Notes sold pursuant to the initial syndication of this Offering may not be purchased by, and will not be sold to any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Waiver from the Investment Manager. Any purchase or transfer of the Refinancing Notes in breach of this requirement will result in the affected Refinancing Notes becoming subject to forced transfer provisions. See "*U.S. Risk Retention*" and "*Forced Transfer*".

Distributions on the Notes

Payment Dates

Interest on the Notes will be payable:

- (a) following the occurrence of a Frequency Switch Event on (A) 15 January and 15 July (where the Payment Date immediately prior to the occurrence of the relevant Frequency Switch Event is either 15 January or 15 July), or (B) 15 April and 15 October (where the Payment Date immediately prior to the occurrence of the relevant Frequency Switch Event is either 15 April or 15 October); and

- (b) at all other times, 15 January, 15 April, 15 July and 15 October,

in each case, in each year commencing 17 July 2017, up to and including the Maturity Date and any Redemption Date provided that if any Payment Date would otherwise fall on a day which is not a Business Day, it shall be postponed to the next day that is a Business Day (unless it would thereby fall in the following month, in which case it shall be brought forward to the immediately preceding Business Day).

Subject to the prior redemption in full of the Rated Notes, the Issuer or the Investment Manager on its behalf may (and shall, in either case, if so directed by an Ordinary Resolution of the Subordinated Noteholders) designate a Business Day other than a Scheduled Payment Date as an Unscheduled Payment Date. See Condition 3(k) (*Unscheduled Payment Dates*).

Frequency Switch Event

A Frequency Switch Event shall occur if, on any Frequency Switch Measurement Date:

- (a) (i) the Aggregate Principal Balance (determined in accordance with the definition thereof, excluding Defaulted Obligations) of Collateral Debt Obligations that reset so as to become Semi-Annual Obligations in the previous Due Period (or where such Due Period is the first Due Period, in the last three months of such Due Period), is greater than or equal to 20 per cent. of the Aggregate Collateral Balance (the Aggregate Collateral Balance being determined in accordance with the definition thereof, excluding Defaulted Obligations); and (ii) for so long as any of (x) the Class X Notes, the Class A Notes or the Class B Notes remain outstanding, the Class A/B Interest Coverage Ratio is less than 100 per cent. the credit of the Principal Account shall be added to the numerator of the Class A/B Interest Coverage Ratio)),

in each case, (but, in respect of a Frequency Switch Event occurring under limb (a) above, only upon receipt of notice from the Collateral Administrator of the same), that has been notified in writing by the Investment Manager to the Rating Agencies, the Calculation Agent, the Issuer, the Principal Paying Agent, the Trustee, the Transfer Agents and the Registrar, and (with respect to a Frequency Switch Event which has occurred under limb (b) of the definition thereof only) the Collateral Administrator.

Interest

Interest shall be payable on the Subordinated Notes on each Payment Date to the extent funds are available in accordance with the Priorities of Payments.

Deferral of Interest

Failure on the part of the Issuer to pay the Interest Amounts due and payable on any Class of Rated Notes pursuant to Condition 6 (*Interest*) and the Priorities of Payments shall not be an Event of Default pursuant to Condition 10(a)(i) (*Non-payment of interest*) unless and until such failure continues for a period of at least five Business Days save in the case of administrative error or omission only, where such failure continues for a period of at least 10 Business Days and:

and except in each case as the result of any deduction therefrom or the imposition of any withholding tax thereon as set out in Condition 9 (*Taxation*).

To the extent that interest payments on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes are not made on the relevant Payment Date and a more senior Class of Notes remains Outstanding, an amount equal to such unpaid interest will be added to the principal amount of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes, as applicable, and thereafter will accrue interest on such unpaid amount at the rate of interest applicable to such Notes. See Condition 4 (*Security*).

The Issuer will not be permitted to enter into a Hedge Agreement to hedge interest rate risk and/or currency risk around or after the Issue Date unless either (i) such Hedge Agreement complies with the Hedge Agreement Eligibility Criteria or (ii) the Issuer obtains legal advice from U.S. nationally recognised legal counsel, knowledgeable in such matters to the effect that the entry into such arrangements shall not (x) require any of the Issuer, its directors or officers or the Investment Manager to register with the United States Commodity Futures Trading Commission the (the "**CFTC**") as a commodity pool operator or a commodity trading advisor pursuant to the United States Commodity Exchange Act of 1936, as amended (a "**Commodity Pool**") or (y) eliminate the Issuer's ability to rely on Rule 3a-7 under the Investment Company Act, unless and until the Issuer is no longer able to rely on, or elects not to rely on, the exclusion from registration under the Investment Company Act provided by Rule 3a-7.

Non-Euro Obligations and Asset Swap Transactions

Subject to the satisfaction of certain conditions in the Investment Management Agreement and the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) and satisfaction of the Eligibility Criteria, the Issuer or the Investment Manager on its behalf may purchase Collateral Debt Obligations that are denominated in a Qualifying Currency other than Euro provided that an Asset Swap Transaction is entered into in respect of each such Non-Euro Obligation which satisfies the Hedge Agreement Eligibility Criteria and is with an Asset Swap Counterparty satisfying the applicable Rating Requirement, under which the currency risk is reduced or eliminated (and receipt of Rating Agency Confirmation in relation thereto, unless such

Asset Swap Transaction is a Form-Approved Asset Swap Agreement).

Under each Asset Swap Transaction, the currency risk arising from the receipt of certain cash flows from the relevant Non-Euro Obligation, including interest and principal payments thereon, are hedged. The Asset Swap Transaction shall terminate on or about the maturity date of the Non-Euro Obligation and in the other circumstances specified therein. See "*The Portfolio - Non-Euro Obligations*" and "*Hedging Arrangements*".

See "*Description of the Investment Management Agreement*" and "*The Portfolio*".

Purchase of Collateral Debt Obligations

Portfolio

Details of the Portfolio as at 28 February 2017 are set out in Annex B (*Monthly Report*).

Subsequent Investment Period

During the period from and including the Issue Date to but excluding the earlier of:

- (a) the date designated as such by the Investment Manager, subject to the Effective Date Determination Requirements having been satisfied; and

(b) 30 June 2017 (or, if such day is not a Business Day, the next following Business Day),

(such earlier date, the "**Effective Date**" and, such period, the "**Subsequent Investment Period**"), the Issuer or the Investment Manager on its behalf intends to purchase the remainder of the Portfolio of Collateral Debt Obligations, subject to the Eligibility Criteria and certain other restrictions.

Portfolio Acquisition and Disposition Requirements

The Issuer will not acquire (whether by purchase or substitution) or dispose of a Collateral Debt Obligation, a Collateral Enhancement Obligation, an Exchanged Security or an Eligible Investment unless the Portfolio Acquisition and Disposition Requirements are satisfied which includes a requirement that a Collateral Debt Obligation, a Collateral Enhancement Obligation, an Exchanged Security or an Eligible Investment is not being acquired or disposed of for the primary purpose of recognising gains or decreasing losses resulting from market value changes; *provided* that, on any date, subject to the satisfaction as of such date of (x) the Regulatory Change Condition (which applies if the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the U.S. Securities and Exchange Commission (the "**SEC**") or its staff) or (y) the Opt Out Condition, the Issuer (or the Investment Manager on its behalf) may elect (by written notice from the Issuer (or the Investment Manager, acting on behalf of the Issuer) to the Collateral Administrator and the Trustee) not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act in accordance with this paragraph, in which case, at all times thereafter, there will be no Portfolio Acquisition and Disposition Requirements and all references to such requirements in the Transaction Documents shall no longer be in effect.

Notwithstanding any other provisions in the Transaction Documents, unless and until the Issuer (or the Investment Manager, acting on behalf of the Issuer) is no longer able to rely on, or elects not to rely on, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer will be subject to the requirements of Rule 3a-7, which provide that any issuer who is engaged in the business of purchasing, or otherwise acquiring and holding Eligible Assets (and in activities related or incidental thereto), and who does not issue redeemable securities will not be deemed to be an investment company for purposes of the Investment

Company Act; provided that the conditions specified under Rule 3a-7 (including, among other things, the Portfolio Acquisition and Disposition Requirements) are met.

If the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the SEC or its staff, the Investment Manager will be required to satisfy the Regulatory Change Condition (the "**Regulatory Change Condition**"). The Regulatory Change Condition will be satisfied on any date as of which either of the following conditions is satisfied: (i) the Investment Manager has caused the Issuer to amend or supplement the applicable Transaction Documents, in accordance with the terms thereof, in a manner sufficient to permit the Issuer to rely on an exemption or exclusion from registration under the Investment Company Act other than Section 3(c)(1) or 3(c)(7) thereunder, each such amendment or supplement is effective as of such date and the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer is in compliance with such exemption or exclusion, or (ii) solely in the event that clause (i) is unable to be satisfied, the Investment Manager has used commercially reasonable efforts consistent with the trading requirements and standard of care under the Investment Management Agreement and taking into account the Issuer's obligations under Rated Notes, to sell each asset held by the Issuer that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule.

If the Issuer (or the Investment Manager, acting on behalf of the Issuer) ceases to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule.

The Issuer will also obtain Rating Agency Confirmation prior to entering into any hedging arrangements after the Issue Date unless it is in a form in respect of which the Issuer (or the Investment Manager acting on behalf of the Issuer) has previously received approval from each Rating Agency. See "*Hedging Arrangements*".

Reinvestment in Collateral Debt Obligations

Subject to the limits described in the Priorities of Payments and Principal Proceeds available from time to time, the Investment Manager (on behalf of the Issuer) may, at its discretion, use reasonable endeavours to purchase Substitute Collateral Debt Obligations meeting the Eligibility Criteria, the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) and in compliance with the Reinvestment Criteria during the Reinvestment Period.

Following expiry of the Reinvestment Period, only Sale Proceeds from the sale of Credit Impaired Obligations, Credit Improved Obligations and Unscheduled Principal Proceeds received after the Reinvestment Period may be reinvested by the Issuer or the Investment Manager, on behalf of the Issuer, in Substitute Collateral Debt Obligations meeting the Eligibility Criteria, the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) and in compliance with the Reinvestment Criteria. See "*The Portfolio — Sale of Collateral Debt Obligations*" and "*The Portfolio - Reinvestment of Collateral Debt Obligations*".

Eligibility Criteria

In order to qualify as a Collateral Debt Obligation, an obligation must satisfy certain specified Eligibility Criteria. Each obligation shall only be required to satisfy the Eligibility Criteria at the time the Issuer (or the Investment Manager, acting on behalf of the Issuer) enters into a binding commitment to purchase such obligation, save for an Issue Date Collateral Debt Obligation which must also satisfy the Eligibility Criteria on the Issue Date and Restructured Obligations which must satisfy the Restructured Obligation Criteria as at the applicable Restructuring Date. See "*The Portfolio — Eligibility Criteria*".

Notwithstanding any other provisions in the Transaction Documents, with respect to any sale, acquisition or substitution of any Collateral Debt Obligation, the Investment Manager shall satisfy the Portfolio Acquisition and Disposition Requirements until such time, if any, as the Issuer (or the Investment Manager, acting on behalf of the Issuer) is no longer able to rely on, or elects not to rely on, Rule 3a-7 for its exclusion from registration under the Investment Company Act, in which case, at all times thereafter, there will be no Portfolio Acquisition and Disposition Requirements and all references thereto in the Transaction Documents shall no longer be in effect.

If the Issuer (or the Investment Manager, acting on behalf of the Issuer) ceases to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S.

nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule.

Restructured Obligations

In order for a Collateral Debt Obligation which is the subject of a restructuring to qualify as a Restructured Obligation, such Collateral Debt Obligation must satisfy the Restructured Obligation Criteria as at the applicable Restructuring Date.

Beneficial interests in a Regulation S Global Certificate may at any time be held only through, and transfers thereof will only be effected through, records maintained by Euroclear or Clearstream, Luxembourg. See "*Form of the Notes*" and "*Book Entry Clearance Procedures*". Interests in any Regulation S Note may not at any time be held by any U.S. person or U.S. Resident.

Furthermore, interests in any Regulation S Note may not be exchanged for interests in a Rule 144A Note or otherwise sold or transferred to a Risk Retention U.S. Person at any time during the U.S. Risk Retention Restricted Period.

The Rule 144A Notes of each Class (other than, in certain circumstances as described below, Class E Notes, the Class F Notes and Subordinated Notes) will be represented on issue by one or more Rule 144A Global Certificates in fully registered form, without interest coupons or principal receipts deposited on or about the Issue Date with, and registered in the name of, a nominee of a common depository for Euroclear and Clearstream, Luxembourg. Beneficial interests in a Rule 144A Global Certificate may at any time only be held through, and transfers thereof will only be effected through, records maintained by Euroclear or Clearstream, Luxembourg.

The Global Certificates will bear a legend and such Global Certificates, or any interest therein, may not be transferred except in compliance with the transfer restrictions set out in such legend. See "*Transfer Restrictions*".

No beneficial interest in a Rule 144A Global Certificate may be transferred to a person who takes delivery thereof through a Regulation S Global Certificate unless the transferor provides a Transfer Agent with a written certification substantially in the form set out in the Trust Deed regarding compliance with certain of such transfer restrictions. Any transfer of a beneficial interest in a Regulation S Global Certificate to a person who takes delivery through an interest in a Rule 144A Global Certificate is also subject to certification requirements substantially in the form set out in the Trust Deed and each purchaser thereof shall be deemed to represent that such purchaser is a QP. In addition, interests in any of the Regulation S Notes may not at any time be held by any U.S. person or U.S. Resident. See "*Form of the Notes*" and "*Book Entry Clearance Procedures*".

Except in the limited circumstances described herein, Notes in definitive, certificated, fully registered form ("**Definitive Certificates**") will not be issued in exchange for beneficial interests in either the Regulation S Global Certificates or the Rule 144A Global Certificates (other than, in certain circumstances as described below, with respect to the Class E Notes, the Class F Notes and the Subordinated Notes). See "*Form of the Notes - Exchange for Definitive Certificates*".

A transferee of a Class E Note, a Class F Note or a Subordinated Note in the form of a Rule 144A Global Certificate or a Regulation S Global Certificate will be deemed to represent (among other things) that it is not and is

not acting on behalf of (and for so long as it holds such Note or interest therein, will not be and will not be acting on behalf of) a Benefit Plan Investor or a Controlling Person. If a transferee is unable to make such deemed representation, such transferee may not acquire such Class E Note, Class F Note or Subordinated Note, as applicable unless such transferee: (i) obtains the written consent of the Issuer; (ii) provides an ERISA certificate to a Transfer Agent and the Issuer as to its status as a Benefit Plan Investor or Controlling Person (in or substantially in the form of Annex A (*Form of ERISA Certificate*)); and (iii) holds such Class E Note, Class F Note or Subordinated Note, as applicable, in the form of a Definitive Certificate.

Transfers of interests in the Notes are subject to certain restrictions and must be made in accordance with the procedures set forth in the Trust Deed. See "*Form of the Notes*", "*Book Entry Clearance Procedures*" and "*Transfer Restrictions*". Each purchaser of Notes in making its purchase will be required to make, or will be deemed to have made, certain acknowledgements, representations and agreements. See "*Transfer Restrictions*". The transfer of Notes in breach of certain of such representations and agreements will result in affected Notes becoming subject to certain forced transfer provisions. See Condition 2(h) (*Forced Transfer of Rule 144A Notes*) and Condition 2(k) (*Forced Transfer following breach of U.S. Risk Retention Rules U.S. Person requirements*).

Class X Notes and Class A-2 Notes

The Class X Notes and the Class A-2 Notes shall not carry any rights to vote in respect of, or be counted for the purposes of determining a quorum and the result of any votes in respect of any IM Removal Resolutions or any IM Replacement Resolutions but shall carry a right to vote on and be counted in respect of all other matters in respect of which the Class A-1 Notes have a right to vote and be counted.

Governing Law

The Notes, the Trust Deed, the Investment Management Agreement, the Agency Agreement, the Subscription Agreement and all other Transaction Documents (save for the Corporate Services Agreement and the Share Charge (which are governed by Irish law)) will be governed by English law.

Listing

This Prospectus has been approved by the Central Bank, as competent authority under the Prospectus Directive. The Central Bank has approved this Prospectus as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive. Such approval relates only to the Refinancing Notes which are to be admitted to trading on a regulated market for the purposes of Directive 2004/39/EC

and/or which are to be offered to the public in any Member State of the European Economic Area. Application has been made to the Irish Stock Exchange for the Refinancing Notes to be admitted to the Official List of the Irish Stock Exchange and trading on its regulated market. See "*General Information*".

Tax Status

See "*Tax Considerations*".

Certain ERISA Considerations

See "*Certain ERISA Considerations*".

Withholding Tax

No gross up of any payments to the Noteholders is required of the Issuer in respect of amounts deducted from or withheld for or on account of tax in relation to the Notes. See Condition 9 (*Taxation*).

Forced sale and withholding pursuant to FATCA

To comply with FATCA, the Issuer may require each Noteholder to provide certifications and identifying information about itself and certain of its owners. The Issuer may force the sale of a Noteholder's Notes in order to achieve FATCA Compliance, including Notes held by a Noteholder that fails to provide the required information or if the Issuer otherwise determines that such Noteholder's direct or indirect acquisition, holding or transfer of an interest in such Notes would cause the Issuer to be unable to achieve FATCA Compliance (and such sale could be for less than its then fair market value). In addition, the failure to provide such information, or the failure of certain non-U.S. financial institutions to comply with FATCA, may compel the Issuer to withhold on payments to such holders (and the Issuer will not pay any additional amounts with respect to such withholding).

Additional Issuances

Subject to certain conditions being met (including the prior written consent of the Investment Manager acting in its sole discretion), additional Notes of all existing Classes (other than the Class X Notes) may be issued and sold. See Condition 17 (*Additional Issuances*).

Noteholders should be aware that additional Notes that are treated for non-tax purposes as a single series with the original Notes may be treated as a separate series for U.S. federal income tax purposes. In such case, the new Notes may be considered to have been issued with original issue discount, or may not have the same U.S. federal tax characterisation as indebtedness or equity. To ensure that non-fungible additional Notes are distinguishable from the original Notes of the same Class, the Issuer is required to cause a separate ISIN to be issued in respect of additional Notes, unless the Notes of any Class and such additional notes of the same Class of Notes are fungible for U.S. federal

income tax purposes.

**Retention Holder and the EU
Retention Requirements**

The Retention Holder will represent and undertake to hold the Retention on the terms set out in the Risk Retention Letter.

See further "*Risk Factors - Risk Retention in Europe*", "*Risk Factors - Restrictions on the Discretion of the Investment Manager in Order to Comply with European Risk Retention*" and "*The Retention Holder and the EU Retention Requirements*".

**Retention Holder and U.S. Credit
Risk Retention Rules**

The Investment Manager has informed the Issuer and the Initial Purchaser that it does not intend to retain a risk retention interest contemplated by the U.S. Risk Retention Rules in connection with the refinancing transaction described in this Prospectus or the Refinancing Notes in reliance on the Foreign Safe Harbor. See "*U.S. Risk Retention*".

RISK FACTORS

An investment in the Notes of any Class involves certain risks, including risks relating to the Collateral securing such Notes and risks relating to the structure and rights of such Notes and the related arrangements. Prospective investors should carefully consider the following factors, in addition to the matters set forth elsewhere in this Prospectus, prior to investing in any Notes. Terms not defined in this section and not otherwise defined above have the meanings set out in Condition 1 (Definitions) of the "Terms and Conditions of the Notes".

General

General

The Issuer has invested in loans and other financial assets and it is intended that the Issuer will continue to invest in loans and other financial assets, together with bonds, with certain risk characteristics as described below and subject to the investment policies, restrictions and guidelines described in "*The Portfolio*". There can be no assurance that the Issuer's investments will be successful, that its investment objectives will be achieved, that the Noteholders will receive the full amounts payable by the Issuer under the Notes or that they will receive any return on their investment in the Notes. Prospective investors are therefore advised to review this entire Prospectus carefully and should consider, among other things, the risk factors set out in this section before deciding whether to invest in the Notes. Except as is otherwise stated below, such risk factors are generally applicable to all Classes of Notes, although the degree of risk associated with each Class of Notes will vary in accordance with the position of such Class of Notes in the Priorities of Payments. See Condition 3(c) (*Priorities of Payments*). In particular, payments in respect of the Class X Notes and the Class A Notes are generally higher in the Priorities of Payments than those of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes. None of the Initial Purchaser or the Trustee undertakes to review the financial condition or affairs of the Issuer or the Investment Manager during the life of the arrangements contemplated by this Prospectus or advise any investor or potential investor in the Notes of any information coming to the attention of the Initial Purchaser or the Trustee which is not included in this Prospectus.

Prior activities of the Issuer

The Issuer was incorporated on 16 May 2014 under the name of Avoca CLO XII Limited. On 7 September 2016, the Issuer was reregistered as a "designated activity company" under the Companies Act 2014 (as amended) of Ireland, with the name Avoca CLO XII Designated Activity Company. On the Original Issue Date, the Issuer issued the Original Notes secured by various assets owned by the Issuer.

The Issuer provides limited information about its past operating history, investment performance and other matters relating to its operations. The Issuer commenced operations under the Trust Deed on the Original Issue Date. While the most recent Monthly Report (as defined in the Trust Deed) prior to the Refinancing Date with respect to the Collateral Debt Obligations is included herewith as Annex B and is expressly incorporated herein as an integral part of this Prospectus, such information has not been audited or otherwise reviewed by any accounting firm.

The information provided in the Monthly Reports, including the most recent Monthly Report is limited and does not provide a full description of all Collateral Debt Obligations previously held or sold by the Issuer, nor the gains or losses associated with purchases or sales of Collateral Debt Obligations, nor the levels of compliance with the Coverage Tests and Collateral Quality Tests during periods prior to the periods covered by such Monthly Report. Each Monthly Report contains information as of the dates specified therein and none of the Monthly Reports are calculated as of the date of this Prospectus. As

such, the information in the most recent Monthly Report may no longer reflect the characteristics of the Collateral Debt Obligations as of the date of this Prospectus or on or after the Refinancing Date.

The composition of the Collateral Debt Obligations will change over time as a result of (i) scheduled and unscheduled principal payments on the Collateral Debt Obligations, (ii) sales of Collateral Debt Obligations and reinvestment of Sale Proceeds and other Principal Proceeds and (iii) other factors, subject to the limitations described in the Conditions.

No information is provided in this Prospectus regarding the Issuer's investment performance and portfolio except as set forth in the most recent Monthly Report in Annex B and no information is provided in this Prospectus regarding any other aspect of the Issuer's operations. While the Issuer believes that it has complied with the requirements of the Trust Deed, no assurance can be given that neither the Issuer nor the Investment Manager has unintentionally failed to comply with one or more of their respective obligations under the Trust Deed or the Investment Management Agreement, nor that any such failure will not have a material adverse effect on holders in the future.

Suitability

Prospective purchasers of the Notes of any Class should ensure that they understand the nature of such Notes and the extent of their exposure to risk, that they have sufficient knowledge, experience and access to professional advisers to make their own legal, tax, regulatory, accounting and financial evaluation of the merits and risks of investment in such Notes and that they consider the suitability of such Notes as an investment in light of their own circumstances and financial condition and that of any accounts for which they are acting.

Limited Resources of Funds to Pay Expenses of the Issuer

The funds available to the Issuer to pay its expenses on any Payment Date are limited as provided in the Priorities of Payments. If such funds are not sufficient to pay the expenses incurred by the Issuer, the ability of the Issuer to operate effectively may be impaired, and it may not be able to defend or prosecute legal proceedings brought against it or which it might otherwise bring to protect its interests or be able to pay the expenses of legal proceedings against persons it has indemnified.

Business and Regulatory Risks for Vehicles with Investment Strategies such as the Issuer's

Legal, tax and regulatory changes could occur over the course of the life of the Notes that may adversely affect the Issuer. The regulatory environment for vehicles of the nature of the Issuer is evolving, and changes in regulation may adversely affect the value of investments held by the Issuer and the ability of the Issuer to obtain the leverage it might otherwise obtain or to pursue its investment and trading strategies. In addition, the securities and derivatives markets are subject to comprehensive statutes, regulations and margin requirements. Certain regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of derivatives transactions and vehicles that engage in such transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the Issuer could be substantial and adverse.

Events in the CLO and Leveraged Finance Markets

European financial markets have experienced volatility and have been adversely affected by concerns over economic contraction in certain EU member states ("**Member States**"), rising government debt levels, credit rating downgrades and risk of default or restructuring of government debt. These events could cause bond yields and credit spreads to increase.

Many European economies continue to suffer from high rates of unemployment. This economic climate may have an adverse effect on the ability of consumers and businesses to repay or refinance their existing debt.

As discussed further in *"Euro and Euro Zone Risk"* below, it is possible that countries that have adopted the Euro could return to a national currency. The effect on a national economy as a result of its leaving the Euro is impossible to predict. The exit of one or more countries from the Euro zone could have a destabilising effect on all European economies and possibly the global economy as well.

Significant risks for the Issuer and investors exist as a result of current economic conditions. These risks include, among others, (i) the likelihood that the Issuer will find it more difficult to sell any of its assets or to purchase new assets in the secondary market, (ii) the possibility that, on or after the Issue Date, the price at which assets can be sold by the Issuer will have deteriorated from their effective purchase price and (iii) the illiquidity of the Notes. These additional risks may affect the returns on the Notes to investors and/or the ability of investors to realise their investment in the Notes prior to their Maturity Date, if at all. In addition, the primary market for a number of financial products including leveraged loans has not fully recovered from the effects of the global credit crisis. As well as reducing opportunities for the Issuer to purchase assets in the primary market, this is likely to increase the refinancing risk in respect of maturing assets. Although there have recently been signs that the primary market for certain financial products is recovering, particularly in the United States of America, the impact of the economic crisis on the primary market may adversely affect the flexibility of the Investment Manager to invest and, ultimately, reduce the returns on the Notes to investors.

Difficult macro-economic conditions may adversely affect the rating, performance and the realisation value of the Collateral. Default rates on loans and other investments may continue to fluctuate and accordingly the performance of many collateralised loan obligation ("**CLO**") transactions and other types of investment funds may suffer as a result. It is also possible that the Collateral will experience higher default rates than anticipated and that performance will suffer.

The ability of the Issuer to make payments on the Notes can depend on the general economic climate and the state of the global economy. The business, financial condition or results of operations of the Obligors of the Collateral Debt Obligations may be adversely affected by a deterioration of economic and business conditions. To the extent that economic and business conditions deteriorate or fail to improve, non-performing assets are likely to increase, and the value and collectability of the Collateral Debt Obligations are likely to decrease. A decrease in market value of the Collateral Debt Obligations would also adversely affect the Sale Proceeds that could be obtained upon the sale of the Collateral Debt Obligations and could ultimately affect the ability of the Issuer to pay in full or redeem the Rated Notes, as well as the ability to make any distributions in respect of the Subordinated Notes.

Many financial institutions including banks continue to suffer from capitalisation issues. The bankruptcy or insolvency of a major financial institution may have an adverse effect on the Issuer, particularly if such financial institution is a grantor of a participation in an asset or is a hedge counterparty to a swap or hedge involving the Issuer, or a counterparty to a buy or sell trade that has not settled with respect to an asset. The bankruptcy or insolvency of a financial institution may result in the disruption of payments to the Issuer. In addition, the bankruptcy or insolvency of one or more financial institutions may trigger crises in the global credit markets and overall economy which could have a significant adverse effect on the Issuer, the Collateral and the Notes.

The global credit crisis and its consequences together with the perceived failure of the preceding financial regulatory regime, continue to drive legislation and regulators towards a restrictive regulatory environment, including the implementation of further regulation which affects financial institutions, markets, instruments and the bond market. Such additional rules and regulations could, among other things, adversely affect Noteholders as well as the flexibility of the Investment Manager in managing and administering the Collateral. Increasing capital requirements and changing regulations may also result in some financial institutions exiting, curtailing or otherwise adjusting some trading, hedging or investment activities which may have effects on the liquidity of investments such as the Notes as well as the Collateral.

While it is possible that current conditions may improve for certain sectors of the global economy, there can be no assurance that the CLO, leveraged finance or structured finance markets will recover from an economic downturn at the same time or to the same degree as such other recovering sectors.

Euro and Euro Zone Risk

Investors should carefully consider how changes to the Euro zone may affect their investment in the Notes. Since the global economic crisis, the deterioration of the sovereign debt of several countries, together with the risk of contagion to other, more stable, countries, has continued to pose risks. This situation has also raised uncertainties regarding the stability and overall standing of the European Economic and Monetary Union and may result in changes to the composition of the Euro zone.

As a confidence building measure, the European Commission created the European Financial Stability Facility (the "**EFSF**") and the European Financial Stability Mechanism (the "**EFSM**") to provide funding to Euro zone countries in financial difficulties that seek such support. Subsequently, the European Council agreed that Euro zone countries would establish a permanent stability mechanism, the European Stability Mechanism (the "**ESM**"), to assume the role of the EFSF and the EFSM in providing external financial assistance to Euro zone countries which has been active since July 2013.

Despite these measures, concerns persist regarding the growing risk that other Euro zone countries could be subject to an increase in borrowing costs and could face an economic crisis similar to that of Cyprus, Greece, Italy, Ireland, Spain and Portugal, together with the risk that some countries could leave the Euro zone (either voluntarily or involuntarily), and that the impact of these events on Europe and the global financial system could be severe which could have a negative impact on the Collateral.

Furthermore, concerns that the Euro zone sovereign debt crisis could worsen may lead to the reintroduction of national currencies in one or more Euro zone countries or, in more extreme circumstances, the possible dissolution of the Euro entirely. The departure or risk of departure from the Euro by one or more Euro zone countries and/or the abandonment of the Euro as a currency could have major negative effects on the Collateral (including the risks of currency losses arising out of redenomination and related haircuts on any affected assets), the Issuer and the Notes. Should the Euro dissolve entirely, the legal and contractual consequences for holders of Euro-denominated obligations would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Notes.

UK Referendum on Membership of the European Union

On 23 June 2016 the United Kingdom (the "**UK**") held an advisory referendum with respect to its continued membership of the EU (the "**Referendum**"). The result of the Referendum was a vote in favour of leaving the EU. Whilst the result of the Referendum itself is clear, the next steps of the UK executive and UK Parliament and the reaction of the other Member States to these steps is not. In particular, the format of the negotiation, negotiation positions of the participants and timeframe are uncertain, with any limited public statements subject to change.

Article 50 of the Treaty on European Union ("**Article 50**") provides that a Member State which decides to withdraw from the EU is required to notify the European Council of its intention to do so. If notice is given under Article 50 by a Member State, the EU will negotiate and conclude an agreement with such Member State, setting out the arrangements for its withdrawal. The UK government invoked Article 50 by notice to the European Council given on 29 March 2017. Until the terms of the UK's exit from the European Union are clearer, it is not possible to determine the impact that the Referendum, the UK's departure from the European Union and/or any related matters may have on the business of the Issuer (including the performance of the Collateral Debt Obligations), the Investment Manager, any one or more of the other parties to the Transaction Documents or any Obligor, or on the regulatory position of any such entity or of the transactions contemplated by the Transaction Documents under European Union regulation or more generally. As such, no assurance can be given that such matters would not

adversely affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or the liquidity of the Notes in the secondary market. There can also be no assurance that the terms of the UK's exit from the EU will include arrangements for the continuation of the existing passporting regime or mutual access rights to market infrastructure and recognition of insolvency, bank recovery and resolution regimes. Such uncertainty could adversely impact the Issuer and, in particular, the ability of third parties to provide services to the Issuer, and could be materially detrimental to holders of the Notes.

Applicability of EU law in the UK

It is at present unclear what type of relationship between the UK and the EU will be established, or at what date (whether by the time when, or after, the UK ceases to be a member of the EU), or what would be the content of such a relationship. It is possible that a new relationship would preserve the applicability of certain EU rules (or equivalent rules) in the UK. At this time it is not possible to state with any certainty to what extent that might be so.

Upon any withdrawal from the EU by the UK, and subject to agreement on (and the terms of) any future EU-UK relationship, EU laws (other than those EU laws transposed into English law (see below)) will cease to apply within the UK pursuant to the terms and timing of a future withdrawal agreement. This would be achieved by the UK ceasing to be party to the Treaty on European Union and the Treaty on the Functioning of the European Union, and by the parallel repeal of the European Communities Act 1972. The UK may therefore cease to be a member of the EU if a notice is served under Article 50 and a period of two years expires without (i) conclusion of a withdrawal agreement or (ii) the European Council agrees with the UK to extend such two year period. At this time it is not possible to state with any certainty what might be the terms and effective date of any withdrawal agreement or the date when such a two year period (or any extension thereof) would expire. Until such date, EU law will remain in force in the UK.

Upon any withdrawal from the EU by the UK, and subject to agreement on (and the terms of) any future UK-EU relationship, EU law will cease to apply in the UK. However, many EU laws have been transposed into English law and these transposed laws will continue to apply until such time that they are repealed, replaced or amended. Over the years, English law has been devised to function in conjunction with EU law (in particular, laws relating to financial markets, financial services, prudential and conduct regulation of financial institutions, financial collateral, settlement finality and market infrastructure). As a result, depending on the terms of the UK's exit from the EU, substantial amendments to English law may occur. Consequently, English law may change and it is impossible at this time to predict the consequences on the Portfolio or the Issuer's business, financial condition, results of operations or prospects. Such changes could be materially detrimental to Noteholders.

Regulatory Risk

Currently, under the EU single market directives, mutual access rights to markets and market infrastructure exist across the EU and the mutual recognition of insolvency, bank recovery and resolution regimes applies. In addition, regulated entities licensed or authorised in one EEA jurisdiction may operate on a cross-border basis in other EEA countries without the need for a separate licence or authorisation. There is uncertainty as to how, following a UK exit from the EU or the EEA (whatever the form thereof), the existing passporting regime will apply (if at all). Depending on the terms of the UK's exit and the terms of any replacement relationship, it is likely that, UK regulated entities may, on the UK's withdrawal from the EU, lose the right to passport their services to EEA countries, and EEA entities may lose the right to reciprocal passporting into the UK. Also, UK entities may no longer have access rights to market infrastructure across the EU and the recognition of insolvency, bank recovery and resolution regimes across the EU may no longer be mutual.

There can be no assurance that the terms of the UK's exit from the EU will include arrangements for the continuation of the existing passporting regime or mutual access rights to market infrastructure and

recognition of insolvency, bank recovery and resolution regimes. Such uncertainty could adversely impact the Issuer and, in particular, the ability of third parties to provide services to the Issuer, and could be materially detrimental to Noteholders.

As the Investment Manager is incorporated and regulated in Ireland, its ability to provide investment management services to the Issuer in reliance upon the passporting of relevant regulated services within the EU on a cross-border basis provided for under MiFID and to act as Retention Holder by holding the retention as "sponsor" in accordance with the EU Retention Requirements will not be affected by the UK's exit from the EU and/or EEA.

Market Risk

Following the results of the Referendum, the financial markets have experienced volatility and disruption. This volatility and disruption may continue or increase, and investors should consider the effect thereof on the market for securities such as the Notes and on the ability of Obligor to meet their obligations under the Collateral Debt Obligations.

Investors should be aware that the result of the Referendum and any subsequent negotiations, notifications, withdrawal and changes to legislation may introduce potentially significant new uncertainties and instabilities in the financial markets. These uncertainties and instabilities could have an adverse impact on the business, financial condition, results of operations and prospects of the Issuer, the Obligor, the Portfolio, the Investment Manager and the other parties to the transaction and could therefore also be materially detrimental to Noteholders.

Exposure to Counterparties

The Issuer will be exposed to a number of counterparties (including in relation to any Assignments, Participations and Hedge Transactions and also each of the Agents) throughout the life of the Notes. Investors should note that if the UK does leave the EU, such counterparties may be unable to perform their obligations due to changes in regulation, including the loss of, or changes to, existing regulatory rights to do cross-border business in the EU or the costs of such transactions with such counterparties may increase. In addition, counterparties may be adversely affected by rating actions or volatile and illiquid markets (including currency markets and bank funding markets) arising from the result of the Referendum, therefore increasing the risk that such counterparties may become unable to fulfil their obligations. Such inability could adversely impact the Issuer and could be materially detrimental to Noteholders. For further information on counterparties, see "*Counterparty Risk*" below.

Ratings actions

Following the result of the Referendum, S&P and Fitch have each downgraded the UK's sovereign credit rating and each of S&P, Fitch and Moody's has placed such rating on negative outlook, suggesting possible further negative rating action.

The credit rating of a country affects the ratings of entities operating in its territory, and in particular the ratings of financial institutions. Accordingly, the recent downgrades of the UK's sovereign credit rating and any further downgrade action may trigger downgrades in respect of parties to the Transaction Documents. If a counterparty no longer satisfies the relevant Rating Requirement, the Transaction Documents may require that such counterparty be replaced with an entity that satisfies the relevant Rating Requirement. If rating downgrades are widespread, it may become difficult or impossible to replace counterparties with entities that satisfy the relevant Rating Requirement.

While the extent and impact of these issues are unknown, investors should be aware that they could have an adverse impact on the Issuer, its service providers, the payment of interest and repayment of principal on the Notes and therefore, the Noteholders. For further information, see "*Counterparty Risk*" below.

Currency exchange rates and exchange controls

Since the result of the Referendum there has been increased volatility in the currency exchange rates. Investors should note that all payments on the Notes will be denominated in Euros. Investors who are investing in the Notes, but who consider their investment profile and return in another currency may incur a number of risks including those relating to changes in exchange rates (which may be significant). An appreciation in the value of the investor's currency relative to the Euro would result in a decrease of (1) the investor's currency-equivalent yield on the Notes, (2) the investor's currency-equivalent value of the principal payable on the Notes and (3) the investor's currency-equivalent market value of the Notes.

Regulatory Initiatives

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of banks, financial institutions, "shadow banking entities" and the asset-backed securities industry. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Initial Purchaser, the Investment Manager, the Trustee nor any of their Affiliates makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment in the Notes on the Issue Date or at any time in the future.

This uncertainty is further compounded by the numerous regulatory efforts underway in Europe, the U.S. and globally. Certain of these efforts overlap. In addition, even where these regulatory efforts overlap, they generally have not been undertaken on a coordinated basis.

Risk Retention in Europe

On 16 April 2013, the European Parliament adopted a new directive and a regulation, Regulation (EU) No. 575/2013 (the "**CRR**"), which was published in the Official Journal on 27 June 2013 and took effect on 1 January 2014. Articles 404-410 (inclusive) of the CRR ("**Article 404**") replace Article 122a of the Capital Requirements Directive in its entirety. Article 404 applies to (a) credit institutions established in a Member State of the European Economic Area ("**EEA**") and consolidated group affiliates thereof (including those that are based in the United States) and (b) investment firms (each such credit institution and investment firm, an "**Affected 404 Investor**") that invest in or have an exposure to credit risk in securitisations. Article 404 imposes an increased capital charge on a securitisation position acquired by an Affected 404 Investor unless, among other conditions, (a) the originator, sponsor or original lender for the securitisation has explicitly disclosed that it will retain on an ongoing basis, a material net economic interest of not less than five per cent., of the nominal value of the securitised exposures or of the tranches sold to investors, and (b) the Affected 404 Investor is able to demonstrate that it has undertaken certain due diligence in respect of its securitisation position and the underlying exposures and that procedures are established for monitoring the performance of the underlying exposures on an on-going basis. On 13 June 2014, Delegated Regulation (EU) No. 625/2014 of 13 March 2014 supplementing the CRR (the "**Final Technical Standards**") was published in the Official Journal of the European Union. The Final Technical Standards provide greater detail on the interpretation and implementation of Article 404 and came into force on 3 July 2014.

Investors should note that the European Banking Authority ("**EBA**") published a report on 22 December 2014 in which it highlighted some concerns about the way certain structures currently fulfil the CRR Retention Requirements. Further to the EBA Report, on 30 September 2015 the European Commission published its draft legislative proposal for a new European securitisation regulation (the "**Draft STS Regulation**") setting out a number of proposed changes to the EU Retention Requirements. The European Commission also published its draft legislative proposal to amend the

CRR on 30 September 2015 (the "**Draft CRR Amendment Regulation**"). A compromise version of the Draft STS Regulation and Draft CRR Amendment Regulation was published by the Council of Ministers in November 2015 and the European Parliament is currently considering the proposals. Both the Draft STS Regulation and the Draft CRR Amendment Regulation will need to be considered, finalised and adopted by the European Parliament and Council of Ministers and are not expected to enter into force until mid-2017 at the earliest. Investors should be aware that the Draft STS Regulation and the Draft CRR Amendment Regulation may enter into force in a form that differs from the draft published on September 30, 2015. There can therefore be no assurances as to whether the transactions described herein will be affected by a change in law or regulation relating to the EU Retention Requirements, including as a result of any changes proposed in the Draft STS Regulation and the Draft CRR Amendment Regulation or recommended in future reports or reviews.

On 22 July 2013, directive 2011/61/EU on Alternative Investment Fund Managers ("**AIFMD**") became effective. Article 17 of the AIFMD required the EU Commission to adopt level 2 measures similar to those in Article 404, allowing EEA managers of alternative investment funds ("**AIFMs**") to invest in securitisations on behalf of the alternative investment funds they manage only if the originator, sponsor or original lender has explicitly disclosed that it will retain on an ongoing basis, a material net economic interest of not less than five per cent. of the nominal value of the securitised exposures or of the tranches sold to investors and also to undertake certain due diligence requirements. Commission Delegated Regulation 231/2013 (the "**AIFMD Level 2 Regulation**") included those level 2 measures. Though the requirements in the AIFMD Level 2 Regulation are similar to those which apply under Article 404, they are not identical. In particular, the AIFMD Level 2 Regulation requires AIFMs to ensure that the sponsor or originator of a securitisation meets certain underwriting and originating criteria in granting credit, and imposes more extensive due diligence requirements on AIFMs investing in securitisations than are imposed on Affected 404 Investors under Article 404. Furthermore, AIFMs who discover after the assumption of a securitisation exposure that the retained interest does not meet the requirements, or subsequently falls below five per cent. of the economic risk, are required to take such corrective action as is in the best interests of its investors. It remains to be seen how this last requirement is expected to be addressed by AIFMs should those circumstances arise. The requirements of the AIFMD Level 2 Regulation apply to new securitisations issued on or after 1 January 2011. It should be noted that the provisions described above will be repealed and replaced by the Draft STS Regulation when it comes into force (assuming it does so in the form currently proposed).

Requirements similar to the retention requirement in each of Article 404 and the AIFMD also apply to investments in securitisations by other types of EEA investors such as insurance and reinsurance undertakings (following the entry into force of Delegated Regulation (EU) No 2015/35 of 10 October 2014 supplementing Solvency II on 18 January 2015 (the "**Solvency II Level 2 Regulation**")) and (once the level 2 measures are adopted under Article 50a (as inserted by Article 63 of the AIFMD) of Directive 2009/65/EC on Undertakings for Collective Investment in Transferable Securities (the "**UCITS Directive**")) will also apply to investments in securitisations by funds which require authorisation under the UCITS Directive (all of which, together with AIFMs and Affected 404 Investors, are "**Affected Investors**"). Though many aspects of the detail and effect of such requirements remain unclear, the EU risk retention and due diligence requirements described above and any other changes to the regulation or regulatory treatment of securitisations or of the Notes for some or all investors may also negatively impact the regulatory position of individual holders and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market. It should be noted that the provisions described above will be repealed and replaced by the Draft STS Regulation when it comes into force (assuming it does so in the form currently proposed).

Affected Investors should therefore make themselves aware of the requirements of the applicable legislation governing retention and due diligence requirements for investing in securitisations (and any implementing rules in relation to a relevant jurisdiction) in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes. In doing so, Affected

Investors should also bear in mind that such requirements are open to interpretation under national law in individual European Union member states.

Each Affected Investor should consult with its own legal, accounting, regulatory and other advisors and/or its regulator to determine whether, and to what extent, the information set out herein in "*Restrictions on the Discretion of the Investment Manager in Order to Comply with European Risk Retention*" and "*The Retention Holder and the EU Retention Requirements*", information elsewhere in this Prospectus generally and in any investor report provided in relation to the transaction is sufficient for the purpose of satisfying such requirements. Affected Investors are required to independently assess and determine the sufficiency of such information. None of the Issuer, the Investment Manager, the Initial Purchaser, the Trustee, the Collateral Administrator, their respective Affiliates or any other Person makes any representation, warranty or guarantee that any such information is sufficient for such purposes or any other purpose or that the structure of the Notes and the transactions described herein are or will be compliant with the requirements of Article 404, the CRR, the AIFMD, Solvency II, the UCITS Directive or any other applicable legal regulatory or other requirements and no such Person shall have any liability to any prospective investor or any other Person with respect to any deficiency in such information or any failure of the transactions contemplated hereby to comply with or otherwise satisfy such requirements. If a regulator determines that the transaction did not comply or is no longer in compliance with Article 404, the CRR, the AIFMD, Solvency II, the UCITS Directive or any applicable legal, regulatory or other requirement, then if you are an Affected Investor you may be required by your regulator to set aside additional capital against your investment in the Notes or take other remedial measures in respect of your investment in the Notes.

With respect to the fulfilment by the Retention Holder of the European risk retention requirements, please refer to "*The Retention Holder and the EU Retention Requirements*" section of this Prospectus.

Restrictions on the Discretion of the Investment Manager in Order to Comply with European Risk Retention

The aim behind the relevant retention requirements described in "*Risk Retention in Europe*" above is that Affected Investors should only invest in securitisations where the originator, sponsor or original lender for the securitisation has explicitly disclosed that it will retain on an ongoing basis, a net economic interest of not less than five per cent. in the securitisation. Where the retainer opts to satisfy such requirements by holding the first loss tranche, the five per cent. is measured as the nominal value of the securitised exposures, calculated based on the Aggregate Collateral Balance. The Retention Holder has agreed to retain such an interest in the transaction by holding Subordinated Notes having a Principal Amount Outstanding being, at any time, an amount equal to no less than 5 per cent. of the Aggregate Collateral Balance.

Certain discretions of the Investment Manager acting on behalf of the Issuer are restricted where the exercise of the discretion would cause the retention holding described in "*The Retention Holder and the EU Retention Requirements*" section of this Prospectus to be (or to be likely to be) insufficient to comply with the EU Retention Requirements.

In particular, if, at any time, the deposit of Investment Gains into the Principal Account would, in the sole discretion of the Investment Manager cause (or would be likely to cause) a Retention Deficiency, such Investment Gains which would have been deposited into the Principal Account and designated for reinvestment or used to redeem the Notes in accordance with the Principal Proceeds Priority of Payments will instead be deposited into the Interest Account. Such Investment Gains will then be distributed as Interest Proceeds. In addition, the Investment Manager is not permitted to reinvest in Substitute Collateral Debt Obligations where a Retention Deficiency would occur as a direct result of, and immediately after giving effect to, such reinvestment or divert Interest Proceeds into the Principal Account to cause the Reinvestment Overcollateralisation Test to be met if such payment would cause a Retention Deficiency. As a result, the Investment Manager may be prevented from reinvesting

available proceeds in Collateral Debt Obligations in circumstances where such reinvestment would cause (or would be likely to cause) a Retention Deficiency and therefore the Aggregate Principal Balance of Collateral Debt Obligations securing the Notes may be less than what would have otherwise have been the case if such amounts had been reinvested in Collateral Debt Obligations.

Also, the Issuer may not issue further Notes without the Retention Holder (a) consenting to such issuance and (b) subscribing for sufficient Subordinated Notes such that its holding of such Notes equals at least 5 per cent. of the Aggregate Collateral Balance.

As a result of such restrictions, the Issuer, or the Investment Manager on its behalf, may be restricted from building or maintaining the par value of the Collateral in certain circumstances under which they would otherwise be able to do so, in order to comply with the provisions of the Conditions intended to achieve ongoing compliance with the applicable retention requirements.

EMIR

The European Market Infrastructure Regulation EU 648/2012 ("**EMIR**") entered into force on 16 August 2012. EMIR and the regulations made under it impose certain obligations on parties to OTC derivative contracts according to whether they are "financial counterparties" such as European investment firms, alternative investment funds, credit institutions and insurance companies, or other entities which are "non-financial counterparties".

"Financial counterparties" (as defined in EMIR) will, depending on the identity of their counterparty, be subject to a general obligation to clear through a duly authorised or recognised central counterparty (the "**clearing obligation**") all "eligible" OTC derivative contracts entered into with other counterparties subject to the clearing obligation. They must also report the details of all derivative contracts to a trade repository (the "**reporting obligation**"), and undertake certain risk-mitigation techniques in respect of OTC derivative contracts which are not cleared by a central counterparty such as timely confirmation of terms, portfolio reconciliation and compression and the implementation of dispute resolution procedures (the "**risk mitigation obligations**"). Non-cleared OTC derivatives entered into by financial counterparties must also be marked to market and collateral must be exchanged (the "**margin requirement**"). To the extent that the Issuer becomes a financial counterparty, this may lead to a termination of the Hedge Agreements.

"Non-financial counterparties" (as defined in EMIR) are exempted from the clearing obligation and certain additional risk mitigation obligations (such as the posting of collateral) provided the gross notional value of all derivative contracts entered into by the non-financial counterparty and other non-financial entities within its "group", excluding eligible hedging transactions, does not exceed certain thresholds (set per asset class of OTC derivatives). If the Issuer is considered to be a member of a "group" (as defined in EMIR) (which may, for example, potentially be the case if the Issuer is consolidated by a Noteholder as a result of such Noteholder's holding of a significant proportion of the Subordinated Notes) and if the aggregate notional value of OTC derivative contracts entered into by the Issuer and any non-financial entities within such group exceeds the applicable thresholds, the Issuer would be subject to the clearing obligation, or if the relevant contract is not a type required to be cleared, to the risk mitigation obligations, including the margin requirement. If the Issuer exceeds the applicable thresholds and its swaps become subject to mandatory clearing, this may also lead to a termination of the Hedge Agreements.

Key details in respect of the clearing obligation and the margin requirement and their applicability to certain classes of OTC derivative contracts are to be provided through corresponding regulatory technical standards. Whilst regulatory technical standards have been published in respect of certain classes of OTC derivative contracts, others are yet to be proposed.

Clearing obligation

The regulatory technical standards governing the mandatory clearing obligation for certain classes of OTC derivative contracts which entered into force on 21 December 2015 specify that the clearing obligation in respect of interest rate OTC derivative contracts that are (i) basis swaps and fixed-to-floating swaps denominated in euro, GBP, USD and Japanese Yen and (ii) forward rate agreements and overnight swaps denominated in euro, GBP and USD, in each case, became effective or will take effect on dates ranging from 21 June 2016 (for major market participants grouped under "Category 1") to 21 December 2018 (for non-financial counterparties that are not AIFs grouped under "Category 4").

Margin requirement

On 4 October 2016, the European Commission adopted regulatory technical standards on risk-mitigation techniques for OTC derivative contracts not cleared by a central clearing counterparty to the European Commission (the "**RTS**"). The RTS were published in the Official Journal on 15 December 2016 and entered into force on 4 January 2017.

The RTS detail the risk mitigation obligations and margin requirements in respect of non-cleared OTC derivatives as well as specify the criteria regarding intragroup exemptions and provide that the margin requirement will take effect on dates ranging, originally, from one month after the RTS enter into force (for certain entities with a non-cleared OTC derivative portfolio above €3 trillion) to 1 September 2020 (for certain entities with a non-cleared OTC derivative portfolio above €8 billion). The margin requirements apply to financial counterparties and non-financial counterparties above the clearing threshold and, depending on the counterparty, will require collection and posting of variation margin and, for the largest counterparties/groups, initial margin.

If the Issuer becomes subject to the clearing obligation or the margin requirement, it is unlikely that it would be able to comply with such requirements, which would adversely affect the Issuer's ability to enter into Hedge Transactions or significantly increase the cost thereof, negatively affecting the Issuer's ability to acquire Non-Euro Obligations and/or hedge its interest rate risk. As a result of such increased costs, additional regulatory requirements and limitations on the ability of the Issuer to hedge interest rate and currency risk, the amounts payable to Noteholders may be negatively affected as the Investment Manager may be excluded from being able to execute its investment strategy.

The Hedge Agreements may also contain early termination events which are based on the application of EMIR and which may allow the relevant Hedge Counterparty to terminate a Hedge Transaction upon the occurrence of an adverse EMIR-related event. The termination of a Hedge Transaction in these circumstances may result in a termination payment being payable by the Issuer. See "*Hedging Arrangements*".

The Conditions of the Notes allow the Issuer and oblige the Trustee without the consent of any of the Noteholders, to amend the Transaction Documents and/or the Conditions of the Notes to comply with the requirements of EMIR which may become applicable in future. The Trustee shall consent or sanction any such amendment without the consent of Noteholders if the Issuer certifies to the Trustee that such amendment is being made to comply with the requirements of EMIR.

Prospective investors should be aware that the regulatory changes arising from EMIR may in due course significantly increase the cost of entering into derivative contracts (including the potential for non-financial counterparties such as the Issuer to become subject to marking to market and collateral posting requirements in respect of non-cleared OTC derivatives such as Asset Swap Transactions and Interest Rate Hedge Transactions). These changes may adversely affect the Issuer's ability to enter into asset swaps and therefore the Issuer's ability to acquire Non-Euro Obligations and/or manage interest rate risk. As a result of such increased costs and/or additional regulatory requirements, investors may receive significantly less or no interest or return, as the case may be as the Investment Manager may not be able to execute its investment strategy as anticipated. Investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR in making any investment decision in respect of the Notes.

Prospective investors should also be aware that on 13 August 2015 ESMA published four reports on the functioning of EMIR and providing input and recommendations to the European Commission's official review of EMIR (in accordance with Article 85(1) thereof). ESMA's reports recommend a number of changes to the EMIR framework, including potentially significant changes to the clearing obligation and the process for classifying non-financial counterparties. The ESMA reports are expected to feed into the general report on EMIR that the European Commission shall prepare and submit to the European Parliament and the Council; however the extent to which ESMA's recommendations will be integrated into the European Commission's report and ultimately endorsed is not known at this time and cannot be predicted.

Alternative Investment Fund Managers Directive

The AIFMD became effective on 22 July 2013, and introduced authorisation and regulatory requirements for managers of AIFs. If the Issuer were to be considered to be an AIF within the meaning in the AIFMD, it would need to be managed by an AIFM. The Investment Manager is not authorised under the AIFMD but is authorised under the European Communities (Markets in Financial Instruments) Regulations 2007 (as amended) ("**MiFID**"). As the Investment Manager is not permitted to be authorised under the AIFMD and also to conduct certain regulated activities under MiFID, it will not be able to apply for an authorisation under the AIFMD unless it gives up its authorisation under MiFID (in which case it will not be able to qualify as a "sponsor" for purposes of the CRR (see "*Risk Retention in Europe*" above and "*The Retention Holder and the EU Retention Requirements*" below). If considered to be an AIF, the Issuer would also be classified as a "financial counterparty" under EMIR and may be required to comply with clearing obligations with respect to Hedge Transactions including obligations to post margin to any central clearing counterparty or market counterparty. See also "*EMIR*" above.

There is an exemption from the definition of AIF in the AIFMD for "securitisation special purpose entities" (the "**SSPE Exemption**"), defined by reference to securitisation within the meaning of Article 1(2) of Regulation (EC) No 24/2009 of the European Central Bank of 19 December 2008 (as amended and recast by Regulation (EC) No 1075/2013). The European Securities and Markets Authority ("**ESMA**") has not yet given any formal guidance on the application of the SSPE Exemption or whether a vehicle such as the Issuer would fall within it. However, the Central Bank has confirmed that, pending such further clarification from ESMA, "registered financial vehicle corporations" within the meaning of Article 1(2) of Regulation (EC) No 24/2009 of the European Central Bank (as amended and recast by Regulation (EC) No 1075/2013), such as the Issuer, do not need to seek authorisation as an AIF, or appoint, an AIFM unless the Central Bank issues further guidance advising them to do so.

If the SSPE Exemption does not apply and the Issuer is considered to be an AIF, the Investment Manager may not be able to continue to manage the Issuer's assets, or its ability to do so may be impaired. As a result, implementation of the AIFMD may affect the return investors receive from their investment.

If the Investment Manager cannot continue to manage the Issuer's assets, the Issuer may delegate the management of its assets to a duly licensed AIFM. Such an AIFM would need to comply with a number of requirements under the AIFMD, including the appointment of a depositary in respect of the Issuer's assets and compliance with certain reporting and disclosure obligations. Compliance with the AIFMD by any AIFM appointed by the Issuer will involve significant additional costs which again may affect the return investors receive from their investment.

The Conditions of the Notes require the Trustee, without the consent of any of the Noteholders, to concur with the Issuer in the making of modifications to the Transaction Documents and/or the Conditions of the Notes to comply with the requirements of the AIFMD which may become applicable at a future date.

U.S. Dodd-Frank Act

The Dodd-Frank Wall Street Reform and Consumer Protection Act (as amended, the "**Dodd-Frank Act**") was signed into law on 21 July 2010. The Dodd-Frank Act represents the most comprehensive change to financial regulation in the United States, and affects virtually every area of the capital markets. The Dodd-Frank Act imposes a new regulatory framework on the U.S. financial services industry and the consumer credit markets in general, and the enacted SEC rules thereunder significantly alter the manner in which asset-backed securities, including securities similar to the Notes, are issued and structured and increase the reporting obligations of the issuers of such securities. Given the broad scope and sweeping nature of these changes and the fact that additional such implementing rules and regulations may be enacted in the future, the potential impact of these actions on the Issuer, any of the Notes and any holders of Notes is unknown, and no assurance can be made that the impact of such changes would not have a material adverse effect on the prospects of the Issuer or the value or marketability of the Notes. In particular, if existing transactions are not exempted from any such new rules or regulations, compliance with such rules and regulations could impose significant costs on the Issuer and could have a material adverse effect on the Issuer and the holders of Notes. None of the Issuer, the Initial Purchaser, the Investment Manager, the Retention Holder, the Trustee, nor any of their Affiliates, makes any representation as to such matters.

U.S. Risk Retention

The federal interagency credit risk retention rules, codified at 17 C.F.R. Part 246 (the "**U.S. Risk Retention Rules**") and together with the EU Retention Requirements, the "**Retention Requirements**") require the "sponsor" of a "securitization transaction" to retain (either directly or through its "majority-owned affiliates") not less than 5 per cent. of the "credit risk" of "securitized assets" (as such terms are defined in the U.S. Risk Retention Rules). To this end, the "sponsor" may retain an "eligible vertical interest" or an "eligible horizontal residual interest" (as such terms are defined in the U.S. Risk Retention Rules), or any combination thereof. The U.S. Risk Retention Rules prohibit the "sponsor" or its "majority-owned affiliates," as applicable, from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the "credit risk" during the period of time that the U.S. Risk Retention Rules require that the credit risk be retained.

The Investment Manager does not intend to retain at least 5 per cent. of the credit risk of the assets collateralising the asset-backed securities, but has informed the Issuer and the Initial Purchaser that it intends to rely on the safe harbor for certain foreign-related securitisation transactions (the "**Foreign Safe Harbor**") set forth at 17 C.F.R. 246.20 and that it intends that the requirements of such exemption will be satisfied in connection with the issuance of the Refinancing Notes. To rely on this exemption from the U.S. Risk Retention Rules, a securitisation transaction must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitisation transaction are sold or transferred to U.S. persons (in each case, as defined in the U.S. Risk Retention Rules) or for the account or benefit of U.S. persons (as defined in the U.S. Risk Retention Rules); (3) neither the investment manager nor the issuer is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the investment manager or issuer organised or located in the United States.

The Investment Manager has advised the Issuer that it has not acquired, and it does not intend to acquire, more than 25 per cent. of the assets from an affiliate or branch of the Investment Manager or Issuer that is organised or located in the United States.

The terms of the Refinancing Notes provide that they may not be purchased as part of the initial syndication of the Offering by "U.S. persons" within the meaning given to such term in the U.S. Risk

Retention Rules (referred to in this Prospectus as Risk Retention U.S. Persons) unless such limitation is waived by the Investment Manager. Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" means any of the following:

- (a) Any natural person resident in the United States;
- (b) Any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States;
- (c) Any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (d) Any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (e) Any agency or branch of a foreign entity located in the United States;
- (f) Any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (g) Any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (h) Any partnership, corporation, limited liability company, or other organisation or entity if:
 - (i) Organised or incorporated under the laws of any foreign jurisdiction; and
 - (ii) Formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act.

Prospective investors or transferees during the U.S. Risk Retention Restricted Period should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is substantially similar, but not identical to, the definition of "U.S. person" under Regulation S. The material differences between such definitions are that: (1) (A) a "U.S. person" under Regulation S includes any partnership, corporation, limited liability company or other organization or entity that is organized under the laws of any foreign jurisdiction formed by one or more "U.S. persons" (as defined in Regulation S) principally for the purpose of investing in securities that are otherwise offered within the United States pursuant to an applicable exemption under the Securities Act unless such organization or entity is organized and owned by accredited investors (as defined in Rule 502 of Regulation D under the Securities Act) who are not natural persons, estates or trusts, while (B) any organization or entity described in clause (A) is treated as a "U.S. person" under the U.S. Risk Retention Rules, regardless of whether it is so organized and owned by accredited investors (as defined in Rule 502 of Regulation D under the Securities Act) who are not natural persons, estates or trusts and (2) (A) a "U.S. person" under Regulation S includes any partnership or corporation organised or incorporated under the laws of the United States while (B) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States) is treated as a "U.S. person" under the U.S. Risk Retention Rules.

The Investment Manager has advised the Issuer that it will not provide a waiver ("**U.S. Risk Retention Waiver**") to any investor if such investor's purchase would result in more than 10 per cent. of the dollar value of all Classes of Notes being held by Risk Retention U.S. Persons on the Issue Date. Consequently, the Refinancing Notes being sold pursuant to the initial syndication of this Offering may not be purchased by, and will not be sold to any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Waiver from the Investment Manager. Each holder of a Refinancing Note or a beneficial interest therein acquired in the initial issuance of the Refinancing Notes, by its acquisition of a Refinancing Note or a beneficial

interest in a Refinancing Note, will be deemed to represent to the Issuer, the Trustee, the Investment Manager and the Initial Purchaser that (1) it either (a) is not a Risk Retention U.S. Person or (b) has received a U.S. Risk Retention Waiver from the Investment Manager and (2) it is not acquiring such Refinancing Note or a beneficial interest therein as part of a plan or scheme to evade the requirements of section 15G of the Securities Exchange Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules. Prospective investors and any transferee during the U.S. Risk Retention Restricted Period should note that interests in any Regulation S Note may not be exchanged for interests in a Rule 144A Note or otherwise sold or transferred to a Risk Retention U.S. Person at any time during the U.S. Risk Retention Restricted Period. See "*Plan of Distribution*" and "*Transfer Restrictions*".

There can be no assurance that the exemption provided for in the Foreign Safe Harbor will be available to the Investment Manager. In particular, the Investment Manager may not be successful in limiting investment by Risk Retention U.S. Persons to no more than 10 per cent. of the dollar value of all Classes of Notes held by Risk Retention U.S. Persons on the Issue Date. This may result from (a) misidentification of Risk Retention U.S. Person investors as persons that are not Risk Retention U.S. Person investors, (b) market movements or other matters that affect the calculation of the 10% dollar value of such securities or (c) misidentification of the classes of securities to which such limitation applies or the timing of the application of such limitation. Failure on the part of the Investment Manager to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action against the Investment Manager, which could adversely affect the ability of the Investment Manager to perform its obligations under the Investment Management Agreement (and accordingly the value and secondary market liquidity of the Refinancing Notes). Furthermore, the general impact of the U.S. Risk Retention Rules on the loan securitisation market and the leveraged loan market is uncertain. In addition, after the Issue Date, the U.S. Risk Retention Rules may have adverse effects on the Issuer and/or the holders of the Refinancing Notes. Unless the exemption provided for in the Foreign Safe Harbor or another exemption is available to the Investment Manager, the U.S. Risk Retention Rules would apply to any additional notes offered and sold by the Issuer after the Issue Date or any subsequent Refinancing.

The U.S. Risk Retention Rules would apply to any additional Notes issued after the Issue Date or any Refinancing. In addition, the SEC has indicated in contexts separate from the U.S. Risk Retention Rules that an "offer" and "sale" of securities may arise when amendments to securities are so material as to require holders to make an "investment decision" with respect to such securities. Thus, if the SEC were to take a similar position with respect to the U.S. Risk Retention Rules, they could apply to material amendments to the Trust Deed and the Notes, to the extent such amendments require investors to make a new investment decision with respect to the Notes, including a re-pricing. It is expected that the Investment Manager will seek to avail itself of the Foreign Safe Harbor in connection with any such additional issuance or Refinancing. However, if there is not sufficient interest from non-Risk Retention U.S. Persons, no assurance can be made that any such additional issuance or Refinancing will occur. In no case will the Investment Manager be required to acquire Notes to comply with the U.S. Risk Retention Rules. As a result, the U.S. Risk Retention Rules may adversely affect the Issuer (and the performance and market value of the Notes) if the Issuer is unable to undertake any such additional issuance or Refinancing and may affect the liquidity of the Notes. Furthermore, no assurance can be given as to whether the U.S. Risk Retention Rules will have any material adverse effect on the business, financial condition or prospects of the Investment Manager or the Issuer.

Furthermore, no assurance can be given as to whether the U.S. Risk Retention Rules would have any future material adverse effect on the business, financial condition or prospects of the Investment Manager or the Issuer or on the market value or liquidity of the Refinancing Notes. See also "*Risk Retention in Europe*".

The statements contained herein regarding the U.S. Risk Retention Rules are based on publicly available information solely as of the date of this Prospectus. The ultimate interpretation as to whether any action taken by an entity complies with the U.S. Risk Retention Rules will be a matter of interpretation by the applicable governmental authorities or regulators. No assurance can be given that the U.S. Risk Retention Rules will not change or be superseded by changes in law. There is no established line of authority, precedent or market practice that provides guidance with respect to compliance with the U.S. Risk Retention Rules in connection with any actions of the Issuer after the rule becomes effective. Moreover, any applicable governmental authority or regulator could provide guidance or state views on compliance with the U.S. Risk Retention Rules that materially alter current interpretations or views with respect to the U.S. Risk Retention Rules. Any changes or further guidance may result in the Investment Manager failing to comply with the U.S. Risk Retention Rules and have a material adverse effect on the Issuer and the Notes.

CFTC Regulations and others

Pursuant to the Dodd-Frank Act, the Commodity Futures Trading Commission ("**CFTC**") has promulgated a range of new regulatory requirements (the "**CFTC Regulations**") that may affect the pricing, terms and compliance costs associated with the entry into of any Hedge Transaction by the Issuer and the availability of such Hedge Transactions. Some or all of the Hedge Transactions that the Issuer may enter into may be affected by (i) the requirement that certain swaps be centrally cleared and in some cases traded on a designated contract market or swap execution facility, (ii) initial and variation margin requirements of any central clearing organisation (with respect to cleared swaps) or initial or variation requirements as may otherwise be required with respect to uncleared swaps, (iii) swap reporting and recordkeeping obligations, and other matters. These new requirements may significantly increase the cost to the Issuer and/or the Investment Manager of entering into Hedge Transactions such that the Issuer may be unable to purchase certain types of Collateral Debt Obligations, have unforeseen legal consequences on the Issuer or the Investment Manager or have other material adverse effects on the Issuer or the Noteholders.

In particular, regulations promulgated by the CFTC or other relevant U.S. regulators require the posting of variation margin by entities such as the Issuer (the "**VM Requirements**") (insofar as it enters into Hedge Transactions with any Hedge Counterparty that is subject to these requirements). The VM Requirements went into effect in the United States on March 1, 2017. However, pursuant to published guidance from the CFTC dated February 13, 2017 and from the Board of Governors of the Federal Reserve System and the Office of the Comptroller of the Currency dated February 23, 2017, the relevant US regulators have adopted a "no-action" position relating to such regulations as they apply to certain counterparties that do not present significant credit and market risks, in order to provide relief from compliance with the variation margin requirements to certain swap dealers until September 1, 2017, subject to certain conditions. While transactions existing prior to March 1, 2017 are expected to be exempt from the VM Requirements, Hedge Transactions entered into after March 1, 2017 would be subject to the VM Requirements, as might existing Hedge Transactions that undergo a material amendment, based on guidance provided and positions taken by U.S. regulators in other contexts. The Trust Deed does not permit the Issuer to post variation margin. Accordingly, the application of US regulations to a Hedge Transaction or a proposed Hedge Transaction could have a material adverse effect on the Issuer's ability to hedge its interest or currency rate exposure, or on the cost of such hedging, have unforeseen legal consequences on the Issuer or have other material adverse effects on the Issuer or the Noteholders.

Commodity Pool Regulation

The Issuer's ability to enter into Hedge Transactions may cause the Issuer to be a "commodity pool" as defined in the United States Commodity Exchange Act of 1936, as amended (the "**CEA**") and the Investment Manager to be a "commodity pool operator" ("**CPO**") and/or a "commodity trading advisor" (a "**CTA**"), each as defined in the CEA in respect of the Issuer. The CEA, as amended by the

Dodd-Frank Act, defines a "commodity pool" to include certain investment vehicles operated for the purpose of trading in "commodity interests" which includes swaps. CPOs and CTAs are subject to regulation by the CFTC and must register with the CFTC unless an exemption from registration is available. Based on certain CFTC interpretive guidance, the Issuer is not expected to be treated as a commodity pool and as such, the Issuer (or the Investment Manager on the Issuer's behalf) may enter into Hedge Agreements (or any other agreement that would fall within the definition of "swap" as set out in the CEA): (i) if, at the time such Hedge Agreement is entered into, it satisfies the Hedge Agreement Eligibility Criteria and the Portfolio Acquisition and Disposition Requirements, or (ii) following receipt of legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that it will not (x) cause the Issuer, its directors or officers, the Investment Manager or any of its or their affiliates or any other person to be required to register as a CPO and/or a CTA with the CFTC with respect to the Issuer or (y) eliminate the Issuer's ability to rely on Rule 3a-7 under the Investment Company Act, unless and until the Issuer is no longer able to rely on, or elects not to rely on, the exclusion from registration under the Investment Company Act provided by Rule 3a-7.

Notwithstanding the above, if the recent CFTC guidance referred to above changes or the Issuer engages in one or more activities that might cause it to be treated as a commodity pool and no exemption from registration is available, registration of the Investment Manager as a CPO and/or a CTA may be required before the Issuer (or the Investment Manager on the Issuer's behalf) may enter into any Hedge Agreement. Registration of the Investment Manager as a CPO and/or a CTA could cause the Investment Manager to be subject to extensive compliance and reporting requirements that would involve material costs which would be passed on to the Issuer. The scope of such compliance costs is uncertain but could adversely affect the amount of funds available to make payments on the Notes. In addition, in the event an exemption from registration were available and the Investment Manager elected to file for an exemption, the Investment Manager would not be required to deliver certain CFTC mandated disclosure documents or a certified annual report to investors or satisfy on-going compliance requirements under Part 4 of the CFTC Regulations, as would be the case for a registered CPO or CTA. Further, the conditions of such exemption may constrain the extent to which the Issuer may be able to enter into swap transactions. In particular, the limits imposed by such exemptions may prevent the Issuer from entering into a Hedge Transaction that the Investment Manager believes would be advisable or result in the Issuer incurring financial risks that would have been hedged pursuant to swap transactions absent such limits. In addition, the costs of obtaining and maintaining such exemption will be passed on to the Issuer.

Further, if the Investment Manager determines that additional Hedge Transactions should be entered into by the Issuer in excess of the trading limitations set forth in any applicable exemption from registration as a CPO and/or a CTA, the Investment Manager may elect to withdraw its exemption from registration and instead register with the CFTC as the Issuer's CPO and/or a CTA. The costs of obtaining and maintaining these registrations and the related compliance obligations would be paid by the Issuer as Administrative Expenses. Such costs would reduce the amount of funds available to make payments on the Notes. These costs are uncertain and could be materially greater than the Investment Manager anticipated when deciding to enter into the transaction and register as a CPO and/or a CTA. In addition, it may not be possible or advisable for the Investment Manager to withdraw from registration as a CPO and/or a CTA after any relevant swap transactions terminate or expire. The costs of CPO and/or CTA registration and the ongoing CPO and/or CTA compliance obligations of the Investment Manager could exceed, perhaps significantly, the financial risks that are being hedged pursuant to any Hedge Transaction.

Non-compliance with restrictions on ownership of the Notes and the Investment Company Act could adversely affect the Issuer

Various U.S. regulatory requirements may restrict potential investors' ability to purchase Notes or make such an investment unattractive to them. U.S. banking regulations impose increased requirements for

the amount of capital required by large banks and an increase in the assessment imposed by the Federal Deposit Insurance Corporation for deposit insurance in connection with owning certain securitization assets, including CLO securities. U.S. banking regulations also could require certain purchasers of Notes to comply with applicable margin requirements, such as Regulation U. If the Issuer were determined not to qualify for the "loan securitization" exclusion under the Section 13 of the Bank Holding Company Act of 1956 and the rules and regulations promulgated thereunder (as amended, the "**Volcker Rule**") or were otherwise determined to be a "covered fund" for purposes of that rule, there would be limitations on the ability of banking entities to purchase or retain any Class deemed to be "ownership interests." This would be expected to include the Subordinated Notes but could also potentially include other Classes. One or more of these or other regulations may deter certain potential investors from purchasing Notes, which may adversely affect the liquidity of the Notes in the secondary market.

The Issuer has not registered with the SEC as an investment company pursuant to the Investment Company Act, in reliance on both (i) an exemption under Section 3(c)(7) of the Investment Company Act for investment companies (a) whose outstanding securities are beneficially owned only by "qualified purchasers" with respect to the Issuer and certain transferees thereof identified in Rules 3c-5 and 3c-6 under the Investment Company Act and (b) which do not make a public offering of their securities in the United States and (ii) an exception pursuant to Rule 3a-7 under the Investment Company Act discussed below. The Investment Manager, on behalf of the Issuer, may elect to cease relying on Rule 3a-7 at any time.

The Transaction Documents contain certain requirements that are intended to allow the Issuer to rely on Rule 3a-7, but there can be no assurance that compliance with those requirements, including the Portfolio Acquisition and Disposition Requirements, will be adequate for the Issuer to rely on Rule 3a-7. So long as the Issuer seeks to rely on Rule 3a-7, its ability to acquire and dispose of Collateral Obligations may be limited, which could adversely affect its ability to realize gains, mitigate losses or reinvest principal payments or sale proceeds. See "*The Portfolio – The Portfolio Acquisition and Disposition Requirements*". In 2011, the SEC published an advance notice of proposed rulemaking to potentially consider proposing amendments to Rule 3a-7. Any guidance from the SEC or its staff regarding Rule 3a-7, including changes that the SEC may ultimately adopt to Rule 3a-7, that narrow the scope of Rule 3a-7, could further inhibit the business activities of the Issuer and adversely affect the holders of the Notes.

No opinion or no-action position has been requested of the SEC with respect to the status of the Issuer as investment companies under the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer is required, but in violation of the Investment Company Act had failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer and the Co-Issuer could sue the Issuer and recover any damages caused by the violation; and (iii) any contract to which the Issuer is party that is made in violation of the Investment Company Act or whose performance involves such violation would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. In addition, such a finding would constitute an Event of Default under the Trust Deed. Should the Issuer be subjected to any or all of the foregoing, the Issuer would be materially and adversely affected.

Whilst the holders of the Class X Notes and the Class A-2 Notes are disenfranchised in respect of any IM Removal Resolution or IM Replacement Resolution, there can be no assurance that this feature will be effective in resulting in investments in the Class X Notes or the Class A-2 Notes by "banking entities" subject to the Volcker Rule not being characterised as an "ownership interest" in the Issuer. Investors in the Notes are responsible for analysing their own regulatory position and none of the

Issuer, the Initial Purchaser, the Investment Manager, the Trustee or any of their Affiliates makes any representation to any prospective investor or purchaser of the Notes regarding the application of the Volcker Rule to the Issuer, or to such investor's investment in the Notes on the Issue Date or at any time in the future.

Reliance on Rating Agency Ratings

The Dodd-Frank Act requires that federal banking agencies amend their regulations to remove reference to or reliance on credit agency ratings, including but not limited to those found in the federal banking agencies' risk-based capital regulations. New regulations have been proposed but have not yet been fully implemented in all respects. When such regulations are fully implemented, investments in asset-backed securities like the Notes by such institutions may result in greater capital charges to financial institutions that own such securities, or otherwise adversely affect the treatment of such securities for regulatory capital purposes. Furthermore, all prospective investors in the Notes whose investment activities are subject to legal investment laws and regulations, regulatory capital requirements, or review by regulatory authorities should consult with their own legal, accounting and other advisors in determining whether, and to what extent, the Notes will constitute legal investments for them or are subject to investment or other regulatory restrictions, unfavourable accounting treatment, capital charges or reserve requirements.

Flip Clauses

The validity and enforceability of certain provisions in contractual priorities of payments which purport to alter the priority in which a particular secured creditor is paid as a result of the occurrence of one or more specified trigger events, including the insolvency of such creditor ("**flip clauses**"), have been challenged in the English and U.S. courts on the basis that the operation of a flip clause as a result of such creditor's insolvency breaches the "anti-deprivation" principles of English and U.S. insolvency law. This principle prevents a party from agreeing to a provision that deprives its creditors of an asset upon its insolvency.

The English Supreme Court has, in *Belmont Park Investments Pty Limited v BNY Corporate Trustee Services Limited and Lehman Brothers Special Financing Inc.* [2011] UKSC 38, upheld the validity of a flip clause contained in an English-law governed security document, stating that the anti-deprivation principle was not breached by such provisions.

In the U.S. courts, the U.S. Bankruptcy Court for the Southern District of New York in *Lehman Brothers Special Financing Inc. v. BNY Corporate Trustee Services Limited*. (*In re Lehman Brothers Holdings Inc.*), Adv. Pro. No. 09-1242-JMP (Bankr. S.D.N.Y. May 20, 2009) examined a flip clause and held that such a provision, which seeks to modify one creditor's position in a priority of payments when that creditor files for bankruptcy, is unenforceable under the U.S. Bankruptcy Code. Judge Peck acknowledged that this has resulted in the U.S. courts coming to a decision "directly at odds with the judgement of the English Courts". While BNY Corporate Trustee Services Ltd filed a motion for and was granted leave to appeal with the U.S. Bankruptcy Court, the case was settled before the appeal was heard. In 2012, a new suit was filed in the U.S. Bankruptcy Court by claimants in the *Belmont* case asking, among other things, for the U.S. Bankruptcy Court to recognise and enforce the decision of the English Supreme Court and to declare that flip clauses are enforceable under U.S. bankruptcy law notwithstanding that court's earlier decision. Plaintiffs in that suit have also filed a companion motion alleging that the issues in their complaint are tangential to the bankruptcy before the U.S. Bankruptcy Court and that, therefore, the suit should be removed to a U.S. district court. Given the current state of U.S. and English law, this is likely to be an area of continued judicial focus particularly in respect of multi-jurisdictional insolvencies.

On 28 June 2016, the U.S. Bankruptcy Court issued a decision in *Lehman Brothers Special Financing Inc. v. Bank of America National Association, et al.* Case No. 10-3547 (*In re Lehman Brothers Holdings Inc.*), No. 10-03547 (Bankr S.D.N.Y. June 2016). In this decision, the court held that not

all priority of payment provisions would be unenforceable ipso facto clauses under the U.S. Bankruptcy Code. Instead, the court identified two materially distinct approaches to such provisions. Where a counterparty's automatic right to payment priority ahead of the noteholders is "flipped" or modified upon, for example, such counterparty's default under the swap document, the court confirmed that such priority provisions were unenforceable ipso facto clauses. Conversely, the court held that priority provisions where no right of priority is established until after a termination event under the swap documents has occurred were not ipso facto clauses, and, therefore, fully enforceable. Moreover, even where the provisions at issue were ipso facto clauses, the Court found that they were nonetheless enforceable under the Code's safe harbor provisions. Specifically, the Court concluded that priority of distribution was a necessary part of liquidation, which the safe harbor provisions expressly protect. The Court effectively limited the analysis in the BNY case to cases where the flip provisions are only in an indenture, and do not constitute part of the swap agreement. This judgment highlights the difference in approach taken between U.S. and English law on this subject, although it significantly reduces the practical differences in outcome. There remain several actions in the U.S. commenced by debtors of Lehman Brothers concerning the enforceability of flip clauses and this is likely to be an area of continued judicial focus particularly in respect of multi-jurisdictional insolvencies.

The flip clause examined in the Belmont case is similar in substance to the relevant provisions in the Priorities of Payments, however the context and manner of subordination which may be applied to a Hedge Counterparty in accordance with such provisions will not be identical; and the judgments in Belmont and subsequent litigation in which the same rule has been applied have noted that English law questions relating to the anti-deprivation principle will be determined on the basis of the particular terms at hand and their commercial context. As such, it is not necessarily settled that the particular flip clauses contained in the Priorities of Payments would certainly be enforceable as a matter of English law, in the case of insolvency of a Hedge Counterparty.

Moreover, if the Priorities of Payments are the subject of litigation in any jurisdiction outside England and Wales, in particular in the United States of America, and such litigation results in a conflicting judgment in respect of the binding nature of the Priorities of Payments, it is possible that termination payments due to the Hedge Counterparties would not be subordinated as envisaged by the Priorities of Payments and as a result, the Issuer's ability to repay the Noteholders in full may be adversely affected. There is a particular risk of such conflicting judgments where a Hedge Counterparty is the subject of bankruptcy or insolvency proceedings outside England and Wales.

LIBOR and EURIBOR Reform

The London Inter-Bank Offered Rate ("**LIBOR**") has been reformed, with developments including:

- (a) the activities of administering a specified benchmark and of providing information in relation to a specified benchmark becoming regulated activities in the United Kingdom (LIBOR has been a specified benchmark since April 2013);
- (b) ICE Benchmark Administration Limited becoming the LIBOR administrator in place of the British Bankers' Association in February 2014;
- (c) a reduction in the number of currencies and tenors for which LIBOR is calculated; and
- (d) the introduction of a LIBOR code of conduct for contributing banks.

ICE Benchmark Administration Limited intends to make further reforms to the submission methodology for LIBOR panel banks.

The Euro Interbank Offered Rate ("**EURIBOR**") together with LIBOR, and other so-called "benchmarks" are the subject of proposals for reform by a number of international authorities and other bodies. In September 2013, the European Commission published a proposed regulation (the

"**Benchmark Regulation**") on indices used as benchmarks in financial instruments and financial contracts.

The European Parliament adopted the Benchmark Regulation on 28 April 2016. The Benchmark Regulation was published in the Official Journal of the European Union and subsequently entered into force on 30 June 2016 and will apply with effect from 1 January 2018, with some provisions relating to certain identified critical benchmarks to apply immediately.

The Benchmark Regulation applies principally to "administrators" and also, in some respects, to "contributors" and certain "users" of "benchmarks", and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and make significant changes to the way in which benchmarks falling within scope of the Benchmark Regulation are governed (including reforms of governance and control arrangements, obligations in relation to input data, certain transparency and record-keeping requirements and detailed codes of conduct for contributors) and (ii) prevent certain uses of "benchmarks" provided by unauthorised administrators by supervised entities in the EU. The scope of the Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices, could also potentially apply to many interest rate and foreign exchange rate indices, equity indices and other indices (including "proprietary" indices or strategies) where used to determine the amount payable under or the value or performance of certain financial instruments traded on a trading venue, financial contracts and investment funds. By way of a European Commission Implementing Regulation published on 12 August 2016, EURIBOR was identified as a "critical benchmark" for the purposes of the Benchmark Regulation.

Benchmarks such as LIBOR or EURIBOR may be discontinued if they do not comply with these requirements, or if the administrator of the benchmark either fails to apply for authorisation or is refused authorisation by its home regulator.

Potential effects of the Benchmark Regulation include (among other things):

- (a) an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator does not obtain authorisation or, if based in a non-EU jurisdiction, the administrator is not otherwise recognised as equivalent; and
- (b) the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could (among other things) have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level of the benchmark.

Investors should be aware that:

- (a) any of the international, national or other proposals for reform or general increased regulatory scrutiny of "benchmarks" could have a material adverse effect on the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks";
- (b) any of these changes or any other changes could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be;
- (c) if the applicable rate of interest on any Collateral Debt Obligation is calculated with reference to a benchmark (or currency or tenor) which is discontinued:

- (i) such rate of interest will then be determined by the provisions of the affected Collateral Debt Obligation, which may include determination by the relevant calculation agent in its discretion; and
- (ii) there may be a mismatch between the replacement rate of interest applicable to the affected Collateral Debt Obligation and the replacement rate of interest the Issuer must pay under any applicable Hedge Agreement. This could lead to the Issuer receiving amounts from affected Collateral Debt Obligations which are insufficient to make the due payment under the Hedge Agreement, and potential termination of the Hedge Agreement;
- (d) if the EURIBOR benchmarks referenced in paragraph (A) of Condition 6(e)(i) (*Floating Rate of Interest*) are discontinued, interest on the Notes will be calculated under paragraph (B) of Condition 6(e)(i) (*Floating Rate of Interest*); and
- (e) the administrator of a relevant benchmark will not have any involvement in the Collateral Debt Obligations or the Notes and may take any actions in respect of such benchmark without regard to the effect of such actions on the Collateral Debt Obligations or the Notes.

Any of the above or any other significant changes to EURIBOR or any other benchmark could have a material adverse effect on the value of, and the amount payable under (i) any Collateral Debt Obligations which pay interest linked to a EURIBOR rate or other benchmark (as applicable), and (ii) the Notes.

EU Financial Transaction Tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common financial transaction tax (the "**FTT**") to be adopted in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia, although Estonia has since formally ceased to participate (the "participating member states"). If the Commission's Proposal is adopted, the FTT would be a tax primarily on "**financial institutions**" (which would include the Issuer) in relation to "**financial transactions**" (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating member states. Generally, it would apply where at least one party is a financial institution, and at least one party is established in a participating member state. A financial institution may be, or be deemed to be, "**established**" in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is subject to the financial transaction is issued in a participating member state.

The FTT may give rise to tax liabilities for the Issuer with respect to certain transactions (including concluding swap transactions and/or purchases or sales of securities (such as authorised investments)) if it is adopted based on the Commission's Proposal. Any such tax liabilities may reduce amounts available to the Issuer to meet its obligations under the Notes and may result in investors receiving less interest or principal than expected. It should also be noted that the FTT could be payable in relation to relevant transactions by investors in respect of the Notes (including secondary market transactions) if the conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's Proposal. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are exempt.

The Commission's Proposal initially identified the date of introduction of the FTT across the participating member states as being 1 January 2016. However, this anticipated introduction date has

been extended on several occasions due to disagreement among the participating member states regarding a number of key issues concerning the scope and application of the FTT.

On 10 October 2016, following a meeting of the Finance Ministers of the participating member states, it was reported that an agreement in principle had been reached on certain key aspects of the FTT and that the EU Commission had consequently been asked to prepare draft FTT legislation on the basis of that agreement. No such draft FTT legislation has yet been published, however, and the details of the FTT remain to be agreed. Accordingly, the date of implementation of the FTT remains uncertain.

Prospective holders of the Notes are advised to seek their own professional advice in relation to any FTT and its potential impact on their dealings in the Notes before investing.

Action Plan on Base Erosion and Profit Shifting

On 5 October 2015, the OECD published final reports, analyses and sets of recommendations ("**deliverables**") for each of the 15 actions it has identified as part of its "**BEPS Project**". Subsequently, during a meeting on 8 October 2015 in Lima, Peru, G20 finance ministers endorsed this final package of deliverables. The deliverables were subsequently endorsed by G20 Leaders during their annual summit on 15-16 November 2015 in Antalya, Turkey.

The BEPS Project is a reference to the various discussion documents, proposals and recommendations that the OECD has published since 2013 as a means of reforming certain domestic and treaty-based tax rules. The purpose of the OECD in doing so has been to target so-called base erosion and profit shifting or "BEPS", which are practices designed to reduce taxable income in particular jurisdictions through the exploitation or other use of these tax rules.

Despite this overarching objective, the BEPS Project encompasses a wide range of areas, which may encroach upon tax treatments that are not necessarily considered to result from practices of this nature. Actions of the project which have a potentially broad ambit in this regard include Action 2 (Neutralising the Effects of Hybrid Mismatch Arrangements), Action 4 (Limiting Base Erosion Involving Interest Deductions and Other Financial Payments), Action 6 (Preventing the Granting of Treaty Benefits in Inappropriate Circumstances) and Action 7 (Preventing the Artificial Avoidance of Permanent Establishment Status).

Application to Issuer

Given the subject matter of the above actions and certain key ingredients of the Issuer's expected tax treatment (including the Issuer's ability to deduct interest under the Notes from its taxable profits and receive interest under Collateral Debt Obligations free of local withholding taxes under applicable double tax treaties), those actions are potentially relevant to the Issuer.

However, based exclusively on the content of the final reports that the OECD has published for those actions, it is not generally considered that the recommendations in those reports would adversely affect the Issuer's tax treatment if adopted by relevant jurisdictions. Possible exceptions to this relate to Actions 4 and 6 and the precise means by which jurisdictions ultimately adopt those recommendations, as described below.

Action 4

In the final report for Action 4, the OECD recommends as a best practice that countries introduce a general limitation on tax deductions for net interest and economically equivalent payments under which, broadly speaking, a company would be denied those deductions to the extent they exceeded a particular percentage of the company's EBITDA ranging from 10 to 30 per cent.

Countries would be free under the OECD's recommendation to apply this restriction to all companies. Alternatively, countries would be able to apply the restriction to companies that formed part of domestic and multinational groups only or to companies that formed part of multinational groups.

However, the restriction would only apply to tax deductions for net interest and economically equivalent payments, as mentioned. As a result, since the Issuer will generally fund interest payments it makes under the Notes from interest payments to which it is entitled under Collateral Debt Obligations (that is, such that Issuer pays limited or no net interest), the restriction may be of limited relevance to the Issuer even if Ireland chose to apply it to the Issuer.

Council Directive (EU) 2016/1164 (the "**Directive**") lays down rules against tax avoidance practices that directly affect the functioning of the internal market. These include measures which closely follow those recommended in the Final Report relating to Action 4. Broadly, under article 4 of the Directive, "exceeding borrowing costs" (which are generally deductible borrowing costs in excess of any taxable interest and interest-equivalent income) of corporate taxpayers in EU Member States are deductible in the tax period in which they are incurred only up to 30 per cent. of the taxpayer's EBITDA.

However, among other options provided for in the Directive, individual EU Member States may choose to allow taxpayers a full deduction for "exceeding borrowing costs" up to EUR 3 million. Furthermore, a taxpayer may be allowed to deduct additional "exceeding borrowing costs" where the relevant taxpayer is a member of a consolidated group for financial accounting purposes and depending on the application of certain group ratios. EU Member States are generally required to adopt and publish laws, regulations and administrative provisions necessary to comply with the Directive by 31 December 2018, which provisions shall then be applied from 1 January 2019.

Accordingly, assuming Ireland will enact the Directive as required by all EU Member States, the Issuer will become subject to the interest limitation rule of the Directive. However, given that the Issuer is expected to have limited or no "exceeding borrowing costs" (see above in relation to the "net interest" of the Issuer), the restrictions of the interest limitation rule in the Directive may be of limited relevance to the Issuer.

Action 6

Certain recommendations that form part of the OECD's final report for Action 6 may also affect the Issuer depending upon the extent to which countries choose to adopt those recommendations in applicable double taxation treaties.

In particular, the OECD has recommended in that final report that countries implement one or both of a "limitation-on-benefits" ("**LOB**") provision and a "principal purposes test" ("**PPT**") and that benefits under those treaties are denied to entities that cannot satisfy these provisions.

Under the PPT that the OECD has recommended, an entity would generally be denied benefits under an applicable treaty if it were reasonable to conclude, having regard to all facts and circumstances, that obtaining that benefit was one of the principal purposes of any arrangement or transaction that resulted directly or indirectly in that benefit.

In contrast, under both the detailed and simplified versions of the LOB provisions that the OECD has provisionally recommended in its final report for Action 6 (the final form of those provisions remains subject to further work on the part of the OECD), the Issuer may be denied benefits under applicable double tax treaties unless certain conditions based on its legal nature, ownership structure and activities were satisfied, none of which it is considered the Issuer would currently be able to satisfy.

As a result, if an LOB of either the simplified or more detailed nature that has been included in the OECD's final report for Action 6 were implemented into an applicable double tax treaty, the Issuer might be denied benefits under that treaty, including in respect of withholding tax otherwise applicable to interest to which the Issuer is entitled under Collateral Debt Obligations.

However, as part of the LOB provisions that are recommended in the OECD's final report for Action 6, it is proposed that a company such as the Issuer would be able to apply to the tax authorities of the other contracting state for the granting of discretionary benefits under an applicable treaty (that is, in

place of having to satisfy the other LOB provisions) provided that "the establishment, acquisition or maintenance of the [company in question] and the conduct of its operations" do not have as one of their "principal purposes the obtaining of [the applicable treaty] benefit".

The OECD indicated in its final report for Action 6 that the treaty entitlement of "non-CIV [collective investment] funds" such as the Issuer would continue to be considered and that the OECD may publish revised LOB provisions to take account of this in 2016 (potentially making it easier for the Issuer to satisfy those provisions).

As preparation for this, the OECD published a discussion document dated 24 March 2016 which suggested possible means under which such "non-CIV funds" such as the Issuer might be able to satisfy or be exempt from the type of LOB provision that is recommended in the final report for Action 6 (special accommodation or exemption is suggested, for example, relating to certain "widely held" and "regulated" investment funds or those with a high proportion of treaty eligible investors). A further discussion document detailing examples of transactions featuring non-CIV funds was published on 6 January 2017.

It is unclear, however, which, if any, of the suggestions will form part of any special regime that Action 6 ultimately recommends for non-CIV funds of this nature. The extent to which any of the suggestions would actually benefit the Issuer is also unclear.

However, on 28th January 2016 the EU Commission published its own draft "Anti-Tax Avoidance Directive" aimed at countering corporate tax avoidance, in which the Commission did not recommend that Member States adopt the LOB provisions that were included in the final report for Action 6 (broadly because the Commission views the narrowness of those LOB provisions in certain areas as detrimental to the EU Single Market (particularly the Capital Markets Union) by discouraging cross-border investment). Instead, the Commission recommended that if such Members States adopt PPT provisions in their double tax treaties, they adopt a particular version of those provisions which accommodates EU case law.

As a final point, it should be noted that under Action 15 of the BEPS Project the intention is for countries to implement the treaty-based measures that are recommended under Action 6 by way of multilateral instrument rather than by way of the more protracted process of negotiating and amending individual tax treaties. On 24 November 2016, therefore, the OECD published the text and explanatory statement of the "Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting", developed by an ad hoc group of 99 countries which included Ireland (the "**Multilateral Instrument**"). The Multilateral Instrument is to be applied alongside existing tax treaties (rather than amending them directly), modifying the application of those existing treaties in order to implement BEPS measures. The accompanying press release stated that a first "high-level" signing ceremony for the Multilateral Instrument will take place in the week beginning 5 June 2017.

The Multilateral Instrument presents the PPT rule as the default option for countries wishing to modify their tax treaties to comply with the minimum standard of Action 6, while also permitting countries to supplement the PPT rule by choosing to apply a simplified LOB rule. The Multilateral Instrument does not include a detailed LOB rule but rather allows relevant countries who wish to incorporate a detailed LOB rule to opt out of the PPT rule and instead agree to endeavour to reach a bilateral agreement on such a detailed LOB rule. The Multilateral Instrument does not, however, address non-CIV funds and their access to treaty benefits in the context of a LOB rule.

Accordingly, at least some of the recommendations of the Final Report on Action 6 may be applied to existing tax treaties in a relatively short time. However, the Multilateral Instrument generally allows participating countries to opt in or out of various measures which are not a BEPS "minimum standard". It remains to be seen, therefore, precisely which options participating countries will choose and, as the Final Report on Action 6 observed, there are various reasons why countries may not implement the proposed amendments in an identical manner and/or to the same extent.

In particular, it remains to be seen what specific changes will be made to any double tax treaty on which the Issuer may rely (for example, in receiving interest from an overseas borrower at a potentially reduced rate of withholding tax under an applicable double tax treaty). A change in the application or interpretation of these double tax treaties (as a result of the adoption of the recommendations of the Final Report on Action 6 by way of the Multilateral Instrument or otherwise) might result in the Issuer being treated as having a taxable permanent establishment outside of Ireland, in denying the Issuer the benefit of Ireland's network of double tax treaties or in other tax consequences for the Issuer. In each case, this could have a material adverse effect on the Issuer's business, tax and financial position

FATCA

FATCA potentially imposes a withholding tax of 30 per cent. on certain payments made to the Issuer, including potentially all interest paid on, and proceeds from the sale or other disposition of Collateral Debt Obligations or Eligible Investments in U.S. obligors, unless the Issuer complies with regulations in Ireland that implement the intergovernmental agreement between Ireland and the United States (the "**Ireland IGA**"). The Ireland IGA requires, among other things, that the Issuer collect and, in certain circumstances, provide to the Irish Revenue Commissioners (which will provide such information to the U.S. Internal Revenue Service (the "**IRS**") substantial information regarding certain direct and indirect holders of the Notes unless the Issuer qualifies as a "Non-Reporting Irish Financial Institution" (as defined in the Ireland IGA) or is otherwise entitled to an exemption under FATCA. The Issuer anticipates that withholding will not be imposed on payments made to the Issuer, or on payments made by the Issuer, unless the IRS has specifically listed the Issuer as a non-participating financial institution, or the Issuer is unable to comply with FATCA, including the Ireland IGA. The Issuer intends to comply with its obligations under FATCA, including the Ireland IGA. However, in some cases, the ability to comply could depend on factors outside of the Issuer's control. The rules under FATCA, including the Ireland IGA may also change in the future. Future guidance may subject payments on the Notes to a withholding tax of 30 per cent. if each foreign financial institution ("**FFI**"), as defined under FATCA, that holds any such Note, or any intermediary through which any such Note is held, has not entered into an information reporting agreement with the IRS under FATCA or complied with the terms of a relevant intergovernmental agreement. Holders that do not supply information required under the Trust Deed to permit compliance by the Issuer with FATCA, including the Ireland IGA, or whose ownership of Notes may otherwise prevent the Issuer from complying with FATCA (for example by causing the Issuer to be affiliated with a non-compliant FFI), may be subjected to punitive measures under the Trust Deed, including but not limited to forced transfer of their Notes (see further "*Risk Factors – Forced Transfer*"). There can be no assurance, however, that these measures will be effective, and that the Issuer and holders of the Notes will not be subject to withholding taxes under FATCA, including regulations implementing the Ireland IGA. The imposition of such taxes could materially affect the Issuer's ability to make payments on the Notes or could reduce such payments, and FATCA Compliance Costs may be significant. If the Issuer were to move from Ireland to another jurisdiction, the Issuer would be required to enter into an agreement with the IRS or comply with the terms of that jurisdiction's intergovernmental agreement with the United States relating to FATCA in order to avoid the imposition of FATCA withholding. FATCA may also apply to intermediaries and holders may be subject to withholding or forced transfers if they do not comply with similar information requests made by an intermediary (or if an intermediary otherwise fails to comply with FATCA).

FATCA and the provisions of the Ireland IGA and Irish regulations are complex and their application to the Issuer is not entirely certain as the rules continue to be issued and revised. Each Noteholder should consult its own tax advisor to obtain a more detailed explanation of FATCA and to learn how it might affect such holder in its particular circumstance.

Withholding Tax on the Notes

So long as the Notes remain listed on the Irish Stock Exchange or another recognised stock exchange, no withholding tax would currently be imposed on payments of interest on the Notes. However, there can be no assurance that the law will not change. In addition, the Issuer has the right to withhold up to 30 per cent. on all payments made to any holder or beneficial owner of an interest in any of the Notes that fails to comply with its requests for identifying information to enable the Issuer to achieve FATCA Compliance or to certain FFIs that fail to enter into a FATCA agreement with the IRS. See further "*Risk Factors – FATCA*" above.

If any withholding tax or deduction for tax is imposed on payments of interest on the Notes, the holders of the Notes will not be entitled to receive grossed-up amounts to compensate for such withholding tax and no Event of Default shall occur as a result of any such withholding or deduction.

In the event of the occurrence of a Note Tax Event pursuant to which any payment on the Notes of any Class becomes properly subject to any withholding tax or deduction on account of tax, the Notes may be redeemed in whole but not in part at the direction of (a) the holders of each of the Controlling Class or the Subordinated Notes, in each case acting by way of Extraordinary Resolution, or (b) the Retention Holder, subject to certain conditions including a threshold test pursuant to which determination is made as to whether the anticipated proceeds of liquidation of the security over the Collateral would be sufficient to pay all amounts due and payable on the Rated Notes in such circumstances in accordance with the Priorities of Payments.

The Issuer Could Be Subject to Material U.S. Net Income Tax in Certain Circumstances

The Issuer expects to continue to conduct its affairs in such a manner that it will not be treated as engaged in a trade or business within the United States for U.S. federal income tax purposes. Although there is no direct authority in the U.S. federal tax law addressing transactions similar to those contemplated herein, under current law and assuming compliance with the Issuer's organisational documents and with the Transaction Documents, and assuming the Issuer has and continues to conduct its affairs in accordance with the Issuer's contemplated activities and the Operating Guidelines, the Issuer believes its contemplated activities will not cause it to be engaged in a trade or business in the United States for U.S. federal income tax purposes. As a consequence, the Issuer believes that its net income will not become subject to U.S. federal income tax. There can be no assurance, however, that the Issuer's net income will not become subject to U.S. federal income tax as a result of unanticipated activities, changes in law, contrary conclusions by the IRS or U.S. courts or other causes. If the Issuer were determined to be engaged in a trade or business within the United States for U.S. federal income tax purposes, its income effectively connected with its trade or business (computed possibly without any allowance for deductions) would be subject to U.S. federal income tax at the usual corporate rate, and possibly to a branch profits tax of 30 per cent. as well. The imposition of such taxes would materially affect the Issuer's financial ability to make payments on the Notes.

The Issuer May Form Blocker Subsidiaries That Would Be Subject to U.S. Tax

To reduce the risk that the Issuer could be engaged in a trade or business within the United States for U.S. federal income tax purposes, in certain circumstances set forth in the Transaction Documents, certain Ineligible Obligations may be owned by one or more Blocker Subsidiaries wholly owned by the Issuer that will be treated as either U.S. or foreign corporations for U.S. federal income tax purposes: provided that with respect to any Ineligible Obligation described in clause (b) or (c) of the definition of "Ineligible Obligation", the Issuer shall contribute such Ineligible Obligation to a Blocker Subsidiary upon such Ineligible Obligation's failure to satisfy paragraph (cc) or paragraph (v) of the Eligibility Criteria, as applicable. Any foreign Blocker Subsidiary may be treated as engaged in a trade or business within the United States and may be subject to U.S. federal income tax (and possibly a 30 per cent. branch profits tax) on a net income basis at normal corporate tax rates, and may file U.S. tax returns and reports (or protective U.S. tax returns and reports), and/or the Blocker Subsidiary may be

subject to a 30 per cent. U.S. withholding tax on some or all of its income. In addition, U.S. Holders will not be permitted to use losses recognised by the Blocker Subsidiary to offset gains recognised by the Issuer and may be subject to the adverse passive foreign investment company or controlled foreign corporation rules with respect to the Blocker Subsidiary. In the case of a U.S. Blocker Subsidiary, the Blocker Subsidiary would be subject to U.S. federal income tax on a net income basis at normal corporate tax rates, and would be required to file U.S. tax returns and reports. In addition, distributions from the Blocker Subsidiary to the Issuer may be subject to a 30 per cent. U.S. withholding tax. Prospective investors should consult their tax advisors regarding their consequences if the Issuer organises a Blocker Subsidiary.

U.S. Tax Characterisation of the Notes

The Issuer agrees, and, by its acceptance of a Refinancing Note, each holder will be deemed to have agreed, to treat the Refinancing Notes as debt of the Issuer for U.S. federal income tax purposes, except as otherwise required by applicable law (as described in "*Tax Considerations - United States Federal Income Taxation*"), provided that this shall not limit a holder of Class E Notes or Class F Notes from making a protective qualified electing fund election. The determination of whether a Refinancing Note will be treated as debt for U.S. federal income tax purposes generally is based on the facts and circumstances existing at the time the Refinancing Note is issued. Prospective investors should be aware that the classification of an instrument as debt or equity is highly factual, and there can be no assurance that the IRS will not seek to characterise as something other than indebtedness any particular Class or Classes of the Refinancing Notes.

The Issuer agrees, and, by its acceptance of a Subordinated Note, each holder will be deemed to have agreed, to treat such Subordinated Note as equity in the Issuer for U.S. federal income tax purposes, except as otherwise required by applicable law.

Changes in Tax Law; No Gross Up; General

At the time when they are acquired by the Issuer, payments of interest on the Collateral Debt Obligations either will not be reduced by any withholding tax imposed by any jurisdiction (with the exception of withholding tax on commitment fees, facility fees, and other similar fees associated with Collateral Debt Obligations constituting Revolving Obligations and Delayed Drawdown Collateral Debt Obligations and, potentially, taxes imposed under FATCA) or, if and to the extent that any such withholding tax does apply, either such withholding tax can be sheltered by application being made under a double tax treaty or otherwise or the relevant Obligor will be obliged to make gross up payments to the Issuer that cover the full amount of such withholding on an after-tax basis. However, there can be no assurance that, as a result of any change in any applicable law, rule or regulation or interpretation thereof, the payments on the Collateral Debt Obligations might not in the future become subject to withholding tax or increased withholding rates in respect of which the relevant Obligor will not be obliged to gross up to the Issuer. In such circumstances, the Issuer may be able, but will not be obliged, to take advantage of (a) a double taxation treaty between Ireland and the jurisdiction from which the relevant payment is made, (b) the current applicable law in the jurisdiction of the relevant Obligor or (c) the fact that the Issuer has taken a Participation in such Collateral Debt Obligations from a Selling Institution which is able to pay interest payable under such Participation gross without withholding or deduction of tax. If the Issuer receives any interest payments on any Collateral Debt Obligation net of any applicable withholding tax, the Coverage Tests and Collateral Quality Tests will be determined by reference to such net receipts. Such tax would also reduce the amounts available to make payments on the Notes. There can be no assurance that remaining payments on the Collateral Debt Obligations would be sufficient to make timely payments of interest, principal and other amounts payable in respect of the Notes of each Class.

Anti-Money Laundering, Corruption, Bribery and Similar Laws May Require Certain Actions or Disclosures

Many jurisdictions have adopted wide-ranging anti-money laundering, economic and trade sanctions, and anti-corruption and anti-bribery laws, and regulations (collectively, the "**Requirements**"). Any of the Issuer, the Initial Purchaser, the Investment Manager or the Trustee could be requested or required to obtain certain assurances from prospective investors intending to purchase Notes and to retain such information or to disclose information pertaining to them to governmental, regulatory or other authorities or to financial intermediaries or engage in due diligence or take other related actions in the future. It is expected that the Issuer, the Initial Purchaser, the Investment Manager and the Trustee will comply with Requirements to which they are or may become subject and to interpret such Requirements broadly in favour of disclosure. Failure to honour any request by the Issuer, the Initial Purchaser, the Investment Manager or the Trustee to provide requested information or take such other actions as may be necessary or advisable for the Issuer, the Initial Purchaser, the Investment Manager or the Trustee to comply with any Requirements, related legal process or appropriate requests (whether formal or informal) may result in, among other things, a forced sale to another investor of such investor's Notes. In addition, it is expected that each of the Issuer, the Initial Purchaser, the Investment Manager and the Trustee intends to comply with applicable anti-money laundering and anti-terrorism, economic and trade sanctions, and anti-corruption or anti-bribery laws, and regulations of the United States and other countries, and will disclose any information required or requested by authorities in connection therewith.

Third Party Litigation; Limited Funds Available

The Issuer's investment activities may subject it to the risks of becoming involved in litigation by third parties. This risk may be greater where the Issuer exercises control or significant influence over a company's direction. The expense of defending against claims against the Issuer by third parties and paying any amounts pursuant to settlements or judgments would be borne by the Issuer. The funds available to the Issuer to pay certain fees and expenses of the Trustee, the Collateral Administrator and for payment of the Issuer's other accrued and unpaid Administrative Expenses are limited amounts available in accordance with the Priorities of Payments. If such funds are not sufficient to pay the expenses incurred by the Issuer, the ability of the Issuer to operate effectively may be impaired, and the Issuer may not be able to defend or prosecute legal proceedings that may be brought against it or that the Issuer might otherwise bring to protect its interests.

CRA Regulation in Europe

On 13 May 2013, the finalised text of a Regulation of the European Parliament and of the European Council amending Regulation EC 1060/2009 on credit rating agencies ("**CRA3**") was published. CRA3 became effective on 20 June 2013 (the "**CRA3 Effective Date**"). Article 8(b) of CRA3 requires issuers, sponsors and originators of structured finance instruments such as the Notes to make detailed disclosures of information relating to those structured finance instruments. The European Commission has adopted a delegated regulation, detailing the scope and nature of the required disclosure. Such disclosure and reporting requirements became effective on 1 January 2017 and need to be made via a website to be set up by ESMA. However, as yet, this website has not been set up, so issuers, originators and sponsors are currently unable to comply with Article 8(b). In their current form, the regulatory technical standards only apply to structured finance instruments for which a reporting template has been specified. Currently there is no template for CLO transactions but if a template for CLO transactions were to be published and the website for disclosure were to be set up by ESMA, on and after the application date of the disclosure obligations, the Issuer may incur additional costs and expenses to comply with such disclosure obligations. Such costs and expenses would be payable by the Issuer as Administrative Expenses. In accordance with the current proposed Draft STS Regulation, it is intended that Article 8(b) of CRA3 will be repealed and that disclosure requirements will be

governed thereafter by the final STS regulation. However, it is uncertain at this time if the Draft STS Regulation will be adopted in its current form.

Additionally, CRA3 has introduced a requirement that issuers or related third parties of structured finance instruments solicit two independent ratings for their obligations; and should consider appointing at least one rating agency having less than a ten per cent. market share. The Issuer has engaged Fitch and Moody's as independent rating agencies to rate each Class of Rated Notes. The Issuer considered appointing a rating agency with no more than ten per cent. of the total market share but determined not to do so. Investors should consult their legal advisers as to the applicability of CRA3 in respect of their investment in the Notes.

Each of Moody's Investors Service Ltd and Fitch Ratings Limited are established in the EU and are registered under CRA3.

Negative Interest Rates

Investors should be aware that, pursuant to the Agency Agreement, to the extent that the European Central Bank's or any other authority's deposit rate from time to time results in the Account Bank incurring negative deposit rates as a result of maintaining the Accounts on the Issuer's behalf, the Issuer is required to pay to the Account Bank an amount equal to any such negative interest charged on such Account or on cash deposits made on behalf of the Issuer. Any such amounts will be payable as an Administrative Expense, subject to and in accordance with the Priorities of Payments, and may negatively affect the amounts payable to Noteholders.

CRS

The Common Reporting Standard ("**CRS**") framework was first released by the OECD in February 2014. To date, more than 90 jurisdictions have publically committed to implementation, many of which are early adopter countries, including Ireland. On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters (the "**Standard**") was published, involving the use of two main elements, the Competent Authority Agreement ("**CAA**") and the CRS.

The goal of the Standard is to provide for the annual automatic exchange between governments of financial account information reported to them by local Financial Institutions ("**FIs**") relating to account holders tax resident in other participating countries to assist in the efficient collection of tax.

The OECD, in developing the CRS, have used FATCA concepts and as such the Standard is broadly similar to the FATCA requirements, albeit with numerous alterations. It will result in a significantly higher number of reportable persons due to the increased instances of potentially in-scope accounts and the inclusion of multiple jurisdictions to which accounts must be reported.

Regulated Banking Activity

While non-bank lending is currently being promoted within the EU, in many jurisdictions, especially in continental Europe, engaging in lending activities "in" certain jurisdictions particularly via the original extension of credit granting a loan and in some cases including purchases of receivables, discounting of invoices, guarantee transactions or otherwise (collectively, "**Regulated Banking Activities**") is generally considered a regulated financial activity and, accordingly, must be conducted in compliance with applicable local banking laws (or the AIFMD, in the case of European long-term investment funds). Although a number of jurisdictions have consulted and published guidance on non-bank lending, in many such jurisdictions, there is comparatively little statutory, regulatory or interpretive guidance issued by the competent authorities or other authoritative guidance as to what constitutes the conduct of Regulated Banking Activities in such jurisdictions.

Collateral Debt Obligations subject to these local law requirements may restrict the Issuer's ability to purchase the relevant Collateral Debt Obligation or may require it to obtain exposure via a

Participation. Moreover, these regulatory considerations may differ depending on the country in which each Obligor is located or domiciled, on the type of Obligor and other considerations. Therefore, at the time when Collateral Debt Obligations are acquired by the Issuer, there can be no assurance that, as a result of the application of regulatory law, rule or regulation or interpretation thereof by the relevant governmental body or agency, or change in such application or interpretation thereof by such governmental body or agency, payments on the Collateral Debt Obligations might not in the future be adversely affected as a result of such application of regulatory law or that the Issuer might become subject to proceedings or action by the relevant governmental body or agency, which if determined adversely to the Issuer, may adversely affect its ability to make payments in respect of the Notes.

EU Bank Recovery and Resolution Directive

The EU Bank Recovery and Resolution Directive (2014/59/EU) (collectively with secondary and implementing EU rules, and national implementing legislation, the "**BRRD**") equips national authorities in Member States (the "**Resolution Authorities**") with tools and powers for preparatory and preventive measures, early supervisory intervention and resolution of credit institutions and significant investment firms (collectively, "relevant institutions"). If a relevant institution enters into an arrangement with the Issuer and is deemed likely to fail in the circumstances identified in the BRRD, the relevant Resolution Authority may employ such tools and powers in order to intervene in the relevant institution's failure (including in the case of derivatives transactions, powers to close-out such transactions or suspend any rights to close-out such transactions). In particular, liabilities of relevant institutions arising out of the Transaction Documents or Underlying Instruments (for example, liabilities arising under Participations or provisions in Underlying Instruments requiring lenders to share amounts) not otherwise subject to an exception, could be subject to the exercise of "bail-in" powers of the relevant Resolution Authorities. It should be noted that certain secured liabilities of relevant institutions are excepted. If the relevant Resolution Authority decides to "bail-in" the liabilities of a relevant institution, then subject to certain exceptions set out in the BRRD, the liabilities of such relevant institution could, among other things, be reduced, converted or extinguished in full. As a result, the Issuer and ultimately, the Noteholders may not be able to recover any liabilities owed by such an entity to the Issuer. In addition, a relevant Resolution Authority may exercise its discretions in a manner that produces different outcomes amongst institutions resolved in different Member States. It should also be noted that similar powers and provisions are being considered in the context of financial institutions of other jurisdictions.

The European Commission adopted a set of draft regulatory technical standards in respect of the valuation of derivatives for the purposes of the BRRD on 23 May 2016. They were published in the Official Journal on 8 July 2016 and entered into force on 28 July 2016 and provide, among other things, that the relevant Resolution Authorities will have the power to terminate swap agreements (as part of the bail-in process) and to value the position thereunder. This will therefore limit any control the Issuer or the Trustee may have in respect of the valuation process, which may be detrimental to the Issuer and consequently, the Noteholders.

Resolution Authorities also have the right to amend certain agreements, under applicable laws, regulations and guidance ("**Stay Regulations**"), to ensure stays or overrides of certain termination rights. Such special resolution regimes ("**SRRs**") vary from jurisdiction to jurisdiction, including differences in their respective implementation dates. In the UK, the Prudential Regulation Authority ("**PRA**") has implemented rules (Appendix 1 to the PRA's policy statement 25/15) which requires relevant institutions to ensure that the discretion of the PRA to temporarily suspend termination and security interests under the relevant SRR is respected by counterparties. Any applicable Stay Regulations may result in the Issuer not being able to immediately enforce liabilities owed by relevant institutions that are subject to "stays" under SRRs.

The resolution mechanisms under the BRRD correspond closely to those available to the Single Resolution Board (the "**SRB**") and the European Commission under the single resolution mechanism

provided for in Regulation (EU) No 806/2014 (the "**SRM Regulation**"). The SRM Regulation applies to participating Member States (including Member States outside the Euro zone that voluntarily participate through a close co-operation agreement). In such jurisdictions, the SRB will take on many of the functions that would otherwise be assigned to national Resolution Authorities by the BRRD. If a Member State outside the Euro zone (such as the UK) has chosen not to participate in the bank single supervisory mechanism, relevant institutions established in such Member State will not be subject to the SRM Regulation, but to the application of the BRRD by the Resolution Authorities. It is possible, on the specific facts of a case, that resolution plans and resolution decisions made by the SRB may differ from the resolution schemes that would have been applied by the Resolution Authorities. Therefore, the way in which a relevant institution is resolved and ultimately, the effect of any such resolution on the Issuer and the Noteholders may vary depending on the authority applying the resolution framework.

Relating to the Notes

Limited Liquidity and Restrictions on Transfer

Although there is currently a limited market for notes representing collateralised debt obligations similar to the Notes (other than the Subordinated Notes), there is currently no market for the Notes themselves. The Initial Purchaser may make a market for the Notes (other than the Subordinated Notes), but are not obliged to do so, and any such market-making may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Notes will develop or, if a secondary market does develop, that it will provide the Noteholders with liquidity of investment or that it will continue for the life of such Notes. Consequently, a purchaser must be prepared to hold such Notes for an indefinite period of time or until the Maturity Date. In addition, no sale, assignment, participation, pledge or transfer of the Notes may be effected if, among other things, it would require any of the Issuer or any of their officers or directors to register under, or otherwise be subject to the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Notes will not be registered under the Securities Act or any U.S. state securities laws, and the Issuer has no plans, and is under no obligation, to register the Notes under the Securities Act. The Notes are subject to certain transfer restrictions and can be transferred only to certain transferees. See "*Plan of Distribution*" and "*Transfer Restrictions*" sections of this Prospectus. Such restrictions on the transfer of the Notes may further limit their liquidity. In addition, the Class X Notes and the Class A-2 Notes are disenfranchised in respect of any IM Removal Resolution or IM Replacement Resolution and such restrictions may limit their liquidity.

Optional Redemption and Market Volatility

The market value of the Collateral Debt Obligations may fluctuate, with, among other things, changes in prevailing interest rates, foreign exchange rates, general economic conditions, the conditions of financial markets (particularly the markets for senior and mezzanine loans and high yield bonds), European and international political events, events in the home countries of the issuers of the Collateral Debt Obligations or the countries in which their assets and operations are based, developments or trends in any particular industry and the financial condition of such issuers. The secondary market for senior and mezzanine loans and high yield bonds is still limited. A decrease in the market value of the Portfolio would adversely affect the amount of proceeds which could be realised upon liquidation of the Portfolio and ultimately the ability of the Issuer to redeem the Notes.

A form of liquidity for the Subordinated Notes is the optional redemption provisions set out in Condition 7(b)(i) (*Optional Redemption in Whole - Subordinated Noteholders or Retention Holder subject to consent of Investment Manager*) and, after the redemption in full of the Rated Notes, Condition 7(b)(viii) (*Optional Redemption of Subordinated Notes*). There can be no assurance, however, that such optional redemption provision will be capable of being exercised in accordance with the conditions set out in Condition 7(b) (*Optional Redemption*) which may in some cases require a

determination that the amount realisable from the Portfolio in such circumstances is greater than the aggregate of all amounts which would be due and payable on redemption of the Rated Notes and to the other creditors of the Issuer pursuant to Condition 11(b) (*Enforcement*) which rank in priority to payments in respect of the Subordinated Notes in accordance with the Priorities of Payments.

The Notes are Subject to Optional Redemption in Whole or in Part by Class

The Rated Notes may be redeemed in whole from Sale Proceeds and/or Refinancing Proceeds (i) on any Business Day after the expiry of the Non-Call Period, either (x) at the written direction of the Subordinated Noteholders acting by way of Extraordinary Resolution or (y) at the written direction in writing of the Retention Holder, subject in both cases, to the consent of the Investment Manager; (ii) on any Business Day following the occurrence of a Collateral Tax Event at the direction of (x) the Subordinated Noteholders acting by Extraordinary Resolution or (y) the Retention Holder; or (iii) on any Payment Date following the occurrence of a Note Tax Event at the written direction of (x) the Controlling Class or the Subordinated Noteholders acting by way of Extraordinary Resolution or (y) the Retention Holder.

In addition, the Rated Notes may be redeemed in part by Class (or, in relation to the Class A Notes, the redemption in whole of the Class A-1 Notes and/or Class A-2 Notes) from Refinancing Proceeds at the applicable Redemption Prices, on any Business Day falling on or after expiry of the Non-Call Period at the written direction of the Subordinated Noteholders acting by Ordinary Resolution or at the written direction of the Investment Manager or the Retention Holder (subject to the prior written consent of the Investment Manager, acting in its sole discretion). Any such redemption shall be of an entire Class or Classes of Notes subject to a number of conditions. See Condition 7(b) (*Optional Redemption*).

As described in Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*) Refinancing Proceeds may be used in connection with either a redemption in whole of the Rated Notes or a redemption in part of the Rated Notes by Class (or, in relation to the Class A Notes, the redemption in whole of the Class A-1 Notes and/or Class A-2 Notes). In the case of a Refinancing upon a redemption of the Rated Notes in whole but not in part, such Refinancing will only be effective if (among other things) the Refinancing Proceeds, all Sale Proceeds from the sale of Collateral Debt Obligations and Eligible Investments received in accordance with the procedures set forth in the Trust Deed, and all other available funds will be at least sufficient to pay any Refinancing Costs and all amounts due and payable in respect of all Classes of Notes (including without limitation Deferred Interest on any Class of Rated Notes entitled thereto) save for the Subordinated Notes and all amounts payable in priority thereto pursuant to the Priorities of Payments (subject to any election to receive less than 100 per cent. of Redemption Price) on such Redemption Date when applied in accordance with the Post-Acceleration Priority of Payments.

In the case of a Refinancing upon a redemption of the Rated Notes in part by Class (or, in relation to the Class A Notes, the redemption in whole of the Class A-1 Notes and/or Class A-2 Notes), such Refinancing will only be effective if certain conditions are satisfied, including but not limited to: (i) any redemption of a Class of Notes is a redemption of the entire Class (or, in relation to the Class A Notes, the redemption in whole of the Class A-1 Notes and/or Class A-2 Notes) which is subject to the redemption and (ii) the sum of (A) the Refinancing Proceeds and (B) the amount of Interest Proceeds standing to the credit of the Interest Account in excess of the aggregate amount of Interest Proceeds which would be applied in accordance with the Interest Proceeds Priority of Payments prior to paying any amount in respect of the Subordinated Notes will be at least sufficient to pay the aggregate Redemption Prices of the entire Class or Classes of Rated Notes subject to the Optional Redemption in full and all accrued and unpaid Trustee Fees and Expenses and Administrative Expenses in connection with such Refinancing in full. See Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*).

The Trust Deed provides that the holders of the Subordinated Notes will not have any cause of action against any of the Issuer, the Investment Manager, the Collateral Administrator, the Initial Purchaser or the Trustee for any failure to obtain a Refinancing (including as a result of the Investment Manager determining in its sole discretion not to provide its consent thereto). In particular, there can be no assurance that the Subordinated Noteholders or the Retention Holder will be able to exercise their right to redeem the Rated Notes as described above since in both cases the consent of the Investment Manager is required in accordance with Condition 7(b)(i) (*Optional Redemption in Whole - Subordinated Noteholders or Retention Holder subject to consent of Investment Manager*). If a Refinancing is obtained meeting the requirements of the Trust Deed, the Issuer may amend the Trust Deed and the Trustee shall concur with such amendments to the Trust Deed to the extent the Issuer certifies to the Trustee that such amendments are necessary to reflect the terms of the Refinancing and no further consent for such amendments shall be required from the holders of the Subordinated Notes. No assurance can be given that any such amendments to the Trust Deed or the terms of any Refinancing will not adversely affect the holders of any Class or Classes of Notes not subject to redemption (or, in the case of the Subordinated Notes, the holders of the Subordinated Notes who do not direct such redemption).

The Subordinated Notes may be redeemed at their Redemption Price, in whole but not in part, on any Business Day on or after the redemption or repayment in full of the Rated Notes, at the written direction of either of (x) the Subordinated Noteholders (acting by Extraordinary Resolution), (y) the Investment Manager or (z) the Retention Holder.

The Investment Manager or the Retention Holder may also cause the Issuer to redeem the Rated Notes in whole from Sale Proceeds on any Payment Date falling on or after the expiry of the Non-Call Period, if the Aggregate Collateral Balance is less than 15 per cent. of the Target Par Amount.

In the event of an early redemption, the holders of the Notes will be repaid prior to the Maturity Date. Where the Notes are to be redeemed by liquidation, there can be no assurance that the Sale Proceeds realised and other available funds would permit any distribution on the Subordinated Notes after all required payments are made to the holders of the Rated Notes. In addition, an Optional Redemption could require the Investment Manager to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the realised value of the Collateral Debt Obligations sold.

The Notes are Subject to Special Redemption at the Option of the Investment Manager

The Notes will be subject to redemption in part by the Issuer on any Payment Date during the Reinvestment Period if the Investment Manager in its sole discretion certifies to the Trustee that it has been unable, for a period of at least 20 consecutive Business Days, to identify additional Collateral Debt Obligations that are deemed appropriate by the Investment Manager in its sole discretion and which would meet the Eligibility Criteria and whose acquisition by the Issuer would be in compliance with, to the extent applicable, the Reinvestment Criteria in sufficient amounts to permit the investment or reinvestment of all or a portion of the funds then in the Principal Account to be invested in additional Collateral Debt Obligations. On the Special Redemption Date, the Special Redemption Amount will be applied in accordance with the Priorities of Payments. The application of funds in that manner could result in an elimination, deferral or reduction of amounts available to make payments with respect to the Subordinated Notes.

Mandatory Redemption

Certain mandatory redemption arrangements may result in an elimination, deferral or reduction in the interest payments or principal repayments made to the Class C Noteholders, the Class D Noteholders, the Class E Noteholders and the Class F Noteholders or the level of the residual returns to the Subordinated Noteholders, including in relation to the breach of any of the Coverage Tests. See Condition 7(c) (*Mandatory Redemption upon Breach of Coverage Tests*).

The Reinvestment Period may Terminate Early

The Reinvestment Period may terminate early if any of the following occur: (a) acceleration following an Event of Default or (b) the Investment Manager notifies the Issuer that it is unable to invest in additional Collateral Debt Obligations in accordance with the Investment Management Agreement. Early termination of the Reinvestment Period could adversely affect returns to the Subordinated Noteholders and may also cause the holders of Rated Notes to receive principal payments earlier than anticipated.

The Investment Manager May Reinvest After the End of the Reinvestment Period

After the end of the Reinvestment Period, the Investment Manager may still reinvest Unscheduled Principal Proceeds received with respect to the Collateral Debt Obligations and the Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations, subject to certain conditions set forth in the Trust Deed and the Investment Management Agreement. See "*The Portfolio - Reinvestment of Collateral Debt Obligations – Following the Expiry of the Reinvestment Period*" below.

Certain Actions May Prevent the Failure of Coverage Tests and an Event of Default

Investors should note that, pursuant to the Transaction Documents and subject to certain conditions specified therein:

- (a) the Issuer may issue additional Notes and apply the net proceeds to acquire Collateral Debt Obligations or (in the case of a further issuance of Subordinated Notes) apply such net proceeds as Interest Proceeds (see Condition 17 (*Additional Issuances*)); and/or
- (b) the Investment Manager may, pursuant to the Priorities of Payments, apply funds by either deferring or designating for reinvestment in Collateral Debt Obligations all or a portion of the Investment Management Fees that would otherwise have been payable to it (see the Priorities of Payments).

Any such action could result in satisfaction of a Coverage Test that would otherwise be failing and therefore potentially decrease the occurrence of principal prepayments of the highest ranking Class of Notes. Likewise, any such action could prevent an Event of Default which would otherwise have occurred and therefore potentially result in the Notes continuing to be outstanding in circumstances where the Controlling Class may otherwise have had the right to direct the Trustee to accelerate the Notes. Consequentially, the average life of the Notes may be longer than it would otherwise be (see "*Average Life and Prepayment Considerations*" below).

Additional Issuances of Subordinated Notes not subject to Anti-Dilution Rights or Noteholder approval

The Issuer may issue and sell additional Notes (other than the Class X Notes), subject to the satisfaction of a number of conditions, including but not limited to the consent of (i) the Retention Holder (ii) the Investment Manager and (iii) the Subordinated Noteholders acting by way of Ordinary Resolution. However, the consent of the Class A Noteholders and the Subordinated Noteholders to any additional issuance of Subordinated Notes if such issuance is required in order to prevent or cure a Retention Deficiency for any reason shall not be required. In addition, the holders of the relevant Class of Notes in respect of which further Notes are issued shall be afforded the opportunity to purchase additional Notes of the relevant Class in an amount not to exceed the percentage of the relevant Class of Notes each holder held immediately prior to the issuance of such additional Notes. However, this requirement does not apply to any additional issuance of Subordinated Notes if such issuance is required in order to prevent or cure a Retention Deficiency for any reason. Further, the Retention Holder may, acting in a commercially reasonable manner and subject to the prior written consent of the Investment Manager, instruct the Issuer to issue and sell additional Subordinated Notes to prevent or

cure a Retention Deficiency for any reason. Accordingly, the proportion of Subordinated Notes held by a Subordinated Noteholder may be diluted following an additional issuance of Subordinated Notes. See Condition 17 (*Additional Issuances*).

Limited Recourse Obligations

The Notes are limited recourse obligations of the Issuer and are payable solely from amounts received in respect of the Collateral securing the Notes. Payments on the Notes both prior to and following enforcement of the security over the Collateral are subordinated to the prior payment of certain fees and expenses of, or payable by, the Issuer and to payment of principal and interest on prior ranking Classes of Notes. See Condition 4(c) (*Limited Recourse and Non-Petition*). None of the Investment Manager, the Noteholders of any Class, the Initial Purchaser, the Retention Holder, the Trustee, the Collateral Administrator, the Custodian, any Agent, any Hedge Counterparty or any Affiliates of any of the foregoing or the Issuer's Affiliates or any other person or entity (other than the Issuer) will be obliged to make payments on the Notes of any Class. Consequently, Noteholders must rely solely on distributions on the Collateral Debt Obligations and other Collateral securing the Notes for the payment of principal, discount, interest and premium, if any, thereon. There can be no assurance that the distributions on the Collateral Debt Obligations and other Collateral securing the Notes will be sufficient to make payments on any Class of Notes after making payments on more senior Classes of Notes and certain other required amounts to other creditors ranking senior to or *pari passu* with such Class pursuant to the Priorities of Payments. If distributions on the Collateral are insufficient to make payments on the Notes, no other assets (and, in particular, no assets of the Investment Manager, the Noteholders, the Initial Purchaser, the Retention Holder, the Trustee, the Collateral Administrator, the Custodian, any Agent, any Hedge Counterparty or any Affiliates of any of the foregoing) will be available for payment of the deficiency and following realisation of the Collateral and the application of the proceeds thereof in accordance with the Priorities of Payments, the obligations of the Issuer to pay such deficiency shall be extinguished. Such shortfall will be borne (as amongst the Noteholders) by (a) firstly, the Subordinated Noteholders; (b) secondly, the Class F Noteholders; (c) thirdly, the Class E Noteholders; (d) fourthly, the Class D Noteholders; (e) fifthly, the Class C Noteholders; (f) sixthly, the Class B Noteholders and (g) lastly, the Class X Noteholders and the Class A Noteholders, in each case in accordance with the Priorities of Payments.

In addition, at any time while the Notes are Outstanding, none of the Noteholders nor the Trustee nor any other Secured Party (nor any other person acting on behalf of any of them) shall be entitled at any time to institute against the Issuer or any Blocker Subsidiary, or join in any institution against the Issuer or any Blocker Subsidiary of, any bankruptcy, reorganisation, arrangement, insolvency, examinership, winding up or liquidation proceedings or other proceedings under any applicable bankruptcy or similar law in connection with any obligations of the Issuer relating to the Notes, the Trust Deed or otherwise owed to the Noteholders, save for lodging a claim in the liquidation of the Issuer or any Blocker Subsidiary which is initiated by another party (which is not an Affiliate of such party) or taking proceedings to obtain a declaration as to the obligations of the Issuer nor shall any of them have a claim arising in respect of the share capital of the Issuer or any Blocker Subsidiary.

Failure of a Court to Enforce Non-Petition Obligations will Adversely Affect Noteholders

Each Noteholder will agree, and each beneficial owner of Notes will be deemed to agree, pursuant to the Trust Deed, that it will be subject to non-petition covenants. If such provision failed to be enforceable under applicable bankruptcy laws, and a winding-up petition was presented in respect of the Issuer, then the presentation of such a petition could (subject to certain conditions) result in one or more payments on the Notes made during the period prior to such presentation being deemed to be preferential transfers subject to avoidance by the bankruptcy trustee or similar official exercising authority with respect to the Issuer's bankruptcy estate. It could also result in the bankruptcy court, trustee or receiver liquidating the assets of the Issuer without regard to any votes or directions required for such liquidation pursuant to the Trust Deed and could also result in any payments on the Notes

made during the period prior to such presentation being deemed to be a fraudulent or improper disposition of the Issuer's assets.

Subordination of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes

Subject to the distribution of Collateral Enhancement Obligation Proceeds pursuant to the Collateral Enhancement Obligation Proceeds Priority of Payments described below, the Class B Notes are fully subordinated to the Class X Notes and the Class A Notes, the Class C Notes are fully subordinated to the Class X Notes, the Class A Notes and the Class B Notes, the Class D Notes are fully subordinated to the Class X Notes, the Class A Notes, the Class B Notes and the Class C Notes, the Class E Notes are fully subordinated to the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, the Class F Notes are fully subordinated to the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, and the Subordinated Notes are fully subordinated to the Rated Notes.

Subject to the distribution of Collateral Enhancement Obligation Proceeds pursuant to the Collateral Enhancement Obligation Proceeds Priority of Payments described below, the payment of principal and interest on any other Classes of Notes may not be made until all payments of principal and interest due and payable on any Classes of Notes ranking in priority thereto pursuant to the Priorities of Payments have been made in full. Residual payments on the Subordinated Notes will be made by the Issuer to the extent of available funds and no payments thereon will be made until the payment of certain fees and expenses have been made and until interest on the Rated Notes has been paid and, subject always to the right of the Investment Manager on behalf of the Issuer to transfer residual amounts which would have been payable on the Subordinated Notes to the Collateral Enhancement Account to be applied in the acquisition of Substitute Collateral Debt Obligations or in the acquisition or exercise of rights under Collateral Enhancement Obligations and the requirement to transfer amounts to the Principal Account if the Reinvestment Overcollateralisation Test is not met during the Reinvestment Period. Notwithstanding the above, Collateral Enhancement Obligation Proceeds may be distributed to the Subordinated Noteholders pursuant to the Collateral Enhancement Proceeds Priority of Payments on a Payment Date on which scheduled interest on the Rated Notes is not paid in full.

Non-payment of any Interest Amount due and payable in respect of: (i) the Class X Notes, the Class A Notes or the Class B Notes; or (ii) the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes (in each case to the extent that the relevant Class is the most senior Class of Notes Outstanding), on any Payment Date, will constitute an Event of Default pursuant to Condition 10(a)(i) (*Non-payment of interest*) (where such non-payment continues for a period of at least five Business Days or 10 Business Days in the case of an administrative error or omission). In such circumstances, the Controlling Class, acting by Ordinary Resolution, may request the Trustee to accelerate the Notes pursuant to Condition 10 (*Events of Default*).

In the event of any acceleration of the Controlling Class, each other Class of Notes will also be subject to automatic acceleration and, upon enforcement of the security over the Collateral, the Collateral will be liquidated. Liquidation of the Collateral at such time or remedies pursued by the Trustee upon enforcement of the security over the Collateral could be adverse to the interests of the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders or the Subordinated Noteholders, as the case may be. To the extent that any losses are incurred by the Issuer in respect of any Collateral, such losses will be borne first by the Subordinated Noteholders, then by the Class F Noteholders, then by the Class E Noteholders, then by the Class D Noteholders, then by the Class C Noteholders, then by the Class B Noteholders and, finally by the Class X Noteholders and the Class A Noteholders. Remedies pursued on behalf of the Class X Noteholders and the Class A Noteholders could be adverse to the interests of the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class B

Noteholders could be adverse to the interests of the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class C Noteholders could be adverse to the interests of the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class D Noteholders could be adverse to the interests of the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class E Noteholders could be adverse to the interests of the Class F Noteholders and Subordinated Noteholders. Remedies pursued on behalf of the Class F Noteholders could be adverse to the interests of the Subordinated Noteholders.

The Trust Deed provides that in the event of any conflict of interest among or between the Class X Noteholders and the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, the interests of the Controlling Class will prevail. If the holders of the Controlling Class do not have an interest in the outcome of the conflict, the Trustee shall give priority to the interests of the most senior Class of Notes Outstanding. If the Trustee shall receive conflicting or inconsistent requests from two or more groups of holders of the Controlling Class (or another Class is given priority as described in this paragraph), the Trustee shall give priority to the group which holds the greater amount of Notes Outstanding of such Class. The Trust Deed provides further that the Trustee will act upon the directions of the holders of the Controlling Class (or other Class given priority as described in this paragraph) in such circumstances, and shall not be obliged to consider the interests of the holders of any other Class of Notes. See Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*).

Amount and Timing of Payments

To the extent that interest payments on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes are not made on a relevant Payment Date, such unpaid interest amounts will be deferred and the amount thereof added to the principal amount Outstanding of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes, as the case may be, and earn interest at the interest rate applicable to such Notes. Any failure to pay, at any time, scheduled interest on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes, or to pay residual interest and principal distributions on the Subordinated Notes, due to there being insufficient funds available to pay such interest in accordance with the applicable Priority of Payments, will not be an Event of Default pursuant to Condition 10(a)(i) (*Non-payment of interest*) unless such Class is the most senior Class of Notes Outstanding. Payments of residual interest and principal distributions on the Subordinated Notes will only be made to the extent that there are Interest Proceeds, Principal Proceeds and Collateral Enhancement Obligation Proceeds available for such purpose in accordance with the Priorities of Payments. No residual interest or principal distributions may therefore be payable on the Subordinated Notes for an unlimited period of time, to maturity or at all.

Investment in the Notes of any Class involves a degree of risk arising from fluctuations in the amount and timing of receipt of the principal and interest on the Collateral Debt Obligations by or on behalf of the Issuer and the amounts of the claims of creditors of the Issuer ranking in priority to the holders of each Class of the Notes. In particular, prospective purchasers of such Notes should be aware that the amount and timing of payment of the principal and interest on the Collateral Debt Obligations will depend upon the detailed terms of the documentation relating to each of the Collateral Debt Obligations and on whether or not any Obligor thereunder defaults in its obligations.

Reports Provided by the Collateral Administrator Will Not Be Audited

The monthly reports made available to Noteholders will be compiled by the Collateral Administrator, on behalf of the Issuer, in consultation with and based on certain information provided to it by the Investment Manager. Information in the reports will not be audited nor will reports include a review or opinion by a public accounting firm.

Ratings of the Notes Not Assured and Limited in Scope

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal by any Rating Agency at any time. Credit ratings represent a rating agency's opinion regarding the credit quality of an asset but are not a guarantee of such quality. There is no assurance that a rating accorded to any of the Notes will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a Rating Agency if, in its judgement, circumstances in the future so warrant. If a rating initially assigned to any of the Notes is subsequently lowered for any reason, no person or entity is required to provide any additional support or credit enhancement with respect to any such Notes and the market value of such Notes is likely to be adversely affected.

Prospective investors in the Notes should be aware that as a result of the recent economic events, Rating Agencies have undertaken extensive reviews of their rating methodology and criteria used to rate notes issued as part of CLO transactions. This could impact on the ratings assigned to the Notes after the Issue Date and potentially result in the downgrade or withdrawal thereof following the Issue Date.

The Rating Agencies may change their published ratings criteria or methodologies for securities such as the Rated Notes at any time in the future. Further, the Rating Agencies may retroactively apply any new standards to the ratings of the Rated Notes. Any such action could result in a substantial lowering (or even withdrawal) of any rating assigned to any Rated Note, despite the fact that such Rated Note might still be performing fully to the specifications set forth for such Rated Note in this Prospectus and the Transaction Documents. The rating assigned to any Rated Note may also be lowered following the occurrence of an event or circumstance despite the fact that the related Rating Agency previously provided confirmation that such occurrence would not result in the rating of such Rated Note being lowered. Additionally, any Rating Agency may, at any time and without any change in its published ratings criteria or methodology, lower or withdraw any rating assigned by it to any Class of Rated Notes. If any rating initially assigned to any Note is subsequently lowered or withdrawn for any reason, holders of the Notes may not be able to resell their Notes without a substantial discount. Any reduction or withdrawal to the ratings on any Class of Rated Notes may significantly reduce the liquidity of the Notes and may adversely affect the Issuer's ability to make certain changes to the composition of the Collateral.

Rating Agencies May Refuse to Give Rating Agency Confirmations

Historically, many actions by issuers of collateralised loan obligation vehicles (including but not limited to issuing additional securities and amending relevant agreements) have been conditioned on receipt of confirmation from the applicable rating agencies that such action would not cause the ratings on the applicable securities to be reduced or withdrawn. Recently, certain rating agencies have changed the manner and the circumstances under which they are willing to provide such confirmation and have indicated reluctance to provide confirmation in the future, regardless of the requirements of the Trust Deed and the other Transaction Documents. If the Transaction Documents require that written confirmation from a Rating Agency be obtained before certain actions may be taken and if an applicable Rating Agency is unwilling to provide the required confirmation, it may be impossible to effect such action, which could result in losses being realised by the Issuer and, indirectly, by holders of the Notes.

If a Rating Agency announces or informs the Trustee, the Investment Manager or the Issuer that confirmation from such Rating Agency is not required for a certain action, that it is declining to review the effect of such action, or that its practice is to not give such confirmations for certain types of actions, the requirement for confirmation from such Rating Agency will not apply. Further, in connection with the Effective Date, if either Rating Agency has not yet confirmed its initial ratings of the applicable Rated Notes or, in the case of Moody's, it has not been deemed to have provided such confirmation, the applicable Rated Notes will be subject to redemption in part in an amount and in the

manner described under Condition 7(e) (*Redemption upon Effective Date Rating Event*). There can be no assurance that a Rating Agency will provide such rating confirmations upon request, regardless of the terms agreed to among transaction participants, or not subsequently withdraw or downgrade its ratings on one or more Classes of Rated Notes, which could materially adversely affect the value of liquidity of the Notes.

Requirements imposed on Rating Agencies could result in withdrawal of ratings if certain actions are not taken

Rule 17g-5 under the Exchange Act requires each rating agency providing a rating of a structured finance product (such as this transaction) paid for by the "arranger" (defined as the issuer, the underwriter or the sponsor) to obtain an undertaking from the arranger to (i) create a password protected website, (ii) post on that website all information provided to the rating agency in connection with the initial rating of any Class of Rated Notes and all information provided to the rating agency in connection with the surveillance of such rating, in each case, contemporaneous with the provision of such information to the applicable rating agency and (iii) provide access to such website to other rating agencies that have made certain certifications to the arranger regarding their use of the information. In this transaction, the "arranger" is the Issuer.

Each Rating Agency must be able to reasonably rely on the arranger's certifications. If the arranger does not comply with its undertakings to any Rating Agency with respect to this transaction, such Rating Agency may withdraw its ratings of the Rated Notes. In such case, the withdrawal of ratings by any Rating Agency may adversely affect the price or transferability of the Rated Notes and may adversely affect any beneficial owner that relies on ratings of securities for regulatory or other compliance purposes.

Under Rule 17g-5, rating agencies providing the requisite certifications described above may issue unsolicited ratings of the Rated Notes which may be lower and, in some cases, significantly lower than the ratings provided by the Rating Agencies. The unsolicited ratings may be issued prior to, on or after the Issue Date and will not be reflected herein. Issuance of any unsolicited rating will not affect the issuance of the Notes. A rating agency who has reviewed the transaction may have a fundamentally different methodology or approach to or opinion of the structure or the nature or quality of all or some of the underlying Collateral Debt Obligations which may result in a view or rating which differs significantly from the ratings assigned by the Rating Agencies. Such unsolicited ratings could have a material adverse effect on the price and liquidity of the Rated Notes and, for regulated entities, could adversely affect the value of the Rated Notes as an investment or the capital treatment of the Rated Notes.

The SEC may determine that one or both of the Rating Agencies no longer qualifies as a nationally recognised statistical rating organisation for purposes of the federal securities laws and that determination may also have an adverse effect on the market prices and liquidity of the Rated Notes.

Average Life and Prepayment Considerations

The Maturity Date of the Notes is the Payment Date falling on or about 15 April 2030 (subject to adjustment for non-Business Days); however, the principal of the Notes of each Class is expected to be repaid in full prior to the Maturity Date. Average life refers to the average amount of time that will elapse from the date of delivery of a Note until each Euro of the principal of such Note will be paid to the investor. The average lives of the Notes will be determined by the amount and frequency of principal payments, which are dependent upon, among other things, the amount of payments received at or in advance of the scheduled maturity of the Collateral Debt Obligations (whether through sale, maturity, redemption, default or other liquidation or disposition). The actual average lives and actual maturities of the Notes will be affected by the financial condition of the obligors of the underlying Collateral Debt Obligations and the characteristics of such loans, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the

redemption price, the actual default rate, the actual level of recoveries on any Defaulted Obligations and the timing of defaults and recoveries, and the frequency of tender or exchange offers for such Collateral Debt Obligations. Collateral Debt Obligations may be subject to optional prepayment by the Obligor of such loans. Any disposition of a Collateral Debt Obligation may change the composition and characteristics of the Collateral Debt Obligations and the rate of payment thereon and, accordingly, may affect the actual average lives of the Notes. The rate of and timing of future defaults and the amount and timing of any cash realisation from Defaulted Obligations will also affect the maturity and average lives of the Notes.

Projections, forecasts and estimates are forward looking statements and are inherently uncertain

Estimates of the average lives of the Notes, together with any projections, forecasts and estimates provided to prospective purchasers of the Notes, are forward-looking statements. Projections are necessarily speculative in nature, and it should be expected that some or all of the assumptions underlying the projections will not materialise or will vary significantly from actual results. Accordingly, actual results will vary from the projections, and such variations may be material. Some important factors that could cause actual results to differ materially from those in any forward-looking statements include changes in interest rates, exchange rates and default and recovery rates; market, financial or legal uncertainties; the timing of acquisitions of Collateral Debt Obligations; differences in the actual allocation of Collateral Debt Obligations among asset categories from those assumed; mismatches between the time of accrual and receipt of Interest Proceeds from the Collateral Debt Obligations. None of the Issuer, the Investment Manager, the Trustee, the Initial Purchaser, the Collateral Administrator or any other party to this transaction or any of their respective Affiliates has any obligation to update or otherwise revise any projections, forecasts or estimates, including any revisions to reflect changes in economic conditions or other circumstances arising after the date of this Prospectus or to reflect the occurrence of unanticipated events.

Volatility of the Subordinated Notes

The Subordinated Notes represent a leveraged investment in the underlying Collateral Debt Obligations. Accordingly, it is expected that changes in the market value of the Subordinated Notes will be greater than changes in the market value of the underlying Collateral Debt Obligations, which themselves are subject to credit, liquidity, interest rate and other risks. Utilisation of leverage is a speculative investment technique and involves certain risks to investors and will generally magnify the Subordinated Noteholders' opportunities for gain and risk of loss. In certain scenarios, the Notes may not be paid in full, and the Subordinated Notes and one or more Classes of Rated Notes may be subject to a partial or a complete loss of invested capital. The Subordinated Notes represent the most junior securities in a leveraged capital structure. As a result, any deterioration in performance of the asset portfolio, including defaults and losses, a reduction of realised yield or other factors, will be borne first by holders of the Subordinated Notes, and then by the holders of the Rated Notes in reverse order of seniority.

In addition, the failure to meet certain Coverage Tests or the Reinvestment Overcollateralisation Test will result in cash flow that may have been otherwise available for distribution to the Subordinated Notes, to pay interest on one or more subordinate Classes of Rated Notes or for reinvestment in Collateral Debt Obligations being applied on the next Payment Date to make principal payments on the more senior classes of Rated Notes until such Coverage Tests or the Reinvestment Overcollateralisation Test have been satisfied. This feature will likely reduce the return on the Subordinated Notes and/or one or more subordinate Classes of Rated Notes and cause temporary or permanent suspension of distributions to the Subordinated Notes and/or one or more subordinate Classes of Rated Notes. See "*Mandatory Redemption*" above.

Issuer expenses (including management fees) are generally based on a percentage of the total asset portfolio of the Issuer, including the assets obtained through the use of leverage. Given the leveraged capital structure of the Issuer, expenses attributable to any particular Class of Notes will be higher because such expenses will be based on total assets of the Issuer.

A decrease in EURIBOR will lower the interest payable on the Floating Rate Notes and an increase in EURIBOR may indirectly reduce the credit support to the Notes

The Floating Rate Notes accrue interest based on EURIBOR. On the Issue Date, the Floating Rate Notes will accrue interest at a rate based on three month EURIBOR. For any Accrual Period during which a Frequency Switch Event occurs and for each Accrual Period following such Frequency Switch Event, the Floating Rate Notes will accrue interest at a rate based on six month EURIBOR, provided that if a Frequency Switch Event occurs during an Accrual Period, the Floating Rate Notes will accrue interest at a rate based on six month EURIBOR from the Interest Determination Date immediately prior to such Frequency Switch Event.

The interest rate may fluctuate from one Accrual Period to another in response to changes in EURIBOR. The Subordinated Notes do not bear a stated rate of interest. EURIBOR has, in the past, experienced high volatility and significant fluctuations. It is possible that EURIBOR will continue to fluctuate and none of the Issuer, the Collateral Administrator, the Investment Manager, the Initial Purchaser or any of their respective Affiliates make any representation as to the level of EURIBOR in the future. Because the Floating Rate Notes bear interest based upon three month EURIBOR, or six month EURIBOR following Frequency Switch Event, as described in Condition 6(e)(i) (*Floating Rate of Interest*), there may be a basis mismatch between the Floating Rate Notes and the underlying Collateral with interest rates based on an index other than EURIBOR, interest rates based on EURIBOR for a different period of time or even three month or six month EURIBOR for a different accrual period. In addition, not more than 5.0 per cent. of the Aggregate Collateral Balance shall consist of obligations which are Fixed Rate Collateral Debt Obligations. It is possible that EURIBOR payable on the Floating Rate Notes may rise (or fall) during periods in which EURIBOR (or another applicable index) with respect to the various Collateral is stable or falling (or rising but capped at a level lower than EURIBOR for the Floating Rate Notes). No assurance can be made that the portion of Floating Rate Collateral Debt Obligations of the Issuer that bear interest based on indices other than EURIBOR will not increase in the future. Some Collateral Debt Obligations, however, may have EURIBOR floor arrangements that may help mitigate this risk, but there is no requirement for any Collateral Debt Obligation to have a EURIBOR floor and there is no guarantee that any such EURIBOR floor will fully mitigate the risk of falling EURIBOR. If EURIBOR payable on the Floating Rate Notes rises during periods in which EURIBOR (or another applicable index) with respect to the various Collateral Debt Obligations and Eligible Investments is stable or during periods in which the Issuer owns assets forming part of the Collateral bearing interest at a fixed rate, is falling or is rising but is capped at a lower level, "excess spread" (i.e., the difference between the interest collected on the Collateral and the sum of the interest payable on the Floating Rate Notes and certain transaction fees payable by the Issuer) that otherwise would be available as credit support may instead be used to pay interest on the Floating Rate Notes.

In circumstances where, following the occurrence of a Frequency Switch Event, the Payment Dates have become 15 April and 15 October each year (in accordance with the definition of "Payment Date"), the final Accrual Period prior to the Maturity Date will be a three month period, and the EURIBOR rate applicable to this final Accrual Period will be three month EURIBOR. As a result, depending on the difference between the offered rate for three month EURIBOR and the offered rate for six month EURIBOR, interest accrued during this final Accrual Period may be higher or lower than a three month Accrual Period to which six month EURIBOR was applicable.

There may also be a timing mismatch between the Floating Rate Notes and the underlying Collateral Debt Obligations as EURIBOR (or other applicable index) on such Collateral Debt Obligations may

adjust more frequently or less frequently, on different dates than EURIBOR on the Floating Rate Notes. Such a mismatch could result in the Issuer not collecting sufficient Interest Proceeds to make interest payments on the Floating Rate Notes. In addition to Interest Smoothing, as further described herein, the Issuer may or may not enter into interest rate swap transactions to hedge any interest rate or timing mismatch. To the extent described herein, the Issuer may enter into Hedge Agreements to reduce the effect of any such interest rate mismatch. The Investment Manager shall only cause the Issuer to enter into Hedge Agreements that either (i) satisfy the Hedge Agreement Eligibility Criteria at the time such Hedge Agreements are entered into; or (ii) in respect of which, the Issuer obtains legal advice of U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that such arrangements will not (x) cause the Issuer or the Investment Manager to be required to register as a CPO and/or a CTA with the CFTC with respect to the Issuer or (y) eliminate the Issuer's ability to rely on Rule 3a-7 under the Investment Company Act, unless and until the Issuer is no longer able to rely on, or elects not to rely on, the exclusion from registration under the Investment Company Act provided by Rule 3a-7. In addition, the Issuer will not acquire (whether by purchase or substitution) or dispose of a Collateral Debt Obligation unless the Portfolio Acquisition and Disposition Requirements are satisfied which includes a requirement that a Collateral Debt Obligation is not being acquired or disposed of for the primary purpose of recognising gains or decreasing losses resulting from market value changes; provided that, on any date, subject to the satisfaction as of such date of (x) the Regulatory Change Condition (which applies if the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the SEC or its staff) or (y) the Opt Out Condition, the Issuer (or the Investment Manager on its behalf) may elect (by written notice from the Issuer (or the Investment Manager, acting on behalf of the Issuer) to the Collateral Administrator and the Trustee) not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act in accordance with this paragraph, in which case, at all times thereafter, there will be no Portfolio Acquisition and Disposition Requirements and all references to such requirements in the Transaction Documents shall no longer be in effect. Notwithstanding any other provisions in the Transaction Documents, unless and until the Issuer (or the Investment Manager on its behalf) is no longer able to rely on, or elects not to rely on, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer will be subject to the requirements of Rule 3a-7, which provide that any issuer who is engaged in the business of purchasing, or otherwise acquiring and holding Eligible Assets (and in activities related or incidental thereto), and who does not issue redeemable securities will not be deemed to be an investment company for purposes of the Investment Company Act; provided that the conditions specified under Rule 3a-7 (including, among other things, the Portfolio Acquisition and Disposition Requirements) are met. For further details see "*Hedging Arrangements*".

Even if the Issuer were to enter into one or more Hedge Agreements, there can be no assurance that the Collateral Debt Obligations and the Eligible Investments will in all circumstances generate sufficient Interest Proceeds to make timely payments of interest on the Rated Notes and to make residual distributions to the holders of the Subordinated Notes, nor that the Hedge Agreements will ensure any particular return on any such Notes.

Interest Rate Mismatch

In addition, some Collateral Debt Obligations may permit the Obligor to re-set the interest period applicable to it from quarterly to semi-annual and vice versa. Interest Amounts are due and payable in respect of the Rated Notes on a semi-annual basis following a Frequency Switch Event and on a quarterly basis prior to a Frequency Switch Event. If a significant number of Collateral Debt Obligations re-set to semi-annual interest payments there may be insufficient Interest Proceeds received to make quarterly interest payments on the Rated Notes. In order to mitigate the effects of any such timing mismatch, the Issuer shall hold back a portion of the interest received on Collateral Debt

Obligations which pay interest less frequently than quarterly in order to make quarterly payments of interest on the Rated Notes ("**Interest Smoothing**") (on each Payment Date prior to the occurrence of a Frequency Switch Event). There can be no assurance that Interest Smoothing shall be sufficient to mitigate any timing mismatch.

There can be no assurance that the Collateral Debt Obligations and Eligible Investments securing the Notes will in all circumstances generate sufficient Interest Proceeds to make timely payments of interest on the Rated Notes or that any particular levels of return will be generated on the Subordinated Notes.

Net Proceeds less than Aggregate Amount of the Notes

It is anticipated that the net proceeds received by the Issuer on the Issue Date from the issuance of the Notes will be less than the aggregate Principal Amount Outstanding of the Notes. Consequently, it is anticipated that on the Issue Date the Collateral would be insufficient to redeem the Notes upon the occurrence of an Event of Default on or about that date.

Security

Clearing Systems: Collateral Debt Obligations or other assets forming part of the Collateral which are in the form of securities (if any) will be held by the Custodian on behalf of the Issuer pursuant to the Agency Agreement. The Custodian (or its nominee) will hold such assets which can be cleared through Euroclear in an account with Euroclear (the "**Euroclear Account**") unless the Trustee otherwise consents and will hold the other securities comprising the Portfolio which cannot be so cleared through its accounts with Clearstream, Luxembourg and The Depository Trust Company ("**DTC**"), as appropriate. Those assets held in clearing systems will not be held in special purpose accounts and will be fungible with other securities from the same issue held in the same accounts on behalf of the other customers of the Custodian. A first fixed charge over the Portfolio will be created under English law pursuant to the Trust Deed on the Issue Date which will, in relation to the Collateral Debt Obligations that are held through the Custodian, take effect as a security interest over (i) the beneficial interest of the Issuer in its share of the pool of securities fungible with the relevant Collateral Debt Obligations held in the accounts of the Custodian on trust for the Issuer and (ii) the Issuer's ancillary contractual rights against the Custodian in accordance with the terms of the Agency Agreement (as defined in the Conditions) which may expose the Secured Parties to the risk of loss in the case of a shortfall of such securities in the event of insolvency of the Custodian.

In addition, custody and clearance risks may be associated with Collateral Debt Obligations or other assets comprising the Portfolio which are securities that do not clear through DTC, Euroclear or Clearstream, Luxembourg. There is a risk, for example, that such securities could be counterfeit, or subject to a defect in title or claims to ownership by other parties, including custody liens imposed by standard custody terms at various stages in the chain of intermediary ownership of such Collateral Debt Obligations.

Any risk of loss arising from any insufficiency or ineffectiveness of the security for the Notes or the custody and clearance risks which may be associated with assets comprising the Portfolio will be borne by the Noteholders without recourse to the Issuer, the Initial Purchaser, the Trustee, the Investment Manager, the Collateral Administrator, the Custodian, the Hedge Counterparties or any other party.

Fixed Security

Although the security constituted by the Trust Deed over the Collateral held from time to time, including the security over the Accounts, is expressed to take effect as a fixed charge, it may (as a result of, among other things, the substitutions of Collateral Debt Obligations or Eligible Investments contemplated by the Investment Management Agreement and the payments to be made from the Accounts in accordance with the Conditions and the Trust Deed) take effect as a floating charge which,

in particular, would rank after a subsequently created fixed charge. However, the Issuer has covenanted in the Trust Deed not to create any such subsequent security interests (other than those permitted under the Trust Deed) without the consent of the Trustee.

Resolutions, Amendments and Waivers

The Conditions and the Trust Deed contain detailed provisions governing modification of the Conditions and the Transaction Documents and the convening of meetings and passing of Resolutions by the Noteholders. Certain key risks relating to these provisions are summarised below, however all of the following discussion is subject to the provision in Condition 14(b)(x) (*Retention Holder Veto*), that provided no Retention Event has occurred and is continuing, no modification nor any Resolution to approve the modification of the Eligibility Criteria, the Portfolio Profile Tests, the Collateral Quality Tests, the Reinvestment Criteria or any material changes to them (save for those that are made to ensure compliance with the EU Retention Requirements) will be effective without the consent in writing of the Retention Holder.

Decisions may be taken by Noteholders by way of Ordinary Resolution, or Extraordinary Resolution, in each case, either acting together or, to the extent specified in any applicable Transaction Document, as a Class of Noteholders acting independently. Such Resolutions can be effected either at a duly convened meeting of the applicable Noteholders or by the applicable Noteholders resolving in writing. Meetings of the Noteholders may be convened by the Issuer, the Trustee or by one or more Noteholders holding not less than 10 per cent. of the aggregate Principal Amount Outstanding of the Notes of a particular Class, subject to certain conditions including minimum notice periods.

The Trustee may, in its discretion, determine that any proposed Ordinary Resolution or Extraordinary Resolution affects only the holders of one or more Classes of Notes, in which case the required quorum and minimum percentage voting requirements of such Ordinary Resolution or Extraordinary Resolution may be determined by reference only to the holders of that Class or Classes of Notes.

If a meeting of Noteholders is called to consider a Resolution, determination as to whether the requisite number of Notes has been voted in favour of such Resolution will be determined by reference to the percentage which the Notes voted in favour represent of the total amount of Notes voted in respect of such Resolution and not the aggregate Principal Amount Outstanding of all such Notes held or represented by any person or persons entitled to vote at such meeting. This means that a lower percentage of Noteholders may pass a Resolution which is put to a meeting of Noteholders than would be required for a Written Resolution in respect of the same matter. There are however quorum provisions which provide that a minimum number of Noteholders representing a minimum amount of the aggregate Principal Amount Outstanding of the applicable Class or Classes of Notes be present at any meeting to consider an Extraordinary Resolution or an Ordinary Resolution. In the case of an Extraordinary Resolution, this is one or more persons holding or representing not less than 66⅔ per cent. of the aggregate Principal Amount Outstanding of each Class of Notes (or the relevant Class or Classes only, if applicable) and in the case of an Ordinary Resolution this is one or more persons holding or representing not less than 50 per cent. of the aggregate Principal Amount Outstanding of each Class of Notes (or the relevant Class or Classes only, if applicable). Such quorum provisions still, however, require considerably lower thresholds than would be required for a Written Resolution. In addition, if a quorum requirement is not satisfied at any meeting, lower quorum thresholds will apply at any meeting previously adjourned for want of quorum as set out in Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) and in the Trust Deed. An IM Removal Resolution may only be effected by either (a) the holders of the Controlling Class, acting independently by Extraordinary Resolution or (b) a Majority of each Class of Notes acting by way of Ordinary Resolution and passed by way of Written Resolution, in each case excluding the Class X Notes and the Class A-2 Notes. Consequently the meeting provisions for resolutions do not apply for the removal right of each Class of Notes. For purposes of this paragraph, "**Majority**" means the holders of more than 50 per cent. of the aggregate Principal Amount Outstanding of the Notes of any Class or Classes.

The Class X Notes and the Class A-2 Notes are disenfranchised in respect of any IM Removal Resolution or IM Replacement Resolution, meaning that, while the Class A Notes constitute the Controlling Class, the Class A-2 Noteholders will be bound by the decision of the Class A-1 Noteholders in respect of any IM Removal Resolution or IM Replacement Resolution and, to the extent an IM Removal Resolution is effected by a Majority of each Class of Notes, the Class X Noteholders and the Class A-2 Noteholders will be bound by the decision of each other Class.

Certain amendments and modifications may be made without the consent of Noteholders. See Condition 14(c) (*Modification and Waiver*). Such amendment or modification could be adverse to certain Noteholders.

Certain entrenched rights relating to the Terms and Conditions of the Notes including the currency thereof, Payment Dates applicable thereto, the Priorities of Payments, the provisions relating to quorums and the percentages of votes required for the passing of an Extraordinary Resolution, cannot be amended or waived by Ordinary Resolution but require an Extraordinary Resolution. It should however be noted that amendments may still be effected and waivers may still be granted in respect of such provisions in circumstances where not all Noteholders agree with the terms thereof and any amendments or waivers once passed in accordance with the provisions of the Terms and Conditions of the Notes and the provisions of the Trust Deed will be binding on all such dissenting Noteholders.

Each Hedge Counterparty may also need to be notified and its prior consent required to the extent provided for in the applicable Hedge Agreement in respect of a modification, amendment or supplement to any provision of a Transaction Document. The Hedge Agreements may allow a certain period for the relevant Hedge Counterparty to consider and respond to such a consent request. During such period and pending a response from the relevant Hedge Counterparty, the Issuer may not be able to make such modification, amendment or supplement, and therefore implementation thereof may be delayed. Further, any such consent, if withheld in accordance with the terms of the applicable Hedge Agreement, may prevent the Transaction Documents from being modified, amended or supplemented in a manner which may be beneficial to Noteholders.

In addition to the Trustee's right to agree to changes to the Transaction Documents to, among other things, correct a manifest error, or to changes which, in its opinion, are not materially prejudicial to the interests of the Noteholders of any Class without the consent of the Noteholders, the Trustee shall be obliged to consent to modifications and waivers granted in respect of certain other matters, subject, in certain instances, to certification or confirmation being given to the Trustee by the Issuer or the Investment Manager that such modifications and/or waivers to the Transaction Documents are required but without the consent of the Noteholders, as set out in Condition 14(c) (*Modification and Waiver*).

Concentrated Ownership of One or More Classes of Notes

If at any time one or more investors that are affiliated hold a majority of any Class of Notes, it may be more difficult for other investors to take certain actions that require consent of any such Classes of Notes without their consent. For example, optional redemption and the appointment of a successor investment manager involve the direction of holders of specified percentages of either or both of the Subordinated Notes and/or the Controlling Class.

Enforcement Rights Following an Event of Default

If an Event of Default occurs and is continuing, the Trustee may, at its discretion, and shall, at the request of the Controlling Class acting by way of Ordinary Resolution (subject, in each case, to being indemnified and/or secured and/or prefunded to its satisfaction), give notice to the Issuer and the Investment Manager that all the Notes are immediately due and repayable, provided that following the occurrence of an Event of Default described in Condition 10(a)(vi) (*Insolvency Proceedings*) or 10(a)(vii) (*Illegality*), such notice shall be deemed to have been given and all the Notes shall automatically become immediately due and repayable.

At any time after the Notes become due and repayable and the security under the Trust Deed becomes enforceable, the Trustee may, at its discretion, and shall, if so directed by the Controlling Class acting by Ordinary Resolution (subject, in each case, to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction), take Enforcement Action (as defined in the Conditions) in respect of the security over the Collateral provided that no such Enforcement Action may be taken by the Trustee unless: (A) it determines that the anticipated proceeds realised from such Enforcement Action (after deducting any expenses properly incurred in connection therewith) would be sufficient to discharge in full all amounts due and payable in respect of all Classes of Notes other than the Subordinated Notes (including, without limitation, Deferred Interest on the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes) and all amounts payable in priority to the Subordinated Notes pursuant to the Priorities of Payments; (B) otherwise, in the case of an Event of Default specified in subparagraphs (i) (*Non-payment of interest*), (ii) (*Non-payment of principal*) or (iv) (*Collateral Debt Obligations*) of Condition 10(a) (*Events of Default*) the Controlling Class acting by way of Ordinary Resolution (and no other Class of Notes) may direct the Trustee to take Enforcement Action without regard to any other Event of Default which has occurred prior to, contemporaneously or subsequent to such Event of Default; or (C) in the case of any other Event of Default, each Class of Rated Notes acting independently by way of Ordinary Resolution may direct the Trustee to take Enforcement Action (subject to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction).

The requirements described above could result in the Controlling Class being unable to procure enforcement of the security over the Collateral in circumstances in which they desire such enforcement and may also result in enforcement of such security in circumstances where the proceeds of liquidation thereof would be insufficient to ensure payment in full of all amounts due and payable in respect of the Notes in accordance with the Priorities of Payments and/or at a time when enforcement thereof may be adverse to the interests to certain Classes of Notes and, in particular, the Subordinated Notes.

In addition, whilst non-payment of interest on the Class B Notes within 5 Business Days (or 10 Business Days where such non-payment results from an administrative error) of it being so due and payable constitutes an Event of Default under the Notes, the holders of the Class B Notes will not be entitled to procure acceleration of the Notes or enforcement of the security over the Collateral at any time whilst any of the Class X Notes and the Class A Notes remain Outstanding. In the event of any such non-payment of interest on the Class B Notes and non-acceleration of the Notes or enforcement of the security over the Collateral, interest on the Class B Notes will not be deferred and will itself bear interest.

Certain ERISA Considerations

Under a regulation of the U.S. Department of Labor, if certain employee benefit plans or other retirement arrangements subject to the U.S. Employee Retirement Income Security Act of 1974, as amended, ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended, (the "**Code**") or entities whose underlying assets are treated as assets of such plans or arrangements (collectively, "**Plans**") invest in the Class E Notes, Class F Notes or the Subordinated Notes, the assets of the Issuer could be considered to be assets of such Plans and certain of the transactions contemplated under such Notes could be considered "prohibited transactions" under Section 406 of ERISA or Section 4975 of the Code. See the section of this Prospectus entitled "*Certain ERISA Considerations*" below.

Forced Transfer

Each holder of a Refinancing Note or a beneficial interest therein acquired in the initial issuance of the Refinancing Notes, by its acquisition of a Refinancing Note or a beneficial interest in a Refinancing Note, will be deemed to represent to the Issuer, the Trustee, the Registrar, the Transfer Agent, the Investment Manager and the Initial Purchaser that it (1) either (a) is not a Risk Retention U.S. Person or (b) it has received a U.S. Risk Retention Waiver from the Investment Manager, and (2) is not acquiring such Refinancing Note or a beneficial interest therein as part of a plan or scheme to evade the

requirements of section 15G of the Securities Exchange Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules.

The Trust Deed will provide that if, notwithstanding the restrictions on transfer contained therein (if applicable), the Issuer determines that (x) any purchaser in the initial syndication of this Offering of an interest in a Refinancing Note (i) (a) is a Risk Retention U.S. Person and (b) has not received a U.S. Risk Retention Waiver from the Investment Manager or (ii) acquired such Refinancing Notes or a beneficial interest therein as part of a plan or scheme to evade the requirements of section 15G of the Securities Exchange Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules or (y) a transfer of an interest in a Regulation S Refinancing Note is to a Risk Retention U.S. Person or to a transferee which otherwise requires such interest to be exchanged for an interest in a Rule 144A Refinancing Note at any time during the U.S. Risk Retention Restricted Period (each such a person under (x) or (y) above, a **"Non-Permitted Risk Retention U.S. Person"**), the Issuer shall, promptly after determination that such person is a Non-Permitted Risk Retention U.S. Person by the Issuer, send notice to such Non-Permitted Risk Retention U.S. Person demanding that such Noteholder immediately transfer its interest to a person that is not a Non-Permitted Risk Retention U.S. Person. If such Noteholder fails to effect the transfer (a) the Issuer, or the Investment Manager on its behalf, shall cause such beneficial interest to be transferred to a person or entity that certifies to the Issuer, in connection with such transfer, that such person or entity is not a Non-Permitted Risk Retention U.S. Person at a price to be agreed between the Issuer (exercising its sole discretion) and such person at the time of sale and (b) pending such transfer, no further payments will be made in respect of such beneficial interest.

Each initial purchaser of an interest in a Rule 144A Note and each transferee of an interest in a Rule 144A Note will be deemed to represent at the time of purchase that, amongst other things, the purchaser is both a QIB and a QP. In addition each Noteholder will be deemed or in some cases required to make certain representations in respect of ERISA.

The Trust Deed provides that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines that any holder of an interest in a Rule 144A Note is a U.S. person as defined under Regulation S under the Securities Act (a **"U.S. person"**) and is not both a QIB and a QP at the time it acquires an interest in a Rule 144A Note (any such person, a **"Non-Permitted Holder"**) or a Noteholder is a Non-Permitted ERISA Holder, the Issuer shall, promptly after determination that such person is a Non-Permitted Holder or Non-Permitted ERISA Holder by the Issuer, send notice to such Non-Permitted Holder or Non-Permitted ERISA Holder (as applicable) demanding that such holder transfer its interest outside the United States to a non-U.S. person or to a person that is not a Non-Permitted Holder or Non-Permitted ERISA Holder (as applicable) within 30 days (or 10 days in the case of a Non-Permitted ERISA Holder) of the date of such notice. If such holder fails to effect the transfer required within such 30-day period (or 10 day period in the case of a Non-Permitted ERISA Holder), (a) upon direction from the Issuer or the Investment Manager on its behalf, a Transfer Agent, on behalf of and at the expense of the Issuer, shall cause such beneficial interest to be transferred in a commercially reasonable sale to a person or entity that certifies to such Transfer Agent and the Issuer, in connection with such transfer, that such person or entity either is not a U.S. person or is a QIB and a QP and is not a Non-Permitted ERISA Holder (b) pending such transfer, no further payments will be made in respect of such beneficial interest.

The Issuer also may force the sale of a Noteholder's Notes in order to achieve FATCA Compliance, including Notes held by a Noteholder that fails to provide the required information or if the Issuer otherwise reasonably determines that a Noteholder's acquisition or holding of an interest in such a Note would cause the Issuer to be unable to achieve FATCA Compliance (and such sale could be for less than its then fair market value). For these purposes, the Issuer shall have the right to sell a Noteholder's interest in its Notes in its entirety notwithstanding that the sale of only a portion of such an interest

would permit the Issuer to achieve FATCA Compliance. If the Issuer is required to sell the Notes, the Issuer may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly transact in securities and selling such Notes to the highest such bidder. However, the Issuer may select a purchaser by any other means determined by it in its sole discretion. Each Noteholder and each other person in the chain of title, by its acceptance of an interest in the Notes agrees to co-operate with the Issuer and the Transfer Agents to effect such transfers. The terms and conditions of any such transfer shall be determined in the sole discretion of the Issuer subject to the transfer restrictions set out in this Prospectus and the Trust Deed, and neither the Issuer nor the Transfer Agents shall be liable to any person having an interest in the Notes sold as a result of any such sale or the exercise of such discretion.

Relating to the Collateral

The Portfolio

The decision by any prospective holder of Notes to invest in such Notes should be based, among other things (including, without limitation, the identity of the Investment Manager), on the Eligibility Criteria which each Collateral Debt Obligation is required to satisfy, as disclosed in this Prospectus, and on the Portfolio Profile Tests, Collateral Quality Tests, Coverage Tests and Target Par Amount that the Portfolio is required to satisfy as at the Effective Date (other than in respect of the Interest Coverage Tests, which are required to be satisfied as at the Determination Date preceding the second Payment Date) and in each case (save as described herein) thereafter. This Prospectus does not contain any information regarding the individual Collateral Debt Obligations on which the Notes will be secured from time to time. Purchasers of any of the Notes will not have an opportunity to evaluate for themselves the relevant economic, financial and other information regarding the investments to be made by the Issuer and, accordingly, will be dependent upon the judgement and ability of the Investment Manager in acquiring investments for purchase on behalf of the Issuer over time. No assurance can be given that the Issuer will be successful in obtaining suitable investments or that, if such investments are made, the objectives of the Issuer will be achieved.

None of the Issuer or the Initial Purchaser have made any investigation into the Obligors of the Collateral Debt Obligations. The value of the Portfolio may fluctuate from time to time (as a result of substitution or otherwise) and none of the Issuer, the Trustee, the Initial Purchaser, the Custodian, the Investment Manager, the Retention Holder, the Collateral Administrator, any Hedge Counterparty or any of their Affiliates are under any obligation to maintain the value of the Collateral Debt Obligations at any particular level. None of the Issuer, the Trustee, the Custodian, the Investment Manager, the Collateral Administrator, any Hedge Counterparty, the Agents, the Retention Holder, the Initial Purchaser or any of their Affiliates has any liability to the Noteholders as to the amount or value of, or any decrease in the value of, the Collateral Debt Obligations from time to time.

Nature of Collateral; Defaults

The Issuer will invest in a portfolio of Collateral Debt Obligations consisting at the time of acquisition of predominantly Secured Senior Loans, Secured Senior Bonds, Corporate Rescue Loans, Unsecured Senior Loans, Second Lien Loans, Mezzanine Obligations, High Yield Bonds as well as certain other investments, all of which will have greater credit and liquidity risk than investment grade sovereign or corporate bonds or loans. The Collateral is subject to credit, liquidity and interest rate risks.

The lower rating of below investment grade collateral reflects a greater possibility that adverse changes in the financial condition of an issuer or borrower or in general economic conditions or both may impair the ability of the relevant borrower or issuer, as the case may be, to make payments of principal or interest. Such investments may be speculative. See "*The Portfolio*" section of this Prospectus.

Due to the fact that the Subordinated Notes represent a leveraged investment in the underlying Collateral Debt Obligations, it is anticipated that changes in the market value of the Subordinated Notes will be greater than changes in the market value of the underlying Collateral Debt Obligations.

The offering of the Notes has been structured so that the Notes are assumed to be able to withstand certain assumed losses relating to defaults on the underlying Collateral Debt Obligations. See the "*Ratings of the Notes*" section of this Prospectus. There is no assurance that actual losses will not exceed such assumed losses. If any losses exceed such assumed levels, payments on the Notes could be adversely affected by such defaults. To the extent that a default occurs with respect to any Collateral Debt Obligation securing the Notes and the Issuer sells or otherwise disposes of such Collateral Debt Obligation, it is likely that the proceeds of such sale or disposition will be less than the unpaid principal and interest thereon.

The financial markets periodically experience substantial fluctuations in prices for obligations of the types that may be Collateral Debt Obligations and limited liquidity for such obligations. No assurance can be made that the conditions giving rise to such price fluctuations and limited liquidity will not occur, subsist or become more acute following the Issue Date. During periods of limited liquidity and higher price volatility, the ability of the Investment Manager (on behalf of the Issuer) to acquire or dispose of Collateral Debt Obligations at a price and time that the Investment Manager deems advantageous may be impaired. As a result, in periods of rising market prices, the Issuer may be unable to participate in price increases fully to the extent that it is either unable to dispose of Collateral Debt Obligations whose prices have risen or to acquire Collateral Debt Obligations whose prices are on the increase; the Investment Manager's inability to dispose fully and promptly of positions in declining markets will conversely cause the value of the Portfolio to decline as the value of unsold positions is marked to lower prices. A decrease in the value of the Collateral Debt Obligations would also adversely affect the proceeds of sale that could be obtained upon the sale of the Collateral Debt Obligations and could ultimately affect the ability of the Issuer to pay in full or redeem the Notes. Accordingly, no assurance can be given as to the amount of proceeds of any sale or disposition of such Collateral Debt Obligations at any time, or that the proceeds of any such sale or disposition would be sufficient to repay a corresponding par amount of principal of and interest on the Notes after, in each case, paying all amounts payable prior thereto pursuant to the Priorities of Payments. Moreover, there can be no assurance as to the amount or timing of any recoveries received in respect of Defaulted Obligations.

The composition of the Portfolio may be influenced by discussions that the Investment Manager and/or, prior to the Issue Date, the Initial Purchaser may have with investors, and there is no assurance that (i) any investor would have agreed with any views regarding the initial proposed portfolio that are expressed by another investor in such discussions, (ii) the composition of the Portfolio was not at the Issue Date, and will not be, influenced more heavily by the views of certain investors, particularly if those investors' participation in the transaction is necessary for the transaction to occur, and without such influence the Investment Manager or the Initial Purchaser may not receive the benefits of such investors' role in the transaction, and in order to preserve the possibility of future business opportunities between the Investment Manager or the Initial Purchaser and such investors, (iii) those views, and any modifications made to the portfolio as a result of those discussions, will not adversely affect the performance of a holder's Notes, or (iv) the views of any particular investors that are expressed in such discussions will influence the composition of the collateral pool. For the avoidance of doubt, the Investment Manager will have the ultimate sole authority to select, and sole responsibility for selecting, the Collateral Debt Obligations within the parameters of the Investment Management Agreement and the Eligibility Criteria, subject to the overall discretion and control of the Issuer and the Investment Manager is under no obligation to follow any preferences of the investors or the Initial Purchaser. The Initial Purchaser has not and will not determine and will not have any responsibility for determining the composition of the collateral pool, notwithstanding any involvement or any discussions that the Initial Purchaser or its Affiliates may have had prior to the Issue Date.

Considerations Relating to the Subsequent Investment Period

During the Subsequent Investment Period, the Investment Manager on behalf of the Issuer, will seek to acquire additional Collateral Debt Obligations in order to satisfy each of the Coverage Tests (other than the Interest Coverage Tests, which are required to be satisfied as of the Determination Date immediately preceding the second Payment Date), the Collateral Quality Tests, Portfolio Profile Tests and the Target Par Amount requirement as at the Effective Date. See "*The Portfolio*" section of this Prospectus. The ability to satisfy such tests and requirement will depend on a number of factors beyond the control of the Issuer and the Investment Manager, including the availability of obligations that satisfy the Eligibility Criteria and other Portfolio related requirements in the primary and secondary loan markets, the condition of the financial markets, general economic conditions and international political events. Therefore, there can be no assurance that such tests and requirements will be met. In addition, the ability of the Issuer to enter into Asset Swap Transactions upon the acquisition of Non-Euro Obligations will depend upon a number of factors outside the control of the Investment Manager, including its ability to identify a suitable Asset Swap Counterparty with whom the Issuer may enter into Asset Swap Transactions. To the extent it is not possible to purchase such additional Collateral Debt Obligations, the level of income receivable by the Issuer on the Collateral, and therefore its ability to meet its interest payment obligations under the Notes, may be adversely affected. Such inability to invest may also shorten the weighted average lives of the Notes as it may lead to early redemption of the Notes. To the extent such additional Collateral Debt Obligations are not purchased, the level of income receivable by the Issuer on the Collateral and therefore its ability to meet its interest payment obligations under the Notes, together with the weighted average lives of the Notes, may be adversely affected. Any failure by the Investment Manager (on behalf of the Issuer) to acquire such additional Collateral Debt Obligations and/or enter into required Asset Swap Transactions during such period could result in the non-confirmation or downgrade or withdrawal by any Rating Agency of its Initial Rating of any Class of Notes. Such non-confirmation, downgrade or withdrawal may result in the redemption of the Notes, shortening their weighted average life and reducing the leverage ratio of the Subordinated Notes to the other Classes of Notes which could adversely affect the level of returns to the holders of the Subordinated Notes. Any such redemption of the Notes may also adversely affect the risk profile of other Classes of Notes in addition to the Subordinated Notes to the extent that the amount of excess spread capable of being generated in the transaction reduces as the result of redemption of the most senior ranking Classes of Notes in accordance with the Note Payment Sequence which bear a lower rate of interest than the remaining Classes of Refinancing Notes.

Characteristics and Risks Relating to the Portfolio

The Collateral on which the Notes and the claims of the other Secured Parties are secured will be subject to credit, liquidity, interest rate and exchange rate risks. The Portfolio of Collateral Debt Obligations which will secure the Notes will predominantly comprise Secured Senior Loans, Secured Senior Bonds, Corporate Rescue Loans, Unsecured Senior Loans, Second Lien Loans, Mezzanine Obligations and High Yield Bonds lent to or issued by a variety of Obligor with a principal place of business in a Qualifying Country and which are primarily rated below investment grade.

An investment in the Notes of any Class involves a degree of risk arising from fluctuations in the amount and timing of receipt of the principal and interest on the Collateral Debt Obligations by or on behalf of the Issuer and the amounts of the claims of creditors of the Issuer ranking in priority to the holders of each Class of the Notes. In particular, prospective purchasers of such Notes should be aware that the amount and timing of payment of the principal and interest on the Collateral Debt Obligations will depend upon the detailed terms of the documentation relating to each of the Collateral Debt Obligations and on whether or not any Obligor thereunder defaults in its obligations.

The subordination levels of each of the Classes of Notes will be established to withstand certain assumed deficiencies in payment caused by defaults on the related Collateral Debt Obligations. If, however, actual payment deficiencies exceed such assumed levels, payments on the Notes could be

adversely affected. Whether and by how much defaults on the Collateral Debt Obligations adversely affect each Class of Notes will be directly related to the level of subordination thereof pursuant to the Priorities of Payments. The risk that payments on the Notes could be adversely affected by defaults on the related Collateral Debt Obligations is likely to be increased to the extent that the Portfolio of Collateral Debt Obligations is concentrated in any one issuer, industry, region or country as a result of the increased potential for correlated defaults in respect of a single issuer or within a single industry, region or country as a result of downturns relating generally to such industry, region or country. Subject to any confidentiality obligations binding on the Issuer, Noteholders will receive information through the Reports from time to time of the identity of Collateral Debt Obligations which are "Defaulted Obligations".

To the extent that a default occurs with respect to any Collateral Debt Obligation and the Issuer or Trustee sells or otherwise disposes of such Collateral Debt Obligation, the proceeds of such sale or disposition are likely to be less than the unpaid principal and interest thereon. Even in the absence of a default with respect to any of the Collateral Debt Obligations, the potential volatility and illiquidity of the sub-investment grade high yield bond, secured senior bond and leveraged loan markets means that the market value of such Collateral Debt Obligations at any time will vary, and may vary substantially, from the price at which such Collateral Debt Obligations were initially purchased and from the principal amount of such Collateral Debt Obligations. Accordingly, no assurance can be given as to the amount of proceeds of any sale or disposition of such Collateral Debt Obligations at any time, or that the proceeds of any such sale or disposition would be sufficient to repay a corresponding par amount of principal of and interest on the Notes after, in each case, paying all amounts payable prior thereto pursuant to the Priorities of Payments.

Characteristics of Senior Loans, Secured Senior Bonds and Mezzanine Obligations

The Portfolio Profile Tests provide that from the Effective Date: (i) at least 70.0 per cent. of the Aggregate Collateral Balance must consist of Secured Senior Loans; (ii) at least 90.0 per cent. of the Aggregate Collateral Balance must consist of Secured Senior Loans and Secured Senior Bonds in aggregate; and (iii) not more than 30.0 per cent of the Aggregate Collateral Balance shall consist of Secured Senior Bonds in aggregate (which shall comprise for such purpose the aggregate of the Aggregate Principal Balance of the Secured Senior Loans and Secured Senior Bonds, together with the balances standing to the credit of the Principal Account and the Unused Proceeds Account, in each case as at the relevant Measurement Date). Senior Loans, Secured Senior Bonds and Mezzanine Obligations are of a type generally incurred by the Obligors thereunder in connection with highly leveraged transactions, often (although not exclusively) to finance internal growth, pay dividends or other distributions to the equity holders in the Obligor, or finance acquisitions, mergers, and/or stock purchases. As a result of the additional debt incurred by the borrower in the course of such a transaction, the Obligor's creditworthiness is typically judged by the rating agencies to be below investment grade. Secured Senior Loans, Secured Senior Bonds and Unsecured Senior Loans are typically at the most senior level of the capital structure with Second Lien Loans being subordinated thereto and Mezzanine Obligations being subordinated to any Senior Loans or to any other senior debt of the Obligor. Secured Senior Loans and Secured Senior Bonds are often secured by specific collateral, including but not limited to, trademarks, patents, accounts receivable, inventory, equipment, buildings, real estate, franchises and common and preferred stock of the Obligor and its subsidiaries and any applicable associated liens relating thereto. In continental Europe, security is often limited to shares in certain group companies, accounts receivable, bank account balances and intellectual property rights. Mezzanine Obligations may have the benefit of a second priority charge over such assets. Unsecured Senior Loans do not have the benefit of such security. Secured Senior Loans usually have shorter terms than more junior obligations and often require mandatory prepayments from excess cash flows, asset dispositions and offerings of debt and/or equity securities.

Some Collateral Debt Obligations may bear interest at a fixed rate. Risks associated with fixed rate obligations are discussed at "*Risk Factors - Relating to the Collateral - Interest Rate Risk*" below. Additionally, Secured Senior Bonds typically contain bondholder collective action clauses permitting specified majorities of bondholders to approve matters which, in a typical Senior Loan, would require unanimous lender consent. The Obligor under a Secured Senior Bond may therefore be able to amend the terms of the bond, including terms as to the amount and timing of payments, with the consent of a specified majority of bondholders, either voting by written resolution or as a majority of those attending and voting at a meeting, and the Issuer is unlikely to have a blocking minority position in respect of any such resolution. The Issuer may further be restricted by the Investment Management Agreement from voting on certain matters, particularly extensions of maturity, which may be considered at a bondholder meeting. Consequently, material terms of a Secured Senior Bond may be varied without the consent of the Issuer.

Mezzanine Obligations generally take the form of medium term loans repayable shortly (perhaps six months or one year) after the senior loans of the obligor thereunder are repaid. Because Mezzanine Obligations are only repayable after the senior debt (and interest payments may be blocked to protect the position of senior debt interest in certain circumstances), it will carry a higher rate of interest to reflect the greater risk of it not being repaid. Due to the greater risk associated with Mezzanine Obligations as a result of their subordination below senior loans of the Obligor, mezzanine lenders may be granted share options, warrants or higher cash paying instruments or payment in kind in the Obligor which can be exercised in certain circumstances, principally being immediately prior to the Obligor's shares being sold or floated in an initial public offering.

The majority of Senior Loans and Mezzanine Obligations bear interest based on a floating rate index, for example EURIBOR, a certificate of deposit rate, a prime or base rate (each as defined in the applicable loan agreement) or other index, which may reset daily (as most prime or base rate indices do) or offer the borrower a choice of one, two, three, six, nine or twelve month interest and rate reset periods. The purchaser of an interest in a Senior Loan or Mezzanine Obligation may receive certain syndication or participation fees in connection with its purchase. Other fees payable in respect of a Senior Loan or Mezzanine Obligation, which are separate from interest payments on such loan, may include facility, commitment, amendment and prepayment fees.

Senior Loans, Secured Senior Bonds and Mezzanine Obligations also generally provide for restrictive covenants designed to limit the activities of the Obligors thereunder in an effort to protect the rights of lenders to receive timely payments of interest on, and repayment of, principal of the loans or bonds. Such covenants may include restrictions on dividend payments, specific mandatory minimum financial ratios, limits on total debt and other financial tests. A breach of covenant (after giving effect to any cure period) under a Senior Loan, Secured Senior Bond or Mezzanine Obligation which is not waived by the lending syndicate or bondholders normally is an event of acceleration which allows the syndicate to demand immediate repayment in full of the outstanding loan or bonds. However, although any particular Senior Loan, Secured Senior Bond or Mezzanine Obligation may share many similar features with other loans and obligations of its type, the actual term of any Senior Loan, Secured Senior Bond or Mezzanine Obligation will have been a matter of negotiation and will be unique. Any such particular loan may contain non-standard terms and may provide less protection for creditors than may be expected generally, including in respect of covenants, events of default, security or guarantees.

Increased Risks for Unsecured Senior Loans

The Collateral Debt Obligations may include Unsecured Senior Loans. Such obligations generally have greater credit, insolvency and liquidity risk than is typically associated with secured obligations. Unsecured Senior Loans will generally have lower rates of recovery than secured obligations following a default. Also, if the insolvency of an Obligor of any Unsecured Senior Loans occurs, the holders of such obligation will be considered general, unsecured creditors of the Obligor and will have fewer rights than secured creditors of the Obligor.

Limited Liquidity, Prepayment and Default Risk in relation to Senior Loans, Mezzanine Obligations and Secured Senior Bonds

In order to induce banks and institutional investors to invest in a Senior Loan or Mezzanine Obligation, and to obtain a favourable rate of interest, an Obligor under such an obligation often provides the investors therein with extensive information about its business, which is not generally available to the public. Because of the provision of confidential information, the unique and customised nature of the loan agreement relating to any given Senior Loan or Mezzanine Obligation, and the private syndication of Senior Loans and Mezzanine Obligations are not as easily purchased or sold as a publicly traded security, and historically the trading volumes of the loan market have been small relative to, for example, the high yield bond market. Historically, investors in or lenders under European Senior Loans and Mezzanine Obligations have been predominantly commercial banks and investment banks. The range of investors for such loans has broadened significantly to include money managers, insurance companies, arbitrageurs, bankruptcy investors and mutual funds seeking increased potential total returns and investment managers of trusts or special purpose companies issuing collateralised bond and loan obligations. As secondary market trading volumes increase, new loans are frequently adopting more standardised documentation to facilitate loan trading which should improve market liquidity. There can be no assurance, however, that future levels of supply and demand in loan trading will provide the degree of liquidity which currently exists in the market. This means that such assets will be subject to greater disposal risk if such assets are sold following enforcement of the security over the Collateral or otherwise. The European market for Mezzanine Obligations is also generally less liquid than that for Senior Loans, resulting in increased disposal risk for such obligations.

Secured Senior Bonds are generally freely transferrable negotiable instruments (subject to standard selling and transfer restrictions to ensure compliance with applicable law, and subject to minimum denominations) and may be listed and admitted to trading on a regulated or an exchange regulated market; however there is currently no liquid market for them to any materially greater extent than there is for Senior Loans. Additionally, as a consequence of the disclosure and transparency requirements associated with such listing, the information supplied by the Obligors to its debtholders may typically be less than would be provided on a Senior Loan.

Increased Risks for Mezzanine Obligations

The fact that Mezzanine Obligations are generally subordinated to any Senior Loan and potentially other indebtedness of the relevant Obligor thereunder, may have a longer maturity than such other indebtedness and will generally only have a second ranking security interest over any security granted in respect thereof, increases the risk of non-payment thereunder of such Mezzanine Obligations in an enforcement situation.

Mezzanine Obligations may provide that all or part of the interest accruing thereon will not be paid on a current basis but will be deferred. Mezzanine Obligations also generally involve greater credit and liquidity risks than those associated with investment grade corporate obligations and Senior Loans. They are often entered into in connection with leveraged acquisitions or recapitalisations in which the Obligors thereunder incur a substantially higher amount of indebtedness than the level at which they previously operated and, as referred to above, sit at a subordinated level in the capital structure of such companies.

Prepayment Risk

Loans are generally prepayable in whole or in part at any time at the option of the obligor thereof at par plus accrued and unpaid interest thereon. Secured Senior Bonds may include obligor call or prepayment features, with or without a premium or makewhole. Prepayments on loans and bonds may be caused by a variety of factors, which are difficult to predict. Accordingly, there exists a risk that loans or bonds purchased at a price greater than par may experience a capital loss as a result of such a

prepayment. In addition, Principal Proceeds received upon such a prepayment are subject to reinvestment risk. Any inability of the Issuer to reinvest payments or other proceeds in Collateral Debt Obligations with comparable interest rates in compliance with the Reinvestment Criteria may adversely affect the timing and amount of payments and distributions received by the Noteholders and the yield to maturity of the Notes. There can be no assurance that the Issuer will be able to reinvest proceeds in Collateral Debt Obligations with comparable interest rates in compliance with the Reinvestment Criteria or (if it is able to make such reinvestments) as to the length of any delays before such investments are made.

Defaults and Recoveries

There is limited historical data available as to the levels of defaults and/or recoveries that may be experienced on Senior Loans, Secured Senior Bonds, Mezzanine Obligations and Second Lien Loans and no assurance can be given as to the levels of default and/or recoveries that may apply to any Senior Loans, Secured Senior Bonds and Mezzanine Obligations purchased by the Issuer. As referred to above, although any particular Senior Loan, Secured Senior Bond, Mezzanine Obligation or Second Lien Loan often will share many similar features with other loans and obligations of its type, the actual terms of any particular Senior Loan, Secured Senior Bond, Mezzanine Obligation or Second Lien Loan will have been a matter of negotiation and will thus be unique. The types of protection afforded to creditors will therefore vary from investment to investment. Recoveries on Senior Loans, Secured Senior Bonds, Mezzanine Obligations and Second Lien Loans may also be affected by the different bankruptcy regimes applicable in different jurisdictions, the availability of comprehensive security packages in different jurisdictions and the enforceability of claims against the Obligors thereunder.

The effect of an economic downturn on default rates and the ability of finance providers to protect their investment in a default situation is uncertain. Furthermore, the holders of Senior Loans and Mezzanine Obligations are more diverse than ever before, including not only banks and specialist finance providers but also alternative investment managers, specialist debt and distressed debt investors and other financial institutions. The increasing diversification of the investor base has also been accompanied by an increase in the use of hedges, swaps and other derivative instruments to protect against or spread the economic risk of defaults. All of these developments may further increase the risk that historic recovery levels will not be realised. The returns on Senior Loans and/or Mezzanine Obligations therefore may not adequately reflect the risk of future defaults and the ultimate recovery rates.

A non-investment grade loan or debt obligation or an interest in a non-investment grade loan is generally considered speculative in nature and may become a Defaulted Obligation for a variety of reasons. Upon any Collateral Debt Obligation becoming a Defaulted Obligation, such Defaulted Obligation may become subject to either substantial work-out negotiations or restructuring, which may entail, among other things, a substantial change in the interest rate, a substantial write-down of principal, a conversion of some or all of the principal debt into equity, and a substantial change in the terms, conditions and covenants with respect to such Defaulted Obligation. Junior creditors may find that a restructuring leads to the total eradication of their debt whilst the borrower continues to service more senior tranches of debt on improved terms for the senior lenders. In addition, such negotiations or restructuring may be quite extensive and protracted over time, and therefore may result in uncertainty with respect to the ultimate recovery on such Defaulted Obligation. Forum shopping for a favourable legal regime for a restructuring is not uncommon, English law schemes of arrangement having become a popular tool for European incorporated companies, even for borrowers with little connection to the UK. In some European jurisdictions, obligors or lenders may seek a "scheme of arrangement". In such instance, a lender may be forced by a court to accept restructuring terms. The liquidity for Defaulted Obligations may be limited, and to the extent that Defaulted Obligations are sold, it is highly unlikely that the proceeds from such sale will be equal to the amount of unpaid principal and interest thereon. Furthermore, there can be no assurance that the ultimate recovery on

any Defaulted Obligation will be at least equal either to the minimum recovery rate assumed by the Rating Agencies in rating the Notes or any recovery rate used in the analysis of the Notes by investors in determining whether to purchase the Notes.

Recoveries on Senior Loans, Secured Senior Bonds and Mezzanine Obligations will also be affected by the different bankruptcy regimes applicable in different European jurisdictions and the enforceability of claims against the Obligor thereunder. See "*Insolvency Considerations relating to Collateral Debt Obligations*" below.

Investing in Cov-Lite Loans involves certain risks

The Issuer or the Investment Manager acting on its behalf may purchase Collateral Debt Obligations which are Cov-Lite Loans. Cov-Lite Loans typically do not have Covenants. Ownership of Cov-Lite Loans may expose the Issuer to different risks, including with respect to liquidity, price volatility and ability to restructure loans, than is the case with loans that have Covenants. In addition, the lack of Covenants may make it more difficult for lenders to trigger a default in respect of such obligations.

Characteristics of High Yield Bonds

High Yield Bonds are generally unsecured, may be subordinated to other obligations of the applicable obligor and generally involve greater credit and liquidity risks than those associated with investment grade corporate obligations. They are often issued in connection with leveraged acquisitions or recapitalisations in which the obligors thereunder incur a substantially higher amount of indebtedness than the level at which they previously operated.

High Yield Bonds have historically experienced greater default rates than investment grade securities. Although several studies have been made of historical default rates in the U.S. high yield market, such studies do not necessarily provide a basis for drawing definitive conclusions with respect to default rates and, in any event, do not necessarily provide a basis for predicting future default rates in either the European or the U.S. high yield markets which may exceed the hypothetical default rates assumed by investors in determining whether to purchase the Notes or by the Rating Agencies in rating the Notes.

The lower rating of securities in the high yield sector reflects a greater possibility that adverse changes in the financial condition of an issuer thereof, or in general economic conditions (including a sustained period of rising interest rates or an economic downturn), or both, may affect the ability of such issuer to make payments of principal and interest on its debt. Many issuers of High Yield Bonds are highly leveraged, and specific developments affecting such issuers, including reduced cash flow from operations or inability to refinance debt at maturity, may also adversely affect such issuers' ability to meet their debt service obligations. There can be no assurance as to the levels of defaults and/or recoveries that may be experienced on the High Yield Bonds in the Portfolio.

European High Yield Bonds are generally subordinated structurally, as opposed to contractually, to senior secured debtholders. Structural subordination is when a high yield security investor lends to a holding company whose primary asset is ownership of a cash-generating operating company or companies. The debt investment of the high yield investor is serviced by passing the revenues and tangible assets from the operating companies upstream through the holding company (which typically has no revenue generating capacity of its own) to the security holders. In the absence of upstream guarantees from operating or asset owning companies in the group, such a process leaves the High Yield Bond investors deeply subordinated to secured and unsecured creditors of the operating companies and means that investors therein will not necessarily have access to the same security package as the senior lenders (even on a second priority charge basis) or be able to participate directly in insolvency proceedings or pre-insolvency discussions relating to the operating companies within the group. This facet of the European high yield market differs from the U.S. high yield market, where structural subordination is markedly less prevalent.

In the case of High Yield Bonds issued by issuers with their principal place of business in Europe, structural subordination of High Yield Bonds, coupled with the relatively shallow depth of the European high yield market, leads European high yield defaults to realise lower average recoveries than their U.S. counterparts. Another factor affecting recovery rates for European high yield bonds is the bankruptcy regimes applicable in different European jurisdictions and the enforceability of claims against the high yield bond issuer. See "*Insolvency Considerations relating to Collateral Debt Obligations*" below. It must be noted, however, that the overall probability of default (based on credit rating) remains similar for both U.S. and European credits; it is the severity of the effect of any default that differs between the two markets as a result of the aforementioned factors.

In addition to the characteristics described above, high yield securities frequently have call or redemption features that permit the issuer to redeem such obligations prior to their final maturity date. If such a call or redemption were exercised by an issuer during a period of declining interest rates, the Investment Manager, acting on behalf of the Issuer, may only be able to replace such called obligation with a lower yielding obligation, thus decreasing the net investment income from the Portfolio.

Investing in Second Lien Loans involves certain risks

The Collateral Debt Obligations may include Second Lien Loans, each of which will be secured by a collateral, but which is subordinated (with respect to liquidation preferences with respect to pledged collateral) to other secured obligations of the Obligors secured by all or a portion of the collateral securing such secured loan. Second Lien Loans are typically subject to intercreditor arrangements, the provisions of which may prohibit or restrict the ability of the holder of a Second Lien Loan to (i) exercise remedies against the collateral with respect to their second liens; (ii) challenge any exercise of remedies against the collateral by the first lien lenders with respect to their first liens; (iii) challenge the enforceability or priority of the first liens on the collateral; and (iv) exercise certain other secured creditor rights, both before and during a bankruptcy of the borrower. In addition, during a bankruptcy of the Obligor, the holder of a Second Lien Loan may be required to give advance consent to (a) any use of cash collateral approved by the first lien creditors; (b) sales of collateral approved by the first lien lenders and the bankruptcy court, so long as the second liens continue to attach to the sale proceeds; and (c) "debtor-in-possession" financings.

Liens arising by operation of law may take priority over the Issuer's liens on an Obligor's underlying collateral and impair the Issuer's recovery on a Collateral Debt Obligation if a default or foreclosure on that Collateral Debt Obligation occurs.

Liens on the collateral (if any) securing a Collateral Debt Obligation may arise at law that have priority over the Issuer's interest. An example of a lien arising under law is a tax or other government lien on property of an Obligor. A tax lien may have priority over the Issuer's lien on such collateral. To the extent a lien having priority over the Issuer's lien exists with respect to the collateral related to any Collateral Debt Obligation, the Issuer's interest in the asset will be subordinate to such lien. If the creditor holding such lien exercises its remedies, it is possible that, after such creditor is repaid, sufficient cash proceeds from the underlying collateral will not be available to pay the outstanding principal amount of such Collateral Debt Obligation.

Long-Dated Assets

A Restructured Obligation may, as a result of its restructuring, have a Collateral Debt Obligation Stated Maturity falling on or after the Maturity Date. If the Notes are not redeemed in full prior to the Maturity Date, the Issuer (or the Investment Manager acting on its behalf) will be required to sell any Long-Dated Restructured Obligations prior to the Maturity Date of the Notes at the then current market value. In such circumstances the Issuer (or the Investment Manager acting on its behalf) will not be able delay the sale of such assets to obtain the best price. This could lead to less proceeds available to redeem the Notes on their Maturity Date.

Limited Control of Administration and Amendment of Collateral Debt Obligations

As a holder of an interest in a syndicated loan, the Issuer will have limited consent and control rights and such rights may not be effective in view of the expected proportion of such obligations held by the Issuer. The Investment Manager will exercise or enforce, or refrain from exercising or enforcing, any or all of the Issuer's rights in connection with the Collateral Debt Obligations or any related documents or will refuse amendments or waivers of the terms of any underlying asset and related documents in accordance with its portfolio management practices and the standard of care specified in the Investment Management Agreement. The Noteholders will not have any right to compel the Investment Manager to take or refrain from taking any actions other than in accordance with its portfolio management practices and the standard of care specified in the Investment Management Agreement.

The Investment Manager may, in accordance with its portfolio management practices and subject to the Trust Deed and the Investment Management Agreement, agree on behalf of the Issuer to extend or defer the maturity, or adjust the outstanding balance of any underlying asset, or otherwise amend, modify or waive the terms of any related loan agreement, including the payment terms thereunder. Any amendment, waiver or modification of an underlying asset could postpone the expected maturity of the Notes and/or reduce the likelihood of timely and complete payment of interest on or principal of the Notes.

Participations, Novations and Assignments

The Investment Manager, acting on behalf of the Issuer may acquire interests in Collateral Debt Obligations which are loans either directly (by way of novation or assignment) or indirectly (by way of sub participation). Each institution from which such an interest is taken by way of participation or acquired by way of assignment is referred to herein as a "**Selling Institution**". Interests in loans acquired directly by way of novation or assignment are referred to herein as "**Assignments**". Interests in loans taken indirectly by way of sub participation are referred to herein as "**Participations**".

The purchaser of an Assignment typically succeeds to all the rights of the assigning Selling Institution and becomes entitled to the benefit of the loans and the other rights of the lender under the loan agreement. The Issuer, as an assignee, will generally have the right to receive directly from the borrower all payments of principal and interest to which it is entitled, provided that notice of such Assignment has been given to the borrower. As a purchaser of an Assignment, the Issuer typically will have the same voting rights as other lenders under the applicable loan agreement and will have the right to vote to waive enforcement of breaches of covenants. The Issuer will generally also have the same rights as other lenders to enforce compliance by the borrower with the terms of the loan agreement, to set off claims against the borrower and to have recourse to collateral supporting the loan. As a result, the Issuer will generally not bear the credit risk of the Selling Institution and the insolvency of the Selling Institution should have no effect on the ability of the Issuer to continue to receive payment of principal or interest from the borrower. The Issuer will, however, assume the credit risk of the borrower. The purchaser of an Assignment also typically succeeds to and becomes entitled to the benefit of any other rights of the Selling Institution in respect of the loan agreement including the right to the benefit of any security granted in respect of the loan interest transferred. The loan agreement usually contains mechanisms for the transfer of the benefit of the loan and the security relating thereto. The efficacy of these mechanisms is rarely tested, if ever, and there is debate amongst counsel in continental jurisdictions over their effectiveness. With regard to some of the loan agreements, security will have been granted over assets in different jurisdictions. Some of the jurisdictions will require registrations, filings and/or other formalities to be carried out not only in relation to the transfer of the loan but, depending on the mechanism for transfer, also with respect to the transfer of the benefit of the security.

Participations by the Issuer in a Selling Institution's portion of the loan typically results in a contractual relationship only with such Selling Institution and not with the borrower under such loan. The Issuer

would, in such case, only be entitled to receive payments of principal and interest to the extent that the Selling Institution has received such payments from the borrower. In purchasing Participations, the Issuer generally will have no right to enforce compliance by the borrower with the terms of the applicable loan agreement and the Issuer may not directly benefit from the collateral supporting the loan in respect of which it has purchased a Participation. As a result, the Issuer will assume the credit risk of both the borrower and the Selling Institution selling the Participation. In the event of the insolvency of the Selling Institution selling a Participation, the Issuer may be treated as a general creditor of the Selling Institution and may not benefit from any set off between the Selling Institution and the borrower and the Issuer may suffer a loss to the extent that the borrower sets off claims against the Selling Institution. The Issuer may purchase a Participation from a Selling Institution that does not itself retain any economic interest of the loan, and therefore, may have limited interest in monitoring the terms of the loan agreement and the continuing creditworthiness of the borrower. When the Issuer holds a Participation in a loan it generally will not have the right to participate directly in any vote to waive enforcement of any covenants breached by a borrower. A Selling Institution voting in connection with a potential waiver of a restrictive covenant may have interests which are different from those of the Issuer and such Selling Institutions may not be required to consider the interest of the Issuer in connection with the exercise of its votes.

Additional risks are therefore associated with the purchase of Participations by the Issuer as opposed to Assignments. The Portfolio Profile Tests impose limits on the amount of Collateral Debt Obligations that may comprise Participations as a proportion of the Aggregate Collateral Balance.

Voting Restrictions on Syndicated Loans for Minority Holders

The Issuer will generally purchase each underlying asset in the form of an assignment of, or participation interest in, a note or other obligation issued under a loan facility to which more than one lender is a party. These loan facilities are administered for the lenders by a lender or other agent acting as the lead administrator. The terms and conditions of these loan facilities may be amended, modified or waived only by the agreement of the lenders. Generally, any such agreement requires the consent of a majority or a super-majority (measured by outstanding loans or commitments) or, in certain circumstances, a unanimous vote of the lenders, and the Issuer may have a minority interest in such loan facilities. Consequently, the terms and conditions of an underlying asset issued or sold in connection with a loan facility could be modified, amended or waived in a manner contrary to the preferences of the Issuer if the amendment, modification or waiver of such term or condition does not require the unanimous vote of the lenders and a sufficient number of the other lenders concur with such modification, amendment or waiver. There can be no assurance that any Collateral Debt Obligations issued or sold in connection with any loan facility will maintain the terms and conditions to which the Issuer or a predecessor in interest to the Issuer originally agreed.

Corporate Rescue Loans

Corporate Rescue Loans are made to companies that have experienced, or are experiencing, significant financial or business difficulties such that they have become subject to bankruptcy or other reorganisation and liquidation proceedings and thus involves additional risks. The level of analytical sophistication, both financial and legal, necessary for successful investment in companies experiencing significant business and financial difficulties is unusually high. There is no assurance that the Issuer will correctly evaluate the value of the assets securing the Corporate Rescue Loan or the prospects for a successful reorganisation or similar action and accordingly the Issuer could suffer significant losses on its investments in such Corporate Rescue Loan. In any reorganisation or liquidation case relating to a company in which the Issuer invests, the Issuer may lose its entire investment, may be required to accept cash or securities with a value less than the Issuer's original investment and/or may be required to accept payment over an extended period of time.

Distressed company and other asset-based investments require active monitoring and may, at times, require participation by the Issuer in business strategy or bankruptcy proceedings. To the extent that the Issuer becomes involved in such proceedings, the Issuer's more active participation in the affairs of the bankruptcy debtor could result in the imposition of restrictions limiting the Issuer's ability to liquidate its position in the debtor.

Although a Corporate Rescue Loan is secured, where the Obligor is subject to U.S. bankruptcy law, it has a priority permitted by Section 364(c) or section 364(d) under the United States Bankruptcy Code and at the time that it is acquired by the Issuer is required to be current with respect to scheduled payments of interest and principal (if any).

Bridge Loans

The Portfolio Profile Tests provide that not more than 2.5 per cent. of the Aggregate Collateral Balance may be comprised of Bridge Loans. Bridge Loans are generally a temporary financing instrument and as such the interest rate may increase after a short period of time in order to encourage an Obligor to refinance the Bridge Loan with more long-term financing. If an Obligor is unable to refinance a Bridge Loan, the interest rate may be subject to an increase and as such Bridge Loans may have greater credit and liquidity risk than other types of loans.

Collateral Enhancement Obligations

All funds required in respect of the purchase price of any Collateral Enhancement Obligations and all funds required in respect of the exercise price of any rights or options thereunder, may only be paid out of the Balance standing to the credit of the Collateral Enhancement Account at the relevant time. Such Balance shall be comprised of (a) the proceeds of an Investment Manager Advance designated for such purpose by the Investment Manager provided that no single Investment Manager Advance may be for an amount less than €500,000 and the aggregate of all Investment Manager Advances may not exceed €8,000,000 and (b) all sums deposited therein from time to time which will comprise Collateral Enhancement Amounts paid in accordance with the Priorities of Payments. The aggregate amount which may be credited to the Collateral Enhancement Account in accordance with the Priorities of Payments are subject to the following caps: (i) in aggregate on any particular Payment Date, such amount may not exceed €2,500,000 and (ii) the cumulative maximum aggregate total in respect of all Payment Dates may not exceed €9,000,000.

The Investment Manager is under no obligation whatsoever to exercise its discretion (acting on behalf of the Issuer) to take any of the actions described above and there can be no assurance that the Balance standing to the credit of the Collateral Enhancement Account will be sufficient to fund the exercise of any right or option under any Collateral Enhancement Obligation at any time. The ability of the Investment Manager (acting on behalf of the Issuer) to exercise any rights or options under any Collateral Enhancement Obligation will be dependent upon there being sufficient amounts standing to the credit of the Collateral Enhancement Account to pay the costs of any such exercise. Failure to exercise any such right or option may result in a reduction of the returns to the Subordinated Noteholders (and, potentially, Noteholders of other Classes).

Collateral Enhancement Obligations and any income or return generated thereby are not taken into account for the purposes of determining satisfaction of, or required to satisfy, any of the Coverage Tests, Portfolio Profile Tests or Collateral Quality Tests.

Subordinated Noteholders should also note that payments of the balance standing to the credit of the Collateral Enhancement Account may, pursuant to the Interest Proceeds Priority of Payments and the Principal Proceeds Priority of Payments, as applicable, be applied in the repayment of an Investment Manager Advance. Any such payments may reduce the amounts otherwise available or payable to the Subordinated Noteholders.

Counterparty Risk

Participations and Hedge Transactions involve the Issuer entering into contracts with counterparties. Pursuant to such contracts, the counterparties agree to make payments to the Issuer under certain circumstances as described therein. The Issuer will be exposed to the credit risk of the counterparty with respect of any such payments. Each such counterparty is required to satisfy the applicable Rating Requirement, upon entry into the applicable contract or instrument.

If a Hedge Counterparty is subject to a rating withdrawal or downgrade by the Rating Agencies to below the applicable Rating Requirement, there will be a termination event under the applicable Hedge Agreement unless, within the applicable remedy period following such rating withdrawal or a downgrade, such Hedge Counterparty either transfers its obligations under the applicable Hedge Agreement to a replacement counterparty with the requisite ratings, obtains a guarantee of its obligations by a guarantor with the requisite ratings, collateralises its obligations in a manner satisfactory to the Rating Agencies or employs some other such strategy as may be approved by the Rating Agencies.

Similarly, the Issuer will be exposed to the credit risk of the Account Bank and the Custodian to the extent of, respectively, all cash of the Issuer held in the Accounts and all Collateral of the Issuer held by the Custodian. If the Account Bank or the Custodian is subject to a rating withdrawal or downgrade by the Rating Agencies to below the applicable Rating Requirement, the Issuer shall use its reasonable endeavours to procure the appointment of a replacement Account Bank or Custodian, as the case may be, with the applicable Rating Requirement and which is acceptable to the Trustee within 30 days of such withdrawal or downgrade.

Concentration Risk

The Issuer will invest in a Portfolio of Collateral Debt Obligations consisting, of Senior Loans, Secured Senior Bonds, Corporate Rescue Loans, Mezzanine Obligations and High Yield Bonds. Although no significant concentration with respect to any particular Obligor, industry or country is expected to exist at the Effective Date, the concentration of the Portfolio in any one Obligor would subject the Notes to a greater degree of risk with respect to defaults by such Obligor, and the concentration of the Portfolio in any one industry would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry. The Portfolio Profile Tests and Collateral Quality Tests attempt to mitigate any concentration risk in the Portfolio. See "*The Portfolio - Portfolio Profile Tests and Collateral Quality Tests*" and "*The Portfolio – The Coverage Tests and Collateral Quality Tests*" section of this Prospectus.

Credit Risk

Risks applicable to Collateral Debt Obligations also include the possibility that earnings of the Obligor may be insufficient to meet its debt service obligations thereunder and the declining creditworthiness and potential for insolvency of the Obligor of such Collateral Debt Obligations during periods of rising interest rates and economic downturn. An economic downturn could severely disrupt the market for leveraged loans and adversely affect the value thereof and the ability of the obligor thereunder to repay principal and interest.

Interest Rate Risk

The Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes bear interest at a floating rate based on EURIBOR. It is possible that Collateral Debt Obligations (in particular Secured Senior Bonds and High Yield Bonds) may bear interest at fixed rates and there is no requirement that the amount or portion of Collateral Debt Obligations securing the Notes must bear interest on a particular basis, save for the Portfolio Profile

Test which requires that not more than 5.0 per cent. of the Aggregate Collateral Balance may comprise Fixed Rate Collateral Debt Obligations.

In addition, any payments of principal or interest received in respect of Collateral Debt Obligations and not otherwise reinvested during the Reinvestment Period in Substitute Collateral Debt Obligations will generally be invested in Eligible Investments until shortly before the next Payment Date. There is no requirement that such Eligible Investments bear interest on a particular basis, and the interest rates available for such Eligible Investments are inherently uncertain. As a result of these factors, it is expected that there will be a fixed/floating rate mismatch and/or a floating rate basis mismatch between the Notes and the underlying Collateral Debt Obligations and Eligible Investments. Such mismatch may be material and may change from time to time as the composition of the related Collateral Debt Obligations and Eligible Investments change and as the liabilities of the Issuer accrue or are repaid. As a result of such mismatches, changes in the level of EURIBOR could adversely affect the ability to make payments on the Notes.

The calculation of EURIBOR on the Floating Rate Notes is subject to a floor of zero, and holders of such Notes, notwithstanding that the rate of EURIBOR reaches such floor, will remain entitled to receive no less than the Applicable Margin.

In addition, pursuant to the Investment Management Agreement, the Investment Manager, acting on behalf of the Issuer, is authorised to enter into the Interest Rate Hedge Transactions in order to mitigate such interest rate mismatch from time to time, subject to receipt in each case of Rating Agency Confirmation in respect thereof (other than in respect of a Form-Approved Interest Rate Hedge Agreement) and subject to certain regulatory considerations in relation to swaps, discussed in "*EMIR*" and "*Commodity Pool Regulation*" above. However, the Issuer will depend on each Interest Rate Hedge Counterparty to perform its obligations under any Interest Rate Hedge Transaction to which it is a party and if any Interest Rate Hedge Counterparty defaults or becomes unable to perform due to insolvency or otherwise, the Issuer may not receive payments it would otherwise be entitled to from such Hedge Counterparty to cover its interest rate risk exposure. See also above "*Risk Factors – A decrease in EURIBOR will lower the interest payable on the Notes and an increase in EURIBOR may indirectly reduce the credit support to the Notes*".

In addition, some Collateral Debt Obligations permit the Obligor to re-set the interest period applicable to it from quarterly to semi-annually and vice versa. Interest Amounts are due and payable in respect of the Rated Notes on either a quarterly or semi-annual basis, depending upon whether a Frequency Switch Event has occurred. See also above "*Risk Factors - Interest Rate Mismatch*".

There can be no assurance that the Collateral Debt Obligations and Eligible Investments securing the Notes will in all circumstances generate sufficient Interest Proceeds to make timely payments of interest on the Notes or that any particular levels of return will be generated on the Subordinated Notes.

The Investment Manager may have difficulty entering into Interest Rate Hedge Transactions in circumstances in which it has to comply with the Portfolio Acquisition and Disposition Requirements. See also "*Investment Manager*" and "*Investment Company Act*" below.

Non-Euro Obligations and Asset Swap Transactions

It is anticipated that on the Effective Date a portion of the Aggregate Collateral Balance will be comprised of Non-Euro Obligations. The percentage of the Portfolio that is comprised of these types of obligations may increase or decrease over the life of the Notes within the limits set by the Portfolio Profile Tests. The Issuer is required to enter into Asset Swap Transactions with respect to all Non-Euro Obligations upon the acquisition thereof.

The Issuer's ongoing payment obligations under the Asset Swap Transactions (including termination payments) may be significant. The payments associated with such hedging arrangements generally rank senior to payments on the Notes.

Defaults, prepayments, trading and other events increase the risk of a mismatch between the Non-Euro Obligations and the Notes. This may cause losses. The Investment Manager may be limited at the time of reinvestment in its choice of Collateral Debt Obligations because of the cost of the foreign exchange hedging and due to restrictions in the Investment Management Agreement with respect to exercising such hedging. In addition, it may not be economically advantageous or feasible for the Issuer to exercise its hedging arrangements and such hedging arrangements may not be sufficient to protect the Issuer from fluctuations in Euro exchange rates.

The Issuer will depend upon the Asset Swap Counterparty to perform its obligations under any hedges. If the Asset Swap Counterparty defaults or becomes unable to perform due to insolvency or otherwise, the Issuer may not receive payments it would otherwise be entitled to from the Asset Swap Counterparty to cover its foreign exchange exposure. See "*Counterparty Risk*" above.

In addition, the Investment Manager may have difficulty entering into Asset Swap Transactions in circumstances in which it has to comply with the Portfolio Acquisition and Disposition Requirements. See also "*Investment Manager*" and "*Investment Company Act*" below.

Portfolio Acquisition and Disposition Requirements

So long as the Issuer is relying on the exclusion from the Investment Company Act provided by Rule 3a-7 it will not acquire or dispose of a Collateral Debt Obligation unless the Portfolio Acquisition and Disposition Requirements are met, which include (i) that the acquisition or disposal of Collateral Debt Obligations for the primary purpose of recognising gains or decreasing losses from market value changes is not permitted and (ii) any additional purchase or sale of Eligible Assets is permitted only if the purchase or sale does not result in a downgrading of the Issuer's outstanding Notes; provided that on any date, subject to the satisfaction as of such date of (x) the Regulatory Change Condition (which applies if the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the SEC or its staff) or (y) the Opt Out Condition, the Issuer (or the Investment Manager on its behalf) may elect (by written notice from the Issuer (or the Investment Manager, acting on behalf of the Issuer) to the Collateral Administrator and the Trustee) not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act in accordance with this paragraph in which case, at all times thereafter, there will be no Portfolio Acquisition and Disposition Requirements, and all references to such requirements in the Investment Management Agreement and other Transaction Documents shall no longer be in effect. Compliance with the Portfolio Acquisition and Disposition Requirements could prevent the Issuer from selling assets that the Investment Manager expects may decline in value or from reinvesting principal payments or sale proceeds in Collateral Debt Obligations.

If the Issuer (or the Investment Manager, acting on behalf of the Issuer) elects not to rely on, or if the Issuer were otherwise determined not to qualify for, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule.

The "**Opt Out Condition**" will be satisfied on any date as of which the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that an election not to rely on Rule 3a-7 for its exclusion from registration under the

Investment Company Act would not result in the Issuer being considered to be a "covered fund" for purposes of the Volcker Rule because (i) all of the assets held by the Issuer are permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule or (ii) the Issuer is able to rely on an exemption or exclusion from registration under the Investment Company Act other than Section 3(c)(1) or 3(c)(7) thereunder.

Reinvestment Risk/Uninvested Cash Balances

To the extent the Investment Manager maintains cash balances invested in short-term investments instead of higher yielding loans or bonds, portfolio income will be reduced which will result in reduced amounts available for payment on the Notes. In general, the larger the amount and the longer the time period during which cash balances remain uninvested the greater the adverse impact on portfolio income which will reduce amounts available for payment on the Notes, especially the Subordinated Notes. The extent to which cash balances remain uninvested will be subject to a variety of factors, including future market conditions and is difficult to predict.

During the Reinvestment Period, subject to compliance with certain criteria and limitations described herein, the Investment Manager will have discretion to dispose of certain Collateral Debt Obligations and to reinvest the proceeds thereof in Substitute Collateral Debt Obligations in compliance with the Reinvestment Criteria. In addition, during the Reinvestment Period, to the extent that any Collateral Debt Obligations prepay or mature prior to the Maturity Date, the Investment Manager will seek, to invest the proceeds thereof in Substitute Collateral Debt Obligations, subject to the Reinvestment Criteria. The yield with respect to such Substitute Collateral Debt Obligations will depend, among other factors, on reinvestment rates available at the time, on the availability of investments which satisfy the Reinvestment Criteria and are acceptable to the Investment Manager, and on market conditions related to high yield securities and bank loans in general. The need to satisfy such Reinvestment Criteria and identify acceptable investments may require the purchase of Collateral Debt Obligations with a lower yield than those replaced, with different characteristics than those replaced (including, but not limited to, coupon, maturity, call features and/or credit quality) or require that such funds be maintained in cash or Eligible Investments pending reinvestment in Substitute Collateral Debt Obligations, which will further reduce the yield on the Adjusted Collateral Principal Amount. Any decrease in the yield on the Adjusted Collateral Principal Amount will have the effect of reducing the amounts available to make distributions of interest on the Notes which will adversely affect cash flows available to make payments on the Notes, especially the most junior Class or Classes of Notes. There can be no assurance that in the event Collateral Debt Obligations are sold, prepaid, or mature, yields on Collateral Debt Obligations that are eligible for purchase will be at the same levels as those replaced and there can be no assurance that the characteristics of any Substitute Collateral Debt Obligations purchased will be the same as those replaced and there can be no assurance as to the timing of the purchase of any Substitute Collateral Debt Obligations.

The timing of the initial investment of the net proceeds of issue of the Refinancing Notes remaining after the payment of certain fees and expenses due and payable by the Issuer on the Issue Date and reinvestment of Sale Proceeds, Scheduled Principal Proceeds and Unscheduled Principal Proceeds, can affect the return to holders of, and cash flows available to make payments on, the Notes, especially the most junior Class or Classes of Notes. Loans and privately placed high yield securities are not as easily (or as quickly) purchased or sold as publicly traded securities for a variety of reasons, including confidentiality requirements with respect to Obligor information, the customised nature of loan agreements and private syndication. The reduced liquidity and lower volume of trading in loans, in addition to restrictions on investment represented by the Reinvestment Criteria, could result in periods of time during which the Issuer is not able to fully invest its cash in Collateral Debt Obligations. The longer the period between reinvestment of cash in Collateral Debt Obligations, the greater the adverse impact may be on the aggregate amount of the Interest Proceeds collected and distributed by the Issuer, including on the Notes, especially the most junior Class or Classes of Notes, thereby resulting in lower

yields than could have been obtained if Principal Proceeds were immediately reinvested. In addition, loans are often prepayable by the borrowers thereof with no, or limited, penalty or premium. As a result, loans generally prepay more frequently than other corporate debt obligations of the issuers thereof. Senior loans usually have shorter terms than more junior obligations and often require mandatory repayments from excess cash flow, asset dispositions and offerings of debt and/or equity securities. The increased levels of prepayments and amortisation of loans increase the associated reinvestment risk on the Collateral Debt Obligations which risk will first be borne by holders of the Subordinated Notes and then by holders of the Rated Notes, beginning with the most junior Class.

In addition, the amount of Collateral Debt Obligations owned by the Issuer on the Issue Date, the timing of purchases of additional Collateral Debt Obligations on and after the Issue Date and the scheduled interest payment dates of those Collateral Debt Obligations may have a material impact on collections of Interest Proceeds during the first Due Period, which could affect interest payments on the Rated Notes and the payment of residual distributions to the Subordinated Notes on the first Payment Date.

Ratings on Collateral Debt Obligations

The Collateral Quality Tests, the Portfolio Profile Tests, the Reinvestment Overcollateralisation Test and the Coverage Tests are sensitive to variations in the ratings applicable to the underlying Collateral Debt Obligations. Generally, deteriorations in the business environment or increases in the business risks facing any particular Obligor may result in downgrade of its obligations, which may result in such obligation becoming a Credit Impaired Obligation, a CCC Obligation or Caa Obligation (and therefore potentially subject to haircuts in the determination of the Par Value Tests and the Reinvestment Overcollateralisation Test and restriction in the Portfolio Profile Tests) or a Defaulted Obligation. The Investment Management Agreement contains detailed provisions for determining the Fitch Rating and the Moody's Rating. In most instances, the Fitch Rating and the Moody's Rating will not be based on or derived from a public rating of the Obligor or the actual Collateral Debt Obligation. In most cases, the Moody's Rating and Fitch Rating in respect of a Collateral Debt Obligation will be based on a confidential credit estimate determined separately by Fitch and Moody's. Such confidential credit estimates are private and therefore not capable of being disclosed to Noteholders. In addition, some ratings will be derived by the Investment Manager based on, among other things, Obligor group or affiliate ratings, comparable ratings provided by a different Rating Agency and, in certain circumstances, temporary ratings applied by the Investment Manager. The Portfolio Profile Tests contain limitations on the proportions of the Aggregate Collateral Balance that may be made up of Collateral Debt Obligations where the Fitch Rating is derived from a Moody's Rating and vice versa. Furthermore, such derived ratings will not reflect detailed credit analysis of the particular Collateral Debt Obligation and may reflect a more or less conservative view of the actual credit risk of such Collateral Debt Obligation than any such fundamental credit analysis might, if conducted, warrant; and model-derived variations in such ratings may occur (and have consequential effects on the Collateral Quality Tests, the Portfolio Profile Tests and the Coverage Tests) without necessarily reflecting comparable variation in the actual credit quality of the Collateral Debt Obligation in question. Please see "*Ratings of the Notes*" and "*The Portfolio*" section of this Prospectus.

In addition to the ratings assigned to the Rated Notes by the Rating Agencies, the Issuer will be utilising ratings assigned by rating agencies to Obligors of individual Collateral Debt Obligations.

There can be no assurance that rating agencies will continue to assign such ratings utilising the same methods and standards utilised today despite the fact that such Collateral Debt Obligation might still be performing fully to the specifications set forth in its Underlying Instrument. Any change in such methods and standards could result in a significant rise in the number of CCC Obligations and Caa Obligations in the Portfolio, which could cause the Issuer to fail to satisfy the Par Value Tests on subsequent Determination Dates, which failure could lead to the early amortisation of some or all of

one or more Classes of the Notes. See Condition 7(c) (*Mandatory Redemption upon Breach of Coverage Tests*).

Insolvency Considerations relating to Collateral Debt Obligations

Collateral Debt Obligations may be subject to various laws enacted for the protection of creditors in the countries of the jurisdictions of incorporation of Obligors and, if different, in which the Obligors conduct business and in which they hold the assets, which may adversely affect such Obligors' abilities to make payment on a full or timely basis. These insolvency considerations will differ depending on the country in which each Obligor is located or domiciled and may differ depending on whether the Obligor is a non-sovereign or a sovereign entity. In particular, it should be noted that a number of continental European jurisdictions operate "debtor friendly" insolvency regimes which would result in delays in payments under Collateral Debt Obligations where obligations thereunder are subject to such regimes, in the event of the insolvency of the relevant Obligor.

The different insolvency regimes applicable in the different European jurisdictions result in a corresponding variability of recovery rates for Senior Loans, Secured Senior Bonds, Corporate Rescue Loans, Mezzanine Obligations and High Yield Bonds entered into by Obligors in such jurisdictions. No reliable historical data is available.

Lender Liability Considerations; Equitable Subordination

In recent years, a number of judicial decisions in the United States and other jurisdictions have upheld the right of borrowers to sue lenders or bondholders on the basis of various evolving legal theories (collectively, termed "**lender liability**"). Generally, lender liability is founded upon the premise that an institutional lender or bondholder has violated a duty (whether implied or contractual) of good faith and fair dealing owed to the borrower or issuer or has assumed a degree of control over the borrower or issuer resulting in the creation of a fiduciary duty owed to the borrower or issuer or its other creditors or shareholders. Although it would be a novel application of the lender liability theories, the Issuer may be subject to allegations of lender liability. However, the Issuer does not intend to engage in, and the Investment Manager does not intend to advise the Issuer with respect to any, conduct that would form the basis for a successful cause of action based upon lender liability.

In addition, under common law principles that in some cases form the basis for lender liability claims, if a lender or bondholder (a) intentionally takes an action that results in the under capitalisation of a borrower to the detriment of other creditors of such borrower, (b) engages in other inequitable conduct to the detriment of such other creditors, (c) engages in fraud with respect to, or makes misrepresentations to, such other creditors or (d) uses its influence as a stockholder to dominate or control a borrower to the detriment of other creditors of such borrower, a court may elect to subordinate the claim of the offending lender or bondholder to the claims of the disadvantaged creditor or creditors, a remedy called "**equitable subordination**"). Because of the nature of the Collateral Debt Obligations, the Issuer may be subject to claims from creditors of an Obligor that Collateral Debt Obligations issued by such Obligor that are held by the Issuer should be equitably subordinated. However, the Issuer does not intend to engage in, and the Investment Manager does not intend to advise the Issuer with respect to, any conduct that would form the basis for a successful cause of action based upon the equitable subordination doctrine.

The preceding discussion is based upon principles of United States federal and state laws. Insofar as Collateral Debt Obligations that are obligations of non-United States Obligors are concerned, the laws of certain foreign jurisdictions may impose liability upon lenders or bondholders under factual circumstances similar to those described above, with consequences that may or may not be analogous to those described above under United States federal and state laws.

Loan Repricing

Leveraged loans may experience volatility in the spread that is paid on such leveraged loans. Such spreads will vary based on a variety of factors, including, but not limited to, the level of supply and demand in the leveraged loan market, general economic conditions, levels of relative liquidity for leveraged loans, the actual and perceived level of credit risk in the leveraged loan market, regulatory changes, changes in credit ratings and the methodology used by credit rating agencies in assigning credit ratings, and such other factors that may affect pricing in the leveraged loan market. Since leveraged loans may generally be prepaid at any time without penalty, the obligors of such leveraged loans would be expected to prepay or refinance such leveraged loans if alternative financing were available at a lower cost. For example, if the credit ratings of an obligor were upgraded, the obligor were recapitalised or if credit spreads were declining for leveraged loans, such obligor would likely seek to refinance at a lower credit spread. Declining credit spreads in the leveraged loan market and increasing rates of prepayments and refinancings will likely result in a reduction of portfolio yield and interest collections on the Collateral Debt Obligations, which would have an adverse effect on the amount available for distributions on Notes, beginning with the Subordinated Notes as the most junior Classes.

Downward movements in interest rates could also adversely affect the performance of non-investment grade bonds with call or redemption features. Such a call or redemption feature would permit the issuer of such debt securities to redeem such securities or to repurchase such securities from the Issuer. If a call were exercised by such an issuer during a period of declining interest rates, the Issuer likely would have to replace such called non-investment Collateral Debt Obligations with lower yielding Collateral Debt Obligations.

Investment Manager

The Investment Manager is given authority in the Investment Management Agreement to act as Investment Manager to the Issuer in respect of the Portfolio pursuant to and in accordance with the parameters and criteria set out in the Investment Management Agreement. See "*The Portfolio*" and "*Description of the Investment Management Agreement*" sections of this Prospectus. The powers and duties of the Investment Manager in relation to the Portfolio include effecting, on behalf of the Issuer, in accordance with the provisions of the Investment Management Agreement: (a) the acquisition of Collateral Debt Obligations during the Reinvestment Period; (b) the sale of Collateral Debt Obligations during the Reinvestment Period (subject to certain limits) and, at any time, upon the occurrence of certain events (including a Collateral Debt Obligation becoming a Defaulted Obligation, a Credit Improved Obligation or a Credit Impaired Obligation); and (c) the participation in restructuring and work-outs of Collateral Debt Obligations on behalf of the Issuer. See "*The Portfolio*" section of this Prospectus. Any analysis by the Investment Manager (on behalf of the Issuer) of Obligors under Collateral Debt Obligations which it is purchasing (on behalf of the Issuer) or which are held in the Portfolio from time to time will, in respect of Collateral Debt Obligations which are publicly listed bonds, be limited to a review of readily available public information and, in respect of Collateral Debt Obligations which are Assignments or Participations of senior and mezzanine loans and in relation to which the Investment Manager has non-public information, such analysis will include due diligence of the kind common in relation to senior and mezzanine loans of such kind.

In addition, the Investment Management Agreement places significant restrictions on the Investment Manager's ability to buy and sell Collateral Debt Obligations, and the Investment Manager is required to comply with the restrictions contained in the Investment Management Agreement. Accordingly, during certain periods or in certain specified circumstances, the Investment Manager may be unable to buy or sell Collateral Debt Obligations or to take other actions which it might consider in the best interest of the Issuer and the Noteholders, as a result of the restrictions set forth in the Investment Management Agreement. In addition, see "*Restrictions on the Discretion of the Investment Manager in Order to Comply with European Risk Retention*".

Pursuant to the Investment Management Agreement, the Investment Manager will not be liable for any acts or omissions under or in connection with the Investment Management Agreement or the terms of the Trust Deed applicable to it, or for any decrease in the value of the Collateral, except (A) by reason of acts or omissions constituting fraud, bad faith or due to gross negligence (with such term given its meaning under New York law) or wilful misconduct in the performance of its obligations under the Investment Management Agreement or (B) by reason of any representation or warranty made by it pursuant to the Investment Management Agreement proving to have been incorrect in any material respect when made. Investors should note that, for such purpose and notwithstanding that the Notes and the Transaction Documents are governed by English law, the interpretation of "gross negligence" will be pursuant to New York law. Under New York law, the concept of gross negligence requires conduct akin to intentional wrongdoing or reckless indifference which is a significantly harder standard to satisfy than mere negligence. As a result, the Investment Manager may in some circumstances have no liability for its actions or inactions under the Investment Management Agreement where it would otherwise have been liable if a mere negligence standard was applied or if New York law was not designated as the law pursuant to which the concept of gross negligence for this purpose would be interpreted.

The Issuer is a newly formed entity and has no operating history or performance record of its own. The actual performance of the Issuer will depend on numerous factors which are difficult to predict and may be beyond the control of the Investment Manager. The nature of, and risks associated with, the Issuer's future investments may differ substantially from those investments and strategies undertaken historically by the Investment Manager and such persons. There can be no assurance that the Issuer's investments will perform as well as the past investments of any such persons or entities.

The performance of other collateralised debt obligation vehicles ("**CLO Vehicles**") or other similar investment funds ("**Other Funds**") managed or advised by the Investment Manager or Affiliates of the Investment Manager should not be relied upon as an indication or prediction of the performance of the Issuer. Such other CLO Vehicles and Other Funds may have significantly different characteristics, including but not limited to their structures, composition of the collateral pool, investment objectives, leverage, financing costs, fees and expenses, management personnel and other terms when compared to the Issuer and may have been formed and managed under significantly different market conditions than those which apply to the Issuer and its Portfolio.

The Issuer will be highly dependent on the financial and managerial experience of certain individuals associated with the Investment Manager in analysing, selecting and managing the Collateral Debt Obligations. There can be no assurance that such key personnel currently associated with the Investment Manager or any of its Affiliates will remain in such position throughout the life of the transaction. The loss of one or more of such individuals could have a material adverse effect on the performance of the Issuer.

In addition, the Investment Manager may resign or be removed in certain circumstances as described herein under "*Description of the Investment Management Agreement*".

The Investment Manager is not required to devote all of its time to the performance of the Investment Management Agreement and will continue to advise and manage other investment vehicles and accounts in the future.

No Initial Purchaser Role Post-Closing

The Initial Purchaser takes no responsibility for, and has no obligations in respect of, the Issuer and will have no obligation to monitor the performance of the Portfolio or the actions of the Investment Manager or the Issuer and no authority to advise the Investment Manager or the Issuer or to direct their actions, which will be solely the responsibility of the Investment Manager and the Issuer. If the Initial Purchaser or any of its Affiliates owns Notes, it will have no responsibility to consider the interests of any other owner of Notes with respect to actions they take or refrain from taking in such capacity.

Acquisition and Disposition of Collateral Debt Obligations

The estimated net proceeds of the issue of the Refinancing Notes after (i) payment of fees and expenses payable on or about the Issue Date and (ii) without duplication, the deposit of amounts into the Expense Reserve Account in accordance with Condition 3(j)(x)(A) (*Expense Reserve Account*) are expected to be approximately €368,760,100. Such proceeds will be used by the Issuer in redemption of the Refinanced Notes and any remaining proceeds shall be deposited into the Unused Proceeds Account. The Investment Manager's decisions concerning purchases of Collateral Debt Obligations will be influenced by a number of factors, including market conditions and the availability of securities and loans satisfying the Eligibility Criteria, compliance with the Reinvestment Criteria and the other requirements of the Investment Management Agreement. The failure or inability of the Investment Manager to acquire Collateral Debt Obligations or to reinvest Sale Proceeds or payments and prepayments of principal in Substitute Collateral Debt Obligations in a timely manner will adversely affect the returns on the Notes, in particular with respect to the most junior Class or Classes.

Under the Investment Management Agreement and as described herein, the Investment Manager may only, on behalf of the Issuer, dispose of a limited percentage of Collateral Debt Obligations in any period of 12 calendar months as well as any Collateral Debt Obligation that meets the definition of a Defaulted Obligation, an Exchanged Security and, subject to the satisfaction of certain conditions, a Credit Impaired Obligation or Credit Improved Obligation. Notwithstanding such restrictions and subject to the satisfaction of the conditions set forth in the Investment Management Agreement, sales and purchases by the Investment Manager of Collateral Debt Obligations could result in losses by the Issuer, which will be borne in the first instance by the holders of the Subordinated Notes and then by holders of the Rated Notes, beginning with the most junior Class.

In addition, circumstances may exist under which the Investment Manager may believe that it is in the best interests of the Issuer to dispose of a Collateral Debt Obligation, but will not be permitted to do so under the terms of the Investment Management Agreement.

Regulatory Risk related to Lending

In many jurisdictions, especially in Continental Europe, engaging in lending activities "in" certain jurisdictions whether conducted via the granting of loans, purchases of receivables, discounting of invoices, guarantee transactions or otherwise (collectively, "**Lending Activities**") is generally considered a regulated financial activity and, accordingly, must be conducted in compliance with applicable local banking laws. In many such jurisdictions, there is comparatively little statutory, regulatory or interpretive guidance issued by the competent authorities or other authoritative guidance as to what constitutes the conduct of Lending Activities in such jurisdictions.

As such, Collateral Debt Obligations may be subject to these local law requirements. Moreover, these regulatory considerations may differ depending on the country in which each Obligor is located or domiciled, on the type of Obligor and other considerations. Therefore, at the time when Collateral Debt Obligations are acquired by the Issuer, there can be no assurance that, as a result of the application of regulatory law, rule or regulation or interpretation thereof by the relevant governmental body or agency, or change in such application or interpretation thereof by such governmental body or agency, payments on the Collateral Debt Obligations might not in the future be adversely affected as a result of such application of regulatory law or that the Issuer might become subject to proceedings or action by the relevant governmental body or agency, which if determined adversely to the Issuer, may adversely affect its ability to make payments in respect of the Notes.

Valuation Information; Limited Information

None of the Initial Purchaser, the Investment Manager or any other transaction party will be required to provide periodic pricing or valuation information to investors. Investors will receive limited information with regard to the Collateral Debt Obligations and none of the transaction parties

(including the Issuer, Trustee, or Investment Manager) will be required to provide any information other than what is required in the Trust Deed or the Investment Management Agreement. Furthermore, if any information is provided to the Noteholders (including required reports under the Trust Deed), such information may not be audited. Finally, the Investment Manager may be in possession of material, non-public information with regard to the Collateral Debt Obligations and will not be required to disclose such information to the Noteholders.

Certain conflicts of interest

The Initial Purchaser and its Affiliates and the Investment Manager and its Affiliates, are acting in a number of capacities in connection with the transaction described herein, which may give rise to certain conflicts of interest. Various potential and actual conflicts of interest may arise from the overall advisory, investment and other activities of the Investment Manager, its Affiliates and their respective clients, the Rating Agencies and their Affiliates and the Initial Purchaser and its Affiliates. The following briefly summarises some of these conflicts, but is not intended to be an exhaustive list of all such conflicts or their potential consequences. In connection with a purchase of any Notes, investors will acknowledge or be deemed to have acknowledged and consented to the existence of actual, apparent and potential conflicts of interest relating to the Investment Manager and other Investment Manager Affiliates and Other Accounts (each of which are defined below), including without limitation those described below and to the operation of the Issuer subject to those conflicts, and will be deemed to have waived any claim in respect of the existence or resolution of any such conflicts of interest. Any such conflicts could have a material adverse effect on the Issuer and its investors.

Investment Manager Conflicts of Interest

The overall investment activities of the Investment Manager, its Affiliates and their respective clients, investors and employees may present various potential or actual conflicts between the interests of the Issuer, on the one hand, and the interests of the Portfolio Manager and its Affiliates and their respective clients, on the other hand.

The Issuer may be subject to various conflicts of interest involving the Investment Manager, Kohlberg Kravis Roberts & Co. L.P. ("**KKR**"), KKR Credit Advisors (US) LLC ("**KKR Credit US**"), KKR Parent's (as defined below) and its subsidiaries' credit business and Prisma Capital Partners L.P. ("**Prisma**"), their personnel, their Affiliates, or such Affiliates' personnel (the Investment Manager and such other persons are collectively referred to as the "**Investment Manager Affiliates**") and the Other Accounts (as defined below). KKR, KKR Credit US, the Sub-Manager and Prisma are subsidiaries of KKR & Co. L.P. ("**KKR Parent**").

For example, the Investment Manager may compete with certain Investment Manager Affiliates or Other Accounts (as defined below) for investments for the Issuer, subjecting the Investment Manager to certain conflicts of interest in evaluating the suitability of investment opportunities and making or recommending acquisitions on the Issuer's behalf. In the event that a conflict of interest arises, the Investment Manager will endeavour, so far as it is able, to ensure that such conflict is resolved in a manner consistent with applicable law and its internal policies. These resolutions may include, by way of example without limitation, refraining from investing in or disposing of the investment giving rise to the conflict of interest, taking or refraining from taking certain action with respect to an investment or appointing an independent fiduciary. There can be no assurance that the Investment Manager will resolve all conflicts of interest in a manner that is favourable to the Issuer and any such conflicts of interest could have a material adverse effect on the Issuer.

The Investment Manager Affiliates provide, and expect in the future to provide, investment management and advisory services to other collateralised debt obligation transactions, synthetic collateralised debt obligation transactions, private equity, growth capital, leveraged credit, originated loan, mezzanine debt, long/short equity, long/short credit, special situations, structured credit, real estate debt, natural resources, real estate and infrastructure funds, managed accounts, CLOs managed

by KKR, KKR Credit US, other Investment Manager Affiliates, other funds, investment vehicles and accounts managed, established, sponsored or advised by the Investment Manager, KKR Credit US, other Investment Manager Affiliates and by Prisma (currently primarily including customised hedge funds, funds of hedge funds and managed accounts as well as direct co-investment strategies), and certain proprietary investment accounts through which the Investment Manager Affiliates make investments for their own accounts, including, for example, through investment and co-investment vehicles established for the Investment Manager Affiliate personnel, senior advisors, industry advisors and other affiliates, accounts invested through various proprietary investment vehicles, including, without limitation, accounts through which the Investment Manager Affiliates invest primarily for their own investment purposes, accounts subject to specific criteria relating to, among other things, capacity and holding period, and proprietary accounts established primarily for the purpose of developing, evaluating and testing potential investment strategies or products (all of such investment vehicles, funds and accounts collectively referred to herein as "**Other Accounts**"), in which the Issuer has no interest.

The Investment Manager Affiliates are not restricted from forming additional investment funds, from entering into other investment advisory relationships (including, among others, relationships with clients that are employee benefit plans subject to ERISA and related regulations), or from engaging in other business activities, even though such activities may be in competition with the Issuer and/or may involve substantial time and resources of the Investment Manager Affiliates. The Investment Manager Affiliates will provide advice and recommendations to any such Other Accounts without regard to the Issuer's interests. Other Accounts may have investment objectives, programmes, strategies and positions that are similar or dissimilar to or may conflict or compete with those of the Issuer. Also, the Investment Manager Affiliates and Other Accounts may invest in businesses that compete with, have interests adverse to, or are affiliated with the obligors or issuers of Collateral Debt Obligations held by the Issuer, or any that is a service provider, supplier, customer or other counterparty with respect to one of the Issuer's investments, which could adversely affect the performance of investments owned by the Issuer.

The Investment Manager will receive advisory and other fees (including performance-based compensation) from, or have other pecuniary interests in, Other Accounts and due to differences in fee rates, types of fees and fee-offset provisions contained in the management agreements for such entities, the fees may not be proportionate to such entities' investment accounts for any given transaction and the Investment Manager may have an incentive to favour entities from which it receives higher fees or in which it otherwise has a greater pecuniary interest. There is no assurance that any Other Account with investment objectives, programmes or strategies similar to those of the Issuer will hold the same positions or perform in a substantially similar manner as the Issuer. The Investment Manager Affiliates may give advice or take action (including enter into short sales or buy protection under a credit default swap) or take no action for their own account or with respect to the investments held by, and transactions of, Other Accounts which may differ from, or be contrary to, the advice given or the timing or nature of any action taken with respect to investments of the Issuer. As a result of such advice or actions or inactions, the prices and availability of securities and other financial instruments in which the Issuer invests or may seek to invest may differ from those available to Other Accounts, and the performance of the Issuer may be adversely affected. In addition, the Investment Manager's ability to effectively implement the Issuer's investment strategies may be limited to the extent that contractual obligations relating to these permitted activities restrict the Investment Manager's ability to engage in transactions that it may otherwise be interested in pursuing. Investment Manager Affiliates, whose primary business includes the origination of investments, may provide investment advice to Other Accounts that compete with the Issuer for investment opportunities. The Investment Manager Affiliates may make allocations of the same investment to the Issuer and Other Accounts. To the extent permitted under the Investment Management Agreement, the Investment Manager may incur on behalf of the Issuer costs and expenses in connection with activities that benefit not only the Issuer but the Other Accounts that also have an allocation of the same investment. By way of example only, such

costs and expenses may be incurred in the context of the financial distress of the investment entity. The Investment Manager will in good faith allocate such costs and expenses to the Issuer and the Other Accounts in accordance with the internal policies of KKR. The Issuer will reimburse the Investment Manager for its share of such allocated costs and expenses in accordance with the Priority of Payments. In the event of any error by the Investment Manager in the calculation of allocable expenses for which reimbursement from the Issuer is sought (which may result in an under or over reimbursement of expenses), the Investment Manager will endeavour to correct such error as soon as reasonably practicable, including by refunding any over reimbursement or netting such amount out of subsequent amount payable to the Investment Manager or the Investment Manager Affiliates. Interest will not accrue on any refunds or additional reimbursement payments between the Investment Manager and the Issuer to rectify any such error.

The Investment Manager Affiliates have in the past given and are expected to continue to give advice or take action (including entering into short sales, derivatives transactions, buying protection under a credit default swap or engaging in other "opposite way trading" activities) with respect to the investments held by, and transactions of, Other Accounts that are different from, or otherwise inconsistent with, the advice given or timing or nature of any action taken with respect to the investments held by, and transactions of, the Issuer. Such different advice and/or inconsistent actions may be due to a variety of reasons, including, without limitation, the differences between the investment objective, program, strategy and tax treatment of certain Other Accounts and the Issuer or the regulatory status of Other Accounts and any related restrictions or obligations imposed on an Investment Manager Affiliate as a fiduciary thereof (including, for example, Other Accounts invested in by pension plans and employee benefit plans and constituting "plan assets" under ERISA or Other Accounts that are registered as investment companies under the Investment Company Act). Such advice and actions may adversely impact the Issuer. For example, an Other Account may concurrently, or in close proximity in time with such acquisition by the Issuer, establish a short position in a security acquired by the Issuer (for example as collateral) or that otherwise relates to such an investment held by the Issuer and such short sale may result in a decrease in the price of the security acquired by or otherwise held by the Issuer or may otherwise benefit the execution quality of the transaction entered into by the Other Account. Additionally, the investment programs employed by an Investment Manager Affiliate for an Other Account could conflict with the transactions and strategies employed by the Investment Manager in managing the Issuer. Where the Issuer and Other Accounts hold portfolio investments in the same issuer or obligor, their interests may be in conflict irrespective of whether their investments are at different levels of the capital structure. Among other things, the timing of entry into or exit from a portfolio investment may vary as among these parties for reasons such as differences in strategy, existing portfolio or liquidity needs.

The above variations in timing or form of consideration may be detrimental to the Issuer or such other investing entities. There can be no assurance that the terms of, or the return on, the Issuer's investment will be equivalent to, or better than, the terms of, or the returns obtained by, any Other Account, including in respect of any category of investments, nor can there be any assurance that any Other Account with similar investment objectives, programs or strategies will hold the same positions, obtain the same financing or perform in a substantially similar manner as the Issuer. The Investment Manager's ability to implement the Issuer's strategy effectively may be limited to the extent that contractual obligations entered into in respect of investments made by Other Accounts or regulatory obligations or restrictions imposed on Investment Manager Affiliates as a result of the regulatory status of Other Accounts (for example, under ERISA or the Investment Company Act) impose restrictions on the ability of the Issuer (or the Investment Manager on its behalf) to invest in securities or other assets that the Issuer may otherwise be interested in pursuing or to otherwise take actions in respect of the Issuer's investments that may otherwise be beneficial to the Issuer. As a result, the prices and availability of securities and other financial instruments in which the Issuer invests or may seek to invest may differ from those available to Other Accounts, and the performance of the Issuer may be adversely affected.

Without limiting the generality of the foregoing, the Investment Manager Affiliates' interest in maximising the investment return of its proprietary accounts may create a conflict in that the Investment Manager Affiliates may be motivated to allocate more attractive investments to the proprietary accounts under its management and allocate less attractive investments to the Issuer and Other Accounts. Similarly, the Investment Manager Affiliates may be motivated to allocate scarce investment opportunities to its proprietary accounts rather than to the Issuer and non-proprietary Other Accounts. The Investment Manager Affiliates investment professionals (including members of the Investment Manager's investment team) will face a conflict to the extent they are motivated, through their personal economic interests in the Investment Manager Affiliates' proprietary investment activities, to allocate their time and attention to such proprietary accounts.

The Investment Manager Affiliates may invest, or have already invested, directly or on behalf of Other Accounts, in securities or other financial instruments that are senior or junior to securities or financial instruments of the same obligor or issuer that are held or may be acquired by the Issuer (e.g., an Other Account may acquire senior debt while the Issuer may acquire subordinated debt). These investments may inherently give rise to conflicts of interest or perceived conflicts of interest between or among the various classes of securities or financial instruments that may be held by the Issuer and such Investment Manager Affiliates or Other Accounts, including in the case of financial distress of the investment entity. For example, if additional financing is needed by an obligor or issuer of a Collateral Debt Obligation held by the Issuer as a result of financial distress, it may not be in the best interest of the Issuer, as holder of senior secured debt issued by such company (if applicable), for an Investment Manager Affiliate or Other Account to provide such additional financing. If Investment Manager Affiliates or Other Accounts holding more junior debt or equity positions were to lose their respective investments as a result of such difficulties, the ability of the Investment Manager to recommend actions in the best interest of the Issuer may be impaired. The reverse is true where an Other Account or Investment Manager Affiliate holds debt of a portfolio company that is more senior to that held by the Issuer. The Investment Manager Affiliates or Other Accounts may take such actions in its own interests with respect to its rights as a creditor (for example, with respect to breaches of covenants) that may be adverse to the interests of the Issuer as a more junior debt holder. It is possible that, in a bankruptcy proceeding, the Issuer's interests may be subordinated or otherwise adversely affected by virtue of the involvement and actions of the Investment Manager Affiliates or Other Accounts. There can be no assurance that the term of or the return on the Issuer's investment will be equivalent to or better than the term of or the returns obtained by the Investment Manager Affiliates or the Other Accounts participating in the transaction. This may result in a loss or substantial dilution of the Issuer's investment, while the Other Account or Investment Manager Affiliate recovers all or part of the amounts due to it. In addition, any of the Investment Manager Affiliates may serve as a general partner, adviser, officer, director, sponsor or manager of partnerships or companies organised to issue collateralised bond or loan obligations secured by non-investment grade bank loans and other funds or entities which invest in such obligations, which may also be eligible investments for the Issuer.

The Investment Manager Affiliates may also have or establish relationships with companies, including acting as sponsor, equity investor, adviser, lender, underwriter, placement agent, initial purchaser or agent bank, whose securities or obligations are assets of the Issuer, or may be considered for purchase by the Issuer or Other Accounts, and may now or in the future own or seek to acquire securities or obligations issued by obligors or issuers of assets owned by the Issuer, and such securities or obligations may have characteristics or interests different from or adverse to assets owned by the Issuer. The Investment Manager and the personnel available to it allocate their time between the Issuer and any other investment and business activities in which they may be involved. The Investment Manager intends to devote such time as shall be necessary to conduct the Issuer's business affairs in an appropriate manner. However, the Investment Manager and the personnel available to it will continue to devote the resources necessary to managing such other investment and business activities. The investment policies, fee arrangements and other circumstances applicable to Other Accounts may vary from those applicable to the Issuer. The Investment Manager Affiliates may buy, sell, or hold

securities or other instruments for Other Accounts while the Investment Manager is making different investment decisions with respect to the Issuer's portfolio. Nothing in the Trust Deed or the Investment Management Agreement shall prevent the Investment Manager or any of its Affiliates from acting either as principal or agent on behalf of others, from buying or selling (or refraining from buying or selling or entering into short sales, derivative transactions, buying protection under a credit default swap or engaging in other "opposite way trading" activities), or from recommending to or directing any of the Other Accounts to buy or sell (or to refrain from buying or selling or entering into short sales, derivative transactions, buying protection under a credit default swap or engaging in other "opposite way trading" activities), at any time, securities or obligations of the same kind or class, or securities or obligations of a different kind or class of the same obligor or issuer, as those directed by the Investment Manager to be purchased or sold on behalf of the Issuer. In addition, certain Investment Manager Affiliates may invest in one or more Other Accounts. The Investment Manager Affiliates and Other Accounts may purchase one or more Classes of Notes or, in lieu of or in addition to such purchases, enter into synthetic transactions referring to such Class or Classes of Notes. It is expected that, if any of such investments are made, their size and nature may change over time.

Certain Other Accounts do and may in the future invest in securities and other assets in which the Issuer may invest. The Investment Manager Affiliates have sole discretion to determine the manner in which investment opportunities are allocated among the Investment Manager Affiliates, the Issuer and Other Accounts. Allocation of identified investment opportunities among the Investment Manager Affiliates, the Issuer and Other Accounts presents inherent conflicts of interest where demand exceeds available supply. As a result, the Issuer's share of investment opportunities may be materially affected by competition from Other Accounts and from Investment Manager Affiliates. Prospective investors in the Notes should note that the conflicts inherent in making such allocation decisions may not always be resolved to the advantage of the Issuer.

From time to time, the Issuer may participate in leveraging and recapitalisation transactions involving issuers of the Issuer's portfolio investments in which Other Accounts have invested or will invest. Recapitalisation transactions will present conflicts of interest, including determinations of whether existing investors are being cashed out at a price that is higher or lower than market value and whether new investors are paying too high or too low a price for the company or purchasing securities with terms that are more or less favourable than the prevailing market terms.

The Investment Manager Affiliates engage in a broad range of business activities and invest in portfolio companies and other issuers whose operations may be substantially similar to the issuers of the Issuer's portfolio investments. The performance and operation of such competing businesses could conflict with and adversely affect the performance and operation of the issuers of the Issuer's portfolio investments, and may adversely affect the prices and availability of business opportunities or transactions available to these issuers.

As a general matter, the Investment Manager Affiliates will allocate investment opportunities among the Investment Manager Affiliates, the Issuer and Other Accounts in a manner that is consistent with an allocation methodology established by the Investment Manager Affiliates reasonably designed to ensure allocations of opportunities are made over time on a fair and equitable basis. In determining allocations of investments, the Investment Manager Affiliates will take into account such factors as they deem appropriate, which include, for example and without limitation, investment objectives and focus; target investment size and target returns; available capital, the timing of capital inflows and outflows and anticipated capital contributions and subscriptions; liquidity profile; applicable concentration limits and other investment restrictions; mandatory minimum investment rights and other contractual obligations applicable to participating funds, vehicles and accounts and/or to their investors; portfolio diversification; tax efficiencies and potential adverse tax consequences; regulatory restrictions applicable to participating funds, vehicles and accounts and investors that could limit the Issuer's ability to participate in a proposed investment; policies and restrictions (including internal

policies and procedures) applicable to participating funds, vehicles and accounts, the avoidance of odd-lots or cases where a *pro rata* or other defined allocation methodology would result in a de minimis allocation to one or more participating funds, vehicles and accounts; the potential dilutive effect of a new position; the overall risk profile of a portfolio; the potential return available from a debt investment as compared to an equity investment; the potential effect of the Issuer's performance (positive and negative); and any other considerations deemed relevant by the Investment Manager Affiliates. The outcome of any allocation determination by the Investment Manager Affiliates may result in the allocation of all or none of an investment opportunity to the Issuer or in allocations that are otherwise on a non-pro rata basis. Certain investments made by the Issuer may be made on a co-investment basis alongside Other Accounts that target one or more categories of such investments as part of their investment strategy, in which case such Other Accounts may be allocated investment opportunities in priority to the Issuer in accordance with the requirements of such Other Accounts as determined by the Investment Manager Affiliates. Such priority allocations may result in a de minimis or no amount of any particular investment opportunity being made available to the Issuer. In addition, Other Accounts established by the Investment Manager Affiliates as co-investment vehicles may compete with the Issuer for allocations of co-investment opportunities in respect of any investment. There can be no assurance that the Issuer will have an opportunity to participate in certain investments that fall within the Issuer's investment objectives. Without limiting the foregoing, the internal policies and procedures adopted by the Investment Manager Affiliates from time to time to assist in the management of conflicts of interest between the Issuer and Other Accounts are likely to impose restrictions on the ability of the Issuer to participate in certain investments that would otherwise be eligible for the Issuer where such internal policies or conflicts review process has resulted in an internal restriction on any participation by the Issuer in the relevant investment either in whole or in part because of an associated conflict of interest.

To the extent the Investment Manager determines in good faith that an opportunity is most appropriate for the proprietary principal investment activities of the Investment Manager Affiliates due to the strategic nature of the opportunity as it relates to the business of the Investment Manager Affiliates, such investment opportunity will be deemed to not be within the investment focus of the Issuer and will be allocated accordingly.

The Investment Manager may, but is not obligated to, aggregate orders placed simultaneously in order to seek best execution and reduce transaction costs to the extent permitted by applicable law. Subject to the preceding sentence, the Investment Manager may, in the allocation of business, select brokers and/or dealers with whom to effect trades on behalf of the Issuer and may open cash trading accounts with such brokers and dealers. In addition, subject to the first sentence of this paragraph, the Investment Manager may, in the allocation of business, take into consideration the full range of a broker-dealer's services in assessing best execution, including, but not limited to: (i) competitiveness of commission rates and spreads, (ii) promptness of execution, (iii) past history in executing orders, (iv) clearance and settlement capabilities, (v) access to markets, investments (including access to new issues) and distribution network, (vi) trade error rate and ability or willingness to correct errors, (vii) anonymity/confidentiality, (viii) market impact, (ix) liquidity, (x) speed of execution, (xi) expertise with complex investments, (xii) trading style and strategy, (xiii) geographic location and (xiv) research capabilities and quality and other services provided by such broker or dealer to the Investment Manager which are expected to enhance its general investment management capabilities (collectively, "**Research**"), notwithstanding that the Issuer may not be the exclusive beneficiary of such Research. Transactions may be executed as part of concurrent authorisations to purchase or sell the same investment for Other Accounts served by the Investment Manager or its Affiliates (including the Issuer, collectively the "**Investment Manager Accounts**"). When investment decisions are made on an aggregated basis, the Investment Manager may, in its discretion, place a large order to purchase or sell a particular asset or investment for the Issuer and the accounts of several other clients. The Issuer understands that because of prevailing trading activity, it may not be possible to receive the same price or execution on the entire volume of assets or investments purchased or sold. When this occurs, the

various prices may be averaged and the Issuer will be charged or credited with the average price. The effect of the aggregation may operate on some occasions to the Issuer's disadvantage.

Unless otherwise prohibited by applicable law, the Trust Deed or the Investment Management Agreement, the Investment Manager may, on behalf of the Issuer, for liquidity, trade allocation or other reasons, purchase obligations or securities from, sell obligations or securities to or enter into any arrangement or agreement with Other Accounts ("**cross transactions**"). The terms of any such cross transactions will be on an arm's length basis as determined in accordance with internal policies. The Investment Manager will receive no compensation in connection with cross transactions, aside from advisory and similar fees attributable to its management of participatory accounts. To the extent that any transaction with the Issuer would constitute a principal transaction because of the ownership interest in an Other Account by an Investment Manager Affiliate or otherwise, the Investment Manager will comply with the requirements of Section 206(3) of the Advisers Act, including the requirement that the Investment Manager notify the board of directors of the Issuer (the "**Board of Directors**") in writing of the transaction and obtain the Issuer's consent through the Board of Directors before completion of such a transaction.

The Investment Manager has an obligation under the Investment Management Agreement to exercise its reasonable judgement to determine the market values of certain Collateral Debt Obligations for which certain specified third party bid prices are not available. Such valuations are taken into account for purposes of calculating the Par Value Ratios and Interest Coverage Ratios and can therefore make a difference in the payments made to certain Noteholders on relevant Payment Dates. In determining the market values for such Collateral Debt Obligations, the Investment Manager will take into account various factors and may rely on internal pricing models, all in accordance with the valuation policies and procedures of KKR Credit US. Such valuations may vary from similar valuations performed by independent third parties for similar types of securities or assets. The valuation of illiquid securities and other assets is inherently subjective and subject to increased risk that the information utilised to value such assets or to create the price models may be inaccurate or subject to other error. Due to a wide variety of factors and the nature of certain securities and assets to be held by the Issuer, there is no guarantee that the values determined by the Investment Manager will represent the value that will be realised by the Issuer on the eventual realisation of the investment or that would, in fact, be realised upon an immediate disposition of the investments.

The Investment Manager Affiliates include a number of entities that act as broker-dealers (together, the "**KCM Companies**"). The KCM Companies are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, principal investment, hedging, and other financial and non-financial activities and services. Such broker-dealers (including their respective related lending vehicles) may manage or otherwise participate in underwriting syndicates and/or selling groups with respect to issuers or obligors of the Issuer's investments or may otherwise be involved in the private placement of debt or equity securities or instruments issued by the issuers or obligors and non-controlling entities in or through which the Issuer may invest (including by placing securities issued by such issuers or obligors with co-investors), or otherwise in arranging or providing financing for such issuers or obligors alone or with other lenders, which may include Other Accounts. Affiliated broker-dealers may, as a consequence of such activities, hold positions in instruments and securities issued by the issuers or obligors of the Issuer's investments. Subject to applicable law, such broker-dealers may receive underwriting fees, placement commissions, financing fees, interest payments or other compensation with respect to such activities, which are not required to be shared with the Issuer. Where an Investment Manager Affiliate broker-dealer serves as underwriter with respect to an issuer's or obligor's securities, the Issuer may be subject to a "lock-up" period following the offering under applicable regulations during which time its ability to sell any securities or obligations that it continues to hold is restricted. This may prejudice the Issuer's ability to dispose of such securities at an opportune time. In addition, in circumstances where an issuer of a portfolio investment becomes distressed and the

participants in the relevant offering have a valid claim against the underwriter, the Issuer would have a conflict in determining whether to sue an Investment Manager Affiliate broker-dealer. In circumstances where a non-affiliate broker-dealer has underwritten an offering, the issuer of which becomes distressed, the Issuer may also have a conflict in determining whether to bring a claim on the basis of concerns regarding an Investment Manager Affiliate's relationship with the broker-dealer.

No Investment Manager Affiliate is under any obligation to offer investment opportunities of which they become aware to the Issuer or to share with the Issuer or to inform the Issuer of any such transaction or any benefit received by them from any such transaction or to inform the Issuer of any investments before offering any investments to Other Accounts.

The Investment Manager Affiliates have adopted information-sharing policies and procedures which address both (i) the handling of confidential information and (ii) the information barrier that exists between the public and private sides of the Investment Manager Affiliates. The Investment Manager's and Investment Manager Affiliates' credit and public equity professionals (i.e., those engaged by KKR Credit US and Prisma) are generally on the public side of the Investment Manager Affiliates, although some members of the Investment Manager Affiliates' private credit investment team are on the private side of the Investment Manager Affiliates. The Investment Manager Affiliates' private equity, energy and infrastructure and real estate professionals and senior advisors and industry advisors are on the private side of the Investment Manager Affiliates and the Investment Manager Affiliates' broker-dealer professionals may be on the private or public side of the Investment Manager Affiliates depending on their roles. The Investment Manager Affiliates have compliance functions to administer the Investment Manager Affiliates' information-sharing policies and procedures and monitor potential conflicts of interest. Although the Investment Manager plans to leverage the Investment Manager Affiliates' firm-wide resources to help source, conduct due diligence on and create value for the Issuer's investments, the Investment Manager Affiliates' information-sharing policies and procedures referenced above, as well as certain legal, contractual and tax constraints, could significantly limit the Investment Manager's ability to do so. For example, from time to time, the Investment Manager Affiliates' private equity or broker-dealer professionals may be in possession of material non-public information with respect to the Issuer's investments or potential investments and as a result such professionals will be restricted by the Investment Manager Affiliates' information-sharing policies or by law or contract, from sharing such information with the Investment Manager Affiliate professionals responsible for making the Investment Manager's investment decisions, even where the disclosure of such information would be in the best interest of the Issuer or would otherwise influence the decisions taken by such investment professionals with respect to such investment or potential investment. Accordingly, as a result of such restrictions, the investment activities of the Investment Manager Affiliates' other businesses may differ from, or be inconsistent with, the interests of and activities that are undertaken for the account of the Issuer and there can be no assurance that the Issuer will be able to fully leverage all of the available resources and industry expertise of the Investment Manager Affiliates' other businesses. Additionally, there may be circumstances in which one or more individuals associated with an Investment Manager Affiliate will be precluded from providing services to the Issuer because of certain confidential information available to those individuals or to other parts of the Investment Manager Affiliates.

While KKR Parent, its subsidiaries and the other Investment Manager Affiliates have established information barriers between its public and private sides as described above, KKR Parent, its subsidiaries and the other Investment Manager Affiliates do not, separately within each such division, generally establish information barriers between internal investment teams. In addition, information may be shared or "wall crossed" between the public and private sides of KKR Parent, its subsidiaries and the other Investment Manager Affiliates pursuant to KKR Parent's, its subsidiaries' and the other Investment Manager Affiliates' information barrier procedures.

The nature of the Investment Manager Affiliates' businesses, including, without limitation, participation by their personnel in creditors' committees, steering committees, or boards of directors of issuers of

portfolio investments, may result in the Investment Manager receiving material non-public information from time to time with respect to publicly held companies or otherwise becoming an "insider" with respect to such companies. With limited exceptions (as described above), the Investment Manager Affiliates do not establish information barriers among internal investment teams. Trading by Investment Manager Affiliates on the basis of such information, or improperly disclosing such information, may be restricted pursuant to applicable law and/or internal policies and procedures adopted by Investment Manager Affiliates to promote compliance with applicable law. Accordingly, the possession of "inside information" or "insider" status with respect to such an issuer or obligor by Investment Manager Affiliates or their personnel may, including where an appropriate information barrier does not exist between the relevant investment professionals or has been "crossed" by such professionals, significantly restrict the Investment Manager Affiliates' ability to deal in the securities of that issuer on behalf of the Issuer, which may adversely impact the Issuer, including by preventing the execution of an otherwise advisable purchase or sale transaction in a particular security until such information ceases to be regarded as material non-public information, which could have an adverse effect on the overall performance of such investment. In addition, Investment Manager Affiliates in possession of such information may be prevented from disclosing such information to the Investment Manager, even where the disclosure of such information would be in the interest of the Issuer. The Investment Manager may also be subject to contractual "stand-still" obligations and/or confidentiality obligations that may restrict its ability to trade in certain securities on behalf of the Issuer.

In certain circumstances, the Investment Manager may engage an independent agent to dispose of assets held by the Issuer in which the Investment Manager Affiliates may be deemed to have material non-public information on behalf of the Issuer. Such independent agent may dispose of the relevant assets for a price that may be lower than the Investment Manager's valuation of such assets which may take into account the material non-public information known to the Investment Manager Affiliates in respect of the Issuer.

The Issuer depends to a significant extent on the Investment Manager's access to the investment professionals and senior management of the Investment Manager Affiliates and the information, research and investment ideas generated by the Investment Manager Affiliate investment professionals and senior management during the normal course of their investment and portfolio management activities. The senior management and the investment professionals of the Investment Manager source, evaluate, analyse and monitor the Issuer's investments. The Issuer's future success will depend on the continued service of the senior management team and investment professionals of the Investment Manager.

The Investment Manager, in its capacity as Retention Holder, will agree in the Risk Retention Letter that it will retain the Retention for so long as any Class of Rated Notes remains outstanding. Any Notes in excess of the Retention may be sold by the Retention Holder at any time after the Issue Date. See *"Risk Retention in Europe"*. The Investment Manager, the Investment Manager Affiliates and Other Accounts may, but will have no obligation to, purchase additional Notes and may acquire or, subject to the EU Retention Requirements in respect of the Notes comprising the Retention, sell Notes at any time. Subject to the EU Retention Requirements in respect of the Notes comprising the Retention, none of the Investment Manager, the Investment Manager Affiliates and Other Accounts will be required to retain any such Notes for any period of time. The interests and incentives of the Investment Manager Affiliates or Other Accounts that may from time to time invest in Notes will not necessarily be aligned with those of the other holders of any Notes or the holder of Notes of any particular Class. In particular, if at any time the Subordinated Notes are owned in part by the Investment Manager or its Affiliates, the Investment Manager may face conflicts between the interests of the holders of the Rated Notes on the one hand and the interests of the holders of the Subordinated Notes on the other when making a decision to purchase or sell a Collateral Debt Obligation. Additionally, as holder of Subordinated Notes representing at least a Majority of the Subordinated Notes, the Retention Holder will have the ability to direct the Issuer and the Trustee to take, or not to

take, certain actions, including (i) to direct an Optional Redemption after the Non-Call Period or to prevent any other holders of Subordinated Notes from directing an Optional Redemption after the Non-Call Period, (ii) to direct an Optional Redemption following a Note Tax Event, (iii) to direct the issuance of additional Notes by the Issuer and (iv) to direct a Refinancing. Further, any Notes held by the Investment Manager will have voting rights in connection with the approval of a successor manager. In taking or refraining to take any such actions, the Retention Holder will have no obligation to take into account the interests of any other holder of Notes. See "*Description of the Investment Management Agreement*".

The Trust Deed and the Investment Management Agreement provide for certain actions to occur at the direction of the specified percentage of Subordinated Notes, including an Optional Redemption of the Rated Notes. It may be difficult or impossible, so long as the Investment Manager Affiliates own a significant portion of the Subordinated Notes, to take such actions without the consent of the Investment Manager Affiliates. Actions requiring the consent or direction of the Subordinated Notes pursuant to the Trust Deed or the Investment Management Agreement could be expected to be influenced, and potentially controlled, by such Investment Manager Affiliates. To the extent that the interests of the holders of the Rated Notes that are not Investment Manager Affiliates or Other Accounts differ from the interests of the holders of the Subordinated Notes, the holding of a significant portion of the Subordinated Notes by the Investment Manager Affiliates may create additional conflicts of interest. Subject to the EU Retention Requirements in respect of the Notes comprising the Retention, any Notes, including the Subordinated Notes, acquired by the Investment Manager Affiliates, the Investment Manager or any Other Account may be sold by any such person to related and/or unrelated parties at any time and such sale may be conducted at a discount or in any other manner that could be potentially adverse to interests of other holders of the Notes.

The Investment Manager or its Affiliates may have had communications with Other Accounts, potential investors in the Notes and other parties interested in the transaction and may have communications with other holders and/or other parties interested in the transaction during the term of the transaction, in each case, relating to the composition of the Issuer's investments and/or other matters relating to the Issuer. There can be no assurances that such communications will not influence the Investment Manager's decisions relating to the Issuer's assets or other matters with respect to which the Investment Manager has discretion, including, without limitation, the selection of the assets that will be included in the portfolio both prior to and after the Issue Date.

The Investment Manager may from time to time consult with, receive input from and provide information to third parties (who may or may not be or become direct and indirect owners of the Notes) in respect of obligations being considered for acquisition by the Issuer. Some of those same third parties may have interests adverse to those of the holders of Notes and may take a short position (for example, by buying protection under a credit default swap) relating to any such obligations or securities. This Prospectus does not contain any information regarding the individual Collateral Debt Obligations that will comprise the Issuer's initial portfolio or that may secure the Notes from time to time.

The Investment Manager is entitled to receive a Senior Investment Management Fee, a Subordinated Investment Management Fee and an Incentive Investment Management Fee from the Issuer out of proceeds received by the Issuer from the Collateral Debt Obligations, payable in accordance with the Priority of Payments. The payment of the Incentive Investment Management Fee is dependent to some degree on the yield earned on the Collateral Debt Obligations. The fee structure could create an incentive for the Investment Manager to manage the Issuer's investments in a manner as to seek to maximise the yield on the Collateral Debt Obligations relative to investments of higher creditworthiness. Managing the Portfolio with the objective of increasing yield, even though the Investment Manager is constrained by investment restrictions described in "*The Portfolio*", could result

in an increase in defaults or volatility and could contribute to a decline in the aggregate market value of the Collateral Debt Obligations.

On the Issue Date, the Investment Manager expects to be reimbursed by the Issuer for certain expenses (including legal fees and expenses) incurred by the Investment Manager Affiliates in connection with its participation in the Refinancing.

No independent counsel has been appointed to represent the investors in respect of the Investment Manager and the Investment Manager Affiliates. The same counsel that represents the Issuer may also represent Other Accounts, including the Investment Manager Accounts, and/or the Investment Manager Affiliates.

The Investment Manager Affiliates may be hedge counterparties and may provide other services to the Issuer and may receive fees from the Issuer in such capacities.

Certain holders of Notes may have access to more or better information than other investors or holders of Notes such as, but not limited to, portfolio risk, personnel and/or investment-related information. In addition, in the course of conducting due diligence, current or prospective investors or holders of Notes may request information pertaining to investments, portfolios or the Investment Manager. The Investment Manager may respond to such requests and provide a response containing information which is not generally made available to other investors although it may require investors receiving such information to agree to keep such information confidential. When the Investment Manager provides this requested information, it does so without an obligation to provide it to other investors or to correct or update any such information previously provided.

The Investment Manager may, in its sole discretion, agree with one or more holders of Notes to share a portion of its Investment Management Fees and, if such fee sharing agreement is made, although the Investment Manager will notify the Issuer of the nature and amount of such fee sharing arrangement, neither the Issuer nor the Investment Manager will be obliged to notify other holders of Notes and the Investment Manager will not be obliged to enter into similar agreements with other holders of Notes. Such fee sharing arrangements may affect the incentives of the Investment Manager in managing the Collateral Debt Obligations and may also affect the actions of the relevant holders of Notes in taking any actions they may be permitted to take in respect of the Notes, including votes concerning amendments. The terms of any such fee sharing arrangements will be made available after the Issue Date to any holder upon request.

Other present and future activities of the Investment Manager and the Investment Manager Affiliates may give rise to additional conflicts of interest not addressed above. In the event that a conflict of interest arises, the Investment Manager will attempt to resolve such conflict in a fair and equitable manner. By acquiring Notes, each investor will be deemed to have acknowledged the existence of any of the foregoing actual, apparent and potential conflicts of interest and to have waived any claim with respect to any liability from the existence of any such conflict of interest.

Acquisition of Issuer Shares

The Investment Manager holds 50 per cent. of the ordinary shares of the Issuer. The other 50 per cent. of the ordinary shares of the Issuer are held by the Share Trustee on trust for charitable purposes. The fact that the Investment Manager has a shareholding in the Issuer gives rise to the risk that, if the Investment Manager becomes insolvent while the Notes are outstanding, an insolvency official appointed to the Investment Manager in Ireland could seek the making of certain orders in respect of the Issuer, including the making of a pooling or contribution order on a winding-up or an examinership of the Issuer on the basis that it is a related company of the Investment Manager. The making of any such order in respect of the Issuer could impact the timing or amount of recoveries by Noteholders in respect of the Notes. The Issuer and the Investment Manager have and will continue to take steps in structuring the transactions that are intended to minimise the risk that the separate identity of the Issuer

would not be respected. These steps include the creation of the Issuer as a separate, special purpose company, restrictions on the nature of its business and an undertaking by the Issuer to observe material legal formalities. The Issuer has agreed to extensive covenants in the Transaction Documents which restrict its activities and require it to conduct its business as a separate identifiable entity. The Issuer has been advised that, provided that such covenants are adhered to, the risk of an insolvency of the Investment Manager triggering insolvency proceedings in respect of the Issuer would be significantly mitigated. However, there can be no assurance that the commencement of any Irish insolvency proceedings in respect of the Investment Manager would not adversely affect the affairs of the Issuer and, consequently, the Noteholders.

In addition to structuring the Issuer as a special purpose vehicle intended to be treated as bankruptcy-remote from the Investment Manager, all counterparties to contracts with the Issuer have agreed to refrain from filing a petition in bankruptcy with respect to the Issuer. See "*Examinership*" and "*Preferred Creditors*" below. In particular, the Investment Manager undertook in a deed of charge over shares (the "**Share Charge**") dated on or about the Original Issue Date, as owner of the 50 ordinary shares in the Issuer at the date thereof, *inter alia*, not to petition for the voluntary winding up of the Issuer until such time as the Notes have been redeemed in full.

Rating Agencies

Fitch and Moody's have been engaged by the Issuer to provide their ratings on the Rated Notes. Either Rating Agency may have a conflict of interest where the issuer of a security pays the fee charged by the Rating Agency for its rating services, as the case with the rating of the Rated Notes (with the exception of unsolicited ratings).

Certain Conflicts of Interest Involving or Relating to Credit Suisse Securities (Europe) Limited and its Affiliates

Credit Suisse Securities (Europe) Limited and its Affiliates (together, the "**Credit Suisse Parties**") will play various roles in relation to the offering, including acting as the structurer of the transaction, as a seller of Collateral Debt Obligations and in other roles described below.

The criteria in and provisions of the Trust Deed and the Investment Management Agreement including but not limited to the Portfolio Profile Tests, Coverage Tests, Collateral Quality Tests and Priorities of Payments may be influenced by discussions that the Initial Purchaser may have or have had with one or more investors. There is no assurance that investors would agree with the views of one another or that any adjustments or modifications which result from such discussions will not adversely affect the performance of the Notes or any particular Class of Notes.

The Initial Purchaser will purchase the Refinancing Notes from the Issuer on the Issue Date and resell them in individually negotiated transactions at varying prices, which may result in a lower fee being paid to the Initial Purchaser in respect of those Refinancing Notes. The Credit Suisse Parties may assist clients and counterparties in transactions related to the Notes (including assisting clients in future purchases and sales of the Notes and hedging transactions). The Credit Suisse Parties expect to earn fees and other revenues from these transactions.

The Credit Suisse Parties may retain a certain portion of the Notes in their portfolios with an intention to hold to maturity or to trade. The holding or any sale of the Notes by these parties may adversely affect the liquidity of the Notes and may also affect the prices of the Notes in the primary or secondary market.

The Credit Suisse Parties are part of a global investment banking and securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. As such, they actively make markets in and trade financial instruments (including but not limited to

instruments such as the Notes) for their own account and for the accounts of customers in the ordinary course of their business. The financial services that the Credit Suisse Parties may provide also include financing and, as such, the Credit Suisse Parties may provide financing to the Investment Manager and/or any of its Affiliates and such financing may directly or indirectly involve financing the Retention. In the case of any such financing, the Credit Suisse Parties may receive security over assets of the Investment Manager and/or its Affiliates, including security over the Retention, resulting in the Credit Suisse Parties having enforcement rights and remedies which may include the right to appropriate or sell the Retention. When exercising its rights in connection with such financing, the relevant Credit Suisse Party may seek to enforce its security over all or some of the Retention and take possession or sell such Retention to a third party. In such circumstances, the Investment Manager may not be able to comply with its undertakings related to the EU Retention Requirements (see further "*Risk Retention in Europe*" above). In addition, the Credit Suisse Parties may derive fees and other revenues from the arrangement and provision of such financing. The Credit Suisse Parties may have positions in and will likely have placed, underwritten, syndicated and/or traded certain of the Collateral Debt Obligations (or other obligations of the obligors of Collateral Debt Obligations) and may have provided or may be providing investment banking services and other services to obligors of certain Collateral Debt Obligations. In addition, the Credit Suisse Parties and their clients may invest in debt obligations and securities that are senior to, or have interests different from or adverse to, Collateral Debt Obligations. Each of the Credit Suisse Parties will act in its own commercial interest in its various capacities without regard to whether its interests conflict with those of the holders of the Notes or any other party. Moreover, the Issuer may invest in loans of obligors affiliated with the Credit Suisse Parties or in which one or more Credit Suisse Parties hold an equity or participation interest. The purchase, holding or sale of such Collateral Debt Obligations by the Issuer may increase the profitability of the Credit Suisse Party's own investments in such obligors while the value of the Notes may decline.

From time to time the Investment Manager will purchase from or sell Collateral Debt Obligations through or to the Credit Suisse Parties (including a portion of the Collateral Debt Obligations to be purchased on or prior to the Issue Date) and one or more Credit Suisse Parties may act as the selling institution with respect to interests in Participations and/or a counterparty under a Hedge Agreement. The entry into of such purchase or sale transactions, Participations and/or Hedge Transactions by any Credit Suisse Party is expected to increase the profitability of such Credit Suisse Party and it is not intended that the interests of the Noteholders will be taken into account by the relevant Credit Suisse Party in the exercise of its rights and the performance of its obligations under such Participations or Hedge Transactions. The Credit Suisse Parties may act as placement agent and/or initial purchaser or investment manager in other transactions involving issues of collateralised debt obligations or other investment funds with assets similar to those of the Issuer, which may have an adverse effect on the availability of collateral for the Issuer and/or on the price of the Notes.

The Credit Suisse Parties do not disclose specific trading positions or their hedging strategies, including whether they are in long or short positions in any Notes or obligations referred to in this Prospectus except where required in accordance with the applicable law. Nonetheless, in the ordinary course of business, Credit Suisse Parties and employees or customers of the Credit Suisse Parties may actively trade in and/or otherwise hold long or short positions in the Notes, Collateral Debt Obligations and Eligible Investments or enter into transactions similar to or referencing the Notes, Collateral Debt Obligations and Eligible Investments or the obligors thereof for their own accounts and for the accounts of their customers. On the Issue Date, Credit Suisse Parties will purchase the Refinancing Notes; however, they may sell these Refinancing Notes at any time. After the Issue Date, Credit Suisse Parties may purchase Notes from time to time. If a Credit Suisse Party becomes an owner of or obtains exposure to any of the Notes, through market-making activity or otherwise, any actions that it takes in its capacity as owner, including voting, providing consents or otherwise will not necessarily be aligned with the interests of other owners of the same Class or other Classes of the Notes. To the extent a Credit Suisse Party makes a market in the Notes (which it is under no obligation to do), it would expect

to receive income from the spreads between its bid and offer prices for the Notes. In connection with any such activity, it will have no obligation to take, refrain from taking or cease taking any action with respect to these transactions and activities based on the potential effect on an investor in the Notes. The price at which a Credit Suisse Party may be willing to purchase Notes, if it makes a market, will depend on market conditions and other relevant factors and may be significantly lower than the issue price for the Notes and significantly lower than the price at which it may be willing to sell the Notes.

The Sole Arranger and the Initial Purchaser takes no responsibility for, and has no obligations in respect of, the Issuer, and will have no obligation to monitor the performance of the Collateral or the actions of the Investment Manager or the Issuer and will have no authority to advise the Investment Manager or the Issuer or to direct their actions, which will be solely the responsibility of the Investment Manager and the Issuer. If the Sole Arranger, the Initial Purchaser or their Affiliates own Notes, they will have no responsibility to consider the interests of any other owners of Notes in actions they take or refrain from taking in such capacity.

By purchasing a Refinancing Note or interest therein, each investor will be deemed to have acknowledged the existence of the conflicts of interest inherent to this transaction, including as described herein, and to have waived any claim with respect to any liability arising from the existence thereof.

Investment Company Act

The Issuer has not registered with the SEC as an investment company pursuant to the Investment Company Act, in reliance on both (i) an exemption under Section 3(c)(7) of the Investment Company Act for investment companies (a) whose outstanding securities are beneficially owned only by "qualified purchasers" (within the meaning given to such term in the Investment Company Act and the regulations of the SEC thereunder) with respect to the Issuer and certain transferees thereof identified in Rule 3c-5 and Rule 3c-6 under the Investment Company Act and (b) which do not make a public offering of their securities in the United States and (ii) an exclusion from the definition of investment company for certain asset-backed issuers that meet the conditions of Rule 3a-7 under the Investment Company Act. So long as the Issuer relies on Rule 3a-7, its ability to acquire and dispose of Collateral Debt Obligations may be limited, which could adversely affect its ability to realise gains, mitigate losses or reinvest principal payments or sale proceeds. However, the Issuer (or the Investment Manager on its behalf) may elect on any date not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act and to rely solely on the exemption under Section 3(c)(7) of the Investment Company Act. If the Issuer (or the Investment Manager, acting on behalf of the Issuer) elects not to rely on, or if the Issuer were otherwise determined not to qualify for, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule. However, whilst the Issuer may take these and other steps to comply with a different exception to the definition of "covered fund", there is no guarantee that any such steps would be successful. Accordingly, the Issuer may become a "covered fund" in the future and banking entities and other entities subject to the Volcker Rule would be restricted from acquiring and retaining certain ownership interests in the Issuer. In 2011, the SEC published an advance notice of proposed rulemaking to potentially consider proposing amendments to Rule 3a-7. Any guidance from the SEC or its staff regarding Rule 3a-7, including changes that the SEC may ultimately adopt to Rule 3a-7, that narrow the scope of Rule 3a-7, could further inhibit the business activities of the Issuer and adversely affect the holders of the Notes.

No opinion or no-action position has been requested of the SEC with respect to the status of the Issuer as investment company under the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer is required, but in violation of the Investment Company Act had failed, to register as an "investment company", possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer could sue the Issuer and seek recovery of any damages caused by the violation; and (iii) any contract to which the Issuer is party that is made in violation of the Investment Company Act or whose performance involves such violation could be declared unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. In addition, the Issuer or any of the Collateral becoming required to register as an "investment company" under the Investment Company Act will constitute an Event of Default if such requirement continues for 45 days. Should the Issuer be subjected to any or all of the foregoing, the Issuer would be materially and adversely affected.

Each initial purchaser of an interest in a Rule 144A Note and each transferee of an interest in a Rule 144A Note will be deemed to represent at the time of purchase that, amongst other things, the purchaser is a QIB/QP.

The Trust Deed provides that if, notwithstanding the restrictions on transfer contained therein, the Issuer at any time determines that any holder of an interest in a Rule 144A Note (1) is a U.S. person and (2) is not a QIB/QP (any such person, a "**Non-Permitted Holder**"), the Issuer shall, promptly after determination that such person is a Non-Permitted Holder by the Issuer or a Transfer Agent (and notice by such Transfer Agent to the Issuer, if such Transfer Agent makes the determination) send notice to such Non-Permitted Holder demanding that such Non-Permitted Holder transfer its interest to a person that is not a Non-Permitted Holder within 30 days of the date of such notice. If such Non-Permitted Holder fails to effect the transfer required within such 30 day period, (a) upon direction from the Issuer or the Investment Manager on its behalf, a Transfer Agent, on behalf of and at the expense of the Issuer, shall cause such beneficial interest to be transferred in a sale (conducted by such Transfer Agent) to a person or entity that certifies to such Transfer Agent and the Issuer, in connection with such transfer, that such person or entity either is not a U.S. person or is a QIB/QP and (b) pending such transfer, no further payments will be made in respect of such beneficial interest.

Irish Law

The Issuer is subject to risks, including the location of its centre of main interest, the appointment of examiners, claims of preferred creditors and floating charges.

Centre of main interest

The Issuer has its registered office in Ireland. As a result there is a rebuttable presumption that its centre of main interest ("**COMI**") is in Ireland and consequently that any main insolvency proceedings applicable to it would be governed by Irish law. In the decision by the European Court of Justice ("**ECJ**") in relation to Eurofood IFSC Limited, the ECJ restated the presumption in Council Regulation (EC) No. 1346/2000 of 29 May 2000 on Insolvency Proceedings, that the place of a company's registered office is presumed to be the company's COMI and stated that the presumption can only be rebutted if "factors which are both objective and ascertainable by third parties enable it to be established that an actual situation exists which is different from that which locating it at the registered office is deemed to reflect". As the Issuer has its registered office in Ireland, has Irish directors, is registered for tax in Ireland and has an Irish corporate services provider, the Issuer does not believe that factors exist that would rebut this presumption, although this would ultimately be a matter for the relevant court to decide, based on the circumstances existing at the time when it was asked to make that decision. If the Issuer's COMI is not located in Ireland, and is held to be in a different jurisdiction within the European Union, main insolvency proceedings may not be opened in Ireland.

Examinership

Examinership is a court procedure available under the Companies Act 2014 (as amended) of Ireland to facilitate the survival of Irish companies in financial difficulties.

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer are each entitled to petition the relevant Irish court for the appointment of an examiner. The examiner, once appointed, has the power to halt, prevent or rectify acts or omissions, by or on behalf of the company after his appointment and, in certain circumstances, negative pledges given by the company prior to his appointment will not be binding on the company. Furthermore, where proposals for a scheme of arrangement are to be formulated, the company may, subject to the approval of the court, affirm or repudiate any contract under which some element of performance other than the payment remains to be rendered both by the company and the other contracting party or parties.

During the period of protection, the examiner will compile proposals for a compromise or scheme of arrangement to assist in the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the relevant Irish court when a minimum of one class of creditors, whose interests are impaired under the proposals, has voted in favour of the proposals and the relevant Irish court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement and the proposals are not unfairly prejudicial to any interested party.

The fact that the Issuer is a special purpose entity and that all its liabilities are of a limited recourse nature means that it is unlikely that an examiner would be appointed to the Issuer.

If however, for any reason, an examiner were appointed while any amounts due by the Issuer under the Notes were unpaid, the primary risks to the Noteholders would be as follows:

- (a) the Trustee, acting on behalf of the Noteholders, would not be able to enforce rights against the Issuer during the period of examinership; and
- (b) a scheme of arrangement may be approved involving the writing down of the debt due by the Issuer to the Noteholders irrespective of the Noteholders' views.

Preferred Creditors

If the Issuer becomes subject to an insolvency proceeding and the Issuer has obligations to creditors that are treated under Irish law as creditors that are senior relative to the Noteholders, the Noteholders may suffer losses as a result of their subordinated status during such insolvency proceedings. In particular:

- (a) under the terms of the Trust Deed, the Rated Notes will be secured in favour of the Trustee for the benefit of itself and the other Secured Parties by security over a portfolio of Collateral Debt Obligations and assignments of various of the Issuer's rights under the Transaction Documents. Under Irish law, the claims of creditors holding fixed charges may rank behind other creditors (namely fees, costs and expenses of any examiner appointed and certain capital gains tax liabilities) and, in the case of fixed charges over book debts, may rank behind claims of the Irish Revenue Commissioners for PAYE, pay-related social insurance, local property tax and VAT;
- (b) under Irish law, for a charge to be characterised as a fixed charge, the charge holder is required to exercise the requisite level of control over the assets purported to be charged and the proceeds of such assets including any bank account into which such proceeds are paid. There is a risk

therefore that even a charge which purports to be taken as a fixed charge may take effect as a floating charge if a court deems that the requisite level of control was not exercised; and

- (c) in an insolvency of the Issuer, the claims of certain other creditors (including the Irish Revenue Commissioners for certain unpaid taxes), as well as those of creditors mentioned above, will rank in priority to claims of unsecured creditors and claims of creditors holding floating charges.

No Noteholder may require the transfer of a Note to be registered (i) during the period of 15 calendar days ending on the due date for redemption (in full) of that Note or (ii) during the period of seven calendar days ending on (and including) any Record Date.

(g) Regulations Concerning Transfer and Registration

All transfers of Notes and entries on the Register will be made subject to the detailed regulations concerning the transfer of Notes scheduled to the Trust Deed, including without limitation that a transfer of Notes in breach of certain of such regulations will result in such transfer being void *ab initio*. The regulations may be changed by the Issuer in any manner which is reasonably required by the Issuer (after consultation with the Trustee) to reflect changes in legal or regulatory requirements or in any other manner which, in the opinion of the Issuer (after consultation with the Trustee and subject to not less than 60 days' notice of any such change having been given to the Noteholders in accordance with Condition 16 (*Notices*)), is not prejudicial to the interests of the holders of the relevant Class of Notes. A copy of the current regulations may be inspected at the offices of any Transfer Agent during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) for the term of the Notes and will be sent by the Registrar to any Noteholder who so requests.

(h) Forced Transfer of Rule 144A Notes

If the Issuer determines at any time that any holder of an interest in a Rule 144A Note (1) is a U.S. person and (2) is not a QIB/QP (any such person, a "**Non-Permitted Holder**"), the Issuer shall promptly after determination that such person is a Non-Permitted Holder by the Issuer, send notice to such Non-Permitted Holder demanding that such Non-Permitted Holder transfer its Notes outside the United States to a non-U.S. person or within the United States to a U.S. person that is a QIB/QP within 30 days of the date of such notice. If such Non-Permitted Holder fails to effect the transfer of its Rule 144A Notes within such 30 day period, (a) upon direction from the Issuer or the Investment Manager on its behalf, a Transfer Agent, on behalf of and at the expense of the Issuer, shall cause such Rule 144A Notes to be transferred in a sale to a person or entity that certifies to the Issuer and such Transfer Agent, in connection with such transfer, that such person or entity either is not a U.S. person or is a QIB/QP and (b) pending

such transfer, no further payments will be made in respect of such beneficial interest. The Issuer may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the Rule 144A Notes and selling such Rule 144A Notes to the highest such bidder. However, the Issuer may select a purchaser by any other means determined by it in its sole discretion. Each Noteholder and each other person in the chain of title to the Non-Permitted Holder by its acceptance of an interest in the Rule 144A Notes agrees to cooperate with the Issuer to effect such transfers. The proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to the selling Noteholder. The terms and conditions of any sale hereunder shall be determined in the sole discretion of the Issuer, subject to the transfer restrictions set out herein, and the Issuer shall not be liable to any person having an interest in the Notes sold as a result of any such sale or the exercise of such discretion. The Issuer reserves the right to require any holder of Notes to submit a written certification substantiating that it is a QIB/QP or a non-U.S. person. If such holder fails to submit any such requested written certification on a timely basis, the Issuer has the right to assume that the holder of the Notes from whom such a certification is requested is not a QIB/QP or a non-U.S. person. Furthermore, the Issuer reserves the right to refuse to honour a transfer of beneficial interests in a Rule 144A Note to any Person who is not either a non-U.S. person or a U.S. person that is a QIB/QP.

(i) Forced sale pursuant to FATCA

Under FATCA, the Issuer may be required to, among other things, provide certain information about the Noteholders (which may include a nominee or beneficial owner of a Note for these purposes) to a taxing authority. The Issuer expects to require each Noteholder to provide certifications and identifying information about itself and certain of its owners.

The Issuer may force the sale of a Noteholder's Notes in order to achieve FATCA Compliance, including Notes held by a Noteholder that fails to provide or update or fails to cause to be provided or updated Holder FATCA Information or if the Issuer otherwise reasonably determines that a Noteholder's acquisition or holding of an interest in such a Note would cause the Issuer to be unable to achieve FATCA Compliance (and such sale could be for less than its then fair market value). For these purposes, the Issuer shall have the right to sell a Noteholder's interest in its Notes in its entirety notwithstanding that the sale of a portion of such an interest would permit the Issuer to achieve FATCA Compliance. If the Issuer exercises its right to force such sale, the Issuer shall require the holder to sell its Notes to a purchaser selected by the Issuer on such terms as the Issuer may choose, subject to the transfer restrictions set out herein. The Issuer may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities and selling such Notes to the highest such bidder. However, the Issuer may select a purchaser by any other means determined by it in its sole discretion. Each Noteholder and each other person in the chain of title, by its acceptance of an interest in the Notes agrees to cooperate with the Issuer to effect such transfers if required. The proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to the selling Noteholder. The terms and conditions of any sale hereunder shall be determined in the sole discretion of the Issuer subject to the transfer restrictions set out herein, and the Issuer shall not be liable to any person having an interest in the Notes sold as a result of any such sale or the exercise of such discretion.

(j) Forced Transfer pursuant to ERISA

If any Noteholder is determined by the Issuer to be a Noteholder who has made or is deemed to have made a prohibited transaction, Benefit Plan Investor, Controlling Person, Other Plan Law or Similar Law representation that is subsequently shown to be false or misleading, or whose beneficial ownership otherwise causes a violation of the 25 per cent. limitation set out in Title I of ERISA and Section 4975 of the Code (any such Noteholder a "**Non-Permitted ERISA**

Holder"), the Non-Permitted ERISA Holder shall be required by the Issuer to sell or otherwise transfer its Notes to an eligible purchaser (selected by the Issuer) at a price to be agreed between the Issuer (exercising its sole discretion) and such eligible purchaser at the time of sale, subject to the transfer restrictions set out in the Trust Deed. Each Noteholder and each other Person in the chain of title from the Noteholder, by its acceptance of an interest in such Notes, agrees to cooperate with the Issuer to the extent required to effect such transfers. None of the Issuer, the Trustee and the Registrar shall be liable to any Noteholder having an interest in the Notes sold or otherwise transferred as a result of any such sale or transfer. The Issuer shall be entitled to deduct from the sale or transfer price an amount equal to all the expenses and costs incurred and any loss suffered by the Issuer as a result of such forced transfer. The Non-Permitted ERISA Holder will receive the balance, if any.

(k) Forced Transfer following breach of U.S. Risk Retention Rules U.S. Person requirements

If (x) any purchaser in the initial offering of the Refinancing Notes on or about 4 April 2017 of an interest in a Refinancing Note (i) (a) is a Risk Retention U.S. Person and (b) has not received a U.S. Risk Retention Waiver from the Investment Manager, (ii) acquired such Refinancing Notes or a beneficial interest therein as part of a plan or scheme to evade the requirements of section 15G of the Securities Exchange Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules or (y) a transfer of an interest in a Regulation S Refinancing Note is to a Risk Retention U.S. Person or to a transferee which otherwise requires such interest to be exchanged for an interest in a Rule 144A Refinancing Note at any time during the U.S. Risk Retention Restricted Period (each such a person under (x) or (y) above, a "**Non-Permitted Risk Retention U.S. Person**"), the Issuer shall, promptly after determination that such person (or transferee) is a Non-Permitted Risk Retention U.S. Person by the Issuer, send notice to such Non-Permitted Risk Retention U.S. Person demanding that such Noteholder immediately transfer its interest to a person that is not a Non-Permitted Risk Retention U.S. Person. If such Noteholder fails to effect the transfer required, (a) the Issuer or the Investment Manager on its behalf, shall cause such beneficial interest to be transferred to a person or entity that certifies to the Issuer, in connection with such transfer, that such person or entity either is not a Non-Permitted Risk Retention U.S. Person at a price to be agreed between the Issuer (exercising its sole discretion) and such person at the time of sale and (b) pending such transfer, no further payments will be made in respect of such beneficial interest. None of the Issuer, the Trustee, the Transfer Agent and the Registrar shall be liable to any Noteholder having an interest in the Refinancing Notes sold or otherwise transferred as a result of any such sale or transfer. The Issuer shall be entitled to deduct from the sale or transfer price an amount equal to all the expenses and costs incurred and any loss suffered by the Issuer as a result of such forced transfer. The Non-Permitted Risk Retention U.S. Person will receive the balance, if any.

Pursuant to the terms of the Trust Deed, the Trustee is exempted from any liability in respect of any loss or theft or reduction in value of the Collateral, from any obligation to insure the Collateral and from any claim arising from the fact that the Collateral is held in a clearing

system or in safe custody by the Custodian, a bank or other custodian. The Trustee has no responsibility for ensuring that the Custodian, the Account Bank, the Principal Paying Agent or any Hedge Counterparty satisfies the Rating Requirement applicable to it or, in the event of its failure to satisfy such Rating Requirement, to procure the appointment of a replacement custodian, account bank, principal paying agent or hedge counterparty. The Trustee has no responsibility for the management of the Portfolio by the Investment Manager or to supervise the administration of the Portfolio by the Collateral Administrator or the performance of its functions by any other party and is entitled to rely on the certificates, statements or notices of any relevant party without further enquiry and without liability. The Trust Deed also provides that the Trustee shall accept without investigation, requisition or objection such right, benefit, title and interest, if any, as the Issuer may have in and to any of the Collateral and is not bound to make any investigation into the same or into the Collateral in any respect.

(b) Application of Proceeds upon Enforcement

The Trust Deed provides that the net proceeds of realisation of, or enforcement with respect to the security over, the Collateral constituted by the Trust Deed, shall be applied in accordance with the priority of payments set out in Condition 11 (*Enforcement*).

The obligations of the Issuer to pay amounts due and payable in respect of the Notes and to the other Secured Parties at any time shall be limited to the proceeds available at such time to make such payments in accordance with the Priorities of Payments. If the net proceeds of realisation of the security constituted by the Trust Deed, upon enforcement thereof in accordance with Condition 11 (*Enforcement*) and the provisions of the Trust Deed are less than the aggregate amount payable in such circumstances by the Issuer in respect of the Notes and to the other Secured Parties (such negative amount being referred to herein as a "**shortfall**"), the obligations of the Issuer in respect of the Notes of each Class and its obligations to the other Secured Parties in such circumstances will be limited to such net proceeds, which shall be applied in accordance with the Priorities of Payments. In such circumstances, the other assets (including the Issuer Irish Account and the Issuer's rights under the Corporate Services Agreement) of the Issuer will not be available for payment of such shortfall which shall be borne by the Class X Noteholders and the Class A Noteholders (on a *pro rata* and *pari passu* basis), the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders, the Subordinated Noteholders and the other Secured Parties in accordance with the Priorities of Payments (applied in reverse order). The rights of the Secured Parties to receive any further amounts in respect of such obligations shall be extinguished and none of the Noteholders of each Class or the other Secured Parties may take any further action to recover such amounts. None of the Noteholders of any Class, the Trustee or the other Secured Parties (nor any other person acting on behalf of any of them) shall be entitled at any time to institute against the Issuer or any Blocker Subsidiary, or join in any institution against the Issuer or any Blocker Subsidiary of, any bankruptcy, reorganisation, arrangement, insolvency, examinership, winding up or liquidation proceedings or other proceedings under any applicable bankruptcy or similar law in connection with any obligations of the Issuer relating to the Notes of any Class, the Trust Deed or otherwise owed to the Secured Parties, save for lodging a claim in the liquidation of the Issuer or any Blocker Subsidiary which is initiated by another non-Affiliated party or taking proceedings to obtain a declaration as to the obligations of the Issuer and without limitation to the Trustee's right to enforce and/or realise the security constituted by the Trust Deed (including by appointing a Receiver).

In addition, none of the Noteholders or any of the other Secured Parties shall have any recourse against any Director, shareholder or officer of the Issuer in respect of any obligations, covenants or agreements entered into or made by the Issuer pursuant to the terms of these Conditions or

any other Transaction Document to which the Issuer is a party or any notice or documents which it is requested to deliver hereunder or thereunder.

None of the Trustee, the Directors, the Initial Purchaser, the Investment Manager or any Agent has any obligation to any Noteholder of any Class for payment of any amount by the Issuer in respect of the Notes of any Class.

(d) Exercise of Rights in Respect of the Portfolio

Pursuant to the Investment Management Agreement, the Issuer authorises the Investment Manager, prior to enforcement of the security over the Collateral, to exercise all rights and remedies of the Issuer in its capacity as a holder of, or person beneficially entitled to, the Portfolio. In particular, the Investment Manager is authorised, subject to any specific direction given by the Issuer, to attend and vote at any meeting of holders of, or other persons interested or participating in, or entitled to the rights or benefits (or a part thereof) under, the Portfolio and to give any consent, waiver, indulgence, time or notification, make any declaration or agree any composition, compounding or other similar arrangement with respect to any obligations forming part of the Portfolio.

(e) Information Regarding the Collateral

The Issuer shall procure that a copy of each Monthly Report and any Payment Date Report is made available upon publication, to each Noteholder of each Class, to the Trustee, the Investment Manager, each Hedge Counterparty and each Rating Agency via the Collateral Administrator's website currently located at <https://gctinvestorreporting.bnymellon.com>. It is not intended that such Reports will be made available in any other format, save in limited circumstances with the Collateral Administrator's agreement. The Collateral Administrator's website does not form part of the information provided for the purposes of the Prospectus and disclaimers may be posted with respect to the information posted thereon. Registration may be required for access to such website and persons wishing to access such website may be required to certify that they are Noteholders or otherwise entitled to access such website.

5. Covenants of and Restrictions on the Issuer

(a) Covenants of the Issuer

Unless otherwise provided and as more fully described in the Trust Deed, the Issuer covenants to the Trustee on behalf of the holders of the Notes that, for so long as any Note remains Outstanding, the Issuer will:

- (i) take such steps as are reasonable to enforce all of its rights:
 - (A) under the Trust Deed;
 - (B) in respect of the Collateral;
 - (C) under the Agency Agreement;
 - (D) under the Investment Management Agreement;
 - (E) under the Subscription Agreement;
 - (F) under the Corporate Services Agreement;
 - (G) under the Collateral Acquisition Agreements;
 - (H) under the Risk Retention Letter;
 - (I) under any Hedge Agreements;

- (J) under the Share Charge; and
- (K) under any other Transaction Document;
- (ii) comply with its obligations under the Notes, the Trust Deed, the Agency Agreement, the Subscription Agreement, the Investment Management Agreement and each other Transaction Document to which it is a party;
- (iii) keep proper books of account;
- (iv) at all times maintain its tax residence outside the United Kingdom and the United States and will not establish a branch, agency, permanent establishment (and in this regard no account shall be taken of the activities which the Investment Manager or the Collateral Administrator carries out on behalf of the Issuer pursuant to the Investment Management Agreement irrespective of whether such activities constitute a permanent establishment or not and for this purpose "permanent establishment" shall be construed pursuant to section 1141 of the Corporation Tax Act 2010) or place of business or register as a company in the United Kingdom or the United States;
- (v) conduct its business and affairs in accordance with its Constitution from within Ireland such that, at all times:
 - (A) it shall maintain its registered office in Ireland;
 - (B) it shall maintain its central management and control and its place of effective management only in Ireland and in particular shall not be treated as being resident in any other jurisdiction under any double taxation treaties entered into by Ireland or otherwise;
 - (C) it shall ensure that all of its Directors are resident in Ireland for tax purposes, that they will exercise their control over the business of the Issuer independently and that all meetings of the Directors shall be held in Ireland and all the Directors (acting independently) shall exercise their authority only from and within Ireland by taking all major strategic decisions relating to the Issuer in Ireland pursuant to and in accordance with the Transaction Documents;
 - (D) it shall not open any office or branch or place of business outside of Ireland; and
 - (E) it shall not knowingly take any action (save to the extent necessary for the Issuer to comply with its obligations under the Transaction Documents) which will cause its "centre of main interests" (within the meaning of European Council Regulation No. 1346/2000 on Insolvency Proceedings (the "**Insolvency Regulations**") to be located in any jurisdiction other than Ireland and will not establish any offices, branches or other establishments (as defined in the Insolvency Regulations) or register as a Company in any jurisdiction other than Ireland;
- (vi) it shall at all times maintain a board of Directors with a majority of Independent Directors. For the purposes of this provision "**Independent Director**" means a duly appointed member of the board of Directors of the Issuer who was not, at the time of such appointment, or at any time in the preceding five years, (i) a direct or indirect legal or beneficial owner of any of the Secured Parties or their respective Affiliates, (ii) a creditor, supplier, employee, officer, director, family member,

manager or contractor of any of the Secured Parties or their respective Affiliates, or (iii) a person who controls (whether directly, indirectly, or otherwise) any of the Secured Parties or their respective Affiliates, provided that an employee or a director of the Corporate Services Provider shall be considered an Independent Director;

- (vii) pay its debts generally as they fall due;
- (viii) do all such things as are necessary to maintain its corporate existence;
- (ix) use its best endeavours to obtain and maintain the listing on the regulated market of the Irish Stock Exchange of the outstanding Notes of each Class. If, however, it is unable to do so, having used such endeavours, or if the maintenance of such listings are agreed by the Trustee to be unduly onerous and the Trustee is satisfied that the interests of the holders of the Outstanding Notes of each Class would not thereby be materially prejudiced, the Issuer will instead use all reasonable endeavours promptly to obtain and thereafter to maintain a listing for such Notes on such other stock exchange(s) as it may (with the approval of the Trustee) decide, provided that such other stock exchange is a recognised stock exchange for the purposes of Section 64 of the Taxes Act 1997;
- (x) supply such information to the Rating Agencies as they may reasonably request;
- (xi) ensure an agent is appointed to assist in creating and maintaining the Issuer's website to enable the Rating Agencies to comply with Rule 17g-5; and
- (xii) ensure that its tax residence is and remains at all times solely in Ireland for Irish tax purposes.

(b) Restrictions on the Issuer

As more fully described in the Trust Deed, for so long as any of the Notes remain Outstanding, save as contemplated in the Transaction Documents, the Issuer covenants to the holders of such Outstanding Notes that (to the extent applicable) it will not, without the prior written consent of the Trustee (and in the case of (vii) only, subject to Rating Agency Confirmation from Moody's):

- (i) sell, factor, discount, transfer, assign, lend or otherwise dispose of any of its right, title or interest in or to the Collateral, other than in accordance with the Investment Management Agreement, nor will it create or permit to be outstanding any mortgage, pledge, lien, charge, encumbrance or other security interest over the Collateral except in accordance with the Trust Deed, these Conditions or the Transaction Documents;
- (ii) sell, factor, discount, transfer, assign, lend or otherwise dispose of, nor create or permit to be outstanding any mortgage, pledge, lien, charge, encumbrance or other security interest over, any of its other property or assets or any part thereof or interest therein other than in accordance with the Trust Deed, these Conditions or the Transaction Documents;
- (iii) except as expressly permitted by the Transaction Documents, engage in activities other than purchasing, holding and selling Eligible Assets and activities related to or incidental to investment in such Eligible Assets;
- (iv) engage in any business other than the holding or managing or both the holding and managing, in each case in Ireland, of "qualifying assets" within the meaning

of Section 110 of the Taxes Act 1997 and in connection therewith shall not engage in any business other than:

- (A) acquiring and holding any property, assets or rights that are capable of being effectively secured in favour of the Trustee or that are capable of being held on trust by the Issuer in favour of the Trustee under the Trust Deed;
 - (B) issuing and performing its obligations under the Notes;
 - (C) entering into, exercising its rights and performing its obligations under or enforcing its rights under the Trust Deed, the Agency Agreement, the Investment Management Agreement and each other Transaction Document to which it is a party, as applicable; or
 - (D) performing any act incidental to or necessary in connection with any of the above;
- (v) amend any term or Condition of the Notes of any Class (save in accordance with these Conditions and the Trust Deed);
 - (vi) agree to any amendment to any provision of, or grant any waiver or consent under the Trust Deed, the Agency Agreement, the Subscription Agreement, the Investment Management Agreement, the Corporate Services Agreement or any other Transaction Document to which it is a party;
 - (vii) incur any indebtedness for borrowed money, other than in respect of:
 - (A) the Notes (including the issuance of additional Notes pursuant to Condition 17 (*Additional Issuances*)) or any document entered into in connection with the Notes or the sale thereof or any additional Notes or the sale thereof;
 - (B) any Refinancing; or
 - (C) as otherwise contemplated or permitted pursuant to the Trust Deed or the Investment Management Agreement;
 - (viii) amend its Constitution (save to the extent necessary to change its name);
 - (ix) have any subsidiaries or establish any offices, branches or other "establishment" (as that term is used in article 2(h) of Council Regulation (EC) No. 1346/2000 on Insolvency Proceedings) outside of Ireland other than any Blocker Subsidiaries;
 - (x) have any employees (for the avoidance of doubt the Directors of the Issuer do not constitute employees);
 - (xi) enter into any reconstruction, amalgamation, merger or consolidation;
 - (xii) convey or transfer all or a substantial part of its properties or assets (in one or a series of transactions) to any person, otherwise than as contemplated in these Conditions;
 - (xiii) issue any shares (other than such shares as are in issue as at the Issue Date) nor redeem or purchase any of its issued share capital;
 - (xiv) enter into any material agreement or contract with any Person (other than an agreement on customary market terms which for the avoidance of doubt will include agreements to buy and sell obligations and documentation relating to

restructurings (including steering committee indemnity letters)), which terms do not contain the provisions below) unless such contract or agreement contains "limited recourse" and "non-petition" provisions and such Person agrees that, prior to the date that is two years and one day after all the related obligations of the Issuer have been paid in full (or, if longer, the applicable preference period under applicable insolvency law), such Person shall not take any action or institute any proceeding against the Issuer or any Blocker Subsidiary under any insolvency law applicable to the Issuer or any Blocker Subsidiary or which would reasonably be likely to cause the Issuer or any Blocker Subsidiary to be subject to or seek protection of, any such insolvency law; provided that such Person shall be permitted to become a party to and to participate in any proceeding or action under any such insolvency law that is initiated by any other Person other than one of its Affiliates;

- (xv) otherwise than as contemplated in the Transaction Documents, release from or terminate the appointment of the Custodian or the Account Bank under the Agency Agreement, the Investment Manager or the Collateral Administrator under the Investment Management Agreement (including, in each case, any transactions entered into thereunder) or, in each case, from any executory obligation thereunder;
 - (xvi) commingle its assets with those of any other Person or entity;
 - (xvii) make any election within the meaning of Section 110(6) of the Taxes Act 1997;
 - (xviii) take any action, or permit any action to be taken, which would cause it to cease to be a "qualifying company" within the meaning of Section 110 of the Taxes Act 1997;
 - (xix) enter into any lease in respect of, or own, premises; or
 - (xx) take any action or institute any proceeding against any Blocker Subsidiary under any insolvency law applicable to such Blocker Subsidiary or which would reasonably be likely to cause such Blocker Subsidiary to be subject to or seek protection of, any such insolvency law.
- (c) Additional covenant of the Issuer

For so long as the Issuer relies on Rule 3a-7 under the Investment Company Act, the Issuer covenants to the Trustee on behalf of the holders of such Outstanding Notes that (to the extent applicable) it will not acquire or dispose of any item of Collateral or other "eligible asset" (as defined in Rule 3a-7 under the Investment Company Act) for the primary purpose of recognising gains or decreasing losses resulting from market value changes and will otherwise comply with the Portfolio Acquisition and Disposition Requirements.

6. Interest

(a) Payment Dates

(i) Rated Notes

The Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes each bear interest from (and including) the Issue Date and such interest will be payable:

- (A) in the case of interest accrued during the initial Accrual Period, for the period from (and including) the Issue Date to (but excluding) the Payment Date falling on or about 15 April 2017;
 - (B) following the occurrence of a Frequency Switch Event, semi-annually; and
 - (C) at all other times, quarterly,
- in each case, in arrear on each Payment Date.

(ii) Subordinated Notes

Residual distributions shall be payable on the Subordinated Notes to the extent funds are available in accordance with paragraph (CC) of the Interest Proceeds Priority of Payments, paragraph (S) of the Principal Proceeds Priority of Payments, paragraphs (A) and (B) of the Collateral Enhancement Obligation Proceeds Priority of Payments, paragraph (AA) of the Post-Acceleration Priority of Payments, paragraph (N) of Condition 3(1)(i) (Application of Interest Proceeds on the Refinancing Date) and paragraph (D) of Condition 3(1)(ii) (Application of Issue Proceeds on the Refinancing Date) on each Payment Date and shall continue to be payable in accordance with this Condition 6 (*Interest*) notwithstanding redemption in full of any Subordinated Note at its applicable Redemption Price.

Notwithstanding any other provision of these Conditions or the Trust Deed, all references herein and therein to the Subordinated Notes being redeemed in full or at their Principal Amount Outstanding shall be deemed to be amended to the extent required to ensure that a minimum of €1 principal amount of each such Class of Notes remains Outstanding at all times and any amounts which are to be applied in redemption of each such Class of Notes pursuant hereto which are in excess of the Principal Amount Outstanding thereof minus €1, shall constitute interest payable in respect of such Notes and shall not be applied in redemption of the Principal Amount Outstanding thereof, provided always however that such €1 principal shall no longer remain Outstanding and each such Class of Notes shall be redeemed in full on the date on which all of the Collateral securing the Notes has been realised and is to be finally distributed to the Noteholders.

If the aggregate of income and gains earned by the Issuer during an accounting period exceeds the costs and expenses accrued for that period, such excess shall accrue as additional interest on the Subordinated Notes but shall only be payable on any Payment Date following payment in full of amounts payable pursuant to the Priorities of Payments on such Payment Date.

(b) Interest Accrual

(i) Interest Accrual

Each Note will cease to bear interest from the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused. In such event, it shall continue to bear interest in accordance with this Condition 6 (*Interest*) (both before and after judgment) until whichever is the earlier of (A) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (B) the day following seven days after the Trustee or the Principal Paying Agent has notified the Noteholders of such Class of Notes in accordance with Condition 16 (*Notices*) of receipt of all sums due in respect of all the Notes of such Class up to that seventh day (except to the

extent that there is failure in the subsequent payment to the relevant holders under these Conditions).

(ii) Subordinated Notes

Payments on the Subordinated Notes will cease to be payable in respect of each Subordinated Note upon the date that all of the Collateral has been realised and no Interest Proceeds or Principal Proceeds remain available for distribution in accordance with the Priorities of Payments.

(c) Deferral of Interest

The Issuer shall, and shall only be obliged to, pay any Interest Amount payable in respect of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes in full on any Payment Date, in each case to the extent that there are Interest Proceeds or Principal Proceeds available for payment thereof in accordance with the Priorities of Payments.

In the case of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes, an amount of interest equal to any shortfall in payment of the Interest Amount which would, but for the first paragraph of this Condition 6(c) (*Deferral of Interest*) otherwise be due and payable in respect of such Class of Notes on any Payment Date (each such amount being referred to as "**Deferred Interest**") will not be due and payable on such Payment Date, but will be added to the principal amount of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes, as applicable and thereafter will accrue interest at the rate of interest applicable to that Class of Notes. The failure to pay such Deferred Interest to the holders of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes will not be an Event of Default until (i) the Maturity Date or any earlier date on which the Notes are redeemed in full or (ii) to the extent any Deferred Interest is payable in accordance with Condition 6(d) (*Payment of Deferred Interest*) and such non-payment gives rise to an Event of Default under Condition 10(a)(i) (*Non-payment of interest*) or Condition 10(a)(iii) (*Default under Priorities of Payments*).

(d) Payment of Deferred Interest

Deferred Interest in respect of any Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes shall only become payable by the Issuer to the extent that Interest Proceeds or Principal Proceeds, as applicable, are available to make such payment in accordance with the Priorities of Payments (and, if applicable, the Note Payment Sequence). For the avoidance of doubt, for so long as any Notes remain Outstanding, Deferred Interest on the Class C Notes, Class D Notes, Class E Notes and/or the Class F Notes, as applicable, will be added to the principal amount of the Class C Notes, Class D Notes, Class E Notes and/or the Class F Notes, as applicable. An amount equal to any such Deferred Interest so paid shall be subtracted from the principal amount of the Class C Notes, Class D Notes, Class E Notes and/or the Class F Notes, as applicable.

(e) Interest on the Rated Notes

(i) Floating Rate of Interest

The rate of interest from time to time in respect of the Class X Notes (the "**Class X Floating Rate of Interest**"), in respect of the Class A-1 Notes (the "**Class A-1 Floating Rate of Interest**"), in respect of the Class A-2 Notes (the "**Class A-2 Floating Rate of Interest**"), in respect of the Class B Notes (the "**Class B Floating Rate of Interest**"), in respect of the Class C Notes (the "**Class C Floating Rate of Interest**"), in respect of the Class D Notes (the "**Class D Floating Rate of Interest**"), in respect of the Class E Notes (the "**Class E Floating Rate of Interest**") and in respect of the Class F Notes (the "**Class F**

Floating Rate of Interest") (and each a **"Floating Rate of Interest"**) will be determined by the Calculation Agent on the following basis:

(A) On each Interest Determination Date:

- (1) in the case of the initial Interest Determination Date, the Calculation Agent will determine a straight line interpolation of the offered rate for 3 and 6 month Euro deposits by reference to the initial Accrual Period;
- (2) in the case of each Interest Determination Date other than the initial Interest Determination Date and prior to the occurrence of a Frequency Switch Event, the Calculation Agent will determine (i) the offered rate for six month Euro deposits; and (ii) the offered rate for three month Euro deposits; and
- (3) in the case of each Interest Determination Date following the occurrence of a Frequency Switch Event, the Calculation Agent will determine the offered rate for six month Euro deposits or, in the case of the Interest Determination Date in respect of the Accrual Period prior to the Maturity Date, if the Payment Date immediately prior to the Maturity Date falls in January 2030, the offered rate for three month Euro deposits,

the applicable offered rate, the **"Designated Maturity"** and in each case, as at 11.00 am (Brussels time) on the Interest Determination Date in question. Such offered rate will be that which appears on the display designated on the Bloomberg Screen **"BTMM EU"** Page (or such other page or service as may replace it for the purpose of displaying EURIBOR rates). The Class X Floating Rate of Interest, the Class A-1 Floating Rate of Interest, the Class A-2 Floating Rate of Interest, the Class B Floating Rate of Interest, the Class C Floating Rate of Interest, the Class D Floating Rate of Interest, the Class E Floating Rate of Interest and the Class F Floating Rate of Interest for such Accrual Period shall be the aggregate of the Applicable Margin (as defined below) and the relevant EURIBOR rate referred to in (i) paragraph (A)(1) above in respect of the initial Accrual Period; (ii) paragraph (A)(2)(i) or (A)(3) above (as applicable) in respect of any six month Accrual Period; and (iii) paragraph (A)(2)(ii) above in respect of each three month Accrual Period, which so appears, all as determined by the Calculation Agent.

- (B) If the offered rate so appearing is replaced by the corresponding rates of more than one bank then paragraph (A) shall be applied, with any necessary consequential changes, to the arithmetic mean (rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 being rounded upwards)) of the rates (being at least two) which so appear, as determined by the Calculation Agent. If for any other reason such offered rate does not so appear, or if the relevant page is unavailable, the Calculation Agent will undertake reasonable endeavours to request each of four major banks in the Euro zone interbank market acting in each case through its principal Euro zone office (the **"Reference Banks"**) to provide the Calculation Agent with its offered quotation to leading banks for Euro deposits in the Euro zone interbank market for the applicable Designated Maturity as at 11.00 a.m. (Brussels time) on the Interest Determination Date in question. The Class X Floating Rate of

Interest, the Class A-1 Floating Rate of Interest, the Class A-2 Floating Rate of Interest, the Class B Floating Rate of Interest, the Class C Floating Rate of Interest, the Class D Floating Rate of Interest, the Class E Floating Rate of Interest and the Class F Floating Rate of Interest for the relevant Accrual Period shall be equal to the aggregate of the Applicable Margin (if any) and the arithmetic mean, in each case, (rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 being rounded upwards)) of such quotations (or of such of them, being at least two, as are so provided), all as determined by the Calculation Agent.

- (C) If on any Interest Determination Date one only or none of the Reference Banks provides such quotation, the Class X Floating Rate of Interest, the Class A-1 Floating Rate of Interest, the Class A-2 Floating Rate of Interest, the Class B Floating Rate of Interest, the Class C Floating Rate of Interest, the Class D Floating Rate of Interest, the Class E Floating Rate of Interest and the Class F Floating Rate of Interest, respectively, for the next Accrual Period shall be equal to the aggregate of the Applicable Margin (if any) and, in each case, the last available offered rate for three or six month Euro deposits as applicable as determined by the Calculation Agent.

- (D) Where:

"**Applicable Margin**" means:

- (1) in the case of the Class X Notes: 0.80 per cent. per annum;
- (2) in the case of the Class A-1 Notes: 0.85 per cent. per annum;
- (3) in the case of the Class A-2 Notes: 0.85 per cent. per annum;
- (4) in the case of the Class B Notes: 1.40 per cent. per annum;
- (5) in the case of the Class C Notes: 2.05 per cent. per annum;
- (6) in the case of the Class D Notes: 3.10 per cent. per annum;
- (7) in the case of the Class E Notes: 5.25 per cent. per annum; and
- (8) in the case of the Class F Notes: 6.90 per cent. per annum.

Notwithstanding paragraphs (A), (B) and (C) above, if in relation to any Interest Determination Date, EURIBOR in respect of any Floating Rate Notes as determined in accordance with paragraphs (A), (B) and (C) above would yield a rate less than zero, such rate shall be deemed to be zero for the purposes of determining the floating rate of interest pursuant to this Condition 6(e)(i) (*Floating Rate of Interest*).

- (ii) Determination of Floating Rate of Interest and Calculation of Interest Amount

The Calculation Agent will, as soon as practicable (and in any event (i) for each Accrual Period following the occurrence of a Frequency Switch Event, not later than the Business Day following the relevant Interest Determination Date; and (ii) for each Accrual Period prior to the occurrence of a Frequency Switch Event and for any Accrual Period during which a Frequency Switch Event occurs, not later than the Determination Date immediately preceding the relevant Payment Date), determine the Class X Floating Rate of Interest, the Class A-1 Floating Rate of Interest, the Class A-2 Floating Rate of Interest, the Class B Floating Rate of

Interest, the Class C Floating Rate of Interest, the Class D Floating Rate of Interest, the Class E Floating Rate of Interest and the Class F Floating Rate of Interest and calculate the interest amount payable in respect of original principal amounts of the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes equal to the Authorised Integral Amount applicable thereto for the relevant Accrual Period. The amount of interest (an "**Interest Amount**") payable in respect of each Authorised Integral Amount applicable to any such Notes shall be calculated by applying the Class X Floating Rate of Interest in the case of the Class X Notes, the Class A-1 Floating Rate of Interest in the case of the Class A-1 Notes, the Class A-2 Floating Rate of Interest in the case of the Class A-2 Notes, the Class B Floating Rate of Interest in the case of the Class B Notes, the Class C Floating Rate of Interest in the case of the Class C Notes, the Class D Floating Rate of Interest in the case of the Class D Notes, the Class E Floating Rate of Interest in the case of the Class E Notes and the Class F Floating Rate of Interest in the case of the Class F Notes, respectively, to an amount equal to the Principal Amount Outstanding in respect of such Authorised Integral Amount, multiplying the product by the actual number of days in the Accrual Period concerned, divided by 360 and rounding the resultant figure to the nearest €0.01 (€0.005 being rounded upwards).

(iii) Reference Banks and Calculation Agent

The Issuer will procure that, so long as any Class X Note, Class A-1 Note, Class A-2 Note, Class B Note, Class C Note, Class D Note, Class E Note or Class F Note remains Outstanding:

- (1) a Calculation Agent shall be appointed and maintained for the purposes of determining the interest rate and interest amount payable in respect of the Notes; and
- (2) if the Class X Floating Rate of Interest, the Class A-1 Floating Rate of Interest, the Class A-2 Floating Rate of Interest, the Class B Floating Rate of Interest, the Class C Floating Rate of Interest, the Class D Floating Rate of Interest, the Class E Floating Rate of Interest and the Class F Floating Rate of Interest are to be calculated by Reference Banks pursuant to paragraph (2) of Condition 6(e)(i) (*Floating Rate of Interest*), that the number of Reference Banks required pursuant to such paragraph (2) are appointed.

If the Calculation Agent is unable or unwilling to continue to act as the Calculation Agent for the purpose of calculating interest hereunder or fails duly to establish any Floating Rate of Interest for any Accrual Period, or to calculate the Interest Amount on any Class of Rated Notes, the Issuer shall (with the prior approval of the Trustee) appoint some other leading bank to act as such in its place. The Calculation Agent may not resign its duties without a successor having been so appointed.

(f) Interest Proceeds in respect of Subordinated Notes

Solely in respect of Subordinated Notes, the Collateral Administrator will on each Determination Date calculate the Interest Proceeds payable to the extent of available funds in respect of an original principal amount of Subordinated Notes equal to the Authorised Integral Amount applicable thereto for the relevant Accrual Period. The Interest Proceeds payable on each Payment Date in respect of an original principal amount of Subordinated Notes equal to the

Authorised Integral Amount applicable thereto shall be calculated by multiplying the amount of Interest Proceeds to be applied on the Subordinated Notes on the applicable Payment Date pursuant to paragraph (CC) of the Interest Proceeds Priority of Payments, paragraph (S) of the Principal Proceeds Priority of Payments, paragraphs (A) and (B) of the Collateral Enhancement Obligation Proceeds Priority of Payments, paragraph (AA) of the Post-Acceleration Priority of Payments, paragraph (N) of Condition 3(1)(i) (*Application of Interest Proceeds on the Refinancing Date*) and paragraph (D) of Condition 3(1)(ii) (*Application of Issue Proceeds on the Refinancing Date*) by fractions equal to the amount of such Authorised Integral Amount, as applicable, divided by the aggregate original principal amount of the Subordinated Notes.

(g) Publication of Floating Rates of Interest, Interest Amounts and Deferred Interest

The Calculation Agent will cause the Class X Floating Rate of Interest, the Class A-1 Floating Rate of Interest, the Class A-2 Floating Rate of Interest, the Class B Floating Rate of Interest, the Class C Floating Rate of Interest, the Class D Floating Rate of Interest, the Class E Floating Rate of Interest and the Class F Floating Rate of Interest and the Interest Amounts payable in respect of each Class of Rated Notes, the amount of any Deferred Interest due but not paid on any Class C Notes, Class D Notes, Class E Notes or Class F Notes for each Accrual Period and Payment Date and the Principal Amount Outstanding of each Class of Notes as of the applicable Payment Date to be notified to the Registrar, the Principal Paying Agent, the Transfer Agents, the Trustee, the Investment Manager and, for so long as the Notes are listed on the regulated market of the Irish Stock Exchange, the Irish Stock Exchange, as soon as possible after their determination but in no event later than the fourth Business Day thereafter, and the Principal Paying Agent shall cause each such rate, amount and date and the occurrence of a Frequency Switch Event (if any and to the extent notified to the Principal Paying Agent in writing by the Investment Manager) to be notified to the Noteholders of each Class in accordance with Condition 16 (*Notices*) as soon as possible following notification to the Principal Paying Agent but in no event later than the third Business Day after such notification. The Interest Amounts in respect of the Class X Notes, the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes or the Payment Date in respect of any Class of Notes so published may subsequently be amended (or appropriate alternative arrangements made with the consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Accrual Period. If any of the Notes become due and payable under Condition 10 (*Events of Default*), interest shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this Condition 6 (*Interest*) but no publication of the applicable Interest Amounts shall be made unless the Trustee so determines.

(h) Determination or Calculation by Trustee

In doing so, the Trustee, or such person appointed by it, shall apply the foregoing provisions of this Condition 6 (*Interest*), with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and in all other respects it shall do so in such manner as it shall deem fair and reasonable in all the circumstances and reliance on such persons as it has appointed for such purpose. The Trustee shall have no liability to any person in connection with any determination or calculation

(including with regard to the timelines thereof) it is required to make pursuant to this Condition 6(h) (*Determination or Calculation by Trustee*).

All notifications, opinions, determinations, certificates, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 6 (*Interest*), whether by the Reference Banks (or any of them), the Calculation Agent or the Trustee, will (in the absence of manifest error) be binding on the Issuer, the Reference Banks, the Calculation Agent, the Trustee, the Registrar, the Principal Paying Agent, the Transfer Agents and all Noteholders and (in the absence of its fraud, negligence or wilful misconduct) no liability to the Issuer or the Noteholders of any Class shall attach to the Reference Banks, the Calculation Agent or the Trustee in connection with the exercise or non-exercise by them of their powers, duties and discretions under this Condition 6(i) (*Notifications, etc. to be Final*).

Such right shall be exercised by delivery by each holder of the relevant Class of Rated Notes of a written direction confirming such holder's election to receive less than 100 per cent. of the Redemption Price that would otherwise be payable to it, together with evidence of their holding to the Issuer, the Trustee and the Investment Manager no later than 25 days (or such shorter period of time as may be agreed by the Trustee and the Investment Manager, acting reasonably) prior to the relevant Redemption Date;
- (C) any such redemption must comply with the procedures set out in Condition 7(b)(vii) (*Mechanics of Redemption*); and

Refinancing Proceeds shall be applied in addition to (or in place of) Sale Proceeds in the redemption of the Rated Notes in whole pursuant to Condition 7(b)(i) (*Optional Redemption in Whole - Subordinated Noteholders or Retention Holder subject to consent of Investment Manager*). - (4) all Principal Proceeds, Refinancing Proceeds, Sale Proceeds, if any, and other available funds are used (to the extent necessary) to make such redemption;
- (5) each agreement entered into by the Issuer in respect of such Refinancing contains limited recourse and non-petition provisions substantially the same as those contained in the Trust Deed; and

(D) Refinancing in relation to a Redemption in Part of a Class or Classes of Notes in whole

In the case of a Refinancing in relation to a redemption of the Rated Notes in part of any Class or Classes pursuant to Condition 7(b)(ii) (*Optional Redemption in Part – Refinancing of a Class or Classes of Notes in whole by Subordinated Noteholders, Investment Manager or Retention Holder*), such Refinancing will be effective only if:

- (1) the Issuer provides prior written notice thereof to Fitch and Moody's;
- (2) any issuance of replacement notes is consented to by the Investment Manager and would not result in non-compliance with the EU Retention Requirements or the U.S. Risk Retention Rules;
- (3) the Refinancing Obligations are in the form of notes;
- (4) any redemption of a Class of Notes is a redemption of the entire Class which is subject to the redemption;

- (5) the sum of (A) the Refinancing Proceeds and (B) Partial Redemption Interest Proceeds will be at least sufficient to pay in full:
 - (a) the aggregate Redemption Prices of the entire Class or Classes of Rated Notes subject to the Optional Redemption; plus
 - (b) all accrued and unpaid Trustee Fees and Expenses incurred in connection with such Refinancing;
- (6) the Refinancing Proceeds are used (to the extent necessary) to make such redemption;
- (7) the Refinancing Proceeds and Partial Redemption Interest Proceeds are applied in accordance with the Partial Redemption Priority of Payments;
- (8) each agreement entered into by the Issuer in respect of such Refinancing contains limited recourse and non-petition provisions substantially the same as those contained in the Trust Deed;
- (9) the aggregate principal amount of the Refinancing Obligations in respect of each Class of Notes being redeemed is equal to the aggregate Principal Amount Outstanding of the relevant Class of Notes being redeemed with the Refinancing Proceeds and Partial Redemption Interest Proceeds;
- (10) the maturity date of each class of Refinancing Obligation is the same as the Maturity Date of the Class or Classes of Notes being redeemed with the Refinancing Proceeds;
- (11) the interest rate of any Refinancing Obligations will not be greater than the interest rate of the Rated Notes subject to such Optional Redemption;
- (12) payments in respect of the Refinancing Obligations are subject to the Priorities of Payments and do not rank higher in priority pursuant to the Priorities of Payments than the relevant Class or Classes of Rated Notes being redeemed;
- (13) the voting rights, consent rights, redemption rights (other than any modification to remove the right of the Subordinated Noteholders or any other party to direct the Issuer to redeem by refinancing the Refinancing Obligations) and all other rights of the Refinancing Obligations are the same as the rights of the corresponding Class of Rated Notes being redeemed; *provided that*, in respect of any Refinancing of the Class A-2 Notes, the restrictions on voting upon any IM Removal Resolution and any IM Replacement Resolution applicable to any Refinancing Obligations issued in connection therewith may vary from those applicable to the Class A-2 Notes as determined by the Investment Manager in its sole discretion; and
- (14) all Refinancing Proceeds are received by (or on behalf of) the Issuer on or prior to the applicable Redemption Date,

in each case, as certified to the Issuer and the Trustee by the Investment Manager upon which certification the Trustee shall rely without liability and without further enquiry.

If, in relation to a proposed optional redemption of the Notes, any of the conditions specified in this Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*) are not satisfied, the Issuer shall cancel the relevant redemption of the Notes and shall give notice of such cancellation to the Trustee, the Investment Manager and the Noteholders in accordance with Condition 16 (*Notices*). Such cancellation shall not constitute an Event of Default.

None of the Issuer, the Investment Manager, the Collateral Administrator or the Trustee shall be liable to any party, including the Subordinated Noteholders, for any failure to obtain a Refinancing (including as a result of the Investment Manager determining in its sole discretion not to provide its consent thereto).

(E) Consequential Amendments

Following a Refinancing, the Trustee shall agree to the modification of the Trust Deed to the extent the Issuer certifies to the Trustee (upon which certification the Trustee shall rely without liability and without further enquiry) that such modification is necessary to reflect the terms of the Refinancing (including any modification to remove (i) the right of the Subordinated Noteholders or any other party to direct the Issuer to redeem by refinancing the Class or Classes of Notes subject to a Refinancing or (ii) the restrictions on the Class A-2 Notes with respect to voting upon any IM Removal Resolution and any IM Replacement Resolution). No further consent for such amendments shall be required from the holders of Notes.

The Trustee will not be obliged to enter into any modification which, in the opinion of the Trustee, would have the effect of (i) exposing the Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (ii) adding to or increasing the obligations, liabilities or duties, or decreasing the rights, indemnities or protections, of the Trustee in respect of the Transaction Documents, and the Trustee will be entitled to conclusively rely upon an officer's certificate of the Issuer and/or opinion of counsel as to matters of law (which may be supported as to factual (including financial and capital markets) matters by any relevant certificates and other documents necessary or advisable in the judgement of counsel delivering such opinion of counsel) provided by the Issuer to the effect that such amendment meets the requirements specified above and is permitted under the Trust Deed without the consent of the holders of the Notes (except that such officer or counsel will have no obligation to certify or opine as to the sufficiency of the Refinancing Proceeds).

(vi) Optional Redemption in whole of all Classes of Notes effected through Liquidation only

Following receipt of notice from the Issuer or, as the case may be, of confirmation from the Registrar of a direction in writing from the required party or requisite percentage of Noteholders, as the case may be, in accordance with Condition 7(b)(i) (*Optional Redemption in Whole - Subordinated Noteholders or Retention Holder subject to consent of Investment Manager*), Condition 7(g) (*Redemption*

Following Note Tax Event) or Condition 7(b)(ii) (*Optional Redemption in Part – Refinancing of a Class or Classes of Notes in whole by Subordinated Noteholders, Investment Manager or Retention Holder*) to exercise any right of optional redemption pursuant to this Condition 7(b) (*Optional Redemption*) or Condition 7(g) (*Redemption Following Note Tax Event*) to be effected solely through the liquidation or realisation of the Collateral, the Collateral Administrator shall, as soon as practicable, and in any event not later than 17 Business Days prior to the scheduled Redemption Date (the "**Redemption Determination Date**") provided that it has received such notice or confirmation at least 20 Business Days prior to the Scheduled Redemption Date, calculate the Redemption Threshold Amount in consultation with the Investment Manager. The Investment Manager or any of its Affiliates will be permitted to purchase Collateral Debt Obligations in the Portfolio on arm's length terms where the Subordinated Noteholders or the Retention Holder exercise their right of early redemption pursuant to this Condition 7(b) (*Optional Redemption*).

The Notes shall not be optionally redeemed where such Optional Redemption is to be effected solely through the liquidation or realisation of the Portfolio unless:

- (A) at least five Business Days before the scheduled Redemption Date the Investment Manager shall have furnished to the Trustee a certificate (upon which certificate the Trustee may rely upon absolutely and without further liability or enquiry), signed by an officer of the Investment Manager, that the Investment Manager, on behalf of the Issuer, has entered into a binding agreement or agreements with a financial or other institution or institutions (which (x) has or is guaranteed by a Person whose short-term unsecured debt obligations (other than such obligations whose rating is based on the credit of a person other than such institution) are rated at least "P-1" by Moody's or (y) in respect of which Rating Agency Confirmation has been received) to purchase (directly or by participation or other arrangement) from the Issuer, not later than the Business Day immediately preceding the scheduled Redemption Date in immediately available funds, all or part of the Portfolio at a purchase price at least sufficient, together with the Eligible Investments maturing, redeemable or putable to the issuer thereof at par on or prior to the scheduled Redemption Date, to meet the Redemption Threshold Amount; or
- (B) (i) prior to selling any Collateral Debt Obligations and/or Eligible Investments, the Investment Manager certifies to the Trustee that, in its judgement, the aggregate sum of (x) expected proceeds from the sale of Eligible Investments, and (y) for each Collateral Debt Obligation, the product of its Principal Balance and its Market Value, shall be at least sufficient to meet the Redemption Threshold Amount; and

(ii) at least one Business Day before the scheduled Redemption Date, the Issuer shall have received proceeds of disposition of all or part of the Portfolio at least sufficient to meet the Redemption Threshold Amount.

Prior to the scheduled Redemption Date, the Collateral Administrator shall give notice to the Trustee in writing of the amount of all expenses incurred by the Issuer up to and including the scheduled Redemption Date in effecting such liquidation.

Any certification delivered by the Investment Manager pursuant to this Condition 7(b)(vi) (*Optional Redemption in whole of all Classes of Notes effected through Liquidation only*) must include (1) the prices of, and expected proceeds from, the sale (directly or by participation or other arrangement) of any Collateral Debt Obligations and/or Eligible Investments and (2) all calculations required by this Condition 7(b) (*Optional Redemption*) or Condition 7(g) (*Redemption Following Note Tax Event*) (as applicable). The Trustee shall rely upon such certification without further enquiry and without liability. Any Noteholder, the Investment Manager or any of the Investment Manager's Affiliates shall have the right, subject to the same terms and conditions afforded to other bidders, to bid on Collateral Debt Obligations to be sold as part of an Optional Redemption pursuant to this Condition 7(b)(vi) (*Optional Redemption in whole of all Classes of Notes effected through Liquidation only*).

If neither condition (A) nor (B) above is satisfied on the Business Day falling immediately prior to the Redemption Date, the Issuer shall cancel the redemption of the Notes and shall give notice of such cancellation to the Trustee, the Investment Manager and the Noteholders in accordance with Condition 16 (*Notices*).

Such cancellation shall not constitute an Event of Default.

If the condition in (B)(i) is satisfied and the condition in (B)(ii) above is not satisfied on the Business Day immediately prior to the Redemption Date solely as result of the fact that one or more of the trades has not been settled on or prior to that date, the Issuer shall give notice of such to the Trustee, the Collateral Administrator and the Noteholders in accordance with Condition 16 (*Notices*) and the Subordinated Noteholders (acting by Ordinary Resolution) shall have the right to elect to direct the Issuer to redeem the Notes on a date falling not less than 3 Business Days after the first date notified to Noteholders as the date of such redemption (the "**Original Redemption Date**") and no more than 30 Business Days after the Original Redemption Date.

If the condition in (B)(ii) above is not satisfied on the Business Day immediately prior to the Redemption Date as extended pursuant to the immediately preceding paragraph, the Issuer shall cancel the redemption of the Notes and shall give notice of such cancellation to the Trustee, the Collateral Administrator, the Portfolio Manager and the Noteholders in accordance with Condition 16 (*Notices*). For the avoidance of doubt, such cancellation shall not constitute a Note Event of Default.

(vii) Mechanics of Redemption

Following calculation by the Collateral Administrator in consultation with the Investment Manager of the relevant Redemption Threshold Amount, if applicable, the Collateral Administrator shall make such other calculations as it is required to make pursuant to the Investment Management Agreement and shall notify the Issuer, the Trustee, the Investment Manager and the Registrar, whereupon the Registrar shall, no later than 1 Business Day following such notification, notify the Noteholders (in accordance with Condition 16 (*Notices*)) of such amounts.

Any exercise of a right of Optional Redemption by (x) the Subordinated Noteholders or (y) the Retention Holder pursuant to this Condition 7(b) (*Optional Redemption*) or the Retention Holder, the Subordinated Noteholders or the Controlling Class pursuant to Condition 7(g) (*Redemption Following Note Tax*

Event) shall be effected by delivery to a Transfer Agent, by the requisite amount of Subordinated Noteholders, the Retention Holder or the requisite amount of Notes comprising the Controlling Class (as applicable), of duly completed Redemption Notices not less than 30 days, or such shorter period of time as the Trustee and the Investment Manager find reasonably acceptable, prior to the proposed Redemption Date. No Redemption Notice and Subordinated Note or Notes comprising the Controlling Class so delivered or any direction given by the Investment Manager may be withdrawn without the prior consent of the Issuer. The Registrar shall copy each Redemption Notice or any direction given by the Investment Manager received to each of the Issuer, the Trustee, the Collateral Administrator, each Hedge Counterparty and, if applicable, the Investment Manager.

The Investment Manager shall notify the Issuer, the Trustee, the Collateral Administrator, each Hedge Counterparty and the Registrar upon satisfaction of the conditions set out in this Condition 7(b) (*Optional Redemption*) and shall arrange for liquidation and/or realisation of the Portfolio in whole or in part as necessary, on behalf of the Issuer in accordance with the Investment Management Agreement. The Issuer shall deposit, or cause to be deposited, the funds required for an optional redemption of the Notes in accordance with this Condition 7(b) (*Optional Redemption*) into the Payment Account on or before the Business Day prior to the applicable Redemption Date. Principal Proceeds and Interest Proceeds received in connection with a redemption in whole of all the Rated Notes shall be payable in accordance with the Post-Acceleration Priority of Payments. Upon the occurrence of a Note Tax Event, the Issuer shall, subject to and in accordance with the terms of the Trust Deed, use all reasonable efforts to change the territory in which it is resident for tax purposes to another jurisdiction which, at the time of such change, would not give rise to a Note Tax Event. shall so redeem the Notes on such terms, provided that such Note Tax Event would affect payment of principal or interest in respect of the Controlling Class or, as the case may be, the Subordinated Notes (in addition to any other Class of Notes) on such Payment Date; provided further that such redemption of the Notes, whether pursuant to the exercise of such option by the Controlling Class or the Subordinated Noteholders, shall take place in accordance with the procedures set out in Condition 7(b)(vii) (*Mechanics of Redemption*).

(h) Redemption

No purchase of Rated Notes by the Issuer may occur unless each of the following conditions is satisfied:

- (A) such purchase of Rated Notes shall occur in the following sequential order of priority: *first*, the Class X Notes, the Class A-1 Notes and the Class A-2 Notes on a *pro rata* and *pari passu* basis, until the Class X Notes and the Class A Notes are redeemed or purchased in full and cancelled; *second*, the Class B Notes, until the Class B Notes are redeemed or purchased in full and cancelled; *third*, the Class C Notes, until the Class C Notes are redeemed or purchased in full and cancelled; *fourth*, the Class D Notes, until the Class D Notes are redeemed or purchased in full and cancelled; *fifth*, the Class E Notes, until the Class E Notes are redeemed or purchased in full and cancelled; and *sixth*, the Class F Notes until the Class F Notes are redeemed or purchased in full and cancelled;

(B)

- (1) each such purchase of Rated Notes of any Class (or Classes in respect of the Class X Notes and the Class A Notes) shall be made pursuant to an offer made to all holders of the Rated Notes of such Class (or Classes in respect of the Class X Notes and the Class A Notes), by notice to such holders, which notice shall specify the purchase price (as a percentage of par) at which such purchase will be effected, the maximum amount of Principal Proceeds and Collateral Enhancement Amounts that will be used to effect such purchase and the length of the period during which such offer will be open for acceptance;
 - (2) each such holder of a Rated Note shall have the right, but not the obligation, to accept such offer in accordance with its terms; and
 - (3) if the aggregate Principal Amount Outstanding of Notes of the relevant Class (or Classes in respect of the Class X Notes and the Class A Notes) held by holders who accept such offer exceeds the amount of Principal Proceeds specified in such offer, such Principal Proceeds shall be applied in the purchase by the Issuer of the relevant Class (or Classes in respect of the Class X Notes and the Class A Notes), *pro rata* among such Classes based on the respective Principal Amount Outstanding of each Class and a portion of the Notes of each accepting holder shall be purchased *pro rata* based on the respective Principal Amount Outstanding of each Class held by each such holder, subject, in each case, to adjustment for Authorised Denominations if required;
- (C) each such purchase shall be effected only at prices discounted from par;
- (D) each such purchase of Rated Notes shall occur prior to the expiry of the Reinvestment Period;
- (E) each Coverage Test is satisfied immediately prior to each such purchase and will be satisfied after giving effect to such purchase or, if any Coverage Test is not satisfied it shall be at least maintained or improved after giving effect to such purchase as it was immediately prior thereto;
- (F) if Sale Proceeds are used to consummate any such purchase, either:
- (1) each requirement or test, as the case may be, of the Portfolio Profile Tests and the Collateral Quality Tests will be satisfied after giving effect to such purchase; or
 - (2) if any requirement or test, as the case may be, of the Portfolio Profile Tests and the Collateral Quality Tests was not satisfied immediately prior to such purchase, such requirement or test will be maintained or improved after giving effect to such purchase;
- (G) no Event of Default shall have occurred and be continuing;
- (H) any Rated Notes to be purchased shall be surrendered to the Registrar for cancellation and may not be reissued or resold; and
- (I) each such purchase shall be effected subject to, and in accordance with, any applicable laws and regulations.

Upon instruction by the Issuer, the Registrar shall cancel any such purchased Rated Notes surrendered to it for cancellation. The cancellation (and/or decrease, as applicable) of any such surrendered Notes shall be taken into account for purposes of all relevant calculations.

(l) Mandatory Redemption of the Class X Notes

The Class X Notes shall be subject to mandatory redemption in part on each Payment Date immediately following (and excluding) the Issue Date, in each case in an amount equal to the relevant Class X Principal Amortisation Amount.

8. **Payments**

(a) Method of Payment

Payments of principal upon final redemption in respect of each Note will be made against presentation and surrender (or, in the case of part payment only, endorsement) of such Note at the specified office of the Principal Paying Agent or any Paying Agent by wire transfer. Payments of interest on each Note and, prior to redemption in full thereof, principal in respect of each Note, will be made by wire transfer and posted on the Business Day immediately preceding the relevant due date to the holder (or to the first named of joint holders) of the Note appearing on the Register at the close of business on the Record Date at his address shown on the register on the Record Date. Upon application of the holder to the specified office of the Principal Paying Agent or any Paying Agent not less than five Business Days before the due date for any payment in respect of a Note, the payment may be made (in the case of any final payment of principal against presentation and surrender (or, in the case of part payment only of such final payment, endorsement) of such Note as provided above) by wire transfer, in immediately available funds, on the due date to a Euro account maintained by the payee with a bank in Western Europe.

(b) Payments

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives, but without prejudice to the provisions of Condition 9 (*Taxation*). No commission shall be charged to the Noteholders.

(c) Payments on Presentation Days

A holder shall be entitled to present a Note for payment only on a Presentation Date and shall not, except as provided in Condition 6 (*Interest*), be entitled to any further interest or other payment if a Presentation Date falls after the due date.

If a Note is presented for payment at a time when, as a result of differences in time zones it is not practicable to transfer the relevant amount to an account as referred to above for value on the relevant Presentation Date, the Issuer shall not be obliged so to do but shall be obliged to transfer the relevant amount to the account for value on the first practicable date after the Presentation Date.

(d) Principal Paying Agent and Transfer Agents

The names of the initial Principal Paying Agent and Transfer Agents and their initial specified offices are set out below. The Issuer reserves the right at any time, with the prior written approval of the Trustee, to vary or terminate the appointment of the Principal Paying Agent and any Transfer Agent and appoint additional or other Agents, provided that it will at all times maintain (i) a Principal Paying Agent and (ii) a paying agent in an EU Member State, in each case as approved in writing by the Trustee and shall procure that it shall at all times maintain a Custodian, Account Bank, Investment Manager and Collateral Administrator. Notice of any

change in any Agent or their specified offices or in the Investment Manager or Collateral Administrator will promptly be given to the Noteholders by the Issuer in accordance with Condition 16 (*Notices*).

9. **Taxation**

All payments of principal and interest in respect of the Notes shall be made free and clear of, and without withholding or deduction for or on account of, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Ireland, or any other jurisdiction, or any political sub division or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law (including, for the avoidance of doubt, in connection with FATCA). For the avoidance of doubt, the Issuer shall not be required to gross up any payments made to Noteholders of any Class and shall withhold or deduct from any such payments any amounts on account of such tax where so required by law or any such relevant taxing authority or in connection with FATCA. Any such withholding or deduction shall not constitute an Event of Default under Condition 10(a) (*Events of Default*).

Payments will be subject in all other cases to any other fiscal or other laws and regulations applicable thereto in any jurisdiction and the Issuer will not be liable for any taxes or duties of whatever nature imposed or levied by such laws or regulations.

Subject as provided below, if the Issuer certifies to the Trustee (upon which certification the Trustee may rely without further enquiry and without liability) that it has or will on the occasion of the next payment due in respect of the Notes of any Class become obliged by Irish law to withhold or account for tax so that it would be unable to make payment of the full amount that would otherwise be due but for the imposition of such tax, the Issuer (save as provided below) shall use all reasonable endeavours to arrange for the substitution of a company incorporated in another jurisdiction approved by the Trustee as the principal obligor under the Notes of such Class, or to change its tax residence to another jurisdiction approved by the Trustee, subject to receipt of Rating Agency Confirmation in relation to such change and in accordance with the Trust Deed.

Notwithstanding the above, if any taxes referred to in this Condition 9 (*Taxation*) arise:

- (a) due to any present or former connection of any Noteholder (or between a fiduciary, settlor, beneficiary, member or shareholder of such Noteholder if such Noteholder is an estate, a trust, a partnership, or a corporation) with Ireland (including without limitation, such Noteholder (or such fiduciary, settlor, beneficiary, member or shareholder) being or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having had a permanent establishment therein) otherwise than by reason only of the holding of any Note or receiving principal or interest in respect thereof;
- (b) by reason of the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax or to provide information concerning nationality, residency or connection with Ireland or other applicable taxing authority;
- (c) in connection with any withholding or deduction for or on account of FATCA; or
- (d) any combination of the preceding clauses (a) through (c) inclusive,

the requirement to substitute the Issuer as a principal obligor and/or change its residence for taxation purposes shall not apply.

(a) Events of Default

Any of the following events shall constitute an "**Event of Default**":

(ii) Non-payment of principal

the Issuer fails to pay any principal when the same becomes due and payable on any Rated Note on any Redemption Date and such failure to pay principal continues for a period of at least five Business Days provided that, in the case of a failure to disburse due to an administrative error or omission, such failure continues for a period of at least 10 Business Days after the Trustee or the Issuer receives written notice of, or has actual knowledge of, such administrative error or omission and provided further that, failure to effect any Optional Redemption or redemption following a Note Tax Event for which notice is withdrawn in accordance with the Conditions or, in the case of an Optional Redemption with respect to which a Refinancing fails, will not constitute an Event of Default;

(v) Breach of Other Obligations

except as otherwise provided in this definition of "Event of Default" a default in a material respect in the performance by, or breach in a material respect of any material covenant of, the Issuer under the Trust Deed (provided that any failure to meet any Portfolio Profile Test, the Reinvestment Overcollateralisation Test, any Collateral Quality Test or Coverage Test is not an Event of Default and any failure to satisfy the Effective Date Determination Requirements is not an Event of Default, except in either case to the extent provided in paragraph (iv) above) or the failure of any material representation or warranty of the Issuer made in the Trust Deed, these Conditions or, in either case, in any certificate or other writing delivered pursuant thereto or in connection therewith to be correct in each case in all material respects when the same shall have been made, which default, breach or failure is materially prejudicial to the interests of the Noteholders of any Class (as determined by the Trustee) and continues for a period of 45 days or more after notice thereof shall have been given to the Issuer and the Investment Manager by the Trustee, specifying such default, breach or failure and requiring it to be remedied and stating that such notice is a "Notice of Default" under the Trust Deed; provided that if the Issuer (as notified to the Trustee by the Investment Manager in writing) has commenced curing such default, breach or failure during the 45 day period specified above, such default, breach or failure shall not constitute an Event of Default under this paragraph (v) unless it continues for a period of 60 days (rather than, and not in addition to, such 45 day period specified above) after notice thereof in accordance herewith. For the purposes of this paragraph, the materiality of such default, breach, covenant, representation or warranty shall be determined by the Trustee;

(vi) Insolvency Proceedings

proceedings are initiated against the Issuer under any applicable liquidation, examinership, insolvency, bankruptcy, composition, reorganisation or other similar laws (together, "**Insolvency Law**"), or an administrative receiver, receiver and manager or other receiver, trustee, administrator, custodian, conservator, liquidator, curator, or other similar official is appointed under the Trust Deed, pursuant to statute, by a court or otherwise in relation to proceedings under any Insolvency Law (a "**Receiver**") in relation to the Issuer or in relation to the whole or any substantial part (in the opinion of the Trustee) of the undertaking or assets of the Issuer and in any of the foregoing cases, except in relation to the appointment of a Receiver, is not discharged within 30 days; or the Issuer is subject to, or initiates or consents to judicial proceedings relating to itself under any applicable Insolvency Law, or seeks the appointment of a Receiver, or makes a conveyance or assignment for the benefit of its creditors generally or otherwise becomes subject to any reorganisation or amalgamation (other than on terms previously approved in writing by the Trustee or by an Extraordinary Resolution of the Controlling Class);

(vii) Illegality

it is or will become unlawful for the Issuer to perform or comply with any one or more of its obligations under the Notes; or

(viii) Investment Company Act

the Issuer or any of the Collateral becomes required to register as an "Investment Company" under the Investment Company Act and such requirement continues for 45 days.

(b) Acceleration

(i) If an Event of Default occurs and is continuing, the Trustee may, at its discretion and shall, at the request of the Controlling Class acting by way of Ordinary Resolution, (subject, in each case, to being indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith) give notice to the Issuer, each Hedge Counterparty and the Investment Manager that all the Notes are immediately due and repayable, provided that following an Event of Default described in paragraph (vi) or (vii) of the definition thereof shall occur, such notice shall be deemed to have been given and all the Notes shall automatically become immediately due and repayable at their applicable Redemption Prices.

(ii) Upon any such notice being given or deemed to have been given to the Issuer in accordance with Condition 10(b)(i) (*Acceleration*), all of the Notes shall immediately become due and repayable at their applicable Redemption Prices.

(c) Curing of Default

At any time after a notice of acceleration of maturity of the Notes has been given pursuant to Condition 10(b)(i) (*Acceleration*) (or deemed to have been given in the case of an Event of Default occurring under paragraph (vi) or (vii) of the definition thereof where such notice is not required) and prior to enforcement of the security pursuant to Condition 11 (*Enforcement*), the Trustee, subject to receipt of consent from the Controlling Class, may and shall, if so requested by the Controlling Class, in each case, acting by Extraordinary Resolution, (and subject, in each case, to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith) rescind and annul such notice of acceleration under paragraph (b)(i) above and its consequences if:

(i) the Issuer has paid or deposited with the Trustee (or to its order) a sum sufficient to pay:

(A) all overdue payments of interest and principal on the Notes, other than the Subordinated Notes;

(B) all due but unpaid taxes owing by the Issuer, as certified by an Authorised Officer of the Issuer to the Trustee;

(C) all unpaid Trustee Fees and Expenses;

(D) all unpaid Administrative Expenses; and

(E) all amounts due and payable by the Issuer under any Hedge Transaction; and

- (ii) the Trustee has determined that all Events of Default, other than the non-payment of the interest in respect of, or principal of, the Notes that have become due and re-payable solely as a result of the acceleration thereof under paragraph (b) above due to such Events of Default, have been cured or waived.

Any previous rescission and annulment of a notice of acceleration (deemed or otherwise) pursuant to this paragraph (c) shall not prevent the subsequent acceleration of the Notes if the Trustee, at its discretion or, as subsequently requested, accelerates the Notes or if the Notes are automatically accelerated in accordance with paragraph (b)(i) above.

All amounts received in respect of this Condition 10(c) (*Curing of Default*) shall be distributed two Business Days following receipt by or on behalf of the Trustee of such amounts in accordance with the Post Acceleration Priority of Payment.

The Issuer shall immediately notify the Trustee, the Investment Manager, the Noteholders in accordance with Condition 16 (*Notices*) and the Rating Agencies upon becoming aware of the occurrence of an Event of Default. The Trust Deed contains provision for the Issuer to provide written confirmation to the Trustee and the Rating Agencies on an annual basis and upon request that no Event of Default has occurred and that no condition, event or act has occurred which, with the lapse of time and/or the issue, making or giving of any notice, certification, declaration and/or request and/or the taking of any similar action and/or the fulfilment of any similar condition would constitute an Event of Default and that no other matter which is required (pursuant thereto) to be brought to the Trustee's attention has occurred.

11. Enforcement

(a) Security Becoming Enforceable

Subject as provided in paragraph (b) below, the security constituted by the Trust Deed over the Collateral shall become enforceable upon an acceleration of the maturity of the Notes pursuant to Condition 10(b) (*Acceleration*).

(b) Enforcement

At any time after the Notes become due and repayable and the security under the Trust Deed becomes enforceable, the Trustee may, at its discretion, but subject always to Condition 4(c) (*Limited Recourse and Non-Petition*) and shall, if so directed by the Controlling Class acting by Ordinary Resolution, institute such proceedings or take any other action against the Issuer as it may think fit to enforce the terms of the Trust Deed and the Notes and pursuant and subject to the terms of the Trust Deed and the Notes, realise and/or otherwise liquidate or sell the Collateral in whole or in part and/or take such other action as may be permitted under applicable laws against any Obligor in respect of the Collateral and/or take any other action to enforce the security over the Collateral in accordance with the Trust Deed (such actions together, "**Enforcement Actions**"), in each case without any liability as to the consequence of such action and without having regard (save to the extent provided in Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*)) to the effect of such action on individual Noteholders of any Class or any other Secured Party provided however that:

- (i) no such Enforcement Action may be taken by the Trustee unless:

- (A) the Trustee (or an agent or other appointee on its behalf, including, without limitation, the Investment Manager (an "**Enforcement Agent**")) determines (in accordance with Condition 11(b)(iii) below) that the anticipated proceeds realised from such Enforcement Action (after deducting any expenses properly incurred in connection therewith) would be sufficient to discharge in full all amounts due and payable in respect of all Classes of Notes (including, without limitation, Deferred Interest on the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes) other than the Subordinated Notes and all amounts payable in priority thereto pursuant to the Post-Acceleration Priority of Payments (such amount the "**Enforcement Threshold**" and such determination being an "**Enforcement Threshold Determination**"); or
- (B) if the Enforcement Threshold will not have been met then:
 - (1) in the case of an Event of Default specified in sub-paragraph (i), (ii) or (iv) of Condition 10(a) (*Events of Default*), the Controlling Class acting by way of Extraordinary Resolution (and no other Class of Notes) directs the Trustee to take Enforcement Action without regard to any other Event of Default which has occurred prior to, contemporaneously or subsequent to such Event of Default; or
 - (2) in the case of any other Event of Default, the holders of each Class of Rated Notes voting separately by Class by way of Ordinary Resolution direct the Trustee to take Enforcement Action;
- (ii) the Trustee shall not be bound to institute any Enforcement Action or take any other action unless it is directed to do so by the Controlling Class or, in the case of Condition 11(b)(i)(B)(2) (*Enforcement*), each Class of Rated Notes as applicable, acting by Ordinary Resolution and, in each case, the Trustee is indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith. Following redemption and payment in full of the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, the Trustee shall (provided it is indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith) act upon the directions of the Subordinated Noteholders acting by Extraordinary Resolution; and
- (iii) the Trustee shall determine or shall procure that an Enforcement Agent determines the aggregate proceeds that can be realised pursuant to any Enforcement Action by using reasonable efforts to obtain, with the cooperation of the Investment Manager (if applicable), bid prices with respect to each asset comprising the Portfolio from two recognised dealers (as specified by the Investment Manager in writing) at the time making a market therein and shall compute the anticipated proceeds of sale or liquidation on the basis of the lower of such bid prices for each such asset. If the Enforcement Agent, with the cooperation of the Investment Manager (if applicable) is only able to obtain bid prices with respect to an asset from one recognised dealer at the time making a market therein, the Enforcement Agent shall compute the anticipated proceeds of sale or liquidation on the basis of such one bid price. Provided that the Trustee

exercises reasonable care in selecting an Enforcement Agent, the Trustee may rely on the determination of such Enforcement Agent without liability. In addition, for the purposes of determining issues relating to the execution of a sale or liquidation of the Portfolio, the Trustee may obtain and rely on an opinion of an independent investment banking firm, or other appropriate financial or legal advisor (the cost of which shall be payable as a Trustee Fee and Expense).

The Trustee shall notify the Noteholders, the Issuer, the Agents, the Investment Manager, each Hedge Counterparty and the Rating Agencies if the Trustee or an Enforcement Agent on its behalf makes an Enforcement Threshold Determination at any time or the Trustee takes any Enforcement Action at any time (such notice an "**Enforcement Notice**"). Following acceleration of the Notes which has not been rescinded and annulled in accordance with Condition 10(c) (*Curing of Default*) or pursuant to an Optional Redemption in whole in accordance with Condition 7(b) (*Optional Redemption*) or Condition 7(g) (*Redemption Following Note Tax Event*), Interest Proceeds, Principal Proceeds and the net proceeds of enforcement of the security over the Collateral (other than with respect to (i) any Counterparty Downgrade Collateral or expected sale proceeds required to be paid or returned to a Hedge Counterparty and exchanged into Euro outside the Priorities of Payments in accordance with the relevant Hedge Agreement, (ii) Swap Tax Credits (which are required to be paid or returned to a Hedge Counterparty outside the Priorities of Payments in accordance with the relevant Hedge Agreement) or (iii) any Collateral Enhancement Obligation Proceeds (which are required to be applied in accordance with the Collateral Enhancement Obligation Proceeds Priority of Payments)) shall be credited to the Payment Account and shall be distributed in accordance with the following order of priority but in each case only to the extent that all payments of a higher priority have been made in full (the "**Post-Acceleration Priority of Payments**"):

- (A) to the payment of the Issuer Profit Amount and of taxes and statutory fees owing by the Issuer accrued in respect of the related Due Period as certified by an Authorised Officer of the Issuer to the Trustee, if any, (save for any VAT payable in respect of any Investment Management Fee);
- (B) to the payment of accrued and unpaid Trustee Fees and Expenses up to the Senior Expenses Cap in respect of the related Due Period, provided that upon an acceleration of the Notes (which has not been rescinded or annulled) in accordance with Condition 10(b) (*Acceleration*) the Senior Expenses Cap shall not apply;
- (C) to the payment of accrued and unpaid Administrative Expenses in relation to each item thereof, in the order of priority set out in the definition thereof up to an amount equal to the Senior Expenses Cap in respect of the related Due Period provided that upon an acceleration of the Notes (which has not been rescinded or annulled) in accordance with Condition 10(b) (*Acceleration*) the Senior Expenses Cap shall not apply to any Administrative Expenses due and payable to the Agents under the Agency Agreement, each Reporting Delegate under each Reporting Delegation Agreement, the Information Agent, the Investment Manager or the Collateral Administrator under the Investment Management Agreement or in the case of the Corporate Services Provider, under the Corporate Services Agreement;

 - (c) *thirdly*, any remaining Interest Proceeds and Principal Proceeds, to the payment of principal on the Subordinated Notes on a pro rata basis and thereafter to the payment of interest thereon on a pro rata basis (determined upon redemption in full thereof by reference to the proportion that the principal amount of the Subordinated Notes held by Subordinated Noteholders bore to the Principal Amount Outstanding of the Subordinated Notes immediately prior to such redemption).

For the avoidance of doubt, at such time that the Post-Acceleration Priority of Payments becomes applicable, (i) any amounts standing to the credit of the Collateral Enhancement Account, and (ii) any Collateral Enhancement Obligation Proceeds shall not be subject to the Post-Acceleration Priority of Payments but shall be distributed in accordance with and subject to the Collateral Enhancement Obligation Proceeds Priority of Payments.

Where the payment of any amount in accordance with the Priorities of Payments set out above is subject to any deduction or withholding for or on account of any tax, payment of the amount so deducted or withheld shall be made to the relevant taxing authority *pari passu* with and, so far as possible, at the same time as the payment of the amount in respect of which the relevant deduction or withholding has arisen.

(c) Only Trustee to Act

Only the Trustee may pursue the remedies available under the Trust Deed to enforce the rights of the Noteholders or, in respect of the Collateral, of any of the other Secured Parties under the Trust Deed and the Notes and no Noteholder or other Secured Party (other than the Trustee) may proceed directly against the Issuer or any of its assets unless the Trustee, having become

bound to proceed in accordance with the terms of the Trust Deed, fails or neglects to do so within a reasonable period after having received notice of such failure and such failure or neglect continues for at least 30 days following receipt of such notice by the Trustee. Any proceeds received by a Noteholder or other Secured Party pursuant to any such proceedings brought by a Noteholder or other Secured Party shall be paid promptly following receipt thereof to the Trustee for application pursuant to the terms hereof. After realisation of the security which has become enforceable and distribution of the net proceeds in accordance with the Priorities of Payments, no Noteholder or other Secured Party may take any further steps against the Issuer to recover any sum still unpaid in respect of the Notes or the Issuer's obligations to such Secured Party and all claims against the Issuer to recover any sum still unpaid in respect of the Notes or the Issuer's obligations to such Secured Party and all claims against the Issuer in respect of such sums unpaid shall be extinguished. In particular, none of the Trustee, any Noteholder or any other Secured Party shall be entitled in respect thereof to petition or take any other step for the liquidation or winding up of the Issuer except to the extent permitted under the Trust Deed.

(d) Purchase of Collateral by Noteholders

Upon any sale of any part of the Collateral following the acceleration of the Notes under Condition 10(b) (*Acceleration*), or the security over the Collateral becoming enforceable whether made under the power of sale under the Trust Deed or by virtue of judicial proceedings, any Noteholder may (but shall not be obliged to) bid for and purchase the Collateral or any part thereof and, upon compliance with the terms of sale, may hold, retain, possess or dispose of such property in its or their own absolute right without accountability. In addition, any purchaser in any such sale which is a Noteholder may deliver Notes held by it in place of payment of the purchase price for such Collateral where the amount payable to such Noteholder in respect of such Notes pursuant to the Priorities of Payments is equal to or exceeds the purchase moneys so payable.

12. **Prescription**

Claims in respect of principal and interest payable on redemption in full of the relevant Notes will become void unless presentation for payment is made as required by Condition 7 (*Redemption and Purchase*) within a period of five years, in the case of interest, and 10 years, in the case of principal, from the date on which payment in respect of such Notes is received by the applicable Paying Agent.

13. **Replacement of Notes**

If any Note is lost, stolen, mutilated, defaced or destroyed it may be replaced at the specified office of any Transfer Agent, subject in each case to all applicable laws and Irish Stock Exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer or such Transfer Agent may require (provided that the requirement is reasonable in the light of prevailing market practice). Mutilated or defaced Notes must be surrendered before replacements will be issued.

14. **Meetings of Noteholders, Modification, Waiver and Substitution**

(a) Provisions in Trust Deed

The Trust Deed contains provisions for convening meetings of the Noteholders or any Class thereof (and of passing Written Resolutions) to consider matters affecting the interests of the Noteholders including, without limitation, modifying or waiving certain of the provisions of these Conditions and the substitution of the Issuer in certain circumstances. The provisions in

this Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) are descriptive of the detailed provisions of the Trust Deed.

(b) Decisions and Meetings of Noteholders

(i) General

Decisions may be taken by Noteholders by way of Ordinary Resolution or Extraordinary Resolution, in each case, either acting together or, to the extent specified in any applicable Transaction Document, as a Class of Noteholders acting independently. Such Resolutions can be effected either at a duly convened meeting of the applicable Noteholders or by the applicable Noteholders resolving in writing, in each case, in at least the minimum percentages specified in the table "Minimum Percentage Voting Requirements" in paragraph (iii) below. Meetings of the Noteholders may be convened by the Issuer, the Trustee (subject to being indemnified and/or secured and/or prefunded to its satisfaction) or by one or more Noteholders holding not less than 10 per cent. in principal amount of the Notes Outstanding of a particular Class, subject to certain conditions including minimum notice periods.

The Trustee may, in its discretion, determine that any proposed Ordinary Resolution or Extraordinary Resolution affects the holders of only one or more Classes of Notes, in which event the required quorum and minimum percentage voting requirements of such Ordinary Resolution or Extraordinary Resolution may be determined by reference only to the holders of that Class or Classes of Notes and not the holders of any other Notes as set forth in the tables below.

Notice of any Resolution passed by the Noteholders will be given by the Issuer to Fitch and Moody's in writing.

(ii) Quorum

The quorum required for any meeting convened to consider an Ordinary Resolution or Extraordinary Resolution, in each case, of all the Noteholders or of any Class of Noteholders, or at any adjourned meeting to consider such a Resolution, shall be as set out in the relevant column and row corresponding to the type of resolution in the table "Quorum Requirements" below.

Quorum Requirements

Ordinary Resolution of all Noteholders (or a certain Class or Classes only)	One or more persons holding or representing not less than 50 per cent. of the aggregate Principal Amount Outstanding of the Notes (or the relevant Class or Classes only, if applicable)	One or more persons holding or representing not less than 25 per cent. of the aggregate Principal Amount Outstanding of the Notes (or the relevant Class or Classes only, if applicable)

The Trust Deed does not contain any provision for higher quorums in any circumstances.

(iii) Class X Note and Class A-2 Note Voting Rights

The Class X Notes and the Class A-2 Notes shall have no voting rights in respect of, and shall not be counted for the purposes of determining a quorum and the result of voting on any IM Removal Resolutions or any IM Replacement Resolutions (but shall carry a right to vote and be so counted on all other matters in respect of which the Class A-1 Notes have a right to vote and be counted). Other than in respect of an IM Removal Resolution or an IM Replacement Resolution, for the purposes of determining voting rights attributable to the Notes and the applicable quorum at any meeting of the Noteholders pursuant to this Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*), the Class A-1 Notes and the Class A-2 Notes together shall be deemed to constitute a single class in respect of any voting rights specifically granted to them as the Controlling Class.

(iv) Minimum Percentage Voting Requirements

Set out in the table "Minimum Percentage Voting Requirements" below are the minimum percentages required to pass the Resolutions specified in such table which, (A) if such Resolution is being considered at a duly convened meeting of Noteholders, shall be determined by reference to the percentage which the aggregate Principal Amount Outstanding of Notes held or represented by any person or persons who vote in favour of such Resolution represents of the aggregate Principal Amount Outstanding of all applicable Notes which are represented at such meeting and are voted or, (B) in the case of any Written Resolution, shall be determined by reference to the percentage which the aggregate Principal Amount Outstanding of Notes entitled to be voted in respect of such Resolution and which are voted in favour thereof represent of the aggregate Principal Amount Outstanding of all the Notes entitled to vote in respect of such Written Resolution.

Minimum Percentage Voting Requirements

Type of Resolution	Per cent.
Extraordinary Resolution of all the Noteholders (or of a certain Class or Classes only)	At least 66⅔ per cent.
Ordinary Resolution of all the Noteholders (or of a certain Class or Classes only)	More than 50 per cent.

(v) Written Resolutions

Any Written Resolution may be contained in one document or in several documents in like form each signed by or on behalf of one or more of the relevant Noteholders and the date of such Written Resolution shall be the date on which the latest such document is signed. Any Extraordinary Resolution or Ordinary Resolution may be passed by way of a Written Resolution.

(vi) All Resolutions Binding

Subject to Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*) and in accordance with the Trust Deed, any Resolution of the Noteholders (including any resolution of a specified Class or Classes of Noteholders, where the resolution of one or more other Classes is not required) duly passed shall be

binding on all Noteholders (regardless of Class and regardless of whether or not a Noteholder was present at the meeting at which such Resolution was passed).

(vii) Extraordinary Resolution

Subject to the right of veto of the Retention Holder referred to in paragraph (ix) (*Retention Holder Veto*) below, any Resolution to sanction any of the following items will be required to be passed by an Extraordinary Resolution (in each case, subject to anything else specified in the Trust Deed, the Investment Management Agreement or the relevant Transaction Document, as applicable):

- (A) the exchange or substitution for the Notes of a Class, or the conversion of the Notes of a Class into, shares, bonds or other obligations or securities of the Issuer or any other entity and/or cash;

- (H) any modification of any Transaction Document having a material adverse effect on the security over the Collateral constituted by the Trust Deed;
- (I) any item requiring approval by Extraordinary Resolution pursuant to these Conditions or any Transaction Document; and
- (J) any modification of this Condition 14(b) (*Decisions and Meetings of Noteholders*).

(viii) Ordinary Resolution

Any meeting of the Noteholders shall, subject to these Conditions and the Trust Deed, have the power by Ordinary Resolution to approve any other matter relating to the Notes not referred to in Condition 14(b)(vii) (*Extraordinary Resolution*) above.

(ix) Resolutions affecting other Classes

If and for so long as any Notes of more than one Class are Outstanding, in relation to any Meeting of Noteholders:

- (A) subject to paragraphs (C) and (D) below, a Resolution which in the opinion of the Trustee affects only the Notes of a Class or Classes (such Class or Classes, the "**Affected Class(es)**"), but not another Class or Classes, as the case may be, shall be deemed to have been duly passed if passed at a meeting of the holders of the Notes of each Affected Class and such Resolution shall be binding on all the Noteholders, including the holders of Notes which are not an Affected Class;

provided, in each case, any Resolution may also be passed by way of a Written Resolution.

(x) Retention Holder Veto

Provided that no Retention Event has occurred and is continuing, no modification or any Resolution to approve the modification of the Eligibility Criteria, the Portfolio Profile Tests, the Collateral Quality Tests, the Reinvestment Criteria, or any material changes to them (save for those that are made to ensure compliance with the EU Retention Requirements) will be effective without the consent in writing of the Retention Holder. For the avoidance of doubt, if a Retention Event has occurred and is continuing, the Retention Holder shall have no veto rights in accordance with this Condition, however, this shall not affect the rights of the Retention Holder to exercise its rights as a Noteholder.

(c) Modification and Waiver

The Trust Deed and the Investment Management Agreement both provide that, without the consent of the Noteholders (save where consent of the Controlling Class is required as specified below), the Issuer may amend, modify, supplement and/or waive the relevant provisions of the Trust Deed and/or the Investment Management Agreement and/or any other Transaction Document (subject to the consent of the other parties thereto) (as applicable) and the Trustee shall consent to such amendment, modification, supplement or waiver subject as provided below (other than in the case of an amendment, modification, supplement or waiver, pursuant to paragraph (i)(B), (xii), (xiii) or (xiv) below, which shall be subject to the prior written consent of the Trustee in accordance with the relevant paragraph), for any of the following purposes:

- (xii) following the provision of notice by, or on behalf of, the Issuer to the Controlling Class, to enter into any additional agreements not expressly prohibited by the Trust Deed or the Investment Management Agreement (as applicable) as well as any amendment, modification or waiver of such additional agreements if the Trustee determines that such entry, amendment, modification or waiver would not, upon or after becoming effective, be materially prejudicial to the interests of the holders of any Class of Notes; in each case provided that any such additional agreements include customary limited recourse and non-petition provisions, provided that at least 66⅔ per cent of the Controlling Class by Principal Amount Outstanding do not object to the same within five Business Days of such notice being sent by, or on behalf of, the Issuer;

Any such modification, authorisation or waiver shall be binding on the Noteholders and shall be notified by the Issuer as soon as reasonably practicable following the execution of any trust deed supplemental to the Trust Deed or any other modification, authorisation or waiver pursuant to this Condition 14(c) (*Modification and Waiver*) to:

- (A) so long as any of the Notes rated by one or more Rating Agencies remains Outstanding, each such Rating Agency; and
- (B) the Noteholders in accordance with Condition 16 (*Notices*).

Subject to its compliance with applicable law and any obligation to provide prior notice pursuant to a Hedge Agreement, the Issuer agrees that it shall notify the Hedge Counterparty of any amendment made to any Transaction Document as soon as reasonably practicable after any such amendment is made.

The Issuer shall not agree to amend, modify or supplement any provisions of the Transaction Documents if such change shall have a material adverse effect on the rights or obligations of a Hedge Counterparty in its capacity as such without the Hedge Counterparty's prior written consent.

To the extent required pursuant to a Hedge Agreement, the Issuer shall notify each Hedge Counterparty of any proposed amendment to any provisions of the Transaction Documents and seek the prior consent of such Hedge Counterparty in respect thereof, in each case to the extent required in accordance with and subject to the terms of the relevant Hedge Agreement. For the avoidance of doubt, such notice shall only be given and such consent shall only be sought to the extent required above or in accordance with and subject to the terms of the relevant Hedge Agreement. If a Hedge Agreement allows a certain period for the relevant Hedge Counterparty to consider and respond to such a consent request, during such period and pending a response from the relevant Hedge Counterparty, the Issuer shall not make any such proposed amendment until such notice has expired.

For the avoidance of doubt, the Trustee shall, subject to the following paragraph, without the consent or sanction of any of the Noteholders (subject as provided above) or any other Secured Party concur with the Issuer, in making any such modification, amendment, waiver or supplement pursuant to the paragraphs above (save for modifications, amendments, waivers or supplements in accordance with paragraphs (i)(B), (xii), (xiii) and (xiv) above) to the Transaction Documents which the Issuer or the Investment Manager certifies or confirms to the Trustee is required (upon which certification or confirmation the Trustee is entitled to rely without further enquiry and without liability), provided that the Trustee shall not be obliged to agree to any modification which, in the opinion of the Trustee, would have the effect of (i) exposing the Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (ii) adding to or increasing the obligations, liabilities or duties, or decreasing the rights, indemnities or protections, of the Trustee in respect of the Transaction Documents.

In the case of a modification, amendment, waiver or supplement pursuant to paragraph (i)(B), (xii), (xiii) or (xiv) above, the Trustee may impose such conditions as it sees fit and under no circumstances shall the Trustee be required to concur with the Issuer in making any such

modification, amendment, waiver or supplement pursuant to such paragraph or give such consent on less than 21 days' notice and the Trustee shall be entitled to obtain legal, financial or other expert advice, at the expense of the Issuer, and rely on such advice in connection with determining whether to give such consent as it sees fit.

(d) Substitution

The Trust Deed contains provisions permitting the Trustee to agree, subject to such amendment of the Trust Deed and such other conditions as the Trustee may require (without the consent of the Noteholders of any Class), to the substitution of any other company in place of the Issuer, or of any previous substituted company, as principal debtor under the Trust Deed and the Notes of each Class, if required for taxation purposes, provided that such substitution would not be materially prejudicial to the interests of the Noteholders of any Class. In the case of such a substitution the Trustee may agree, without the consent of the Noteholders, but subject to receipt of Rating Agency Confirmation (subject to receipt of such information and/or opinions as any Rating Agency may require), to a change of the law governing the Notes and/or the Trust Deed, provided that such change would not in the opinion of the Trustee be materially prejudicial to the interests of the Noteholders of any Class. Any substitution agreed by the Trustee pursuant to this Condition 14(d) (*Substitution*) shall be binding on the Noteholders, and shall be notified by the Issuer to the Noteholders as soon as practicable in accordance with Condition 16 (*Notices*).

The Trustee may, subject to the satisfaction of certain conditions specified in the Trust Deed, including receipt of Rating Agency Confirmation, agree to a change in the place of residence of the Issuer for taxation purposes without the consent of the Noteholders of any Class, provided the Issuer does all such things as the Trustee may reasonably require in order that such change in the place of residence of the Issuer for taxation purposes is fully effective and complies with such other requirements which are in the interests of the Noteholders as it may reasonably direct.

The Issuer shall procure that, so long as the Notes are listed on the regulated market of the Irish Stock Exchange any material amendments or modifications to the Conditions of the Notes, the Trust Deed or such other conditions made pursuant to this Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) shall be notified to the Irish Stock Exchange.

(e) Entitlement of the Trustee and Conflicts of Interest

In connection with the exercise of its trusts, powers, duties and discretions (including but not limited to those referred to in this Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*)), the Trustee shall have regard to the interests of each Class of Noteholders as a Class and shall not have regard to the consequences of such exercise for individual Noteholders of such Class and the Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders except to the extent already provided for in Condition 9(a) (*Taxation*).

The Trust Deed provides that in the event of any conflict of interest between or among the holders of the Class X Notes and the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes, the interests of the holders of the Controlling Class will prevail. If the holders of the Controlling Class do not have an interest in the outcome of the conflict, the Trustee shall give priority to the interests of (i) the Class B Noteholders over the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, (ii) the Class C Noteholders over the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, (iii) the Class D Noteholders, over the Class E Noteholders,

the Class F Noteholders and the Subordinated Noteholders, (iv) the Class E Noteholders over the Class F Noteholders and the Subordinated Noteholders and (v) the Class F Noteholders over the Subordinated Noteholders. If the Trustee receives conflicting or inconsistent requests from two or more groups of holders of a Class, given priority as described in this paragraph, each representing less than the majority by principal amount of such Class, the Trustee shall give priority to the group which holds the greater aggregate principal amount of Notes Outstanding of such Class. The Trust Deed provides further that the Trustee will act upon the directions of the holders of the Controlling Class (or other Class given priority as described in this paragraph) in such circumstances subject to being indemnified and/or secured and/or prefunded to its satisfaction, and shall not be obliged to consider the interests of and is exempted from any liability to the holders of any other Class of Notes.

In addition, the Trust Deed provides that, so long as any Note is Outstanding, the Trustee shall have no regard to the interests of any Secured Party other than the Noteholders or, at any time, to the interests of any other person.

15. Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility in certain circumstances, including provisions relieving it from instituting proceedings to enforce repayment or to enforce the security constituted by or pursuant to the Trust Deed, unless indemnified and/or secured and/or prefunded to its satisfaction. The Trustee is entitled to enter into business transactions with the Issuer or any other party to any Transaction Document and any entity related to the Issuer or any other party to any Transaction Document without accounting for any profit. The Trustee is exempted from any liability in respect of any loss or theft of the Collateral from any obligation to insure, or to monitor the provisions of any insurance arrangements in respect of, the Collateral (for the avoidance of doubt, under the Trust Deed the Trustee is under no such obligation) and from any claim arising from the fact that the Collateral is held by the Custodian or is otherwise held in safe custody by a bank or other custodian. The Trustee shall not be responsible for the performance by the Custodian of any of its duties under the Agency Agreement or for the performance by the Investment Manager of any of its duties under the Investment Management Agreement, for the performance by the Collateral Administrator of its duties under the Investment Management Agreement or for the performance by any other person appointed by the Issuer in relation to the Notes or by any other party to any Transaction Document. The Trustee shall not have any responsibility for the administration, management or operation of the Collateral including the request by the Investment Manager to release any of the Collateral from time to time.

The Trust Deed contains provisions for the retirement of the Trustee and the removal of the Trustee by Extraordinary Resolution of the Controlling Class, but no such retirement or removal shall become effective until a successor trustee is appointed.

16. Notices

Notices to Noteholders will be valid if posted to the address of such Noteholder appearing in the Register at the time of publication of such notice by pre-paid, first class mail (or any other manner approved by the Trustee which may be by electronic transmission) and (for so long as the Notes are listed on the regulated market of the Irish Stock Exchange and the rules of the Irish Stock Exchange so require) shall be submitted to the Irish Stock Exchange. Any such notice shall be deemed to have been given to the Noteholders (a) in the case of inland mail three days after the date of dispatch thereof, (b) in the case of overseas mail, seven days after the dispatch thereof or, (c) in the case of electronic transmission, on the date of dispatch.

The Trustee shall be at liberty to sanction some other method of giving notice to the Noteholders (or a category of them) if, in its opinion, such other method is reasonable having regard to market practice then prevailing and to the rules of the stock exchange on which the Notes are then listed and provided that notice of such other method is given to the Noteholders in such manner as the Trustee shall require.

17. Additional Issuances

- (a) The Issuer may from time to time, subject to the approval of (i) the Subordinated Noteholders acting by way of Ordinary Resolution, (ii) the Retention Holder, (iii) the Investment Manager and (iv) so long as the Class A Notes are outstanding, the approval of the Class A Noteholders acting by Ordinary Resolution, create and issue further Notes (other than the Class X Notes) having the same terms and conditions as existing Classes of Notes (subject as provided below) and which shall be consolidated and form a single series with the Outstanding Notes of such Class (unless otherwise provided), and will use the proceeds of sale thereof to purchase additional Collateral Debt Obligations and, if applicable, enter into additional Hedge Transactions in connection with the Issuer's issuance of, and making payments on, the Notes and ownership of and disposition of the Collateral Debt Obligations, provided that the following conditions are met:
- (i) such additional issuances in relation to the applicable Class of Notes may not exceed 100.0 per cent. in the aggregate of the original aggregate principal amount of such Class of Notes;
 - (ii) such additional Notes must be issued for a cash sale price and the net proceeds invested in Collateral Debt Obligations or, pending such investment, during the Subsequent Investment Period deposited in the Unused Proceeds Account or, thereafter, deposited in the Principal Account and, in each case, invested in Eligible Investments;
 - (iii) such additional Notes must be of each Class of Notes (other than the Class X Notes) and issued in a proportionate amount among the Classes so that the relative proportions of aggregate principal amount of the Classes of Notes (excluding the Class X Notes) existing immediately prior to such additional issuance remain unchanged immediately following such additional issuance (save with respect to Subordinated Notes as described in paragraph (b) below);
 - (iv) the terms (other than the date of issuance, the issue price and the date from which interest will accrue) of such Notes must be identical to the terms of the previously issued Notes of the applicable Class of Notes;
 - (v) the Issuer must notify the Rating Agencies then rating any Notes of such additional issuance and, if Fitch has assigned ratings to any Class of the Rated Notes that is Outstanding at such time, obtain a Rating Agency Confirmation from Fitch in respect of such additional issuance;
 - (vi) the Par Value Tests are satisfied; provided that this paragraph (vi) shall not apply to any additional issuance of Subordinated Notes if such issuance is required in order to prevent or cure a breach by the Investment Manager of the U.S. Risk Retention Rules or in order to prevent or cure a Retention Deficiency for any reason including but not limited to, where such Retention Deficiency will occur due to an additional issuance of any Class of Notes;
 - (vii) the holders of the relevant Class of Notes in respect of which further Notes are issued shall have been notified in writing by the Issuer 30 days prior to such

issuance and shall have been afforded the opportunity to purchase additional Notes of the relevant Class in an amount not to exceed the percentage of the relevant Class of Notes each holder held immediately prior to the issuance (the "**Anti Dilution Percentage**") of such additional Notes and on the same terms offered to investors generally; provided that this paragraph (vii) shall not apply to any additional issuance of Subordinated Notes if such issuance is required in order to prevent or cure a breach by the Investment Manager of the U.S. Risk Retention Rules or in order to prevent or cure a Retention Deficiency for any reason including but not limited to, where such Retention Deficiency will occur due to an additional issuance of any Class of Notes;

- (viii) (so long as the existing Notes of the Class of Notes to be issued are listed on the regulated market of the Irish Stock Exchange) the additional Notes of such Class to be issued are in accordance with the requirements of the Irish Stock Exchange and are listed on the regulated market of the Irish Stock Exchange (for so long as the rules of the Irish Stock Exchange so requires);
 - (ix) such additional issuances are in accordance with all applicable laws including, without limitation, the securities and banking laws and regulations of Ireland and do not adversely affect the Irish tax position of the Issuer;
 - (x) so long as the Issuer relies on the exclusion from registration as an investment company under the Investment Company Act provided by Rule 3a-7, the Issuer obtains legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that such additional issuance will not eliminate the Issuer's ability to rely on Rule 3a-7 for its exclusion from the registration requirements of the Investment Company Act;
 - (xi) such additional notes will have a separate ISIN number, unless the Notes of any Class and such additional notes of the same Class of Notes are fungible for U.S. federal income tax purposes;
 - (xii) the Investment Manager determines that the U.S. Risk Retention Rules are satisfied with respect to such additional issuance; and
 - (xiii) to the extent such additional issuance would cause a Retention Deficiency, the Issuer shall concurrently issue, and the Retention Holder shall purchase and hold on the same terms of the Risk Retention Letter, sufficient additional Subordinated Notes such that, after giving effect to the additional issuance and after the receipt by the Issuer of the proceeds thereof into the Unused Proceeds Account or the Principal Account (as applicable), the Retention Holder shall hold Subordinated Notes with a Principal Amount Outstanding equal to not less than five per cent. of the Aggregate Collateral Balance (adjusted to reflect such additional issuance).
- (b) In addition to the requirements in (a) above the Issuer may (and shall, following the written request of the Retention Holder (acting in a commercially reasonable manner) for any reason issue and sell additional Subordinated Notes (without issuing Notes of any other Class) provided that:
- (i) the subordination terms of such Subordinated Notes are identical to the terms of the previously issued Subordinated Notes;
 - (ii) the terms (other than the date of issuance, the issue price and the date from which interest will accrue) of such Subordinated Notes must be identical to the terms of the previously issued Subordinated Notes;

- (iii) such additional Subordinated Notes are issued for a cash sales price (the net proceeds to be (a) invested in Collateral Debt Obligations or Eligible Investments or, pending such investment, deposited in, the Unused Proceeds Account prior to the expiry of the Subsequent Investment Period or the Principal Account after the expiry of the Subsequent Investment Period and in each case invested in Eligible Investments, provided that the Issuer or the Investment Manager (acting on behalf of the Issuer) shall not enter into any binding commitments to purchase Collateral Debt Obligations with such proceeds, until such proceeds have been deposited into the Unused Proceeds Account or the Principal Account (as applicable); or (b) paid into the Interest Account and used to make payments on any Payment Date in accordance with the Priorities of Payments;
- (iv) the Issuer must notify the Rating Agencies then rating any Notes of such additional issuance;
- (v) the holders of the Subordinated Notes shall have been notified in writing by the Issuer 30 days prior to such issuance and shall have been afforded the opportunity to purchase additional Subordinated Notes in an amount not to exceed the Anti Dilution Percentage of such additional Subordinated Notes and on the same terms offered to investors generally; provided that this paragraph (v) shall not apply if such issuance is required in order to comply with the U.S. Risk Retention Rules or to prevent or cure a Retention Deficiency for any reason including, but not limited to where such Retention Deficiency will occur due to an additional issuance of any Class of Notes;
- (vi) such additional issuance is in accordance with all applicable laws including, without limitation, the securities and banking laws and regulations of Ireland and do not adversely affect the Irish tax position of the Issuer; and
- (vii) the Subordinated Noteholders shall not be required to approve any additional issuance of Subordinated Notes pursuant to this Condition 17(b) (Additional Issuances) if such issuance is requested by the Retention Holder in order to prevent or cure a Retention Deficiency for any reason or to comply with the U.S. Risk Retention Rules.

References in these Conditions to the "Notes" include (unless the context requires otherwise) any other notes issued pursuant to this Condition 17 (*Additional Issuances*) and forming a single series with the Notes. Any further securities forming a single series with Notes constituted by the Trust Deed or any deed supplemental to it shall be constituted by a deed supplemental to the Trust Deed.

18. **Third Party Rights**

No person shall have any right to enforce any term or Condition of the Note under the Contracts (Rights of Third Parties) Act 1999.

19. **Governing Law**

(a) **Governing Law**

The Trust Deed and each Class of Notes and any dispute, controversy, proceedings or claim of whatever nature (whether contractual or non-contractual) arising out of or in any way relating to the Trust Deed or any Class of Notes are governed by and shall be construed in accordance with English law. The Corporate Services Agreement and the Share Charge are governed by and shall be construed in accordance with Irish law.

(b) Jurisdiction

The courts of England are to have jurisdiction to settle any disputes (whether contractual or non-contractual) which may arise out of or in connection with the Notes, and accordingly any legal action or proceedings arising out of or in connection with the Notes ("**Proceedings**") may be brought in such courts. The Issuer has in the Trust Deed irrevocably submitted to the jurisdiction of such courts and waives any objection to Proceedings in any such courts whether on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the Noteholders and the Trustee and shall not limit the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) Agent for Service of Process

The Issuer appoints KKR Credit Advisors (Ireland) Unlimited Company (having an office, at the date hereof, at 100 Pall Mall, London SW1Y 5NQ) as its agent in England to receive service of process in any Proceedings in England based on any of the Notes. If for any reason the Issuer ceases to have such an agent in England, it will promptly appoint a substitute process agent and notify the Trustee and the Noteholders of such appointment. Nothing herein shall affect the right to service of process in any other manner permitted by law.

USE OF PROCEEDS

The estimated net proceeds of the issue of the Refinancing Notes after (i) payment of fees and expenses payable on or about the Issue Date and (ii) without duplication, the deposit of amounts into the Expense Reserve Account in accordance with Condition 3(j)(x)(A) (*Expense Reserve Account*) are expected to be approximately €368,760,100. Such proceeds will be used by the Issuer in redemption of the Refinanced Notes and any remaining proceeds shall be deposited into the Unused Proceeds Account.

FORM OF THE NOTES

References below to Notes and to the Global Certificates and the Definitive Certificates representing such Notes are to each respective Class of Notes, except as otherwise indicated.

Initial Issue of Refinancing Notes

The Regulation S Notes of each Class (other than, in certain circumstances, Class E Notes, the Class F Notes and Subordinated Notes) will be represented on issue by a Regulation S Global Certificate deposited with, and registered in the name of, a nominee of a common depositary for Euroclear and Clearstream, Luxembourg. Beneficial interests in a Regulation S Global Certificate may be held at any time only through Euroclear or Clearstream, Luxembourg. See "*Book Entry Clearance Procedures*". Beneficial interests in a Regulation S Global Certificate may not be held by a U.S. person or U.S. Resident at any time. By acquisition of a beneficial interest in a Regulation S Global Certificate, the purchaser thereof will be deemed to represent, among other things, that it is not a U.S. person, and that, if in the future it determines to transfer such beneficial interest, it will transfer such interest only to a person whom the seller reasonably believes (a) to be a non-U.S. person in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S, or (b) to be a person who takes delivery in the form of an interest in a Rule 144A Global Certificate. See "*Transfer Restrictions*". Furthermore, interests in any Regulation S Note may not be exchanged for interests in a Rule 144A Note or otherwise sold or transferred to a Risk Retention U.S. Person at any time during the U.S. Risk Retention Restricted Period.

The Rule 144A Notes of each Class (other than, in certain circumstances, Class E Notes, the Class F Notes and Subordinated Notes) will be represented on issue by a Rule 144A Global Certificate deposited with, and registered in the name of, a nominee of a common depositary for Euroclear and Clearstream, Luxembourg. Beneficial interests in a Rule 144A Global Certificate may only be held at any time only through Euroclear or Clearstream, Luxembourg. See "*Book Entry Clearance Procedures*". By acquisition of a beneficial interest in a Rule 144A Global Certificate, the purchaser thereof will be deemed to represent, amongst other things, that it is a QIB/QP and that, if in the future it determines to transfer such beneficial interest, it will transfer such interest in accordance with the procedures and restrictions contained in the Trust Deed. See "*Transfer Restrictions*".

Beneficial interests in Global Certificates will be subject to certain restrictions on transfer set forth therein and in the Trust Deed and as set forth in Regulation S and Rule 144A, and the Notes will bear the applicable legends regarding the restrictions set forth under "*Transfer Restrictions*". In the case of each Class of Notes, a beneficial interest in a Regulation S Global Certificate may be transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Certificate in denominations greater than or equal to the minimum denominations applicable to interests in such Rule 144A Global Certificate only upon receipt by a Transfer Agent of a written certification (in the form provided in the Trust Deed) to the effect that the transferor reasonably believes that the transferee is a QIB/QP and that such transaction is in accordance with any applicable securities laws of any state of the United States or any other jurisdiction. Beneficial interests in the Rule 144A Global Certificates may be transferred to a person who takes delivery in the form of an interest in a Regulation S Global Certificate only upon receipt by a Transfer Agent of a written certification (in the form provided in the Trust Deed) from the transferor to the effect that the transfer is being made to a non-U.S. person in an offshore transaction and in accordance with Regulation S.

Any beneficial interest in a Regulation S Global Certificate that is transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Certificate will, upon transfer, cease to be an interest in such Regulation S Global Certificate and become an interest in the Rule 144A Global Certificate, and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in a Rule 144A Global Certificate for as long as it remains such an interest. Any beneficial interest in a Rule 144A Global Certificate that is transferred to a person who

takes delivery in the form of an interest in a Regulation S Global Certificate will, upon transfer, cease to be an interest in a Rule 144A Global Certificate and become an interest in the Regulation S Global Certificate and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in a Regulation S Global Certificate for so long as it remains such an interest. No service charge will be made for any registration of transfer or exchange of Notes, but the Transfer Agent may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Except in the limited circumstances described below, owners of beneficial interests in Global Certificates will not be entitled to receive physical delivery of certificated Notes.

A transferee of a Class E Note, Class F Note or Subordinated Note in the form of a Rule 144A Global Certificate or a Regulation S Global Certificate will be deemed to represent (among other things) that it is not and is not acting on behalf of (and for so long as it holds such Note or interest therein, will not be and will not be acting on behalf of) a Benefit Plan Investor or a Controlling Person. If a transferee is unable to make such deemed representation, such transferee may not acquire such Class E Note, Class F Note or Subordinated Note unless such transferee: (i) obtains the written consent of the Issuer; (ii) provides an ERISA certificate to a Transfer Agent and the Issuer as to its status as a Benefit Plan Investor or Controlling Person (in or substantially in the form of Annex A (*Form of ERISA Certificate*)); and (iii) holds such Class E Note, Class F Note or Subordinated Note in the form of a Definitive Certificate. Any Class E Note, Class F Note or Subordinated Note in the form of a Definitive Certificate shall be registered in the name of the holder thereof.

Certain of the Subordinated Notes will be registered in the name of the Retention Holder (or a nominee thereof).

See "*Terms and Conditions of the Notes*".

The Notes are not issuable in bearer form.

Amendments to Terms and Conditions

Each Global Certificate contains provisions that apply to the Notes that they represent, some of which modify the effect of the Terms and Conditions of the Notes in definitive form (See "*Terms and Conditions of the Notes*"). The following is a summary of those provisions:

Payments Payments of principal and interest in respect of Notes represented by a Global Certificate will be made against presentation and, if no further payment falls to be made in respect of the relevant Notes, surrender of such Global Certificate to or to the order of the Principal Paying Agent or such other Transfer Agent as shall have been notified to the relevant Noteholders for such purpose. On each occasion on which a payment of interest (unless the Notes represented thereby do not bear interest) or principal is made in respect of the relevant Global Certificate, the Registrar shall note the same in the Register and cause the aggregate principal amount of the Notes represented by a Global Certificate to be decreased accordingly.

Notices So long as any Notes are represented by a Global Certificate and such Global Certificate is held on behalf of a clearing system, notices to Noteholders shall be given by delivery of the relevant notice to that clearing system for communication by it to entitled account holders in substitution for delivery thereof as required by the Conditions of such Notes provided that such notice is also made to the Company Announcements Office of the Irish Stock Exchange for so long as such Notes are listed on the regulated market of the Irish Stock Exchange and the rules of the Irish Stock Exchange so require. Such notice will be deemed to have been given to the Noteholders on the date of delivery of the relevant notice to the relevant clearing system.

Prescription Claims against the Issuer in respect of principal and interest on the Notes while the Notes are represented by a Global Certificate will become void unless presented for payment within a period

of 10 years (in the case of principal) and five years (in the case of interest) from the date on which any payment first becomes due.

Meetings The holder of each Global Certificate will be treated as being one person for the purposes of any quorum requirements of, or the right to demand a poll at, a meeting of Noteholders and, at any such meeting, as having one vote in respect of each €1,000 of principal amount of Notes for which the relevant Global Certificate may be exchanged.

Trustee's Powers In considering the interests of Noteholders while the Global Certificates are held on behalf of a clearing system, the Trustee may have regard to any information provided to it by such clearing system or its operator as to the identity (either individually or by category) of its account holders with entitlements to each Global Certificate and may consider such interests as if such account holders were the holders of any Global Certificate.

Cancellation Cancellation of any Note required by the Terms and Conditions of the Notes to be cancelled will be effected by reduction in the principal amount of the Notes on the Register, with a corresponding notation made on the applicable Global Certificate.

Optional Redemption The Subordinated Noteholders' and the Controlling Class' option in Condition 7(b) (*Optional Redemption*) and Condition 7(g) (*Redemption Following Note Tax Event*) may be exercised by the holder(s) of a Definitive Certificate or a Global Certificate (as applicable) representing Subordinated Notes or Notes representing the Controlling Class (as applicable) in respect of which the option is exercised and (x) in respect of a Definitive Certificate, presenting such Definitive Certificate for endorsement of exercise, together with duly completed Redemption Notice(s) and (y) in respect of a Global Certificate, by the relevant holder(s) exercising such option pursuant to, and in accordance with, a corporate action notice issued through the clearing systems or by such other means acceptable to the Trustee, in each case, within the time limit specified in Condition 7(b) (*Optional Redemption*) or 7(g) (*Redemption Following Note Tax Event*).

Record Date So long as any Notes are represented by Global Certificates the Record Date in respect thereof shall be the close of business on the Clearing System Business Day before the relevant Payment Date.

"**Clearing System Business Day**" means a day on which Euroclear and Clearstream, Luxembourg are open for business.

Exchange for Definitive Certificates

Exchange

Each Global Certificate will be exchangeable, free of charge to the holder, on or after its Definitive Exchange Date (as defined below), in whole but not in part, for Definitive Certificates if a Global Certificate is held (directly or indirectly) on behalf of Euroclear, Clearstream, Luxembourg or an alternative clearing system and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces its intention to permanently cease business or does in fact do so.

In addition, interests in Global Certificates representing Class E Notes, Class F Notes or Subordinated Notes may be exchangeable for interests in a Definitive Certificate representing the Class E Notes, Class F Notes or Subordinated Notes if a transferee is or is acting on behalf of a Benefit Plan Investor or is a Controlling Person provided: (i) such transferee has obtained the written consent of the Issuer in respect of such transfer; and (ii) the transferee has provided a Transfer Agent and the Issuer with a certification in or substantially in the form of Annex A (*Form of ERISA Certificate*) hereto.

The Registrar will not register the transfer of, or exchange of interests in, a Global Certificate for Definitive Certificates during the period from (but excluding) the Record Date to (and including) the date for any payment of principal or interest in respect of the Notes.

If only one of the Global Certificates (the "**Exchanged Global Certificate**") becomes exchangeable for Definitive Certificates in accordance with the above paragraphs, transfers of Notes may not take place between, on the one hand, persons holding Definitive Certificates issued in exchange for beneficial interests in the Exchanged Global Certificate and, on the other hand, persons wishing to purchase beneficial interests in the other Global Certificate.

"Definitive Exchange Date" means a day falling not less than 30 days after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Registrar and any Transfer Agent is located.

Delivery

In such circumstances, the relevant Global Certificate shall be exchanged in full for Definitive Certificates and the Issuer will, at the cost of the Issuer (but against such indemnity as the Registrar or any relevant Transfer Agent may require in respect of any tax or other duty of whatever nature which may be levied or imposed in connection with such exchange), cause sufficient Definitive Certificates to be executed and delivered to the Registrar for completion, authentication and dispatch to the relevant Noteholders. A person having an interest in a Global Certificate must provide the Registrar with (a) a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Certificates and (b) in the case of the Rule 144A Global Certificate only, a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange or, in the case of simultaneous sale pursuant to Rule 144A, a certification that the transfer is being made in compliance with the provisions of Rule 144A. Definitive Certificates issued in exchange for a beneficial interest in the Rule 144A Global Certificate shall bear the legends applicable to transfers pursuant to Rule 144A, as set out under "*Transfer Restrictions*" below.

Legends

The holder of a Definitive Certificate in registered definitive form, as applicable, may transfer the Notes represented thereby in whole or in part in the applicable minimum denomination by surrendering it at the specified office of the Registrar or any Transfer Agent, together with the completed form of transfer and to the extent applicable, written consent of the Issuer and a duly completed ERISA certificate in or substantially in the form of that set out in Annex A (*Form of ERISA Certificate*) to a Transfer Agent and the Issuer.

Upon the transfer, exchange or replacement of a Definitive Certificate in registered definitive form, as applicable, bearing the legend referred to under "*Transfer Restrictions*" below, or upon specific request for removal of the legend on a Definitive Certificate in registered definitive form, as applicable, the Issuer will deliver only Definitive Certificates that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer and the Registrar such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and the Investment Company Act.

BOOK ENTRY CLEARANCE PROCEDURES

The information set out below has been obtained from sources that the Issuer believes to be reliable, but prospective investors are advised to make their own enquiries as to such procedures. In particular, such information is subject to any change in or interpretation of the rules, regulations and procedures of Euroclear or Clearstream, Luxembourg (together, the "**Clearing Systems**") currently in effect and investors wishing to use the facilities of any of the Clearing Systems are therefore advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Trustee, the Initial Purchaser or any Agent party to the Agency Agreement (or any Affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the Securities Act), will have any responsibility for the performance by the Clearing Systems or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations or for the sufficiency for any purpose of the arrangements described below.

Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note represented by a Global Certificate must look solely to Euroclear or Clearstream, Luxembourg (as the case may be) for his share of each payment made by the Issuer to the holder of such Global Certificate and in relation to all other rights arising under the Global Certificate, subject to and in accordance with the respective rules and procedures of Euroclear or Clearstream, Luxembourg. The Issuer also expects that payments by Direct Participants in any Clearing System to owners of beneficial interests in any Global Certificate held through such Direct Participants in any Clearing System will be governed by standing instructions and customary practices. Settlement and Transfer of Notes

Subject to the rules and procedures of each applicable Clearing System, purchases of Notes held within a Clearing System must be made by or through Direct Participants, which will receive a credit for such Notes on the Clearing System's records. The ownership interest of each actual purchaser of each such Note (the "**Beneficial Owner**") will in turn be recorded on the Direct Participant and Indirect Participant's records. Beneficial Owners will not receive written confirmation from any Clearing System of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participant or Indirect Participant through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in Notes held within the Clearing System will be effected by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in such Notes, unless and until interests in any Global Certificate held within a Clearing System is exchanged for Definitive Certificates.

No Clearing System has knowledge of the actual Beneficial Owners of the Notes held within such Clearing System and their records will reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. As such each Rating Agency is included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation.

Fitch Ratings

The ratings assigned to the Rated Notes by Fitch are based upon Fitch's statistical analysis of historical default rates on debt obligations with similar characteristics to the Collateral Debt Obligations and the various eligibility requirements that the Collateral Debt Obligations are required to satisfy.

Fitch analyses the likelihood that each Collateral Debt Obligation will default, based on historical default rates for similar debt obligations, the historical volatility of such default rates (which increases as securities with lower ratings are added to the portfolio) and an additional default assumption to account for future fluctuations in defaults. Fitch then determines the level of credit protection necessary based on a specific percentile of the portfolio default distribution determined by the Fitch "Portfolio Credit Model" which takes into account the correlation between assets in the portfolio based on the level of diversification by region, issuer and industry. The results of a statistical analysis are incorporated into a cash flow model built to mimic the structure of the transaction. In this regard, the results of several default scenarios, in conjunction with various qualitative tests (e.g. analysis of the strength of the Investment Manager), are used to determine the credit enhancement required to support a particular rating.

Fitch ratings of the Rated Notes will be established under various assumptions and scenario analyses.

There can be no assurance that actual defaults on the Collateral Debt Obligations will not exceed those assumed by Fitch in its analysis, or that recovery rates with respect thereto (and consequently loss rates) will not differ from those assumed by Fitch.

In addition to those quantitative tests, Fitch ratings take into account qualitative features of a transaction, including the experience of the Investment Manager, the legal structure and the risks associated with such structure, and other factors that Fitch deems relevant.

Moody's Ratings

Moody's ratings address the expected loss posed to investors by the legal final maturity on the Maturity Date.

Moody's analysis of the likelihood that each Collateral Debt Obligation will default is based on historical default rates for similar debt obligations, the historical volatility of such default rates (which increases as securities with lower ratings are added to the portfolio) and an additional default

assumption to account for future fluctuations in defaults. Moody's then determines the level of credit protection necessary to achieve the expected loss associated with the rating of the structured securities, taking into account the expected volatility of the default rate of the portfolio based on the level of diversification by region, issuer and industry. There can be no assurance that the actual default rates on the Collateral Debt Obligations held by the Issuer will not exceed the rates assumed by Moody's in its analysis.

In addition to these quantitative tests, Moody's ratings take into account qualitative features of a transaction, including the experience of the Investment Manager, the legal structure and the risks associated with such structure and other factors that they deem relevant.

Pursuant to an ordinary resolution and special resolution of the Issuer dated 22 August 2016, the Issuer elected to reregister as a "designated activity company" or "DAC" within the meaning of the Companies Act 2014 (as amended) of Ireland and to adopt a new constitution in connection therewith. By Certificate of Incorporation on Conversion as a Designated Activity Company dated 7 September 2016 issued by the Registrar of Companies in accordance with Section 63(8) of the Companies Act 2014 (as amended) of Ireland, the Issuer was reregistered as "Avoca CLO XII Designated Activity Company". The authorised share capital of the Issuer is €100 divided into 100 ordinary shares of €1.00 each (the "**Shares**"). The Issuer has issued 100 Shares, all of which are fully paid up of which 50 Shares are held by the Investment Manager and the remaining 50 Shares are held by TMF Management Limited (the "**Share Trustee**") under the terms of a declaration of trust (the "**Declaration of Trust**") dated 24 June 2014 pursuant to which the Share Trustee holds the Shares on trust for charitable purposes until the Termination Date (as defined in the Declaration of Trust) and may not dispose of or otherwise deal with the Shares for so long as there are any Notes outstanding. The holders of the Shares, acting by ordinary resolution, will have the ability to elect directors of the Issuer and may be able to take certain other actions permitted by shareholders under the Constitution of the Issuer.

The holders of the Shares may cause the Issuer to be wound up. Any such winding-up could adversely affect the holders of the Notes. The Investment Manager has undertaken in a security deed (the "**Share Charge**") dated the Original Issue Date, as owner of 50 Shares as at the date thereof, and for so long as the Notes remain Outstanding, *inter alia*:

- (a) not to petition for the voluntary winding-up of the Issuer until such time as the Notes have been redeemed in full;
- (b) not to amend the Constitution of the Issuer until such time as the Notes have been redeemed in full; and
- (c) should, at any time when the Investment Manager, or any of its Affiliates, remains the legal or beneficial owner of any Shares, the Investment Manager or any Affiliate of the Investment Manager cease to act as the Investment Manager, the Investment Manager shall, if requested by the Trustee, procure the removal of the then current board of Directors of the Issuer and appoint to such board as Directors persons nominated by the Trustee.

As security for the foregoing undertakings, the Investment Manager has granted security to the Trustee for the benefit of the Secured Parties over the Shares.

It is not anticipated that any distribution will be made on the Shares whilst any Note is outstanding. Following the Termination Date, the Share Trustee will wind up the trust and make a final distribution to charity. The Share Trustee will have no beneficial interest in and will derive no benefit (other than its fees for acting as Share Trustee) from its holding of the Shares. The Share Trustee will apply any income derived from the Issuer solely for the above purposes.

TMF Administration Services Limited (the "**Corporate Services Provider**"), an Irish company, acts as the corporate administrator for the Issuer. In consideration of the foregoing, the Corporate Services Provider receives various fees and other charges payable by the Issuer at rates agreed upon from time to time plus expenses. The terms of the Corporate Services Agreement provide that either party may terminate the Corporate Services Agreement upon the occurrence of certain stated events, including any material breach by the other party of its obligations under the Corporate Services Agreement which is either incapable of remedy or which is not cured within 90 days from the date on which it was notified of such breach. In addition, either party may terminate the Corporate Services Agreement at any time by giving not less than 90 days' written notice to the other party.

The Corporate Services Provider's principal office is at 3rd Floor, Kilmore House, Park Lane, Spencer Dock, Dublin 1, Ireland.

The following description consists of a summary of certain provisions of the Risk Retention Letter which does not purport to be complete and is qualified by reference to the detailed provisions of the Risk Retention Letter. Terms used and not otherwise defined herein or in this Prospectus as specifically referenced herein shall have the meaning given to them in Condition 1 (Definitions) of the Terms and Conditions of the Notes.

Description of the Retention Holder

The Investment Manager shall act as Retention Holder for the purposes of the EU Retention Requirements. The Investment Manager believes that, on the basis of its current regulatory permissions, as of the date of this Prospectus, it would fall within the definition of "sponsor" contained in Regulation (EU) No. 575/2013 ("**CRR**").

The Retention

On the Issue Date, the Retention Holder, acting for its own account, will sign the Risk Retention Letter addressed to the Issuer, the Trustee and the Collateral Administrator.

The Issuer, Collateral Administrator, the Trustee (for the benefit of the Noteholders) and Credit Suisse Securities (Europe) Limited in its capacity as sole arranger are parties to the Risk Retention Letter solely for the purposes of obtaining the benefit of the representations, warranties and covenants contained therein and under no circumstances shall any of them be deemed to have undertaken any obligations thereunder or by virtue of their entry into the Risk Retention Letter save as provided therein.

Under the Risk Retention Letter, the Retention Holder will for so long as any Class of Rated Notes remains Outstanding:

- (a) undertake on an ongoing basis to retain a net economic interest in the transaction, which will be comprised of an interest in the first loss tranche (within the meaning of paragraph 1(d) of Article 405 of the CRR, paragraph 1(d) of Article 51 of the AIFMD Level 2 Regulation and paragraph 2(d) of Article 254 of the Solvency II Level 2 Regulation, in each case in force as at the Issue Date) by way of holding Subordinated Notes with an aggregate Principal Amount Outstanding, at any time, equal to an amount not less than five per cent. of the Aggregate Collateral Balance (the "**Retention**") subject to the proviso below;
- (b) agree that it and its Affiliates will not sell, hedge or otherwise mitigate the Retention Holder's credit risk under or associated with the Retention or the underlying portfolio of Collateral Debt Obligations, except to the extent not restricted by the EU Retention Requirements, and subject to the proviso below;
- (c) subject to any overriding legal or regulatory requirements or constraints (including those relating to confidentiality), agree to take such further action, provide such information and enter into such other agreements as may reasonably be required to satisfy the EU Retention Requirements as of (i) the Issue Date and (ii) solely as regards the provision of information in the possession of the Retention Holder, any time prior to maturity of the Notes (in each case at the cost and expense of the party seeking such information);
- (d) agree to confirm its continued compliance with the covenants set out at paragraphs (a) and (b) above (i) promptly upon a reasonable request made in writing by any of the Issuer, the Trustee or the Collateral Administrator and (ii) in any event on a monthly basis to the Issuer, the Trustee and the Collateral Administrator in each case in writing (which may be by way of email);

provided however, the Retention Holder may transfer the Retention to the extent such transfer is permitted or required in accordance with the EU Retention Requirements and provided that such transfer would not in and of itself cause the transaction described in this Prospectus to cease to be compliant with the EU Retention Requirements, in which case the Retention Holder's obligations under paragraphs (a)-(f) above shall cease upon such transfer becoming effective.

Retention Holder Veto

Provided that no Retention Event has occurred and is continuing, no modification or any Resolution to approve the modification of the Eligibility Criteria, the Portfolio Profile Tests, the Collateral Quality Tests, the Reinvestment Criteria, or any material changes to them (save for those that are made to ensure compliance with the EU Retention Requirements) will be effective without the consent in writing of the Retention Holder. For the avoidance of doubt, if a Retention Event has occurred and is continuing, the Retention Holder shall have no veto rights; however, this shall not affect the rights of the Retention Holder to exercise its rights as a Noteholder.

THE PORTFOLIO

Terms used and not otherwise defined herein or in this Prospectus as specifically referenced herein shall have the meaning given to them in Condition 1 (Definitions) of the Terms and Conditions of the Notes.

Introduction

Pursuant to the Investment Management Agreement, the Investment Manager is required or, as the case may be authorised to act in specific circumstances in relation to the Portfolio on behalf of the Issuer and to carry out the duties and functions described below. In addition, the Collateral Administrator is required to perform certain calculations in relation to the Portfolio on behalf of the Issuer, in each case to the extent and in accordance with the information provided to it by the Investment Manager.

Acquisition and Disposition of Collateral Debt Obligations

Prior to the Issue Date, the Investment Manager has caused to be acquired by the Issuer a portfolio of Secured Senior Loans, Secured Senior Bonds, Corporate Rescue Loans, Unsecured Senior Loans, Second Lien Loans, Mezzanine Obligations and High Yield Bonds, the details of which as at 28 February 2017 are set out in Annex B (*Monthly Report*).

The Investment Manager has used and will continue to use reasonable endeavours to cause to be acquired by the Issuer a portfolio of Secured Senior Loans, Secured Senior Bonds, Corporate Rescue Loans, Unsecured Senior Loans, Second Lien Loans, Mezzanine Obligations and High Yield Bonds during the Reinvestment Period and thereafter. The Issuer anticipates that, as at the Issue Date, it, or the Investment Manager on its behalf, will have purchased or committed to purchase Collateral Debt Obligations, the Aggregate Principal Balance of which is approximately €320,000,000 which is approximately 80 per cent. of the Target Par Amount. The Investment Manager acting on behalf of the Issuer, shall use all reasonable efforts to purchase Collateral Debt Obligations with an Aggregate Principal Balance (provided that for the purposes of determining the Aggregate Principal Balance, any repayments or prepayments of any Collateral Debt Obligation subsequent to the Issue Date not subsequently reinvested shall be disregarded and the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its Moody's Collateral Value) equal to at least the Target Par Amount out of the Balance standing to the credit of the Unused Proceeds Account during the Subsequent Investment Period.

The Issuer does not expect and is not required to satisfy the Collateral Quality Tests, Portfolio Profile Tests or the Coverage Tests prior to the Effective Date. The Investment Manager may declare that the Subsequent Investment Period has ended and the Effective Date has occurred prior to 30 June 2017, subject to the Effective Date Determination Requirements being satisfied.

The Issuer (or the Investment Manager on its behalf) will not acquire (whether by purchase or substitution) or dispose of a Collateral Debt Obligation, a Collateral Enhancement Obligation, an Exchanged Security or an Eligible Investment unless the Portfolio Acquisition and Disposition Requirements are met; provided that on any date, subject to the satisfaction as of such date of (x) the Regulatory Change Condition (which applies if the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the SEC or its staff) or (y) the Opt Out Condition, the Issuer (or the Investment Manager on its behalf) may elect (by written notice from the Issuer (or the Investment Manager, acting on behalf of the Issuer) to the Collateral Administrator and the Trustee) not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act in accordance with this paragraph, in which case, at all times thereafter, there will be no Portfolio

Acquisition and Disposition Requirements and all references to such requirements in the Investment Management Agreement and other Transaction Documents shall no longer be in effect.

If the Issuer (or the Investment Manager, acting on behalf of the Issuer) elects not to rely on, or if the Issuer were otherwise determined not to qualify for, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule.

On or after the Effective Date, the Balance standing to the credit of the Unused Proceeds Account will be transferred to the Principal Account and/or the Interest Account, in each case, at the discretion of the Investment Manager (acting on behalf of the Issuer), provided that as at such date: (i) the Issuer has acquired or entered into binding commitments to acquire Collateral Debt Obligations, the Aggregate Principal Balance (provided that for the purposes of determining the Aggregate Principal Balance, any repayments or prepayments of any Collateral Debt Obligation subsequent to the Issue Date not subsequently reinvested shall be disregarded and the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its Moody's Collateral Value) of which equals or exceeds the Target Par Amount; and (ii) no more than one per cent. of the Target Par Amount may be transferred to the Interest Account.

Within 10 Business Days following the Effective Date, the Collateral Administrator shall issue a report (the "**Effective Date Report**") containing the information required in a Monthly Report, confirming whether the Issuer has acquired or entered into a binding commitment to acquire Collateral Debt Obligations having an Aggregate Principal Balance which equals or exceeds the Target Par Amount, copies of which shall be forwarded to the Issuer, the Trustee, the Investment Manager and the Rating Agencies (provided that for the purposes of determining the Aggregate Principal Balance, any repayments or prepayments of any Collateral Debt Obligation subsequent to the Issue Date not subsequently reinvested shall be disregarded and the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its Moody's Collateral Value) and within 15 Business Days following the Effective Date, the Issuer will provide, or cause the Investment Manager to provide to the Trustee and the Collateral Administrator an accountants' certificate recalculating and confirming the Aggregate Principal Balance of all Collateral Debt Obligations purchased or committed to be purchased as of the Effective Date and the computation and results of the Portfolio Profile Tests, the Collateral Quality Tests and the Coverage Tests (other than the Interest Coverage Tests) and specifying the procedures applied and their findings as to the Portfolio Profile Tests, the Collateral Quality Tests and the Coverage Tests (other than the Interest Coverage Tests) by reference to such Collateral Debt Obligations and confirming that the Effective Date Determination Requirements have been met. For the avoidance of doubt, the Trustee and the Collateral Administrator shall not disclose to any Person (including any Noteholder) any information, documents or reports provided to them by the accountants, other than as required by a court of competent jurisdiction or as otherwise required by applicable legal or regulatory process.

The Investment Manager (acting on behalf of the Issuer) shall promptly following receipt of the Effective Date Report, request that each of the Rating Agencies confirm its Initial Ratings of the Rated Notes, provided that if the Effective Date Moody's Condition is satisfied then such rating confirmation shall be deemed to have been received from Moody's. If the Effective Date Moody's Condition is not satisfied within 20 Business Days following the Effective Date, the Investment Manager shall promptly notify Moody's. If (i) the Effective Date Determination Requirements are not satisfied as at the Effective Date and Rating Agency Confirmation has not been received in respect of such failure and either (A) the Investment Manager (acting on behalf of the Issuer) does not present a Rating Confirmation Plan to the Rating Agencies or (B) following request therefor from the Investment Manager, Rating Agency Confirmation has not been obtained in respect of such Rating Confirmation

Plan; or (ii) where the Effective Date Moody's Condition is not satisfied, following a request therefor from the Investment Manager after the Effective Date, Rating Agency Confirmation from Moody's is not received, an Effective Date Rating Event shall have occurred. If an Effective Date Rating Event has occurred and is continuing on the Business Day prior to the Payment Date next following the Effective Date, the Rated Notes shall be redeemed, pursuant to Condition 7(e) (*Redemption upon Effective Date Rating Event*) on such Payment Date and thereafter on each Payment Date (to the extent required) out of Interest Proceeds and thereafter out of Principal Proceeds subject to the Priorities of Payments, until the earlier of (x) the date on which the Effective Date Rating Event is no longer continuing and (y) the date on which the Rated Notes have been redeemed in full. The Investment Manager shall notify the Rating Agencies upon the discontinuance of an Effective Date Rating Event.

During such time as an Effective Date Rating Event shall have occurred and be continuing the Investment Manager (acting on behalf of the Issuer) may prepare and present to the Rating Agencies a Rating Confirmation Plan setting forth the timing and manner of acquisition of additional Collateral Debt Obligations and/or any other intended action which will cause confirmation or reinstatement of the Initial Ratings. The Investment Manager (acting on behalf of the Issuer) is under no obligation whatsoever to present a Rating Confirmation Plan to the Rating Agencies.

Eligibility Criteria

Each Collateral Debt Obligation must, at the time of entering into a binding commitment to acquire such obligation by, or on behalf of, the Issuer, satisfy the following criteria (the "**Eligibility Criteria**") as determined by the Investment Manager in its reasonable discretion (capitalised terms, in each case, read and construed as if such obligation were a Collateral Debt Obligation):

Other than (i) Issue Date Collateral Debt Obligations which must satisfy the Eligibility Criteria on the Issue Date and (ii) Restructured Obligations which must satisfy the Restructured Obligation Criteria on the applicable Restructuring Date, the subsequent failure of any Collateral Debt Obligation to satisfy any of the Eligibility Criteria shall not prevent any obligation which would otherwise be a Collateral Debt Obligation from being a Collateral Debt Obligation so long as such obligation satisfied the

Eligibility Criteria, when the Issuer or the Investment Manager on behalf of the Issuer entered into a binding agreement to purchase such obligation.

"Project Finance Loan" means a loan obligation under which the obligor is obliged to make payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of payments) on revenues arising from infrastructure assets, including, without limitation:

"Synthetic Security" means a security or swap transaction (other than a letter of credit or a Participation) that has payments associated with either payments of interest and/or principal on a reference obligation or the credit performance of a reference obligation.

Restructured Obligations

If a Collateral Debt Obligation becomes the subject of a restructuring whether effected by way of an amendment to the terms of such Collateral Debt Obligation (including but not limited to an amendment of its maturity date) or by way of substitution of new obligations and/or change of Obligor, and for the avoidance of doubt, such restructuring is in connection with an insolvency, bankruptcy, reorganisation, debt restructuring or workout of the Obligor thereof, such obligation shall only constitute a Restructured Obligation if such obligation satisfies each of the criteria comprising the Eligibility Criteria other than the criteria set out at paragraphs (c), (h), (i) and (n) (but only if such obligation is a PIK Obligation or a Zero Coupon Obligation), (p) and (t) (but only if notwithstanding the fact that a Collateral Debt Obligation is subject to a pending redemption, the redemption price of such Collateral Debt Obligation is 100 per cent. of the Principal Balance of such Collateral Debt Obligation), (dd), (ee), (ff) and (gg) thereof (such applicable criteria, the **"Restructured Obligation Criteria"**).

The repayment of a Collateral Debt Obligation in circumstances whereby the redemption proceeds are rolled as consideration for a new obligation (including by way of a "cashless roll") shall be treated as an acquisition by the Issuer of a new Collateral Debt Obligation and not as the acquisition of a Restructured Obligation.

Management of the Portfolio

Overview

The Investment Manager (acting on behalf of the Issuer) is permitted, in certain circumstances and, subject to certain requirements, to sell Collateral Debt Obligations and Exchanged Securities and to reinvest the Sale Proceeds (other than accrued interest on such Collateral Debt Obligations included in Interest Proceeds by the Investment Manager) thereof in Substitute Collateral Debt Obligations. The Investment Manager shall notify the Collateral Administrator of all necessary details of the Collateral Debt Obligation or Exchanged Security to be sold and the proposed Substitute Collateral Debt Obligation to be purchased and the Collateral Administrator (on behalf of the Issuer) shall determine and shall provide confirmation to the Issuer and the Investment Manager of whether the Portfolio Profile Tests, Reinvestment Criteria and the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) which are required to be satisfied, maintained or improved in connection with any such sale or reinvestment are satisfied, maintained or improved or, if any such criteria are not

satisfied, maintained or improved, shall notify the Issuer and the Investment Manager of the reasons and the extent to which such criteria are not so satisfied, maintained or improved.

The Investment Manager will determine and use reasonable endeavours to cause to be purchased by the Issuer, Collateral Debt Obligations (including all Substitute Collateral Debt Obligations) taking into account the Eligibility Criteria and, where applicable, the Reinvestment Criteria and the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) and the guidelines in the Investment Management Agreement and will monitor the performance of the Collateral Debt Obligations on an ongoing basis to the extent practicable using sources of information reasonably available to it and provided that the Investment Manager shall not be responsible for determining whether or not the terms of any individual Collateral Debt Obligation have been observed.

The activities referred to below that the Investment Manager may undertake on behalf of the Issuer are subject to the Issuer's monitoring of the performance of the Investment Manager under the Investment Management Agreement.

Sale of Collateral Debt Obligations

Sales of Collateral Debt Obligations shall be in accordance with the Portfolio Acquisition and Disposition Requirements (so long as they are applicable).

Sale of Non-Eligible Issue Date Collateral Debt Obligations

The Investment Manager, acting on behalf of the Issuer shall sell any Issue Date Collateral Debt Obligations which do not comply with the Eligibility Criteria on the Issue Date (each a "**Non-Eligible Issue Date Collateral Debt Obligation**"). Any Sale Proceeds received in connection therewith may be reinvested in Substitute Collateral Debt Obligations satisfying the Eligibility Criteria and the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) or credited to the Principal Account pending such reinvestment.

Sale of Credit Impaired Obligations, Credit Improved Obligations and Defaulted Obligations

Credit Impaired Obligations, Credit Improved Obligations and Defaulted Obligations may be sold in accordance with the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) at any time by the Investment Manager (acting on behalf of the Issuer) subject to:

- (a) the Investment Manager's knowledge, no Event of Default having occurred which is continuing; and
- (b) the Investment Manager certifying to the Trustee and the Collateral Administrator that it believes, in its reasonable business judgement, that such security constitutes a Credit Impaired Obligation, a Credit Improved Obligation or a Defaulted Obligation, as the case may be.

Discretionary Sales

The Issuer or the Investment Manager (acting on behalf of the Issuer) may, in accordance with the Portfolio Acquisition and Disposition Requirements (so long as they are applicable), dispose of any Collateral Debt Obligation (other than a Credit Improved Obligation, a Credit Impaired Obligation, a Defaulted Obligation or an Exchanged Security, each of which may only be sold in the circumstances provided above) at any time (other than during a Restricted Trading Period) provided:

- (a) to the Investment Manager's knowledge, no Event of Default having occurred which is continuing;
- (b) after giving effect to such sale, the Aggregate Principal Balance of all Collateral Debt Obligations sold as described in this paragraph during the preceding 12 calendar months (or, for the first 12 calendar months after the Issue Date, during the period commencing on the Issue

Date) is not greater than 30 per cent. of the Aggregate Collateral Balance as of the first day of such 12 calendar month period (or as of the Issue Date, as the case may be); and

(c) either:

- (i) during the Reinvestment Period, the Investment Manager reasonably believes prior to such sale that it will be able to enter one or more binding commitments to reinvest all or a portion of the proceeds of such sale in one or more additional Collateral Debt Obligations within 45 days after the settlement of such sale in accordance with the Reinvestment Criteria; or
- (ii) at any time, either: (1) the Sale Proceeds from such sale are at least equal to the Investment Criteria Adjusted Balance of such Collateral Debt Obligation; or (2) after giving effect to such sale, the Aggregate Principal Balance (for which purposes, the Principal Balance of each Defaulted Obligation shall be the lesser of its Fitch Collateral Value and its Moody's Collateral Value) of all Collateral Debt Obligations (excluding the Collateral Debt Obligation being sold but including, without duplication, the Sale Proceeds of such sale) plus, without duplication, the amounts on deposit in the Principal Account and the Unused Proceeds Account and including Eligible Investments therein but save for any interest accrued on Eligible Investments will be greater than (or equal to) the Reinvestment Target Par Balance.

"Investment Criteria Adjusted Balance" means with respect to a Collateral Debt Obligation, the Principal Balance of such Collateral Debt Obligation, provided that the Investment Criteria Adjusted Balance of:

- (a) a Deferring Security shall be the lesser of:
 - (i) its Fitch Collateral Value; and
 - (ii) its Moody's Collateral Value;
- (b) a Discount Obligation shall be the product of such obligation's:
 - (i) purchase price (expressed as a percentage of par); and
 - (ii) Principal Balance;
- (c) a Zero Coupon Obligation shall be its accreted value; and
- (d) a Collateral Debt Obligation which has been included in the calculation of the CCC/Caa Excess shall be its Market Value (assuming that such Market Value is expressed as a percentage of the Principal Balance of such Collateral Debt Obligation as of such date of determination) multiplied by the Principal Balance of such Collateral Debt Obligation,

provided that if a Collateral Debt Obligation satisfies two or more of (a) through (d) above, the Investment Criteria Adjusted Balance of such Collateral Debt Obligation shall be calculated using the category which results in the lowest value.

Restricted Trading Period

The Issuer or the Investment Manager (acting on its behalf) shall promptly notify Moody's and Fitch upon the occurrence of a Restricted Trading Period.

Sale of Collateral Prior to Maturity Date

In the event of: (i) any redemption of the Rated Notes in whole prior to the Maturity Date; or (ii) receipt of notification from the Trustee of enforcement of the security over the Collateral; the Investment Manager (acting on behalf of the Issuer) will (at the direction of the Trustee following the

enforcement of such security), as far as practicable, arrange for liquidation of the Collateral in order to procure that the proceeds thereof are in immediately available funds by the Business Day prior to the applicable Redemption Date and sell all or part of the Portfolio, as applicable, in accordance with Condition 7 (*Redemption and Purchase*) and the Investment Management Agreement.

Sale of Assets which do not Constitute Collateral Debt Obligations

If an asset did not satisfy the Eligibility Criteria on the date it was required to do so in accordance with the Investment Management Agreement, the Investment Manager shall use commercially reasonable efforts to sell such asset. Such proceeds shall constitute Sale Proceeds and may be reinvested in accordance with and subject to the Reinvestment Criteria.

Disposal of Unsaleable Assets

Following the delivery of prior written notice of a proposed Optional Redemption in accordance with Condition 7(b)(iv)(A) (*Terms and Conditions of an Optional Redemption*), or the delivery of a notice of acceleration or automatic acceleration of the Notes in accordance with Condition 10(b)(i) (*Acceleration*), the Investment Manager, acting on behalf of the Issuer, may conduct an auction of Unsaleable Assets. The Issuer will provide notice (in such form as is prepared by the Investment Manager) to the Noteholders in accordance with the Conditions (and, for so long as any Rated Notes are Outstanding, the Rating Agencies) of such auction, setting forth in reasonable detail a description of each Unsaleable Asset and the following auction procedures:

- (a) any Noteholder may submit a written bid to purchase for cash one or more Unsaleable Assets no later than the date specified in the auction notice (which shall be at least 15 Business Days after the date of such notice) and, for any Unsaleable Asset for which one or more bids are received, the Investment Manager, on behalf of the Issuer, will deliver such Unsaleable Asset to the highest bidder against payment in cash of the bid price;
- (b) each bid must include an offer to purchase for a specified amount of cash on a proposed settlement date no later than 20 Business Days after the date of the auction notice;
- (c) if no Noteholder submits such a bid for an Unsaleable Asset, unless delivery in kind is not legally permissible or commercially practicable, the Investment Manager will direct the Issuer to notify, and the Issuer will notify each Noteholder in accordance with the Conditions of the offer to deliver (at no cost to the Noteholders, the Investment Manager or the Trustee) a *pro rata* portion of each unsold Unsaleable Asset to the Noteholders of the most senior Class that provide delivery instructions to the Investment Manager on or before the date specified in such notice, subject to minimum denominations. To the extent that minimum denominations do not permit a *pro rata* distribution, the Investment Manager will identify and distribute the Unsaleable Assets on a *pro rata* basis to the extent possible and the Investment Manager will select by lottery the Noteholder to whom the remaining portion will be delivered. The Investment Manager will use commercially reasonable efforts to effect delivery of such portions of unsold Unsaleable Assets. For the avoidance of doubt, any such delivery to the Noteholders will not operate to reduce the principal amount outstanding of the related Notes held by such Noteholders; and
- (d) if no such Noteholder provides delivery instructions to the Investment Manager, the Investment Manager will take such action (if any) as directed pursuant to an Issuer Order to dispose of the Unsaleable Asset, which may be by donation to a charity, abandonment or other means.

"Issuer Order" means each order from the Investment Manager, on behalf of the Issuer in accordance with and subject to the terms of the Investment Management Agreement, to the Trustee, the Collateral Administrator, the Custodian and the Account Bank with a copy to the Issuer, notifying the Trustee and the Collateral Administrator of:

- (a) a proposed acquisition of any Collateral Debt Obligation;

- (b) a proposed sale of any Collateral Debt Obligation; or
- (c) the requirement to present and/or surrender any Collateral Debt Obligation to the issuer thereof in connection with the exercise of any option thereunder or the acceptance of any offer relating thereto,

which, in the case of (b) or (c) above, will be deemed to direct the Trustee to release the relevant Collateral Debt Obligation from the security constituted by or pursuant to the Trust Deed, in each case, in such form and containing such information as the Issuer, the Investment Manager, the Collateral Administrator and the Trustee may from time to time agree.

Reinvestment of Collateral Debt Obligations

"**Reinvestment Criteria**" means, during the Reinvestment Period, the criteria set out under "*During the Reinvestment Period*" below and following the expiry of the Reinvestment Period, the criteria set out below under "*Following the Expiry of the Reinvestment Period*". The Reinvestment Criteria shall not apply prior to the Effective Date or in the case of the acquisition of a Collateral Debt Obligation which has been restructured where such restructuring has become binding on the holders thereof (whether or not such obligation would constitute a Restructured Obligation) other than in respect of Principal Proceeds required for such restructuring.

During the Reinvestment Period

During the Reinvestment Period, the Investment Manager (acting on behalf of the Issuer) may, at its discretion, reinvest any Principal Proceeds in the purchase of Substitute Collateral Debt Obligations satisfying the Eligibility Criteria (and, where applicable, provided the Portfolio Acquisition and Disposition Requirements are met) provided that immediately after entering into a binding commitment to acquire such Collateral Debt Obligation and taking into account existing commitments, the criteria set out below must be satisfied:

- (a) to the Investment Manager's knowledge, no Event of Default has occurred that is continuing at the time of such purchase;
- (b) on and after the Effective Date (or in the case of the Interest Coverage Tests, the Determination Date immediately preceding the second Payment Date) the Coverage Tests are satisfied or if (other than with respect to the reinvestment of any proceeds received upon the sale of, or as a recovery on, any Defaulted Obligation) as calculated immediately prior to sale or prepayment (in whole or in part) of the relevant Collateral Debt Obligation the Principal Proceeds of which are being reinvested, any Coverage Test was not satisfied, the coverage ratio relating to such test will be maintained or improved after giving effect to such reinvestment when compared with the result of such test immediately prior to sale or prepayment (in whole or in part) of the relevant Collateral Debt Obligation;
- (c) in the case of a Substitute Collateral Debt Obligation purchased with Sale Proceeds of a Credit Impaired Obligation or a Defaulted Obligation either:
 - (i) the Aggregate Principal Balance of all Substitute Collateral Debt Obligations purchased with such Sale Proceeds shall at least equal such Sale Proceeds; or
 - (ii) the sum of: (A) the Aggregate Principal Balance (for which purposes, the Principal Balance of each Defaulted Obligation shall be the lesser of its Fitch Collateral Value and its Moody's Collateral Value) of all Collateral Debt Obligations (excluding all of the Collateral Debt Obligations being sold but including, without duplication, the Collateral Debt Obligations being purchased and the anticipated cash proceeds, if any, of such sale that are not applied to the purchase of such Substitute Collateral Debt Obligation); and, without duplication, (B) amounts standing to the credit of the Principal Account and

Unused Proceeds Account and including any Eligible Investments (save for interest accrued on Eligible Investments) is greater than the Reinvestment Target Par Balance;

- (d) in the case of a Substitute Collateral Debt Obligation purchased with Sale Proceeds of a Credit Improved Obligation either:
 - (i) the Aggregate Principal Balance shall be maintained or improved after giving effect to such reinvestment when compared with the Aggregate Principal Balance immediately prior to the sale of the relevant Credit Improved Obligation; or
 - (ii) the sum of: (A) the Aggregate Principal Balance (for which purposes, the Principal Balance of each Defaulted Obligation shall be the lesser of its Fitch Collateral Value and its Moody's Collateral Value) of all Collateral Debt Obligations (excluding all of the Collateral Debt Obligations being sold but including, without duplication, the Collateral Debt Obligations being purchased and the anticipated cash proceeds, if any, of such sale that are not applied to the purchase of such Substitute Collateral Debt Obligation); and, without duplication, (B) amounts standing to the credit of the Principal Account and Unused Proceeds Account including any Eligible Investments (save for interest accrued on Eligible Investments)) is greater than the Reinvestment Target Par Balance;
- (e) either: (A) each of the Portfolio Profile Tests and the Collateral Quality Tests will be satisfied; or (B) if any of the Portfolio Profile Tests or the Collateral Quality Tests are not satisfied such test will be maintained or improved after giving effect to such reinvestment when compared with the results of such tests immediately prior to the sale or prepayment (in whole or in part) of the relevant Collateral Debt Obligation;
- (f) the date on which the Issuer (or the Investment Manager acting on behalf of the Issuer) enters into a binding commitment to purchase such Substitute Collateral Debt Obligation occurs during the Reinvestment Period;
- (g) with respect to the reinvestment of Sale Proceeds (other than Sale Proceeds from Credit Improved Obligations, Credit Impaired Obligations, Defaulted Obligations and Exchanged Securities) either:
 - (i) the Aggregate Principal Balance of all Collateral Debt Obligations shall be maintained or improved after giving effect to such reinvestment when compared with the Aggregate Principal Balance immediately prior to the sale that generates such Sale Proceeds; or
 - (ii) after giving effect to such sale, the sum of: (A) the Aggregate Principal Balance (for which purposes, the Principal Balance of each Defaulted Obligation shall be the lesser of its Fitch Collateral Value and its Moody's Collateral Value) of all Collateral Debt Obligations (excluding all of the Collateral Debt Obligations being sold but including, without duplication, the Substitute Collateral Debt Obligations being purchased and the anticipated cash proceeds, if any, of such sale that are not applied to the purchase of such Substitute Collateral Debt Obligations); and, without duplication, (B) amounts standing to the credit of the Principal Account and Unused Proceeds Account and including any Eligible Investments (save for interest accrued on Eligible Investments) is greater than the Reinvestment Target Par Balance;
- (h) no Retention Deficiency occurs as a direct result of, and immediately after giving effect to, such reinvestment; and
- (i) if such trade date occurs at a time when the Issuer knowingly cannot rely or elects not to rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder, and the Issuer is not able to rely on an exclusion or exemption from registration under the Investment Company Act other than those provided by Section

3(c)(1) or Section 3(c)(7) thereunder, such Collateral Debt Obligation is not a Collateral Enhancement Obligation that is a security, a Secured Senior Bond, a Mezzanine Obligation or a High Yield Bond.

Following the Expiry of the Reinvestment Period

Following the expiry of the Reinvestment Period, only Unscheduled Principal Proceeds and Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations received after the Reinvestment Period may be reinvested by the Issuer or the Investment Manager (acting on behalf of the Issuer) in one or more Substitute Collateral Debt Obligations satisfying the Eligibility Criteria (and, where applicable, provided the Portfolio Acquisition and Disposition Requirements are met), in each case provided that:

- (a) the Aggregate Principal Balance of such Substitute Collateral Debt Obligations equals or exceeds (i) the Aggregate Principal Balance of the related Collateral Debt Obligations that produced such Unscheduled Principal Proceeds or Sale Proceeds or (ii) the amount of Sale Proceeds of such Credit Impaired Obligations, as the case may be;
- (b) the Moody's Maximum Weighted Average Rating Factor Test is satisfied after giving effect to such reinvestment;
- (c) the Weighted Average Life Test was satisfied on the last Business Day of the Reinvestment Period and is satisfied immediately after giving effect to such reinvestment;
- (d) sub-paragraphs (n) and (o) of the Portfolio Profile Tests are satisfied after giving effect to such reinvestment;
- (e) each Coverage Test is satisfied immediately prior to and after giving effect to such reinvestment;
- (f) a Restricted Trading Period is not currently in effect;
- (g) either: (I) the Portfolio Profile Tests and the Collateral Quality Tests (except the Moody's Maximum Weighted Average Rating Factor Test, the Weighted Average Life Test and the Moody's Minimum Diversity Test) are satisfied; or (II) if any such test was not satisfied immediately prior to such reinvestment, such test will be satisfied after giving effect to such reinvestment or will be maintained or improved after giving effect to such reinvestment;
- (h) to the Investment Manager's knowledge, no Event of Default has occurred that is continuing at the time of such reinvestment;
- (i) the Substitute Collateral Debt Obligations will have the same or a higher Fitch Rating as the related Collateral Debt Obligation(s) that produced such Unscheduled Principal Proceeds or Sale Proceeds, as the case may be;
- (j) the Collateral Debt Obligation Stated Maturity of each Substitute Collateral Debt Obligation is the same as or earlier than the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligation that produced such Unscheduled Principal Proceeds or Sale Proceeds;
- (k) no Retention Deficiency occurs as a direct result of, and immediately after giving effect to, such reinvestment; and
- (l) if such trade date occurs at a time when the Issuer knowingly cannot rely or elects not to rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder, and the Issuer is not able to rely on an exclusion or exemption from registration under the Investment Company Act other than those provided by Section 3(c)(1) or Section 3(c)(7) thereunder, such Collateral Debt Obligation is not a Collateral

Enhancement Obligation that is a security, a Secured Senior Bond, a Mezzanine Obligation or a High Yield Bond.

Following the expiry of the Reinvestment Period, any Unscheduled Principal Proceeds and any Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations that have not been reinvested as provided above prior to the end of the Due Period in which such proceeds were received shall be paid into the Principal Account and disbursed in accordance with the Principal Proceeds Priority of Payments on the following Payment Date (subject as provided at the end of this paragraph), save that the Investment Manager (acting on behalf of the Issuer) may in its discretion procure that Unscheduled Principal Proceeds and Sale Proceeds from the sale of any Credit Impaired Obligations or Credit Improved Obligations are paid into the Principal Account and designated for reinvestment in Substitute Collateral Debt Obligations, in which case such Principal Proceeds shall not be so disbursed in accordance with the Principal Proceeds Priority of Payments for so long as they remain so designated for reinvestment but for no longer than the later of (i) 30 calendar days following receipt by the Issuer and (ii) the end of the following Due Period; provided that, in each case where any of the applicable Reinvestment Criteria are not satisfied as of the Payment Date next following receipt of such Sale Proceeds or Unscheduled Principal Proceeds, all such funds shall be paid into the Principal Account and disbursed in accordance with the Principal Proceeds Priority of Payments set out in Condition 3(c)(ii) (*Application of Principal Proceeds*) and such funds shall be applied only in redemption of the Notes in accordance with the Priorities of Payments.

The Portfolio Acquisition and Disposition Requirements

Notwithstanding anything to the contrary herein, the Issuer (or the Investment Manager on its behalf) will not acquire (whether by purchase or substitution) or dispose of any Collateral Debt Obligation, Collateral Enhancement Obligation, Exchanged Security or Eligible Investment unless the following requirements are satisfied (the "**Portfolio Acquisition and Disposition Requirements**"):

- (i) a Collateral Debt Obligation, Collateral Enhancement Obligation or Eligible Investment, if being acquired by the Issuer, is an Eligible Asset;
- (ii) such Collateral Debt Obligation, Collateral Enhancement Obligation, Exchanged Security or Eligible Investment is being acquired or disposed of in accordance with the terms and conditions set forth in the Trust Deed and the Investment Management Agreement;
- (iii) the acquisition or disposition of such Collateral Debt Obligation, Collateral Enhancement Obligation, Exchanged Security or Eligible Investment does not result in a reduction or withdrawal of the then-current rating issued by any Rating Agency on any Class of Rated Notes then outstanding; and
- (iv) such Collateral Debt Obligation, Collateral Enhancement Obligation, Exchanged Security or Eligible Investment is not being acquired or disposed of for the primary purpose of recognising gains or decreasing losses resulting from market value changes;

provided that, on any date, subject to the satisfaction as of such date of (x) the Regulatory Change Condition (which applies if the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the SEC or its staff) or (y) the Opt Out Condition, the Issuer (or the Investment Manager on its behalf) may elect (by written notice from the Issuer (or the Investment Manager, acting on behalf of the Issuer) to the Collateral Administrator and the Trustee) not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act in accordance with this paragraph, in which case, at all times thereafter, there will be no Portfolio Acquisition and

Disposition Requirements and all references to such requirements in the Investment Management Agreement and other Transaction Documents shall no longer be in effect.

If the Issuer (or the Investment Manager, acting on behalf of the Issuer) elects not to rely on, or if the Issuer were otherwise determined not to qualify for, Rule 3a-7 for its exclusion from registration under the Investment Company Act, the Issuer shall not acquire any asset that is not permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule if, based on legal advice obtained from U.S. nationally recognised counsel knowledgeable in such matters, such acquisition would cause the Issuer to be considered a "covered fund" for purposes of the Volcker Rule.

Amendments to Collateral Debt Obligation Stated Maturities of Collateral Debt Obligations

The Issuer (or the Investment Manager on the Issuer's behalf) may vote in favour of a Maturity Amendment only if, after giving effect to such Maturity Amendment: (a) the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligation that is the subject of such Maturity Amendment is not later than the Maturity Date of the Rated Notes; and (b) the Weighted Average Life Test is satisfied. If the Issuer (or the Investment Manager on its behalf) has not voted in favour of a Maturity Amendment which would contravene the requirements of this paragraph but the Collateral Debt Obligation Stated Maturity has been extended, by way of scheme of arrangement or otherwise, the Issuer (or the Investment Manager acting on its behalf) may but shall not be required to sell such Collateral Debt Obligation provided that in any event the Investment Manager shall dispose of such Collateral Debt Obligation prior to the Maturity Date. Such proceeds shall constitute Sale Proceeds and may be reinvested in accordance with and subject to the Reinvestment Criteria.

"Maturity Amendment" means with respect to any Collateral Debt Obligation, any waiver, refinancing, modification, amendment or variance that would extend the Collateral Debt Obligation Stated Maturity of such Collateral Debt Obligation. For the avoidance of doubt, a waiver, refinancing, modification, amendment or variance that would extend the Collateral Debt Obligation Stated Maturity of the credit facility of which a Collateral Debt Obligation is part, but would not extend the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligation held by the Issuer, does not constitute a Maturity Amendment.

Expiry of the Reinvestment Criteria Certification

Immediately preceding the end of the Reinvestment Period, the Investment Manager will deliver to the Trustee and the Collateral Administrator a schedule of Collateral Debt Obligations purchased by the Issuer with respect to which purchases the trade date has occurred but the settlement date has not yet occurred and will certify to the Trustee that sufficient Principal Proceeds are available (including for this purpose, cash on deposit in the Principal Account, any scheduled distributions of Principal Proceeds, as well as any Principal Proceeds that will be received by the Issuer from the sale of Collateral Debt Obligations for which the trade date has already occurred but the settlement date has not yet occurred) to effect the settlement of such Collateral Debt Obligations.

Reinvestment Overcollateralisation Test

During the Reinvestment Period, if, on any Payment Date during such period after giving effect to the payment of all amounts payable in respect of paragraphs (A) through (V) (inclusive) of the Interest Proceeds Priority of Payments, the Reinvestment Overcollateralisation Test has not been satisfied, then on the related Payment Date, Interest Proceeds in an amount equal to the lesser of (1) 50 per cent. of all remaining Interest Proceeds available for payment pursuant to paragraph (W) of the Interest Proceeds Priority of Payments and (2) the amount which, after giving effect to the payment of all amounts payable in respect of paragraphs (A) through (V) (inclusive) of the Interest Proceeds Priority of Payments would be sufficient to cause the Reinvestment Overcollateralisation Test to be satisfied shall be paid into the Principal Account as Principal Proceeds to purchase additional Collateral Debt Obligations provided that such payment would not, in the determination of the Collateral Administrator

(with such consultation with the Investment Manager and the Retention Holder as the Collateral Administrator deems necessary), cause (or would not be likely to cause) a Retention Deficiency.

Designation for Reinvestment

The Investment Manager shall, on each Determination Date, notify the Issuer and the Collateral Administrator in writing of all Principal Proceeds which the Investment Manager determines in its discretion (acting on behalf of the Issuer, and subject to the terms of Investment Management Agreement as described above) shall remain designated for reinvestment (or in the case of proceeds received from additional issuance of Notes, investment) on or after the following Payment Date, in which event such Principal Proceeds shall not constitute Principal Proceeds which are to be paid into the Payment Account and disbursed on such Payment Date in accordance with the Priorities of Payments.

The Investment Manager (acting on behalf of the Issuer) may direct that the proceeds of sale of any Collateral Debt Obligation which represents accrued interest be designated as Interest Proceeds and paid into the Interest Account save for: (i) Purchased Accrued Interest; (ii) any interest received in respect of any Mezzanine Obligation for so long as it is a Defaulted Deferring Mezzanine Obligation other than Defaulted Mezzanine Excess Amounts; and (iii) any interest received in respect of a Defaulted Obligation for so long as it is a Defaulted Obligation other than Defaulted Obligation Excess Amounts.

Application of Proceeds of Additional Issuances

The Investment Manager (acting on behalf of the Issuer) shall apply the Principal Proceeds received from the issuance of additional notes pursuant to the Trust Deed and as described in Condition 17 (*Additional Issuances*) to purchase additional Collateral Debt Obligations and, if applicable, enter into additional Hedge Transactions in connection with the Issuer's issuance of, and making payments on, the Notes and ownership of and disposition of the Collateral Debt Obligations.

Accrued Interest

Amounts included in the purchase price of any Collateral Debt Obligation comprising accrued interest thereon may be paid from the Interest Account, the Principal Account or the Unused Proceeds Account at the discretion of the Investment Manager (acting on behalf of the Issuer) but subject to the terms of the Investment Management Agreement and Condition 3(j) (*Payments to and from the Accounts*). Notwithstanding the foregoing, in any Due Period, all payments of interest and proceeds of sale received during such Due Period in relation to any Collateral Debt Obligation, in each case, to the extent that such amounts represent accrued and/or capitalised interest in respect of such Collateral Debt Obligation (including, in respect of a Mezzanine Obligation, any accrued interest which, as at the time of purchase, had been capitalised and added to the principal amount of such Mezzanine Obligation in accordance with its terms), which was purchased at the time of acquisition thereof with Principal Proceeds and/or principal amounts from the Unused Proceeds Account shall constitute Purchased Accrued Interest and shall be deposited into the Principal Account as Principal Proceeds.

Block Trades

The requirements described herein with respect to the Portfolio shall be deemed to be satisfied upon any sale and/or purchase of Collateral Debt Obligations on any day if such Collateral Debt Obligations satisfy such requirements in aggregate rather than on an individual basis.

For the purpose of calculating compliance with the Reinvestment Criteria at the election of the Investment Manager in its sole discretion, any proposed investment (whether a single Collateral Debt Obligation or a group of Collateral Debt Obligations) identified by the Investment Manager as such at the time (the "**Initial Trading Plan Calculation Date**") when compliance with the Reinvestment Criteria is required to be calculated (a "**Trading Plan**") may be evaluated after giving effect to all sales

and reinvestments proposed to be entered into within the 20 Business Days following the date of determination of such compliance (such period, the "**Trading Plan Period**"); *provided* that: (i) no Trading Plan may result in the purchase of Collateral Debt Obligations having an Aggregate Principal Balance that exceeds 5 per cent. of the Aggregate Collateral Balance (for which purposes, the Principal Balance of each Defaulted Obligation shall be the lesser of its Fitch Collateral Value and its Moody's Collateral Value) as of the first day of the Trading Plan Period; (ii) no Trading Plan Period may include a Payment Date; (iii) no more than one Trading Plan may be in effect at any time during a Trading Plan Period, *provided* that no Trading Plan may result in the averaging of the purchase price of a Collateral Debt Obligation or Collateral Debt Obligations purchased at separate times for purposes of determining whether any particular Collateral Debt Obligation is a Discount Obligation; and (iv) if the Reinvestment Criteria are satisfied prospectively after giving effect to a Trading Plan, but are not satisfied upon the completion of the related Trading Plan, Rating Agency Confirmation from Fitch is obtained with respect to the effectiveness of additional Trading Plans (it being understood that Rating Agency Confirmation from Fitch shall only be required once following any failure of a Trading Plan); *provided* that no Trading Plan may result in the averaging of the purchase price of a Collateral Debt Obligation or Collateral Debt Obligations purchased at separate times for purposes of determining whether any particular Collateral Debt Obligation is a Discount Obligation. For the avoidance of doubt, compliance with the Reinvestment Criteria upon completion of a Trading Plan pursuant to (iv) above, shall be calculated with respect to those Collateral Debt Obligations that were actually sold and/or purchased as part of the relevant Trading Plan on the basis of data used as at the Initial Trading Plan Calculation Date.

Eligible Investments

Subject to the Portfolio Acquisition and Disposition Requirements (so long as they are applicable), the Issuer or the Investment Manager (acting on behalf of the Issuer) may from time to time purchase Eligible Investments out of the Balances standing to the credit of the Accounts (other than the Counterparty Downgrade Collateral Accounts, the Unfunded Revolver Reserve Account and the Payment Account). For the avoidance of doubt, Eligible Investments may be sold by the Issuer or the Investment Manager (acting on behalf of the Issuer) at any time in accordance with the Portfolio Acquisition and Disposition Requirements as long as they are applicable, *provided* that only Eligible Investments which are permitted to be held by any entity relying on the loan securitisation exemption under the Volcker Rule may be purchased at a time when the Issuer knowingly cannot rely or elects not to rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder, and the Issuer is not able to rely on an exclusion or exemption from registration under the Investment Company Act other than those provided by Section 3(c)(1) or Section 3(c)(7) thereof.

Collateral Enhancement Obligations

The Investment Manager (acting on behalf of the Issuer) may, from time to time, subject to the Portfolio Acquisition and Disposition Requirements (so long as they are applicable), purchase Collateral Enhancement Obligations independently or as part of a unit with the Collateral Debt Obligations being so purchased, *provided* that no such purchase shall occur at a time when the Issuer knowingly cannot rely or elects not to rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder, and the Issuer is not able to rely on an exclusion or exemption from registration under the Investment Company Act other than those provided by Section 3(c)(1) or Section 3(c)(7) thereunder.

All funds required in respect of the purchase price of any Collateral Enhancement Obligations, and all funds required in respect of the exercise price of any rights or options thereunder, may only be paid out of the balance standing to the credit of the Collateral Enhancement Account at the relevant time. Pursuant to Condition 3(j)(vi) (*Collateral Enhancement Account*), such Balance shall be comprised of all sums deposited therein from time to time which will comprise Collateral Enhancement Amounts

paid in accordance with the Priorities of Payments and, subject as provided below, such Investment Manager Advances as the Investment Manager makes in its discretion.

The Investment Manager may also, at its discretion, fund the purchase or exercise of one or more Collateral Enhancement Obligations by making an Investment Manager Advance to the Issuer during the Reinvestment Period, provided that no more than four Investment Manager Advances may be made during such period, and no single Investment Manager Advance may be for an amount less than €500,000 and the aggregate of all Investment Manager Advances may not exceed €8,000,000. Each Investment Manager Advance will bear interest at the applicable EURIBOR rate plus a margin of 4.0 per cent. per annum. Repayment by the Issuer of any Investment Manager Advance to the Investment Manager will only be made pursuant to and in accordance with the Priorities of Payments.

Collateral Enhancement Obligations may be sold, subject to the Portfolio Acquisition and Disposition Requirements (so long as they are applicable), at any time and all Collateral Enhancement Obligation Proceeds received by the Issuer shall be deposited into the Collateral Enhancement Account and may, at the discretion of the Investment Manager, be transferred to the Principal Account for allocation in accordance with the Principal Proceeds Priority of Payments, the Interest Account for allocation in accordance with the Interest Proceeds Priority of Payments or be retained in the Collateral Enhancement Account for allocation in accordance with the Collateral Enhancement Obligation Proceeds Priority of Payments.

Collateral Enhancement Obligations and any income or return generated thereby are not taken into account for the purposes of determining satisfaction of, or required to satisfy, any of the Coverage Tests, Portfolio Profile Tests or Collateral Quality Tests.

Exchanged Securities

Any Exchanged Security may be sold at any time, subject to the Portfolio Acquisition and Disposition Requirements (for so long as they are applicable) by the Investment Manager in its discretion (acting on behalf of the Issuer) subject to, to the Investment Manager's knowledge, no Event of Default having occurred which is continuing.

In addition to any discretionary sale of Exchanged Securities as provided above, the Investment Manager shall be required by the Issuer to use its commercially reasonable efforts to sell (on behalf of the Issuer) any Exchanged Security which constitutes Margin Stock, as soon as practicable upon its receipt or upon its becoming Margin Stock (as applicable) and at all times as permitted by applicable law.

Exercise of Warrants and Options

The Investment Manager acting on behalf of the Issuer, may, at any time, subject to the Portfolio Acquisition and Disposition Requirements (for so long as they are applicable) exercise a warrant or option attached to a Collateral Debt Obligation or comprised in a Collateral Enhancement Obligation and shall on behalf of the Issuer instruct the Account Bank to make any necessary payment pursuant to a duly completed form of instruction.

Margin Stock

The Investment Management Agreement requires that the Investment Manager, on behalf of the Issuer, shall use reasonable endeavours to sell any Collateral Debt Obligation, Collateral Enhancement Obligation, Exchanged Security or Eligible Investment which is or at any time becomes Margin Stock as soon as practicable following such event.

"Margin Stock" means margin stock as defined under Regulation U issued by the Federal Reserve Board, including any debt security which is by its terms convertible into Margin Stock.

Non-Euro Obligations

Subject to the satisfaction of certain conditions in the Investment Management Agreement and the Portfolio Acquisition and Disposition Requirements (so long as they are applicable), the Investment Manager shall be authorised to purchase, on behalf of the Issuer, Non-Euro Obligations from time to time provided that any such Non-Euro Obligation shall only constitute a Collateral Debt Obligation that satisfies paragraph (b) of the Eligibility Criteria (either as an Eligibility Criterion or as a Restructured Obligation Criterion) if not later than the trade date of the acquisition thereof, the Investment Manager procures entry by the Issuer into an Asset Swap Transaction pursuant to which the currency risk arising from receipt of cash flows from such Non-Euro Obligation, including interest and principal payments, is hedged through the swapping of such cash flows for Euro payments to be made by an Asset Swap Counterparty. The Investment Manager (on behalf of the Issuer) shall be authorised to enter into spot exchange transactions, as necessary, to fund the Issuer's payment obligations under any Asset Swap Transaction. Rating Agency Confirmation shall be required in relation to entry into each Asset Swap Transaction unless such Asset Swap Transaction is a Form-Approved Asset Swap Agreement. See the "Hedging Arrangements" section of this Prospectus.

Revolving Obligations and Delayed Drawdown Collateral Debt Obligations

The Investment Manager acting on behalf of the Issuer, may acquire in accordance with the Portfolio Acquisition and Disposition Requirements so long as they are applicable, Collateral Debt Obligations which are Revolving Obligations or Delayed Drawdown Collateral Debt Obligations from time to time.

Such Revolving Obligations and Delayed Drawdown Collateral Debt Obligations may only be acquired if they are capable of being drawn in a single currency only (being Euros) and are not payable in or convertible into another currency.

Each Revolving Obligation and Delayed Drawdown Collateral Debt Obligation will, pursuant to its terms, require the Issuer to make one or more future advances or other extensions of credit (including extensions of credit made on an unfunded basis pursuant to which the Issuer may be required to reimburse the provider of a guarantee or other ancillary facilities made available to the obligor thereof in the event of any default by the obligor thereof in respect of its reimbursement obligations in connection therewith). Such Revolving Obligations and Delayed Drawdown Collateral Debt Obligations may or may not provide that they may be repaid and reborrowed from time to time by the Obligor thereunder. Upon acquisition of any Revolving Obligations and Delayed Drawdown Collateral Debt Obligations, the Issuer shall deposit into the Unfunded Revolver Reserve Account amounts equal to the combined aggregate principal amounts of the Unfunded Amounts under each of the Revolving Obligations and Delayed Drawdown Collateral Debt Obligations. To the extent required, the Issuer, or the Investment Manager acting on its behalf, may direct that amounts standing to the credit of the Unfunded Revolver Reserve Account be deposited with a third party from time to time as collateral for any reimbursement or indemnification obligations owed by the Issuer to any other lender in connection with a Revolving Obligation or a Delayed Drawdown Collateral Debt Obligation, as applicable and upon receipt of an Issuer Order the Trustee shall be deemed to have released such amounts from the security granted thereover pursuant to the Trust Deed.

Participations

The Investment Manager acting on behalf of the Issuer, may from time to time in accordance with the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) acquire Collateral Debt Obligations from Selling Institutions by way of Participation provided that at the time such Participation is taken:

- (a) the percentage of the Aggregate Collateral Balance that represents Participations (including, for the avoidance of doubt each participation and sub participation from which the Issuer, directly or indirectly derives its interest in the relevant Collateral Debt Obligation) entered into by the

Issuer with a single Selling Institution will not exceed the individual and aggregate percentages set forth in the Bivariate Risk Table determined by reference to the credit rating of such third party (or any guarantor thereof); and

- (b) the percentage of the Aggregate Collateral Balance that represents Participations (including, for the avoidance of doubt each participation and sub participation from which the Issuer, directly or indirectly derives its interest in the relevant Collateral Debt Obligation) entered into by the Issuer with Selling Institutions (or any guarantor thereof) each having the same credit rating (taking the lowest rating assigned thereto by any Rating Agency), will not exceed the aggregate third party credit exposure limit set forth in the Bivariate Risk Table for such credit rating.

Each Participation entered into pursuant to a sub-participation agreement shall be substantially in the form of:

- (a) the LSTA Model Participation Agreement for par/near par trades (as published by the Loan Syndications and Trading Association Inc. from time to time);
- (b) the LMA Funded Participation (Par) (as published by the Loan Market Association from time to time); or
- (c) such other documentation provided such agreement contains limited recourse and non-petition language substantially the same as the Trust Deed.

Assignments

The Investment Manager acting on behalf of the Issuer, may from time to time in accordance with the Portfolio Acquisition and Disposition Requirements (so long as they are applicable) acquire Collateral Debt Obligations from Selling Institutions by way of Assignment provided that at the time such Assignment is acquired the Investment Manager acting on behalf of the Issuer shall have complied, to the extent within their control, with any requirements relating to such Assignment set out in the relevant loan documentation for such Collateral Debt Obligation (including, without limitation, with respect to the form of such Assignment and obtaining the consent of any person specified in the relevant loan documentation).

Bivariate Risk Table

The following is the bivariate risk table (the "**Bivariate Risk Table**") and as referred to in "*Portfolio Profile Tests*" below and "*Participations*" above. For the purposes of the limits specified in the Bivariate Risk Table, the individual third party credit exposure limit shall be determined by reference to all Participations (excluding any Defaulted Obligations) entered into by the Issuer with the same counterparty (such amount in respect of such entity, the "**Third Party Exposure**") and the applicable percentage limits shall be determined by reference to the lower of the Moody's or Fitch ratings applicable to such counterparty and the aggregate third party credit exposure limit shall be determined by reference to the aggregate of Third Party Exposure of all such counterparties which share the same rating level or have a lower rating level, as indicated in the Bivariate Risk Table.

Portfolio Profile Tests and Collateral Quality Tests

Measurement of Tests

The Portfolio Profile Tests and the Collateral Quality Tests will be used as criteria for purchasing Collateral Debt Obligations. The Collateral Administrator will measure the Portfolio Profile Tests and the Collateral Quality Tests on each Measurement Date (save as otherwise provided herein).

Substitute Collateral Debt Obligations in respect of which a binding commitment has been made to purchase such Substitute Collateral Debt Obligations but such purchase has not been settled shall nonetheless be deemed to have been purchased for the purposes of the Portfolio Profile Tests and the Collateral Quality Tests. Moody's Test Matrix

Subject to the provisions provided below, on or after the Effective Date, the Investment Manager will have the option to elect which of the cases set forth in the matrix to be set out in the Investment Management Agreement (the "**Moody's Test Matrix**") shall be applicable for purposes of the Moody's Maximum Weighted Average Rating Factor Test, the Moody's Minimum Diversity Test and the Minimum Weighted Average Spread Test. For any given case:

- (1) the applicable column for performing the Moody's Minimum Diversity Test will be the column (or linear interpolation between two adjacent columns, as applicable) in which the elected case is set out;
- (2) the applicable row and column for performing the Moody's Maximum Weighted Average Rating Factor Test will be the row and column (or linear interpolation between two adjacent rows and/or two adjacent columns, as applicable) in which the elected case is set out; and
- (3) the applicable row for performing the Minimum Weighted Average Spread Test will be the row (or linear interpolation between two adjacent rows, as applicable) in which the elected test is set out.

On the Effective Date, the Investment Manager will be required to elect which case shall apply initially. Thereafter, on two Business Days' notice to the Issuer, the Trustee, the Collateral Administrator and Moody's, the Investment Manager may elect to have a different case apply, provided that the Moody's Minimum Diversity Test, the Moody's Maximum Weighted Average Rating Factor Test, the Moody's Minimum Weighted Average Recovery Rate Test and the Minimum Weighted Average Spread Test applicable to the case to which the Investment Manager desires to change are satisfied or, in the case of any tests that are not satisfied, are closer to being satisfied. In no event will the Investment Manager be obliged to elect to have a different case apply. The Moody's Test Matrix set out below may be amended and/or supplemented and/or replaced by the Investment Manager subject to Rating Agency Confirmation from Moody's and the consent of the holders of the Controlling Class, acting by way of Ordinary Resolution in accordance with Condition 14(c)(xix) (*Modification and Waiver*).

Fitch Test Matrix

Subject to the provisions provided below, on or after the Effective Date, the Investment Manager will have the option to elect which of the cases set forth in the matrix set out below (the "**Fitch Test Matrix**") shall be applicable for purposes of the Fitch Maximum Weighted Average Rating Factor Test, the Fitch Minimum Weighted Average Recovery Rate Test and the Weighted Average Spread Test. For any given case:

- (a) the applicable column for performing the Fitch Maximum Weighted Average Rating Factor Test will be the column (or linear interpolation between two adjacent columns, as applicable) in which the elected case is set out;
- (b) the applicable row for performing the Weighted Average Spread Test will be the row (or linear interpolation between two adjacent rows) in which the elected case is set out; and
- (c) the applicable row and column for performing the Fitch Minimum Weighted Average Recovery Rate Test will be the row and column (or linear interpolation between two adjacent rows and/or two adjacent columns, as applicable) in which the elected case is set out.

On the Effective Date, the Investment Manager will be required to elect which case shall apply initially. Thereafter, on two Business Days' notice to the Issuer, the Collateral Administrator and Fitch, the Investment Manager may elect to have a different case apply, *provided that* the Fitch Maximum Weighted Average Rating Factor Test, the Fitch Minimum Weighted Average Recovery Rate Test and the Weighted Average Spread Test applicable to the case to which the Investment Manager desires to change are satisfied or, in the case of any tests that are not satisfied, are closer to being satisfied. The Fitch Test Matrix may be amended and/or supplemented and/or replaced by the Investment Manager subject to Rating Agency Confirmation from Fitch and the consent of the holders of the Controlling Class, acting by way of Ordinary Resolution in accordance with Condition 14(c)(xix) (*Modification and Waiver*).

The Moody's Minimum Diversity Test

The "**Moody's Minimum Diversity Test**" will be satisfied as at any Measurement Date from (and including) the Effective Date, if the Diversity Score equals or exceeds the number set forth in the column entitled "Minimum Diversity Score" in the Moody's Test Matrix based upon the applicable "row/column" combination chosen by the Investment Manager (or interpolating between two adjacent rows and/or two adjacent columns (as applicable)).

The "**Diversity Score**" is a single number that indicates collateral concentration and correlation in terms of both issuer and industry concentration and correlation. It is similar to a score that Moody's uses to measure concentration and correlation for the purposes of its ratings. A higher Diversity Score reflects a more diverse portfolio in terms of the issuer and industry concentration. The Diversity Score for the Collateral Debt Obligations is calculated by summing each of the Industry Diversity Scores which are calculated as follows and rounding the result up to the nearest whole number (provided that no Defaulted Obligations shall be included in the calculation of the Diversity Score or any component thereof):

- (a) an "**Average Principal Balance**" is calculated by summing the Obligor Principal Balances and dividing by the sum of the aggregate number of issuers and/or borrowers represented;
- (b) an "**Obligor Principal Balance**" is calculated for each Obligor represented in the Collateral Debt Obligations by summing the Principal Balances of all Collateral Debt Obligations (excluding Defaulted Obligations) issued by such Obligor, provided that if a Collateral Debt Obligation has been sold or is the subject of an optional redemption or Offer, and the Sale Proceeds or Unscheduled Principal Proceeds from such event have not yet been reinvested in Substitute Collateral Debt Obligations or distributed to the Noteholders or the other creditors of the Issuer in accordance with the Priorities of Payments, the Obligor Principal Balance shall be calculated as if such Collateral Debt Obligation had not been sold or was not subject to such an optional redemption or Offer;
- (c) an "**Equivalent Unit Score**" is calculated for each Obligor by taking the lesser of (i) one and (ii) the Obligor Principal Balance for such Obligor divided by the Average Principal Balance;
- (d) an "**Aggregate Industry Equivalent Unit Score**" is then calculated for each of the 32 Moody's industrial classification groups by summing the Equivalent Unit Scores for each Obligor in the industry (or such other industrial classification groups and Equivalent Unit Scores as are published by Moody's from time to time); and
- (e) an "**Industry Diversity Score**" is then established by reference to the Diversity Score Table shown below (or such other Diversity Score Table as is published by Moody's from time to time) (the "**Diversity Score Table**") for the related Aggregate Industry Equivalent Unit Score. If the Aggregate Industry Equivalent Unit Score falls between any two such scores shown in the Diversity Score Table, then the Industry Diversity Score is the lower of the two Diversity Scores in the Diversity Score Table.

For purposes of calculating the Diversity Scores any Obligor Affiliated with one another will be considered to be one Obligor.

The Moody's Maximum Weighted Average Rating Factor Test

The "**Moody's Maximum Weighted Average Rating Factor Test**" will be satisfied as at any Measurement Date from (and including) the Effective Date, if the Adjusted Weighted Average Moody's Rating Factor as at such Measurement Date is equal to or less than the sum of:

- (a) the number set forth in the Moody's Test Matrix at the intersection of the applicable "row/column" combination chosen by the Investment Manager (or interpolating between two adjacent rows and/or two adjacent columns (as applicable)), (acting on behalf of the Issuer) as at such Measurement Date; *plus*
- (b) the Moody's Weighted Average Recovery Adjustment,

provided, however, that the sum of (a) and (b) may not exceed 3,900.

The "**Moody's Weighted Average Rating Factor**" is determined by summing the products obtained by multiplying the Principal Balance of each Collateral Debt Obligation, excluding Defaulted Obligations, by its Moody's Rating Factor, dividing such sum by the Aggregate Principal Balances of all such Collateral Debt Obligations, excluding Defaulted Obligations, and rounding the result down to the nearest whole number.

The "**Moody's Rating Factor**" relating to any Collateral Debt Obligation is the number set forth in the table below opposite the Moody's Default Probability Rating of such Collateral Debt Obligation.

Moody's Default Probability Rating	Moody's Rating Factor	Moody's Default Probability Rating	Moody's Rating Factor
Aaa	1	Ba1	940
Aa1	10	Ba2	1,350
Aa2	20	Ba3	1,766
Aa3	40	B1	2,220
A1	70	B2	2,720
A2	120	B3	3,490
A3	180	Caa1	4,770
Baa1	260	Caa2	6,500
Baa2	360	Caa3	8,070
Baa3	610	Ca or lower	10,000

The "**Moody's Weighted Average Recovery Adjustment**" means, as of any Measurement Date, the greater of:

- (a) zero; and
- (b) the product of:
 - (i) (A) the Weighted Average Moody's Recovery Rate as of such Measurement Date multiplied by 100 minus (B) 44; and
 - (ii) (A) with respect to the adjustment of the Moody's Maximum Weighted Average Rating Factor Test:

- (1) 65 if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is equal to or higher than 2.50 per cent. but less than 3.40 per cent.; and
- (2) 75 if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is equal to or greater than 3.40 per cent.; and

(B) with respect to adjustment of the Minimum Weighted Average Spread:

- (1) 0.05 per cent. if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is less than 3.40 per cent.;
- (2) 0.10 per cent. if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is greater than or equal to 3.40 per cent. and less than 4.30 per cent.;
- (3) 0.15 per cent. if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is greater than or equal to 4.30 per cent. and less than 5.00 per cent.; and
- (4) 0.20 per cent. in all other cases,

provided that if the Weighted Average Moody's Recovery Rate for purposes of determining the Moody's Weighted Average Recovery Adjustment is greater than 60 per cent., then such Weighted Average Moody's Recovery Rate shall equal 60 per cent. unless the Rating Agency Confirmation from Moody's is received;

provided further that the amount specified in clause (b)(i) above may only be allocated once on any Measurement Date and the Investment Manager shall designate to the Collateral Administrator in writing on each such date the portion of such amount that shall be allocated to clause (b)(ii)(A) and the portion of such amount that shall be allocated to clause (b)(ii)(B) (it being understood that, absent an express designation by the Investment Manager, all such amounts shall be allocated to clause (b)(ii)(A)).

"Adjusted Weighted Average Moody's Rating Factor" means, as of any Measurement Date, a number equal to the Moody's Weighted Average Rating Factor determined in the following manner: for purposes of determining a Moody's Default Probability Rating, Moody's Rating or Moody's Derived Rating in connection with determining the Moody's Weighted Average Rating Factor for purposes of this definition, each applicable rating on credit watch by Moody's that is on (a) positive watch will be treated as having been upgraded by one rating subcategory, (b) negative watch will be treated as having been downgraded by two rating subcategories and (c) negative outlook will be treated as having been downgraded by one rating subcategory and rounding the result down to the nearest whole number.

The Moody's Minimum Weighted Average Recovery Rate Test

The "**Moody's Minimum Weighted Average Recovery Rate Test**" will be satisfied, as at any Measurement Date from (and including) the Effective Date, if the Weighted Average Moody's Recovery Rate is greater than or equal to (i) 44 per cent. minus (ii) the Moody's Weighted Average Rating Factor Adjustment, provided however that the result of (i) minus (ii) may not be less than 35 per cent.

The "**Weighted Average Moody's Recovery Rate**" means, as of any Measurement Date, the number, expressed as a percentage, obtained by summing the products obtained by multiplying the Principal Balance of each Collateral Debt Obligation (excluding Defaulted Obligations) by its corresponding Moody's Recovery Rate and dividing such sum by the Aggregate Principal Balance (excluding Defaulted Obligations) and rounding the result up to the nearest 0.1 per cent.

The "**Moody's Weighted Average Rating Factor Adjustment**" means an amount, expressed as a percentage, as of any Measurement Date equal to the greater of:

- (a) zero; and
- (b) the number obtained by dividing:
 - (i) (A) the number set forth in the Moody's Test Matrix at the intersection of the applicable "row/column" combination chosen by the Investment Manager (acting on behalf of the Issuer) (or interpolating between two adjacent rows and/or two adjacent columns (as applicable)), as at such Measurement Date minus (B) the Adjusted Weighted Average Moody's Rating Factor; by
 - (ii)
 - (A) 60 if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is equal to or higher than 2.50 per cent. but less than 3.20 per cent.;
 - (B) 70 if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is equal to or higher than 3.20 per cent. but less than 5.70 per cent.; and
 - (C) 80 if the weighted average spread (expressed as a percentage) applicable to the current Moody's Test Matrix based upon the option chosen by the Investment Manager (or interpolating between two adjacent rows, as applicable) is equal to or higher than 5.70 per cent.,

and dividing the result by 100.

The "**Moody's Recovery Rate**" is, with respect to any Collateral Debt Obligation, as of any date of determination, the recovery rate determined in accordance with the following, in the following order of priority:

- (a) if the Collateral Debt Obligation has been specifically assigned a recovery rate by Moody's (for example, in connection with the assignment by Moody's of an estimated rating), such recovery rate; or
- (b) if the preceding clause does not apply to the Collateral Debt Obligation, except with respect to Corporate Rescue Loans, the rate determined pursuant to the table below based on the number of rating subcategories difference between the Collateral Debt Obligation's Moody's Rating and

its Moody's Default Probability Rating (for purposes of clarification, if the Moody's Rating is higher than the Moody's Default Probability Rating, the rating subcategories difference will be positive and if it is lower, negative):

Number of Moody's Ratings Subcategories Difference Between the Moody's Rating and the Moody's Default Probability Rating	Moody's Senior Secured Loan	Second Lien Loans, Senior Secured Bonds, Senior Secured Floating Rate Notes*	Unsecured Senior Loans, Unsecured Bonds, Mezzanine Obligations and High Yield Bonds
+2 or more	60.0%	55.0%	45.0%

- (c) or, if the Collateral Debt Obligation is a Corporate Rescue Loan (other than a Corporate Rescue Loan which has been specifically assigned a recovery rate by Moody's), 50 per cent.

*If such Collateral Debt Obligation does not have both a CFR and an Assigned Moody's Rating, such Collateral Debt Obligation will be deemed to be an Unsecured Bond, Unsecured Senior Loan or High Yield Bond for purposes of this table.

- (b) (x) is secured by a valid first priority perfected security interest or lien in, to or on specified collateral securing the obligor's obligations under the loan and (y) such specified collateral does not consist entirely of equity securities or common stock; provided that any loan that would be considered a Moody's Senior Secured Loan but for clause (y) above shall be considered a Moody's Senior Secured Loan if it is a loan made to a parent entity and as to which the Investment Manager determines in good faith that the value of the common stock of the subsidiary (or other equity interests in the subsidiary) securing such loan at or about the time of acquisition of such loan by the Issuer has a value that is at least equal to the outstanding principal balance of such loan and the outstanding principal balances of any other obligations of such parent entity that are pari passu with such loan, which value may include, among other things, the enterprise value of such subsidiary of such parent entity; and
- (c) the value of the collateral securing the loan together with other attributes of the obligor (including, without limitation, its general financial condition, ability to generate cash flow available for debt service and other demands for that cash flow) is adequate (in the commercially reasonable judgement of the Investment Manager) to repay the loan in accordance with its terms and to repay all other loans of equal seniority secured by a first lien or security interest in the same collateral).

The Minimum Weighted Average Spread Test

The "**Minimum Weighted Average Spread Test**" will be satisfied if, as at any Measurement Date from (and including) the Effective Date, the Weighted Average Spread as at such Measurement Date *plus* the Weighted Average Coupon Adjustment Percentage as at such Measurement Date equals or exceeds the Minimum Weighted Average Spread as at such Measurement Date.

The "**Minimum Weighted Average Spread**", as of any Measurement Date, will equal the greater of: (a) the percentage set forth in the Fitch Test Matrix based upon the option chosen by the Investment Manager and (b) the percentage set forth in the Moody's Test Matrix based upon the option chosen by the Investment Manager (or the interpolation between two adjacent rows and/or two adjacent columns (as applicable)) reduced by the Moody's Weighted Average Recovery Adjustment, provided such reduction may not reduce the Minimum Weighted Average Spread below 2.50 per cent.

The "**Weighted Average Spread**" as of any Measurement Date, is the number obtained by dividing:

- (a) the amount equal to (A) the Aggregate Funded Spread plus (B) the Aggregate Unfunded Spread plus (C) the Aggregate Excess Funded Spread, in each case adjusted for (i) any withholding tax deducted in respect of the relevant obligation which is neither grossed up nor recoverable under any applicable double tax treaty or otherwise and (ii) in the case of any Ineligible Obligation held by a Blocker Subsidiary, to reflect (x) any income taxes applicable (or which are anticipated to be applicable) to such Blocker Subsidiary and (y) any amounts expected to be withheld at source or otherwise deducted in respect of taxes arising from any distribution relating to such Ineligible Obligation made (or anticipated to be made) by the relevant Blocker Subsidiary to the Issuer (unless such withholding or deduction can be sheltered by an application being made under the applicable double tax treaty or otherwise); by
- (b) an amount equal to the Aggregate Principal Balance of all Floating Rate Collateral Debt Obligations as of such Measurement Date (excluding Defaulted Obligations and Deferring Securities).

The Weighted Average Spread shall be expressed as a percentage and shall be rounded up to the next 0.01 per cent.

The "**Aggregate Funded Spread**" is, as of any Measurement Date, the sum of:

- (a) in the case of each Floating Rate Collateral Debt Obligation (including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Non-Euro Obligations, Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) that bears interest at a spread over EURIBOR, (i) the stated interest rate spread on such Collateral Debt Obligation above EURIBOR multiplied by (ii) the outstanding principal balance of such Collateral Debt Obligation (excluding the unfunded portion of any Delayed Drawdown Collateral Debt Obligation or Revolving Obligation);
- (b) in the case of each Floating Rate Collateral Debt Obligation (including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Non-Euro Obligations, Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) that bears interest at a spread over an index other than EURIBOR-based index, (i) the excess of the sum of such spread and such index over EURIBOR with respect to the Floating Rate Notes as of the immediately preceding Interest Determination Date (which spread or excess may be expressed as a negative percentage) multiplied by (ii) the outstanding principal balance of each such Collateral Debt Obligation (excluding the unfunded portion of any Delayed Drawdown Debt Collateral Debt Obligation or Revolving Obligation);

- (c) in the case of each Floating Rate Collateral Debt Obligation which is a Non-Euro Obligation (including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) and subject to a Hedge Transaction, (i) the stated interest rate spread over EURIBOR payable by the applicable Asset Swap Counterparty to the Issuer under the related Asset Swap Transaction multiplied by (ii) the outstanding principal balance of such Non-Euro Obligation, converted into Euro at the Applicable Exchange Rate; and
- (d) in the case of each Floating Rate Collateral Debt Obligation which is a Non-Euro Obligation (including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) and which is not subject to an Asset Swap Transaction, the difference between (i) the interest amount payable by the relevant obligor converted to Euro at the applicable Spot Rate, and (ii) the product of (x) EURIBOR with respect to the Floating Rate Notes as of the immediately preceding Interest Determination Date multiplied by (y) the outstanding principal balance of such Non-Euro Obligation, converted into Euro at the applicable Spot Rate.

If a Floating Rate Collateral Debt Obligation is subject to a floor, the spread shall include, if positive: (x) the EURIBOR (or such other floating rate of interest) floor value minus (y) (i) if the relevant interest period of such Floating Rate Collateral Debt Obligation is the same length as the applicable interest period of the Floating Rate Notes, EURIBOR as if calculated in accordance with Condition 6(e)(i) (*Interest on the Rated Notes - Floating Rate of Interest*) on such Interest Determination Date or (ii) if the relevant interest period of such Floating Rate Collateral Debt Obligation is not the same length as the applicable interest period of the Floating Rate Notes, EURIBOR as if calculated in accordance with Condition 6(e)(i) (*Interest on the Rated Notes - Floating Rate of Interest*) on such Interest Determination Date had the interest period of the Floating Rate Notes been the same as the relevant interest period of such Floating Rate Collateral Debt Obligation (provided that to the extent the floor is in respect of a Non-Euro Obligation and either (i) such obligation is not subject to an Asset Swap Transaction or (ii) the floor is not included in the payments made by the Asset Swap Counterparty to the Issuer, for the purposes of paragraph (c) above, the additional interest amount in respect of such additional spread shall be determined by applying the Spot Rate under paragraph (c)(ii) and not the applicable exchange rate set forth in the relevant Asset Swap Transaction).

Further, the margin shall be deemed to be (x) in respect of a Step-Down Coupon Obligation, the lowest margin that is permissible pursuant to and in accordance with the Underlying Instruments relating thereto; and (y) in respect of a Step-Up Coupon Obligation, the margin applicable as at the relevant Measurement Date.

"Step-Down Coupon Obligation" means an obligation, the contractual interest rate of which decreases over a specified period of time. For the avoidance of doubt, an obligation will not be considered to be a Step-Down Coupon Obligation where interest payments decrease for non-contractual reasons due to unscheduled events such as a decrease in the index relating to a Floating Rate Collateral Debt Obligation, the change from a default rate of interest to a non-default rate, or an improvement in the Obligor's financial condition.

The **"Aggregate Unfunded Spread"** is, as of any Measurement Date, the sum of the products obtained by multiplying:

- (a) the aggregate of each Unfunded Amount (excluding Purchased Accrued Interest) held by the Issuer as at such Measurement Date in respect of which a commitment fee is receivable by the Issuer; by

- (b) the current per annum rate payable by way of such commitment fee in respect of each such Unfunded Amount,

provided for purposes of calculating the Aggregate Unfunded Spread, Defaulted Obligations shall be excluded.

The "**Aggregate Excess Funded Spread**" is, as of any Measurement Date, the amount obtained by multiplying:

- (a) the EURIBOR applicable to the Floating Rate Notes during the Accrual Period in which such Measurement Date occurs; by
- (b) the amount (not less than zero) equal to (i) the aggregate outstanding principal balance of the Collateral Debt Obligations (excluding, for the avoidance of doubt, (x) the principal balance of any Defaulted Obligation and (y) any interest that has been deferred and capitalised thereon) as of such Measurement Date minus (ii) the Target Par Amount minus (iii) the aggregate amount of Principal Proceeds received from the issuance of additional Notes pursuant to the Trust Deed; provided that the outstanding principal balance of (i) any Non-Euro Obligation subject to an Asset Swap Transaction shall be an amount equal to the Euro equivalent of the outstanding principal amount of the reference Non-Euro Obligation, converted into Euro at the Applicable Exchange Rate and (ii) any Non-Euro Obligation which is not subject to an Asset Swap Transaction shall be an amount equal to the Euro equivalent of the outstanding principal amount of the reference Non-Euro Obligation, converted into Euro at the applicable Spot Rate.

The "**Weighted Average Coupon Adjustment Percentage**", means a percentage equal as of any Measurement Date to a number obtained by multiplying (a) the result of the Weighted Average Fixed Coupon minus the Reference Weighted Average Fixed Coupon by (b) the number obtained by dividing the Aggregate Principal Balance of all Fixed Rate Collateral Debt Obligations by the Aggregate Principal Balance of all Floating Rate Collateral Debt Obligations (in each case excluding Defaulted Obligations and Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations), and which product may, for the avoidance of doubt, be negative.

The "**Reference Weighted Average Fixed Coupon**" means 6.00 per cent.

The "**Weighted Average Fixed Coupon**", as of any Measurement Date, is the number expressed as a percentage obtained by dividing:

- (a) the amount equal to the Aggregate Coupon, in each case adjusted for (i) any withholding tax deducted in respect of the relevant obligation which is neither grossed up nor recoverable under any applicable double tax treaty or otherwise and (ii) in the case of any Ineligible Obligation held by a Blocker Subsidiary, to reflect (x) any income taxes applicable (or which are anticipated to be applicable) to such Blocker Subsidiary and (y) any amounts expected to be withheld at source or otherwise deducted in respect of taxes arising from any distribution relating to such Ineligible Obligation made (or anticipated to be made) by the relevant Blocker Subsidiary to the Issuer (unless such withholding or deduction can be sheltered by an application being made under the applicable double tax treaty or otherwise); by
- (b) an amount equal to the Aggregate Principal Balance of all Fixed Rate Collateral Debt Obligations as of such Measurement Date, excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations,

and rounding the result up to the nearest 0.01 per cent.

The "**Aggregate Coupon**" is, as of any Measurement Date, the sum of (i) with respect to any Fixed Rate Collateral Debt Obligation which is a Non-Euro Obligation and subject to an Asset Swap Transaction, including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations, the product of (x) stated coupon on such Non-Euro Obligation expressed as a percentage and (y) the outstanding principal balance (excluding any interest capitalised pursuant to the terms of such instrument other than, with respect to a Mezzanine Obligation and a PIK Obligation, any such interest capitalised pursuant to the terms thereof which is paid for on the date of acquisition of such Mezzanine Obligation or PIK Obligation) of such Non-Euro Obligation, converted into Euro at the Applicable Exchange Rate, (ii) with respect to any Fixed Rate Collateral Debt Obligation which is a Non-Euro Obligation which is not subject to an Asset Swap Transaction, including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Defaulted Obligations and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations, an amount equal to the Euro equivalent of the product of (x) stated coupon on such Collateral Debt Obligation expressed as a percentage and (y) the outstanding principal balance (excluding any interest capitalised pursuant to the terms of such instrument other than, with respect to a Mezzanine Obligation and a PIK Obligation, any such interest capitalised pursuant to the terms thereof which is paid for on the date of acquisition of such Mezzanine Obligation or PIK Obligation) of such Non-Euro Obligation, converted into Euro at the applicable Spot Rate; and (iii) with respect to all other Fixed Rate Collateral Debt Obligations, including only the required non-deferrable current cash pay interest required by the Underlying Instruments thereon, and excluding Defaulted Obligations and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations, the sum of the products obtained by multiplying, in the case of each Fixed Rate Collateral Debt Obligation, (x) the stated coupon on such Collateral Debt Obligation expressed as a percentage and (y) the outstanding principal balance (excluding any interest capitalised pursuant to the terms of such instrument other than, with respect to a Mezzanine Obligation and a PIK Obligation, any such interest capitalised pursuant to the terms thereof which is paid for on the date of acquisition of such Mezzanine Obligation or PIK Obligation) of such Collateral Debt Obligation.

Further, the coupon shall be deemed to be (x) in respect of a Step-Down Coupon Obligation, the lowest coupon that is permissible pursuant to and in accordance with the Underlying Instruments relating thereto; and (y) in respect of a Step-Up Coupon Obligation, the margin applicable as at the relevant Measurement Date.

The Weighted Average Life Test

The "**Weighted Average Life Test**" will be satisfied on any Measurement Date if the Weighted Average Life as of such date is less than the number of years (rounded up to the nearest one hundredth thereof) during the period from such Measurement Date to 15 April 2025.

"**Weighted Average Life**" is, as of any Measurement Date with respect to all Collateral Debt Obligations other than Defaulted Obligations, the number of years (rounded down to the nearest one hundredth thereof) following such date obtained by summing the products obtained by multiplying (a) the Average Life at such time of each such Collateral Debt Obligation by (b) the Principal Balance of such Collateral Debt Obligation, and dividing such sum by the Aggregate Principal Balance at such time of all Collateral Debt Obligations other than Defaulted Obligations.

"**Average Life**" is, on any Measurement Date with respect to any Collateral Debt Obligation, the quotient obtained by dividing (i) the sum of the products of (a) the number of years (rounded to the nearest one hundredth thereof) from such Measurement Date to the respective dates of each successive scheduled distribution of principal of such Collateral Debt Obligation and (b) the respective amounts of principal of such scheduled distributions by (ii) the sum of all successive scheduled distributions of principal on such Collateral Debt Obligation.

Rating Definitions

Fitch Ratings Definitions

The "**Fitch Rating**" of any Collateral Debt Obligation will be determined in accordance with the below methodology (with the sub-paragraph earliest in this definition applying in the case where more than one sub-paragraph would otherwise be applicable):

- (a) with respect to any Collateral Debt Obligation in respect of which there is a Fitch issuer default rating, including credit opinions, whether public or privately provided to the Investment Manager following notification by the Investment Manager that the Issuer has entered into a binding commitment to acquire such Collateral Debt Obligation (the "**Fitch Issuer Default Rating**"), the Fitch Rating shall be such Fitch Issuer Default Rating;
- (b) if the Obligor thereof has an outstanding long-term financial strength rating from Fitch (the "**Fitch LTSR**"), then the Fitch Rating shall be one notch lower than such Fitch LTSR;
- (c) if in respect of any other obligation of the Obligor or its Affiliates, there is a publicly available rating by Fitch, then the Fitch Rating shall be the Fitch IDR Equivalent determined by applying the Fitch Rating Mapping Table (as defined below) to such rating;
- (d) if in respect of the Collateral Debt Obligation there is a Moody's CFR, a Moody's Long Term Issuer Rating, or an S&P Issuer Credit Rating, then the Fitch Rating shall be the rating that corresponds to the lowest thereof;
- (e) if in respect of the Collateral Debt Obligation, there is an Insurance Financial Strength Rating, then the Fitch Rating shall be one notch lower than such Insurance Financial Strength Rating;
- (f) if in respect of the Collateral Debt Obligation there is a Moody's/S&P Corporate Issue Rating, then the Fitch Rating shall be the Fitch IDR Equivalent determined by applying the Fitch Rating Mapping Table (as defined below) to such rating;
- (g) if a Fitch Rating cannot otherwise be assigned, the Investment Manager, on behalf of the Issuer, shall apply to Fitch for a credit opinion which shall then be the Fitch Rating or shall agree a rating with Fitch which shall then be the Fitch Rating, *provided that* pending receipt from Fitch of any credit opinion, the applicable Collateral Debt Obligation shall either be deemed to have a Fitch Rating of "B-", subject to the Investment Manager believing (in its reasonable judgement) that such credit assessment will be at least "B-" or the rating specified as applicable thereto by Fitch pending receipt of such credit assessment; or
- (h) if such Collateral Debt Obligation is a Corporate Rescue Loan:
 - (i) if such Corporate Rescue Loan has a publicly available rating from Fitch or has been assigned an issue- level credit assessment by Fitch, the Fitch Rating shall be such rating or credit assessment;
 - (ii) otherwise the Issuer or the Investment Manager on behalf of the Issuer shall apply to Fitch for an issue- level credit assessment *provided that*, pending receipt from Fitch of any issue-level credit assessment, the applicable Corporate Rescue Loan shall either be deemed to have a Fitch Rating of "B-", subject to the Investment Manager believing (in its reasonable judgement) that such credit assessment will be at least "B-" or the rating specified as applicable thereto by Fitch pending receipt of such credit assessment.

For the purposes of determining the Fitch Rating, the following definitions shall apply, *provided always that*:

- (i) if a debt security or obligation of the Obligor has been in default during the past two years, the Fitch Rating of such Collateral Debt Obligation shall be treated as "D"; and
- (ii) with respect to any Current Pay Obligation that is rated "D" or "RD", the Fitch Rating of such Current Pay Obligation will be "CCC",

and *provided further* that if the applicable Collateral Debt Obligation has been put on rating watch negative or negative credit watch for possible downgrade by:

- (A) Fitch, then the rating used to determine the Fitch Rating above shall be one rating subcategory below such rating by Fitch;
- (B) Moody's, then in the case only where the Fitch Rating is derived from a rating assigned by Moody's then the Moody's rating used to determine the Fitch Rating shall be one rating subcategory below such Moody's rating; or
- (C) S&P, then in the case only where the Fitch Rating is derived from a rating assigned by S&P then the S&P rating used to determine the Fitch Rating shall be one rating subcategory below such S&P rating; and
- (D) notwithstanding the rating definition described above, Fitch reserves the right to use a credit opinion or a rating estimate for any Collateral Debt Obligations at any time.

"Fitch IDR Equivalent" means, in respect of any rating described in the Fitch Rating Mapping Table, the equivalent Fitch Issuer Default Rating determined by increasing (or reducing, in the case of a negative number) such rating (or the nearest Fitch equivalent thereof) by the number of notches specified under "Mapping Rule" in the fourth column of the Fitch Rating Mapping Table.

"Fitch Rating Mapping Table" means the following table:

Rating Type	Applicable Rating Agency(ies)	Issue rating	Mapping Rule
Corporate family rating or long term issuer rating	Moody's	n/a	+0
Issuer credit rating	S&P	n/a	+0

Moody's Ratings Definitions

"Moody's Default Probability Rating" means, with respect to any Collateral Debt Obligation, as of any date of determination, the rating determined in accordance with the following methodology:

- (a) if the Obligor of such Collateral Debt Obligation has a CFR, then such CFR;
- (b) if not determined pursuant to clause (a) above, if the Obligor of such Collateral Debt Obligation has one or more senior unsecured obligations with an Assigned Moody's Rating, then the Assigned Moody's Rating on such obligation as selected by the Investment Manager in its sole discretion;
- (c) if not determined pursuant to clauses (a) or (b) above, if the Obligor of such Collateral Debt Obligation has one or more senior secured obligations with an Assigned Moody's Rating, then the Moody's rating that is one subcategory lower than the Assigned Moody's Rating on any such senior secured obligation as selected by the Investment Manager in its sole discretion;
- (d) if not determined pursuant to clauses (a), (b), or (c) above, if a rating estimate has been assigned to such Collateral Debt Obligation by Moody's upon the request of the Issuer, the Investment Manager or an Affiliate of the Investment Manager, then the Moody's Default Probability Rating is such rating estimate as long as such rating estimate or a renewal for such rating estimate has been issued or provided by Moody's in each case within the 15 month period preceding the date on which the Moody's Default Probability Rating is being determined; *provided*, that if such rating estimate has been issued or provided by Moody's for a period (x) longer than 13 months but not beyond 15 months, the Moody's Default Probability Rating will be one subcategory lower than such rating estimate and (y) beyond 15 months, the Moody's Default Probability Rating will be deemed to be "Caa3".
- (e) if not determined pursuant to clauses (a), (b), (c) or (d) above, the Moody's Derived Rating; and
- (f) if not determined pursuant to clause (a), (b), (c), (d) or (e) above, the Collateral Debt Obligation will be deemed to have a Moody's Default Probability Rating of "Caa3".

For purposes of calculating a Moody's Default Probability Rating, each applicable rating on credit watch by Moody's with positive or negative implication at the time of calculation will be treated, respectively, as having been upgraded or downgraded by one rating subcategory, as the case may be.

"Assigned Moody's Rating" means the monitored publicly available rating or unpublished monitored loan rating or the credit estimate rating expressly assigned to a debt obligation (or facility) by Moody's that addresses the full amount of the principal and interest promised.

"CFR" means, with respect to an obligor of a Collateral Debt Obligation, if such obligor has a corporate family rating by Moody's, then such corporate family rating; *provided*, if such obligor does not have a corporate family rating by Moody's but any entity in the obligor's corporate family does have a corporate family rating, then the CFR is such corporate family rating.

"**Moody's Derived Rating**" means, with respect to a Collateral Debt Obligation whose Moody's Rating or Moody's Default Probability Rating is determined as the Moody's Derived Rating, the rating as determined in the manner set forth below:

- (a) with respect to any Corporate Rescue Loan and (solely for purposes of determining the Adjusted Weighted Average Moody's Rating Factor) any Current Pay Obligation, the Moody's Rating or Moody's Default Probability Rating of such Collateral Debt Obligation shall be the rating which is one subcategory below the facility rating (whether public or private) of such Corporate Rescue Loan or Current Pay Obligation, as applicable, rated by Moody's;
- (b) if not determined pursuant to clause (a) above, then by using any one of the methods provided below:
 - (i) pursuant to the table below:

Type of Collateral Debt Obligation	S&P Rating (Public and Monitored)	Collateral Debt Obligation Rated by S&P	Number of Subcategories Relative to Moody's Equivalent of S&P Rating
Not Structured Finance Obligation	≥ "BBB-"	Not a Loan or Participation Interest in Loan	-1
Not Structured Finance Obligation	≤ "BB+"	Not a Loan or Participation Interest in Loan	-2
Not Structured Finance Obligation	≤ "BB+"	Loan or Participation Interest in Loan	-2

- (ii) if such Collateral Debt Obligation is not rated by S&P but another security or obligation of the obligor has a public and monitored rating by S&P (a "**parallel security**"), then the rating of such parallel security will at the election of the Investment Manager be determined in accordance with the table set forth in sub-clause (b)(i) above, and the Moody's Derived Rating for purposes of the definitions of Moody's Rating and Moody's Default Probability Rating (as applicable) of such Collateral Debt Obligation will be determined in accordance with the methodology set forth in the following table (for such purposes treating the parallel security as if it were rated by Moody's at the rating determined pursuant to this sub-clause (b)(ii)):

Obligation Category of parallel security	Rating of parallel security	Number of subcategories relative to rated security rating
Senior secured obligation	greater than or equal to B2	-1
Senior secured obligation	less than B2	-2
Subordinated obligation	greater than or equal to B3	+1
Subordinated obligation	less than B3	0

- (iii) or, if such Collateral Debt Obligation is a Corporate Rescue Loan, no Moody's Derived Rating may be determined based on a rating by S&P or any other rating agency; provided, that the Aggregate Principal Balance of the Collateral Debt Obligations that may have a Moody's Rating derived from an S&P Rating as set forth in sub-clauses (i) or (ii) of this clause (b) may not exceed 10 per cent. of the Aggregate Collateral Balance; and

- (c) if not determined pursuant to clauses (a) or (b) above and such Collateral Debt Obligation is not rated by Moody's or Fitch and no other security or obligation of the issuer of such Collateral Debt Obligation is rated by Moody's or Fitch, and if Moody's has been requested by the Issuer, the Investment Manager or the issuer of such Collateral Debt Obligation to assign a rating or rating estimate with respect to such Collateral Debt Obligation but such rating or rating estimate has not been received, pending receipt of such estimate, the Moody's Derived Rating of such Collateral Debt Obligation for purposes of the definitions of Moody's Rating or Moody's Default Probability Rating shall be (i) "B3" if the Investment Manager certifies to the Trustee and the Collateral Administrator that the Investment Manager believes that such estimate shall be at least "B3" and if the Aggregate Principal Balance of Collateral Debt Obligations determined pursuant to this clause (c) and clause (a) above does not exceed 5 per cent. of the Aggregate Collateral Balance or (ii) otherwise, "Caa3."

For purposes of calculating a Moody's Derived Rating, each applicable rating on credit watch by Moody's with positive or negative implication at the time of calculation will be treated as having been upgraded or downgraded by one rating subcategory, as the case may be.

"Moody's Rating" means:

- (a) with respect to a Collateral Debt Obligation that is a Secured Senior Loan or a Secured Senior Bond:
 - (i) if such Collateral Debt Obligation has an Assigned Moody's Rating, such Assigned Moody's Rating;
 - (ii) if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the Obligor of such Collateral Debt Obligation has a CFR, then the Moody's rating that is one subcategory higher than such CFR;
 - (iii) if neither clause (i) nor (ii) above apply, if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has one or more senior unsecured obligations with an Assigned Moody's Rating, then the Moody's rating that is two subcategories higher than the Assigned Moody's Rating on any such obligation as selected by the Investment Manager in its sole discretion;
 - (iv) if none of clauses (i) through (iii) above apply, at the election of the Investment Manager, the Moody's Derived Rating; and
 - (v) if none of clauses (i) through (iv) above apply, the Collateral Debt Obligation will be deemed to have a Moody's Rating of "Caa3"; and
- (b) with respect to a Collateral Debt Obligation other than a Secured Senior Loan or a Secured Senior Bond:
 - (i) if such Collateral Debt Obligation has an Assigned Moody's Rating, such Assigned Moody's Rating;
 - (ii) if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has one or more senior unsecured obligations with an Assigned Moody's Rating, then the Assigned Moody's Rating on any such obligation as selected by the Investment Manager in its sole discretion;
 - (iii) if neither clause (i) nor (ii) above apply, if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has a CFR, then the Moody's rating that is one subcategory lower than such CFR;

- (iv) if none of clauses (i), (ii) or (iii) above apply, if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has one or more subordinated debt obligations with an Assigned Moody's Rating, then the Moody's rating that is one subcategory higher than the Assigned Moody's Rating on any such obligation as selected by the Investment Manager in its sole discretion;
- (v) if none of clauses (i) through (iv) above apply, at the election of the Investment Manager, the Moody's Derived Rating; and
- (vi) if none of clauses (i) through (v) above apply, the Collateral Debt Obligation will be deemed to have a Moody's Rating of "Caa3".

For purposes of calculating a Moody's Rating, each applicable rating on credit watch by Moody's with positive or negative implication at the time of calculation will be treated as having been upgraded or downgraded by one rating subcategory, as the case may be

DESCRIPTION OF THE INVESTMENT MANAGEMENT AGREEMENT

The following description of the Investment Management Agreement consists of a summary of certain provisions of the Investment Management Agreement which does not purport to be complete and is qualified by reference to the detailed provisions of such agreement.

The investment management functions described herein will be performed by the Investment Manager pursuant to authority granted to the Investment Manager by the Issuer under the Investment Management Agreement, subject to the overall discretion and control of the Issuer. Pursuant to the Investment Management Agreement, the Issuer has delegated and may delegate authority to the Investment Manager to carry out certain functions in relation to the Portfolio and the hedging arrangements without the requirement for specific approval by the Issuer, the Collateral Administrator or the Trustee.

The Investment Manager has agreed to perform the investment management and related functions described herein.

Fees

As compensation for the performance of its obligations under the Investment Management Agreement, the Investment Manager will receive from the Issuer an investment management fee equal (exclusive of any VAT) to 0.15 per cent. per annum of the Aggregate Collateral Balance (calculated semi-annually following the occurrence of a Frequency Switch Event and quarterly at all other times, and in each case, on the basis of a 360 day year and the actual number of days elapsed in such Due Period) measured as at the first day of the Due Period relating to the applicable Payment Date (or if such day is not a Business Day, the next day which is a Business Day), which investment management fee will be payable in arrear on each Payment Date and senior to the Notes, but subordinated to certain fees and expenses of the Issuer (such fee, the "**Senior Investment Management Fee**").

The Investment Management Agreement also provides that the Investment Manager will receive from the Issuer an investment management fee equal (exclusive of any VAT) to 0.35 per cent. per annum of the Aggregate Collateral Balance (calculated semi-annually following the occurrence of a Frequency Switch Event and quarterly at all other times, and in each case, on the basis of a 360 day year and the actual number of days elapsed in such Due Period) measured as at the first day of the Due Period relating to the applicable Payment Date (or if such day is not a Business Day, the next day which is a Business Day), which investment management fee will be payable in arrear on each Payment Date and senior to the payments on the Subordinated Notes, but subordinated to the payments on the Rated Notes (such fee, the "**Subordinated Investment Management Fee**").

In addition to the Senior Investment Management Fee and the Subordinated Investment Management Fee, the Investment Manager will receive an incentive investment management fee, payable (exclusive of VAT thereon) on each Payment Date subject to the Priorities of Payments, if the Incentive Investment Management Fee IRR Threshold of 12.0 per cent. has been met or surpassed, in an amount equal to 15 per cent. of any Interest Proceeds, Principal Proceeds and Collateral Enhancement Obligation Proceeds that would otherwise be available to distribute to the Subordinated Noteholders in accordance with the Priorities of Payments (such fee, the "**Incentive Investment Management Fee**").

If amounts distributable on any Payment Date in accordance with the Priorities of Payments are insufficient to pay the Senior Investment Management Fee in full, then a portion of the Senior Investment Management Fee equal to the shortfall will be deferred and will be payable on subsequent Payment Dates on which funds are available therefor according to the Priorities of Payments.

If amounts distributable on any Payment Date in accordance with the Priorities of Payments are insufficient to pay the Subordinated Investment Management Fee in full, then a portion of the Subordinated Investment Management Fee equal to the shortfall will be deferred and will be payable

on subsequent Payment Dates on which funds are available therefor according to the Priorities of Payments.

The Investment Manager may elect to defer any Senior Investment Management Fees and Subordinated Investment Management Fees. Any amounts so deferred shall be applied in accordance with the Priorities of Payments. Any due and unpaid Investment Management Fees including Deferred Senior Investment Management Amounts and Deferred Subordinated Investment Management Amounts shall not accrue any interest.

The Investment Management Agreement provides that any reasonable expenses incurred by the Investment Manager in the performance of the obligations under the Investment Management Agreement will be reimbursed by the Issuer as Administrative Expenses to the extent funds are available therefor in accordance with and subject to the limitations contained in the Investment Management Agreement and the Priorities of Payments. Those expenses include (i) any reasonable expenses incurred by it to employ outside lawyers or consultants reasonably necessary in connection with the evaluation, transfer, or restructuring of any Collateral Debt Obligation and any reasonable expenses incurred by it in obtaining advice from counsel with respect to its obligations under the Investment Management Agreement and (ii) any other out-of-pocket fees and reasonable expenses incurred in connection with the evaluation, acquisition, carrying, and disposition of the Collateral Debt Obligations, including, for the avoidance of doubt, any software fees, website access fees, vendor pricing fees and brokerage commissions (but excluding any counsel fees and expenses, not otherwise ordered by any court, incurred in connection with any dispute between the Investment Manager and the Trustee or any Noteholder).

The Investment Manager may participate in creditors' committees with respect to the bankruptcy, restructuring or work-out of issuers of Collateral Debt Obligations. In such circumstances, the Investment Manager may take positions on behalf of itself or related entities that are adverse to the interests of the Issuer in the Collateral Debt Obligations. The Investment Manager will be entitled to charge, receive and retain any fees and commission received in connection with the restructuring or work-out of any Defaulted Obligations or Collateral Debt Obligations, or any arranging and underwriting fees.

(g) the Investment Manager ceasing to be permitted to act as such under the laws of Ireland.

If any of the events specified above occurs, the Investment Manager shall give prompt written notice thereof to the Issuer, the Trustee, the Collateral Administrator and the Noteholders upon the Investment Manager becoming aware of the occurrence of such event.

The Class X Notes and the Class A-2 Notes shall have no voting rights with respect to and shall not be counted for the purposes of determining a quorum and the result of any votes in respect of any IM Removal Resolution.

Resignation

The Investment Manager may resign its appointment upon at least 90 days' prior written notice to the Issuer, the Collateral Administrator, the Trustee, the Noteholders, each Rating Agency and each Hedge Counterparty subject to the appointment of a successor as set out below.

The Investment Manager may resign its appointment hereunder immediately whether or not a successor Investment Manager has been appointed where there is a change in law or the application of law which makes it illegal for the Investment Manager to carry on its duties under the Investment Management Agreement.

No Voting Rights

Any Notes held by the Investment Manager or an Investment Manager Related Person will have no voting rights with respect to any vote (or written direction or consent) in connection with an IM Removal Resolution and will be deemed not to be Outstanding in connection with any such vote; provided, however, that any Notes held by the Investment Manager, or an Investment Manager Related Person will, save as otherwise expressly provided, have voting rights (including in respect of written directions and consents) with respect to all other matters as to which Noteholders are entitled to vote, including on any IM Replacement Resolution or with respect to any vote in connection with modifications to its duties pursuant to the Investment Management Agreement.

"Investment Manager Related Person" means any Affiliate of the Investment Manager and/or any directors, officers or employees of the Investment Manager or their respective Affiliates and/or any account, fund, client or portfolio managed or advised on a discretionary basis by the Investment Manager or any Affiliate of the Investment Manager.

The Class X Notes and the Class A-2 Notes shall not have any voting rights in respect of, and shall not be counted for the purposes of determining a quorum and the result of any votes in respect of any IM Removal Resolution or IM Replacement Resolution (but shall carry a right to vote and be so counted on all other matters in respect of which the Class A-1 Notes have a right to vote and be counted).

Successor Investment Manager

Upon the resignation or removal of the Investment Manager, the holders of the Subordinated Notes, acting independently by Ordinary Resolution, will be entitled to appoint a successor and will so appoint a successor within 60 days after the date of notice of such resignation or removal, subject to the requirements relating to any successor investment manager set out below having been satisfied. Where, within such 60 day period, the Subordinated Noteholders have proposed two successors which have each been disapproved by the Controlling Class (excluding the Class A-2 Notes) or the Subordinated Noteholders have otherwise failed to appoint a successor, the Controlling Class, acting independently by Extraordinary Resolution (excluding, for such purpose, the Class A-2 Notes), will be entitled to appoint such successor, subject to the requirements relating to any successor investment manager set out below having been satisfied, provided, however, that the Subordinated Noteholders shall not be entitled to veto such appointment nor shall the Subordinated Noteholders be required to

give consent to any increases in compensation payable to any successor investment manager referred to below.

No resignation or removal of the Investment Manager shall be effective until the date on which (i) a successor investment manager acceptable to the Issuer (A) which in the opinion of the Issuer has demonstrated an ability to professionally and competently perform duties similar to those imposed upon the Investment Manager under the Investment Management Agreement, (B) which is legally qualified and has the capacity to act as Investment Manager under the Investment Management Agreement, as successor to the Investment Manager in the assumption of all of the responsibilities, duties and obligations of the Investment Manager thereunder, (C) which shall not cause or result in the Issuer or the Portfolio being required to register under the provisions of the Investment Company Act, (D) which shall not cause the Issuer to be, or deemed to be, resident for tax purposes or be engaged or deemed to be engaged, in the conduct of a trade or business in any jurisdiction other than in Ireland, or otherwise subject the Issuer to material tax liabilities outside of Ireland or to an increased VAT cost and (E) in respect of which Rating Agency Confirmation has been received from Fitch and notification has been sent to Moody's, agrees in writing to assume all of the Investment Manager's duties and obligations pursuant to the Investment Management Agreement and the Trust Deed, and (ii) the Noteholders have been notified of such appointment in accordance with Condition 16 (*Notices*) and the holders of the Controlling Class of Notes or the Subordinated Notes (including any Subordinated Notes held by or on behalf of the Investment Manager or an Investment Manager Related Person but excluding the holders of the Class A-2 Notes) have not, acting independently by Ordinary Resolution, vetoed such appointment within 30 days of such notice being given.

Upon the appointment of a successor investment manager, the rights, duties and obligations of such Investment Manager pursuant to the Investment Management Agreement may be amended without the consent of the Noteholders generally but subject to the prior consent of the Issuer, the Trustee, the holders of the Controlling Class (excluding the Class A-2 Notes) and the Subordinated Notes, in each case, acting independently by Ordinary Resolution.

In connection with any appointment of a successor investment manager, the Issuer may make such arrangements for the compensation of such successor as the Issuer and such successor shall agree, provided that, no compensation payable to a successor investment manager shall be greater than that paid to the original Investment Manager without the prior consent of the Subordinated Noteholders acting independently by Ordinary Resolution and Rating Agency Confirmation from Moody's.

The Class X Notes and the Class A-2 Notes shall not have any voting rights in respect of, and shall not be counted for the purposes of determining a quorum and the result of any votes in respect of any IM Replacement Resolution or IM Replacement Resolution (but shall carry a right to vote and be so counted on all other matters in respect of which the Class A-1 Notes have a right to vote and be counted).

Delegation

Except with respect to those responsibilities delegated pursuant to the terms of the Investment Management Agreement, the obligations of the Investment Manager under the Investment Management Agreement may not be delegated, in whole or in part, without the prior written consent of the Issuer, the Trustee and the holders of each Class of Notes, acting independently by Ordinary Resolution, and excluding (i) any Notes held by the Investment Manager or an Investment Manager Related Person and (ii) the Class X Notes and the Class A-2 Notes; provided, however, that the Investment Manager may delegate or assign any of its responsibilities to any Affiliate having available to it the services of substantially the same investment management team as the Investment Manager, subject to certain conditions as set out in the Investment Management Agreement. Any such delegation or assignment shall not relieve the Investment Manager of its responsibilities thereunder unless and until such responsibilities have been assumed in writing by the Affiliate for the benefit of the Issuer and, if

necessary under the Advisers Act, consent of the Board of Directors has been obtained and such delegation or assignment shall not cause the Issuer to be subject to tax on a net basis in any jurisdiction other than Ireland. Any such assignment or delegation to an Affiliate of the Investment Manager made in accordance therewith shall (i) bind the assignee or delegate in the same manner as the Investment Manager is bound and (ii) be notified (including the identity of such Affiliate) by the Issuer to (x) for so long as any of the Notes are rated by Moody's, Moody's and (y) for so long as any of the Notes are rated by Fitch, Fitch.

Liability of the Investment Manager and Standard of Care

The Investment Manager will assume no responsibility under the Investment Management Agreement other than to render the services to the Issuer called for under the Investment Management Agreement in good faith, in each case, subject to its Standard of Care (as defined below) and shall not be liable to the Issuer, the Trustee, the Secured Parties or any other Person for any acts or omissions by it under or in connection with the Investment Management Agreement, or for any decrease in the value of the Collateral, except, in each case, by reason of acts or omissions constituting an Investment Manager Breach. The Investment Manager does not assume any fiduciary duties or responsibilities with regard to the Issuer, the Trustee, any Noteholder or any other person.

The Investment Manager will covenant and agree in the Investment Management Agreement that it will perform its obligations and exercise its discretions under the Investment Management Agreement and the Trust Deed in good faith and with reasonable care using a degree of skill and attention no less than that which the Investment Manager exercises with respect to comparable assets that it manages for itself and for others (if any), in each case in accordance with its existing practices and procedures as in effect from time to time relating to assets of the nature and character of the Collateral and in a manner consistent with the standard of care generally followed by prudent institutional investment managers of international standing in Europe managing assets similar in nature and character to those which comprise the Collateral and having duties of the nature and character of those to be provided under the Investment Management Agreement, except as otherwise expressly provided in the Investment Management Agreement or the Trust Deed (the "**Standard of Care**"). Subject thereto, the Investment Manager will follow its customary standards, policies and procedures in performing its duties under the Investment Management Agreement.

The Investment Management Agreement contains provisions which require that the Investment Manager will cause any purchase of or entry into or sale, termination or other disposal of Portfolio assets to be effected:

- (a) on an arm's length basis; and
- (b) in accordance with the Portfolio Acquisition and Disposition Requirements (so long as they are applicable).

Additionally, the Investment Management Agreement contains provisions which require that the Investment Manager shall not take any action on behalf of the Issuer which would cause the Issuer to be treated as engaged in a trade or business within the United States for U.S. federal income tax purposes or become otherwise subject to U.S. federal, state or local tax on a net income basis, subject to further conditions detailed in the Investment Management Agreement.

Subject to the Standard of Care, the Investment Manager is required under the Investment Management Agreement to take reasonable care to ensure that no action is taken (save for any action which is expressly contemplated in the Investment Management Agreement and the Trust Deed) which would adversely affect in a material respect the Issuer, but the Investment Manager and/or its Affiliates shall not be prohibited in this respect from carrying on its (or their) ordinary business in good faith.

Along with its obligations under the Investment Management Agreement and subject to the Standard of Care, the Investment Manager has in place and operates internal policies and procedures to administer and manage the Portfolio and similar portfolios. Such policies and procedures include, in the case of the Portfolio, systems for identifying Credit Risk Obligations and Defaulted Obligations.

Under the Investment Management Agreement, subject to the Standard of Care, the Investment Manager is obliged to:

- (a) diversify the Collateral Debt Obligations comprising the Portfolio in accordance with and to the extent permitted by the terms of the Investment Management Agreement and, in particular, the Portfolio Profile Tests;
- (b) measure and monitor the credit risk of the Portfolio as per the methodologies set out in the Investment Management Agreement and in accordance with the terms of the Investment Management Agreement; and
- (c) consult with the Collateral Administrator for the purposes of compiling each Monthly Report and Payment Date Report which will provide information intended to facilitate investors in their conducting of stress tests on the cash flows and collateral values supporting the Notes.

The Investment Manager will undertake to the Issuer and the Trustee that it shall pay to the Issuer any amount payable to any IM Indemnified Person under the Investment Management Agreement, which payment shall be in satisfaction of such amount payable and shall discharge the Investment Manager's indemnity obligations in respect of such Investment Manager Breach.

The Issuer will undertake to the Investment Manager that it shall pay to the Investment Manager any amount payable to any Issuer Indemnified Person under the Investment Management Agreement, which payment shall be in satisfaction of such amount payable.

The obligations of the Issuer set out above shall be payable solely out of the Collateral in accordance with the Priorities of Payments and, subject to the foregoing, the Indemnifying Party shall make payment of all amounts required to be made pursuant to the above paragraph for the amount of the Issuer Indemnified Person from time to time in accordance with the Conditions.

"Issuer Indemnification Matter" means:

- (a) any breach by the Issuer of any of its representations or warranties set out in the Investment Management Agreement or any other Transaction Document to which both the Issuer and the Investment Manager are party in any material respect;
- (b) any breach by the Issuer of any of its material obligations under the Investment Management Agreement or any other Transaction Document to which both the Issuer and the Investment Manager are party;

- (e) any requirement or request by the Issuer for the Investment Manager to undertake an action or actions restricted under clause 13 (*Obligations of Investment Manager*) of the Investment Management Agreement.

For so long as the Issuer relies on Rule 3a-7, the Trustee (and any successor) (i) shall be a "bank" as defined in the Investment Company Act, (ii) shall not be affiliated with the Issuer or any person involved in the organisation or operation of the Issuer, (iii) shall not offer or provide credit or credit enhancement to the Issuer, and (iv) shall otherwise meet the requirements of Rule 3a-7.

Termination and Resignation of Appointment of the Trustee

The resignation or removal of the Trustee and the appointment of a successor Trustee pursuant to the Trust Deed will not become effective until the acceptance of appointment by the successor Trustee under the Trust Deed.

The Transaction Documents provide, in substance, that, so long as the Issuer relies on Rule 3a-7, the Trustee shall not resign until either (i) the Portfolio has been completely liquidated and the proceeds of the liquidation distributed to the Secured Parties, or (ii) a successor Trustee, having the qualifications prescribed in Section 26(a)(1) of the Investment Company Act and otherwise meeting the requirements of Rule 3a-7, has been designated and has accepted such trusteeship.

HEDGING ARRANGEMENTS

The following is a summary of the principal terms of the hedging arrangements to be entered into by the Issuer on or about the Issue Date and thereafter. The following is a summary only and should not be relied upon as an exhaustive description of the detailed provisions of such documents (copies of which are available from the registered office of the Issuer). Any Hedge Agreement may include additional or different terms to those described below. Capitalised terms used in this section and not defined herein shall have the meaning given to them in the Risk Factors or the Conditions.

Hedge Agreement Eligibility Criteria

Subject to (i) such arrangements at the time they are entered into satisfying the Hedge Agreement Eligibility Criteria and the Portfolio Acquisition and Disposition Requirements so long as they apply, or (ii) the receipt by the Investment Manager of legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the entry into such arrangements shall not (x) require any of the Issuer, its directors or officers or the Investment Manager to register with the CFTC as a CPO with respect to the Issuer, or (y) eliminate the Issuer's ability to rely on Rule 3a-7 under the Investment Company Act, unless and until the Issuer is no longer able to rely on, or elects not to rely on, the exclusion from registration under the Investment Company Act provided by Rule 3a-7, the Issuer (or the Investment Manager on its behalf) may enter into hedging transactions as described below and documented under a 1992 (Multicurrency - Cross Border) or 2002 Master Agreement or such other form published by the International Swaps and Derivatives Association, Inc. ("ISDA"). For so long as the Issuer relies on Rule 3a-7 under the Investment Company Act, the Hedge Agreement Eligibility Criteria limits Hedge Agreements to arrangements designed to assure the servicing or timely distribution of proceeds to security holders.

A Hedge Transaction shall satisfy the Hedge Agreement Eligibility Criteria at the time it is entered into if, as at such time, each of the following is true:

- (a) the relevant Hedge Transaction is an interest rate swap or cross-currency swap transaction (or both) and is being entered into solely to hedge interest rate risk, timing mismatch or currency risk (or any combination of these) on the applicable Collateral Debt Obligation;
- (b) the relevant Hedge Transaction relates to a single Collateral Debt Obligation only although multiple Hedge Transactions with the same counterparty may be entered into under a single master hedge agreement;
- (c) the relevant Hedge Transaction does not change the tenor of the applicable Collateral Debt Obligation;
- (d) the relevant Hedge Transaction does not leverage exposure to the applicable Collateral Debt Obligation or otherwise inject leverage into the Issuer's exposure;
- (e) other than with respect to introducing credit risk exposure to the counterparty on the Hedge Transaction, the relevant Hedge Transaction does not change the Issuer's credit risk exposure to the Obligor on the applicable Collateral Debt Obligation;
- (f) the relevant Hedge Transaction is documented pursuant to an ISDA Master Agreement, including pursuant to a confirmation for each Hedge Transaction thereunder;
- (g) payment dates under the relevant Hedge Transaction correspond to or occur on or about Payment Dates or the relevant Collateral Debt Obligation payment dates;
- (h) the notional amount of the relevant Hedge Transaction will decline in line with the principal amount of the relevant Collateral Debt Obligation;

- (i) in the Investment Manager's view, in the context of the transaction as a whole, the relevant Hedge Transaction will not change the Noteholders' investment experience in any material way by virtue thereof;
- (j) either (i) the relevant Hedge Transaction must terminate automatically in whole or in part (as applicable) when the subject matter of the Collateral Debt Obligation is sold or matures; or (ii) the Issuer must have the right to terminate the relevant Hedge Transaction in whole or in part (as applicable) when the applicable Collateral Debt Obligation is sold or matures and at the time the relevant Hedge Transaction is entered into the Investment Manager intends to cause the Issuer to exercise such right; and
- (k) for so long as the Issuer relies on Rule 3a-7 under the Investment Company Act, such Hedge Transaction is designed to assure the servicing or timely distribution of proceeds to security holders.

If a responsible representative of the Investment Manager with knowledge of the Portfolio has actual knowledge of any change in law or regulation that would lead him or her to reasonably question the viability of the Hedge Agreement Eligibility Criteria mentioned above, the Investment Manager shall cause the Issuer to seek written legal advice in respect of modifications to the Hedge Agreement Eligibility Criteria and shall not cause the Issuer to enter into any further Hedge Transactions unless it obtains legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that such Hedge Transaction will not cause the Issuer or Investment Manager to be required to register as a commodity pool operator and/or a commodity trading advisor with the CFTC pursuant to the United States Commodity Exchange Act of 1936 with respect to the Issuer.

Notwithstanding anything in the Investment Management Agreement or the Trust Deed to the contrary, the Investment Manager may by notice in writing to the Issuer and the Trustee unilaterally elect to modify the Hedge Agreement Eligibility Criteria without the consent of any other party so long as it causes the Issuer to obtain an opinion from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that Hedge Transactions entered into in compliance with such modified Hedge Agreement Eligibility Criteria will not (x) cause the Issuer or Investment Manager to be required to register as a commodity pool operator and/or a commodity trading advisor with the CFTC pursuant to the United States Commodity Exchange Act of 1936 with respect to the Issuer or (y) eliminate the Issuer's ability to rely on Rule 3a-7 under the Investment Company Act, unless and until the Issuer is no longer able to rely on, or elects not to rely on, the exclusion from registration under the Investment Company Act provided by Rule 3a-7.

Notwithstanding the above, if, in the reasonable opinion of the Investment Manager, entry into a Hedge Agreement would require registration of the Investment Manager as a commodity pool operator, the Issuer will not be permitted to enter into such Hedge Agreement unless such registration is made by the Investment Manager with respect to, and at the expense of, the Issuer.

Form-Approved Hedge Agreements

If a Rating Agency informs the Issuer or the Investment Manager that the rating criteria applicable to Hedge Agreements has been modified such that the applicable Hedge Agreement no longer constitutes a Form-Approved Asset Swap Agreement or Form-Approved Interest Rate Hedge Agreement (as applicable) then the Issuer or the Investment Manager on its behalf shall seek approval of a new form from the relevant Rating Agencies.

Standard Terms of the Hedge Agreements

Each Hedge Agreement entered into by or on behalf of the Issuer shall contain the following standard provisions, save to the extent that any change thereto is agreed by the Issuer and the applicable Hedge Counterparty and subject to receipt of Rating Agency Confirmation in respect thereof.

Currency Hedging Arrangements

Asset Swap Agreements

Subject to the satisfaction of certain conditions set out in the Investment Management Agreement and the Portfolio Acquisition and Disposition Requirements, the Investment Manager shall be authorised to purchase, on behalf of the Issuer, Non-Euro Obligations from time to time provided that any such Non-Euro Obligation shall only constitute a Collateral Debt Obligation that satisfies paragraph (b) of the Eligibility Criteria (either as an Eligibility Criterion or as a Restructured Obligation Criterion) if not later than the trade date of the acquisition thereof, the Investment Manager procures entry by the Issuer into an Asset Swap Transaction pursuant to which the currency risk arising from receipt of cash flows from such Non-Euro Obligation, including interest and principal payments, is hedged through the swapping of such cash flows for Euro payments to be made by an Asset Swap Counterparty.

Pursuant to the terms of an Asset Swap Transaction, the initial principal exchange will be made in connection with funding the Issuer's acquisition of the related Non-Euro Obligation and the final and, if applicable, interim principal exchanges will be made to convert the principal proceeds received in respect thereof at maturity and prior to maturity, respectively and coupon exchanges will be made at the exchange rate specified for such transaction. Rating Agency Confirmation shall be required in relation to entry into each Asset Swap Transaction unless such Asset Swap Transaction is entered into under a Form-Approved Asset Swap Agreement.

Transactions entered into under an Asset Swap Agreement are documented in confirmations to such Asset Swap Agreement. An Asset Swap Transaction, if entered into, will be:

- (a) used to hedge the currency (and if applicable, interest rate) mismatch between the Notes and any Non-Euro Obligations; and
- (b) either:
 - (i) entered into under a Form-Approved Asset Swap Agreement; or
 - (ii) subject to receipt of Rating Agency Confirmation in respect thereof.

Further, each Asset Swap Counterparty will be required to satisfy the applicable Rating Requirement (taking into account any guarantor thereof). No Asset Swap Transaction may be entered into if, at the time of entry into such transaction, there is a withholding or deduction for or on account of any tax required in respect of any payments by either party to such Asset Swap Transaction. The Investment Manager shall be required to terminate any Asset Swap Transaction on or around the date it sells an Asset Swap Obligation.

Upon the sale of an Asset Swap Obligation, the Asset Swap Transaction relating thereto shall be terminated on or around the date of such sale in accordance with its terms, resulting in either (i) the Asset Swap Counterparty receiving the proceeds of the sale of the Asset Swap Obligation from the Issuer (which shall be funded outside the Priorities of Payments from the Asset Swap Account) and returning the Sale Proceeds (in accordance with paragraph (b) of the definition thereof) to the Issuer or (ii) the Issuer retaining the proceeds of sale of the Asset Swap Obligation (which shall be converted into Euro and paid into the Principal Account in accordance with the Conditions) net of any payments due to the Asset Swap Counterparty in connection with the termination of the Asset Swap Transaction in such circumstances (which the Issuer shall pay to the Asset Swap Counterparty on the date such payment is due in accordance with the applicable Hedge Agreement). Furthermore, upon the insolvency of the Issuer and/or the acceleration of the Notes in accordance with Condition 10(b) (*Acceleration*), the Hedge Counterparty may, but shall not be obliged to, terminate early any Asset Swap Transaction, in which case any Asset Swap Termination Payment would be paid in accordance with the Post-Acceleration Priority of Payments (other than with respect to any Counterparty

Downgrade Collateral which is required to be returned to an Asset Swap Counterparty outside the Priorities of Payments in accordance with the Asset Swap Agreement).

If, following the insolvency of the Issuer and/or the acceleration of the Notes, the Hedge Counterparty, elects not to terminate early any Asset Swap Transaction, the Asset Swap Transaction shall terminate in accordance with its terms upon the sale of the relevant Asset Swap Obligation, resulting in the Asset Swap counterparty receiving the proceeds of the sale of the Asset Swap Obligation from the Issuer and returning the Sale Proceeds (in accordance with paragraph (b) of the definition thereof) to the Issuer. An Asset Swap Transaction may also terminate in accordance with its terms upon repayment in full of the related Asset Swap Obligation and related final exchange under such Asset Swap Transaction.

Replacement Asset Swap Transactions

If any Asset Swap Transaction terminates in whole at any time in circumstances in which the applicable Asset Swap Counterparty is the "Defaulting Party" or sole "Affected Party" (each as defined in the applicable Asset Swap Agreement) the Investment Manager, on behalf of the Issuer, shall use commercially reasonable efforts to enter into a Replacement Asset Swap Transaction within 30 days of the termination thereof with a counterparty which satisfies the applicable Rating Requirement and which has the regulatory capacity to enter into derivatives transactions with Irish residents.

If an Asset Swap Transaction is terminated in the circumstances referred to above, any Asset Swap Termination Receipt will be paid into the relevant Hedge Termination Account and shall be applied towards the costs of entry into a Replacement Asset Swap Transaction, together with, where necessary, Interest Proceeds and/or Principal Proceeds that are available for such purpose on any Payment Date pursuant to the Priorities of Payments, subject to receipt of Rating Agency Confirmation, save:

- (a) where the Issuer or the Investment Manager on its behalf, determines not to replace such Asset Swap Transaction and Rating Agency Confirmation is received in respect of such determination; or
- (b) where termination of the Asset Swap Transaction occurs on a Redemption Date pursuant to Conditions 7(a) (*Final Redemption*), 7(b) (*Optional Redemption*) (other than in connection with a Refinancing), 7(g) (*Redemption Following Note Tax Event*) or 10 (*Events of Default*); or
- (c) to the extent that such Asset Swap Termination Receipt is not required for application towards any Asset Swap Replacement Payment,

in which event such Asset Swap Termination Receipt shall be paid into the Principal Account and shall constitute Unscheduled Principal Proceeds.

If the Issuer receives any Asset Swap Replacement Receipt upon entry into a Replacement Asset Swap Transaction, such amount shall be paid into the relevant Hedge Termination Account and applied directly by the Collateral Administrator acting on the instructions of the Investment Manager (acting on behalf of the Issuer) in payment of any Asset Swap Termination Payment payable upon termination of the Asset Swap Transaction being so replaced. To the extent not fully paid out of Asset Swap Replacement Receipts, any Asset Swap Termination Payment payable by the Issuer shall be paid to the applicable Asset Swap Counterparty on the next Payment Date in accordance with the Priorities of Payments. To the extent not required for making any such Asset Swap Termination Payment, such Asset Swap Replacement Receipts shall be paid into the Principal Account and shall constitute Unscheduled Principal Proceeds.

Subject to sub-paragraphs (a) to (c) above, if a Replacement Asset Swap Transaction cannot be entered into in such circumstances, the Investment Manager, acting on behalf of the Issuer, shall sell the applicable Non-Euro Obligation, pay the proceeds thereof to the applicable Asset Swap Counterparty, to the extent required pursuant to the terms of such Asset Swap Transaction and/or to the extent not so required, shall direct the Collateral Administrator to convert all of such proceeds into Euro at the

Applicable Exchange Rate and shall procure that such amounts are paid into the Principal Account. If such proceeds are insufficient to pay any Asset Swap Termination Payments in full, such amount, including any Defaulted Hedge Termination Payment, shall be paid out of Interest Proceeds and/or Principal Proceeds on the next following Payment Date in accordance with the Priorities of Payments.

Interest Rate Hedging Arrangements

Interest Rate Hedge Agreements

The Issuer (or the Investment Manager on its behalf) may enter into any additional Interest Rate Hedge Transactions from time to time in order to hedge any interest rate mismatch between the Notes (other than the Subordinated Notes) and the Collateral Debt Obligations, subject to the receipt of Rating Agency Confirmation in respect thereof (other than in respect of a Form-Approved Interest Rate Hedge Agreement) and provided that the Interest Rate Hedge Counterparty satisfies the applicable Rating Requirement and has the regulatory capacity to enter into derivatives transactions.

Replacement Interest Rate Hedge Agreements

If an Interest Rate Hedge Transaction terminates in whole at any time in circumstances which the applicable Interest Rate Hedge Counterparty is the "Defaulting Party" or sole "Affected Party" (each such term as defined in the applicable Interest Rate Hedge Agreement), the Investment Manager, on behalf of the Issuer, shall use commercially reasonable efforts to enter into a Replacement Interest Rate Hedge Transaction within 30 days of termination thereof with an Interest Rate Hedge Counterparty which satisfies the applicable Rating Requirement and which has the regulatory capacity to enter into derivatives transactions with Irish residents.

Gross up

Under each Hedge Agreement the Issuer will not be obliged to gross up any payments thereunder, however the applicable Hedge Counterparty may in certain circumstances be obliged to gross up a payment thereunder in the event of any withholding or deduction for or on account of tax required to be paid on such payment, provided that any withholding or deduction for or on account of FATCA may be excluded from such gross-up obligation. Any such event may however result in a "Tax Event" which is a "Termination Event" for the purposes of the relevant Hedge Agreement. In the event of the occurrence of a Tax Event (as defined in such Hedge Agreement), each Hedge Agreement will include provision for the relevant Affected Party (as defined therein) to use reasonable endeavours to (i) (in the case of the Hedge Counterparty) arrange for a transfer of all of its interests and obligations under the Hedge Agreement and all Transactions (as defined in the Hedge Agreement) thereunder to an Affiliate that is incorporated in another jurisdiction so as to avoid the requirement to withhold or deduct for or on account of tax; or (ii) (in the case of the Issuer) transfer its residence for tax purposes to another jurisdiction or if a substitute principal obligor under the Notes has been substituted for the Issuer in accordance with Condition 9 (*Taxation*), arrange for a transfer of all of its interest and obligations under the Hedge Agreement and all Transactions thereunder to that substitute principal obligor so as to avoid the requirement to withhold or deduct for or on account of tax subject to satisfaction of the conditions specified therein (including receipt of Rating Agency Confirmation).

Limited Recourse and Non-Petition

The obligations of the Issuer under each Hedge Agreement will be limited to the proceeds of enforcement of the Collateral as applied in accordance with the Priorities of Payments set out in Condition 3(c) (*Priorities of Payments*). The Issuer will have the benefit of non-petition language similar to the language set out in Condition 4(c) (*Limited Recourse and Non-Petition*).

Termination Provisions

Each Hedge Agreement may terminate by its terms, whether or not the Notes have been paid in full prior to such termination, upon the occurrence of a number of events (which may include without limitation):

- (a) certain events of bankruptcy, insolvency, receivership or reorganisation of the Issuer or the related Hedge Counterparty;
- (b) failure on the part of the Issuer or the related Hedge Counterparty to make any payment under the applicable Hedge Agreement after taking into account any applicable grace period;
- (c) a change in law making it illegal for either the Issuer or the related Hedge Counterparty to be a party to, or to perform its obligations under, the applicable Hedge Agreement
- (d) the principal due in respect of the Notes is declared to be due and payable in accordance with the terms of the Trust Deed, and in some cases, the Trustee has started to sell all or part of the Collateral as a consequence thereof;
- (e) the Notes are redeemed in whole prior to the Maturity Date (otherwise than as a result of an Event of Default thereunder);
- (f) representations related to certain regulatory matters prove to be incorrect;
- (g) if the Issuer becomes subject to the AIFMD, or if the Issuer or the Investment Manager is required to register as a "commodity pool operator" and/or a "commodity trading advisor" pursuant to the United States Commodity Exchange Act of 1936, as amended;
- (h) certain representations relating to EMIR prove to be incorrect;
- (i) other regulatory changes occur which have a material adverse effect on a Hedge Counterparty; and
- (j) material changes are made to the Transaction Documents without the consent of a Hedge Counterparty which could have a material adverse effect on the Hedge Counterparty.

A termination of a Hedge Agreement does not constitute an Event of Default under the Notes.

Asset Swap Agreements may also contain provisions which allow an Asset Swap Transaction to terminate upon the occurrence of certain credit events related to the underlying Non-Euro Obligation. These credit events could potentially be triggered in circumstances where the related Collateral Debt Obligation would not constitute a Defaulted Obligation (as such term is defined in the Conditions). In such instances the related Asset Swap Transaction would terminate and the Issuer (or the Investment Manager acting on its behalf) may need to sell the related Non-Euro Obligation unless a new Asset Swap Transaction can be entered into.

Rating Downgrade Requirements

Each Hedge Agreement shall contain the terms and provisions required by the Rating Agencies for the type of derivative transaction described in this Prospectus in the event of the downgrade of the Hedge Counterparty. Such provisions may include a requirement that a Hedge Counterparty downgraded below certain minimum levels consistent with the ratings of the Notes must post collateral; or transfer the Hedge Agreement to another entity meeting the applicable Rating Requirement; or procure that an eligible guarantor meeting the applicable Rating Requirement guarantees its obligations under the Hedge Agreement; or take other actions subject to Rating Agency Confirmation.

Transfer and Modification

The Investment Manager, acting on behalf of the Issuer, may not modify any Hedge Transaction or Hedge Agreement without Rating Agency Confirmation in relation to such modification, save to the extent that the relevant Hedge Agreement would constitute a Form-Approved Asset Swap Agreement or a Form-Approved Interest Rate Hedge Agreement (as applicable) following such modification. A Hedge Counterparty may transfer its rights and obligations under a Hedge Agreement to any institution which (or whose credit support provider (as defined in the applicable Hedge Agreement)) satisfies the applicable Rating Requirement and provided that such institution has the regulatory capacity to enter into derivatives transactions.

Any of the requirements set out herein may be modified in order to meet any new or additional requirements of any Rating Agency then rating any Class of Notes.

Governing Law

Each Hedge Agreement together with each Hedge Transaction thereunder in each case, including any non-contractual obligations arising out of or in relation thereto, will be governed by, and construed in accordance with, the laws of England.

Reporting of Specified Hedging Data

The Investment Manager, on behalf of the Issuer, may from time to time enter into agreements (each, a "**Reporting Delegation Agreement**") in a form approved by the Rating Agencies for the delegation of certain derivative transaction reporting obligations to one or more Hedge Counterparties or third parties (each, in such capacity, a "**Reporting Delegate**").

TAX CONSIDERATIONS

General

Purchasers of Notes may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the issue price of each Note.

Potential purchasers who are in any doubt about their tax position on purchase, ownership, transfer or exercise of any Note should consult their own tax advisers. **In particular, no representation is made as to the manner in which payments under the Notes would be characterised by any relevant taxing authority.** Potential investors should be aware that the relevant fiscal rules or their interpretation may change, possibly with retrospective effect, and that this summary is not exhaustive. This summary does not constitute legal or tax advice or a guarantee to any potential investor of the tax consequences of investing in the Notes.

ALL PROSPECTIVE INVESTORS SHOULD READ "UNITED STATES FEDERAL INCOME TAXATION - INFORMATION REPORTING AND BACKUP WITHHOLDING TAX" AND "FATCA TAX REPORTING AND WITHHOLDING" BELOW FOR A DISCUSSION OF POTENTIAL REPORTING OBLIGATIONS AND MATERIAL CONSEQUENCES OF FAILING TO COMPLY WITH SUCH OBLIGATIONS.

Irish Taxation

The following is a summary of the principal Irish tax consequences for individuals and companies of ownership of the Notes based on the laws and practice of the Irish Revenue Commissioners currently in force in Ireland and may be subject to change. It deals with noteholders who beneficially own their Notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, such as dealers in Notes, trusts etc. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Taxation of Noteholders

Withholding Tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest which should include interest payable on the Notes.

The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Note so long as the interest paid on the relevant Note falls within one of the following categories and does not come within certain new rules introduced by the Finance Act 2016, as described below under the heading "*Deductibility of Interest*":

- (a) *Interest paid on a quoted Eurobond*: The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Note where:
 - (i) the Notes are quoted Eurobonds, i.e. Notes which are issued by a company (such as the Issuer), which are listed on a recognised stock exchange (such as the Irish Stock Exchange) and which carry a right to interest; and
 - (ii) the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:

- (A) the Notes are held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
- (B) the person who is the beneficial owner of the Notes and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form.

Under certain anti-avoidance legislation, it is possible that profit dependant payments of interest on the Notes may be regarded as a distribution, giving rise to a withholding obligation, for Irish tax purposes if the beneficial owner of the interest is connected for certain purposes with the Issuer and, for listed Notes, the issuer is aware that the interest is not subject to tax in a relevant territory, being a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty ("**Relevant Territory**").

Thus, subject to that anti-avoidance provision, so long as the Notes continue to be quoted on the Irish Stock Exchange, and are held in Euroclear and/or Clearstream, Luxembourg, interest on the Notes can be paid by any paying agent acting on behalf of the Issuer free of any withholding or deduction for or on account of Irish income tax. If the Notes continue to be so quoted but cease to be held in a recognised clearing system, subject to that anti-avoidance provision, interest on the Notes may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

- (b) Interest paid by a qualifying company to certain non-residents:

If, for any reason, the exemption referred to above ceases to apply, interest payments may still be made free of withholding tax provided that:

- (i) the Issuer remains a "qualifying company" as defined in Section 110 of the Taxes Act 1997 (a "**Qualifying Company**"). and the noteholder is a person which is resident in a Relevant Territory, and, where the recipient is a body corporate, the interest is not paid to it in connection with a trade or business carried on by it in Ireland through a branch or agency. The test of residence is determined by reference to the law of the Relevant Territory in which the noteholder claims to be resident. The Issuer must be satisfied that the terms of the exemption are satisfied; and
- (ii) one of the following conditions is satisfied:
 - (A) the noteholder is a pension fund, government body or other person (which is not a "specified person" for the purposes of Section 110 of the Taxes Act 1997), which is resident in a Relevant Territory and which, under the laws of that territory, is exempted from tax that corresponds to income tax or corporation tax in Ireland and which generally applies to profits, income or gains in that territory; or
 - (B) the interest is subject, without any reduction computed by reference to the amount of such interest, to a tax in a Relevant Territory which corresponds to income tax or corporation tax in Ireland and which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory.

Deductibility of Interest

New rules contained in the Finance Act 2016 restrict deductibility of interest paid by a Qualifying Company (such as the Issuer) that is profit dependent or exceeds a reasonable commercial return to the extent that the interest is associated with the business of a Qualifying Company of holding "specified mortgages", subject to a number of exceptions. A "specified mortgage" for this purpose is (a) a loan which is secured on, and which derives its value from, or the greater part of its value from, directly or

indirectly, Irish land, (b) a 'specified agreement' (effectively a profit-dependent derivative) which derives all of its value, or the greater part of its value, directly or indirectly, from Irish land or a loan to which (a) applies, (c) the portion of a 'specified security' (essentially a security in respect of which, if the Finance Act 2016 rules did not apply, payments on that security would be deductible under section 110 of the Taxes Act 1997), is attributable to the specified property business in accordance with the new rules, or (d) units in an IREF (being a specific form of investment undertaking within the meaning of Chapter 1B of Part 27 of the Taxes Act 1997). The legislation treats the holding of such specified mortgages as a separate business to the rest of the Qualifying Company's activities and can treat any interest attributable to that business as a distribution if it is dependent on profits of that business or exceeds a reasonable commercial return. Any such distribution is not deductible, subject to a number of exceptions, and potentially subject to Irish withholding tax at 20 per cent.

To the extent that the Issuer holds any specified mortgages, then the new rules could apply to payments by the Issuer in respect of the Notes, but only to the extent such payments comprise interest which is profit dependent or exceeds a reasonable commercial return.

There is a specific carve out from the new legislation in respect of CLO transactions, provided the transaction is carried out in conformity with:

- (a) a prospectus, within the meaning of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 ("**Prospectus Directive**");
- (b) listing particulars, where any securities issued by the Qualifying Company are listed on an exchange, other than the main exchange, of a relevant Member State; or
- (c) where the securities issued by the Qualifying Company will not be listed on an exchange in the State or a relevant Member State, legally binding documents

that:

- (A) may provide for a warehousing period, which for the purposes of this subsection means a period not exceeding 3 years during which time the Qualifying Company is preparing to issue securities; and
- (B) provide for investment eligibility criteria that govern the type and quality of assets to be acquired,

and where, based on the documents referred to in paragraphs (a) to (c) and the activities of the Qualifying Company, it would not be reasonable to consider that the main purpose, or one of the main purposes, of the Qualifying Company was to acquire specified mortgages.

Accordingly, as, upon approval by and filing with the Central Bank, this Offering Circular will constitute a "prospectus" for the purposes of the Prospectus Directive and pursuant to a confirmation in the Investment Management Agreement that no party to that agreement has as its main purpose, or one of its main purposes, the acquisition of 'specified mortgages' within the meaning of Section 110 TCA, the new rules should not apply to this transaction.

Encashment Tax

In certain circumstances, Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from interest on any Note, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any noteholder. There is an exemption from encashment tax where the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank.

Income Tax, PRSI and Universal Social Charge

Notwithstanding that a noteholder may receive interest on the Notes free of withholding tax, the noteholder may still be liable to pay Irish tax with respect to such interest. Noteholders resident or ordinarily resident in Ireland who are individuals may be liable to pay Irish income tax, social insurance (PRSI) contributions and the universal social charge in respect of interest they receive on the Notes.

Interest paid on the Notes may have an Irish source and therefore may be within the charge to Irish income tax, notwithstanding that the noteholder is not resident in Ireland. In the case of noteholders who are non-resident individuals such noteholders may also be liable to pay the universal social charge in respect of interest they receive on the Notes.

Ireland operates a self-assessment system in respect of tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

There are a number of exemptions from Irish income tax available to certain non-residents. Firstly, interest payments made by the Issuer are exempt from income tax so long as the Issuer is a Qualifying Company, the recipient is not resident in Ireland and is resident in a relevant territory and, the interest is paid out of the assets of the Issuer. Secondly, interest payments made by the Issuer in the ordinary course of its trade or business to a company are exempt from income tax provided the recipient company is not resident in Ireland and is either resident for tax purposes in a relevant territory which imposes a tax that generally applies to interest receivable in that territory by companies from sources outside that territory and which tax corresponds to income tax or corporation tax in Ireland or the interest is exempted from the charge to Irish income tax under the terms of a double tax agreement which is either in force or which will come in to force once all ratification procedures have been completed. Thirdly, interest paid by the Issuer free of withholding tax under the quoted Eurobond exemption is exempt from income tax where the recipient is a person not resident in Ireland and resident in a relevant territory or is a company not resident in Ireland which is under the control, whether directly or indirectly, of person(s) who by virtue of the law of a relevant territory are resident for the purposes of tax in a relevant territory and is not under the control of person(s) who are not so resident, or is a company not resident in Ireland where the principal class of shares of the company or its 75 per cent. parent is substantially and regularly traded on a recognised stock exchange. For the purposes of these exemptions and where not specified otherwise, residence is determined under the terms of the relevant double taxation agreement or in any other case, the law of the country in which the recipient claims to be resident. Interest falling within the above exemptions is also exempt from the universal social charge.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Notes are held or attributed, may have a liability to Irish corporation tax on the interest.

Relief from Irish income tax may also be available under the specific provisions of a double tax treaty between Ireland and the country of residence of the recipient.

Interest on the Notes which does not fall within the above exemptions is within the charge to income tax, and, in the case of noteholders who are individuals, the charge to the universal social charge. In the past the Irish Revenue Commissioners have not pursued liability to income tax in respect of persons who are not regarded as being resident in Ireland except where such persons have a taxable presence of some sort in Ireland or seek to claim any relief or repayment in respect of Irish tax. However, there can be no assurance that the Irish Revenue Commissioners will apply this treatment in the case of any noteholder.

Capital Gains Tax

A noteholder will not be subject to Irish tax on capital gains on a disposal of Notes unless such noteholder is either resident or ordinarily resident in Ireland or carries on a trade in Ireland through a branch or agency in respect of which the Notes were used or held and, in the case of Notes which derive their value or more than 50% of their value from Irish real estate, mineral rights or exploration rights, unless the Notes cease to be quoted on a stock exchange.

Capital Acquisitions Tax

A gift or inheritance comprising Notes will be within the charge to capital acquisitions tax (which subject to available exemptions and reliefs, is currently levied at 33 per cent. if either (i) the donor or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland on the relevant date or (ii) if the Notes are regarded as property situate in Ireland (i.e. if the Notes are physically located in Ireland or if the register of the Notes is maintained in Ireland).

Stamp Duty

No stamp duty or similar tax is imposed in Ireland (on the basis of an exemption provided for in Section 85(2)(c) of the Stamp Duties Consolidation Act, 1999) on the issue, transfer or redemption of the Notes, provided that the Issuer is a Qualifying Company and the proceeds of the Notes are used in the course of the Issuer's business.

United States Federal Income Taxation

(a) General

The following is a general discussion based upon present law of certain U.S. federal income tax considerations for prospective purchasers of the Refinancing Notes. The discussion addresses only persons that purchase Refinancing Notes for cash in the original offering, hold the Refinancing Notes as capital assets, and are U.S. Holders (as defined below) that use the United States dollar as their functional currency. The discussion does not consider the circumstances of particular purchasers, some of which (such as financial institutions, insurance companies, regulated investment companies, tax exempt organisations, dealers, traders who elect to mark their investment to market and persons holding the Refinancing Notes as part of a hedge, straddle, conversion, constructive sale or integrated transaction) are subject to special tax regimes. The discussion does not address any state, local or foreign taxes or the federal alternative minimum tax and does not address persons that hold Refinanced Notes prior to the Refinancing Date. Special rules also apply to individuals, certain of which may not be discussed below. Prospective investors should note that no rulings have been, or are expected to be, sought from the IRS with respect to any of the U.S. federal income tax consequences discussed below, and no assurance can be given that the IRS or a court will not take contrary positions.

EACH PROSPECTIVE PURCHASER IS URGED TO CONSULT ITS OWN TAX ADVISOR ABOUT THE TAX CONSEQUENCES OF AN INVESTMENT IN THE REFINANCING NOTES UNDER THE STATE AND LOCAL LAWS OF THE UNITED STATES AND THE LAWS OF IRELAND AND ANY OTHER JURISDICTION WHERE THE PURCHASER MAY BE SUBJECT TO TAXATION.

For purposes of this discussion, "**U.S. Holder**" means the beneficial owner of a Refinancing Note that for U.S. federal income tax purposes is (i) a citizen or individual resident of the United States, (ii) a corporation organised in or under the laws of the United States or any political subdivision thereof, (iii) a trust subject to the control of one or more U.S. persons and the primary supervision of a U.S. court or (iv) an estate the income of which is subject to U.S. federal income taxation regardless of its source. "**Non-U.S. Holder**" means a beneficial owner of a Refinancing Note other than a U.S. Holder. The treatment of partners in a partnership that

owns Refinancing Notes may depend on the status of such partners and the status and activities of the partnership and such persons should consult their own tax advisors about the consequences of an investment in the Refinancing Notes. The Trust Deed could be amended after the Refinancing Date in a manner that materially adversely affects the U.S. federal tax consequences of an investment in the Notes as described herein. This discussion assumes that the Trust Deed is not so amended.

(b) U.S. Taxation of the Issuer

The Issuer has adopted, and intends to continue to follow, the Operating Guidelines, which are designed to reduce the risk that the Issuer will be deemed to have engaged in the conduct of a trade or business within the United States for U.S. federal income tax purposes. In connection with the sale of the Original Notes, on the Original Issue Date, Hunton & Williams LLP provided the Issuer with an opinion, subject to customary assumptions and qualifications, generally to the effect that, under the law then in effect, assuming the Issuer and the Investment Manager comply the Operating Guidelines and other requirements of the original Prospectus, the original Investment Management Agreement, and the other transaction documents executed on the Original Issue Date, and although there is no direct authority in the U.S. federal tax law addressing transactions similar to those contemplated herein, the Issuer will not be engaged in a trade or business in the United States for U.S. federal income tax purposes. The opinion of Hunton & Williams LLP was based on certain factual assumptions, covenants and representations as to the Issuer's contemplated activities. In addition, such opinion was based on the transaction documents as of the Original Issue Date, and, accordingly, will not address any potential U.S. federal income tax effects of the Supplemental Trust Deed. The Issuer intends to continue to conduct its affairs in accordance with the assumptions and representations on which such opinion was based, and the remainder of this summary assumes that the Issuer will not be treated as engaged in a trade or business in the United States for U.S. federal income tax purposes, or otherwise subject to U.S. federal income tax on a net income basis.

If the Issuer were to be found to be engaged in a U.S. trade or business for U.S. federal income tax purposes, there could be material adverse financial consequences to the Issuer and to persons who hold the Refinancing Notes. The imposition of any of the foregoing taxes would materially affect the Issuer's ability to pay principal, interest, and other amounts owing in respect of the Refinancing Notes. In addition, if the Issuer were found to be engaged in a U.S. trade or business for U.S. federal income tax purposes, payments in respect of the Refinancing Notes may be treated as U.S. source income that could be subject to withholding unless appropriate certifications of status have been provided by Non-U.S. Holders to the applicable withholding agent as discussed further below.

The opinion above represented only counsel's best judgement, and is not binding on the IRS or the courts. There are no authorities that deal with situations substantially identical to the Issuer's, and the Issuer could be treated as engaged in the conduct of a trade or business within the United States for U.S. federal income tax purposes as a result of unanticipated activities, changes in law, contrary conclusions by the IRS or U.S. courts or other causes. In addition, you should be aware that the opinion referred to above expressly relied on the Investment Manager's compliance with the Operating Guidelines, which are intended to prevent the Issuer from engaging in activities that could give rise to a trade or business within the United States for U.S. federal income tax purposes (although there is no direct authority in the U.S. federal tax law addressing the activities permitted under the Operating Guidelines). Although the Investment Manager has generally undertaken to comply with the Operating Guidelines, the Investment Manager is permitted to depart from the Operating Guidelines if it obtains written advice of Hunton & Williams LLP or Milbank, Tweed, Hadley & McCloy LLP or a written opinion from another nationally recognised tax counsel that the departure, when considered in light of the

activities of the Issuer, will not cause the Issuer to be treated as engaged in a trade or business within the United States for U.S. federal income tax purposes. There can be no assurance that any such opinion or advice of tax counsel (other than from Hunton & Williams LLP) will be consistent with the views and opinion standards of Hunton & Williams LLP, and any such departures would not be covered by the opinion of Hunton & Williams LLP referred to above. Further, the Issuer may, for certain specified purposes, amend, modify, supplement and/or waive the provisions of any transaction document without the consent of the Noteholders and without requiring that Issuer to specifically consider if such amendment, modification, supplement or waiver will affect whether the Issuer will be treated as engaged in a trade or business in the United States for U.S. federal income tax purposes. The opinion of Hunton & Williams LLP was based on the transaction documents as of the Original Issue Date, and, accordingly, does not address any potential U.S. federal income tax effects of any such amendment, modification, supplement or waiver.

Furthermore, the Investment Manager is not obligated to monitor changes in law that could affect whether the Issuer is treated as engaged in a U.S. trade or business for U.S. federal income tax purposes. The Investment Manager might act in accordance with the Operating Guidelines notwithstanding the issuance of new decisions by the courts, new legislation or official guidance (regardless of whether such new interpretation, legislation or guidance would either merely increase the risk that the Issuer would be, or actually cause the Issuer to be, engaged in a U.S. trade or business for U.S. federal income tax purposes). In addition, although the Investment Manager can be removed for cause, the definition of "cause" in the context of violations of the Operating Guidelines is not clear. Unintentional violations will not constitute "cause" if they do not have a material adverse effect on the Controlling Class. It is not certain that a violation of the Operating Guidelines that causes an increase in the risk that the Issuer will be engaged in a trade or business in the United States for U.S. federal income tax purposes (without actually having that effect) will be treated as a breach of the Investment Management Agreement. Violations of the Operating Guidelines, whether intentional or unintentional, are not covered by the legal opinion of Hunton & Williams LLP.

Prospective investors should be aware that there will not be new tax opinion issued on the Refinancing Date with respect to whether the Issuer was or will be engaged in the conduct of in a trade or business within the United States for U.S. federal income tax purposes.

To reduce the risk that the Issuer will be engaged in a trade or business within the United States for U.S. federal income tax purposes, in certain circumstances set forth in the Transaction Documents, certain Ineligible Obligations may be owned by one or more Blocker Subsidiaries wholly owned by the Issuer that will be treated as either U.S. or foreign corporations for U.S. federal income tax purposes: provided that with respect to any Ineligible Obligation described in clause (b) or (c) of the definition of "Ineligible Obligation", the Issuer shall contribute such Ineligible Obligation to a Blocker Subsidiary upon such Ineligible Obligation's failure to satisfy paragraph (cc) or paragraph (v) of the Eligibility Criteria, as applicable. Any foreign Blocker Subsidiary may be treated as engaged in a trade or business within the United States and may be subject to U.S. federal income tax (and possibly a 30 per cent. U.S. branch profits tax) on a net income basis at normal corporate tax rates, and may file U.S. tax returns and reports (or protective U.S. tax returns and reports), and/or the Blocker Subsidiary may be subject to a 30 per cent. U.S. withholding tax on some or all of its income. In the case of a U.S. Blocker Subsidiary, the Blocker Subsidiary would be subject to U.S. federal income tax on a net income basis at normal corporate tax rates, and would be required to file U.S. tax returns and reports. In addition, distributions from the Blocker Subsidiary to the Issuer may be subject to a 30 per cent. U.S. withholding tax.

(c) Withholding Taxes on the Issuer

Although the Issuer does not anticipate that it will be subject to U.S. federal income tax with respect to its net income, income derived by the Issuer may be subject to withholding or gross income taxes imposed by the United States or other countries, and the imposition of such taxes could materially affect its ability to make payments on the Refinancing Notes. Subject to certain exceptions set forth in the Transaction Documents, the Issuer generally may acquire a particular Collateral Debt Obligation only if, at the time of commitment to purchase, either the interest payments thereon are not subject to withholding tax or the issuer of the Collateral Debt Obligation is required to make "gross-up" payments. Accordingly, the Issuer does not generally expect to be subject to U.S. federal withholding taxes on interest from Collateral Debt Obligations. The Issuer may, however, be subject to U.S. federal withholding or gross income taxes in respect of dividends, commitment fees, facility fees, and other similar fees associated with Collateral Debt Obligations constituting Revolving Obligations and Delayed Drawdown Collateral Debt Obligations. Any such withholding or gross income taxes may not be grossed up.

Notwithstanding the foregoing, there can be no assurance that income derived by the Issuer will not become subject to withholding or gross income taxes more generally as a result of changes in law, contrary conclusions by the IRS or U.S. courts or other causes. Such withholding or gross income taxes could be applied retroactively to fees or other income previously received by the Issuer. To the extent that withholding or gross income taxes are imposed and not paid through withholding, the Issuer may be directly liable to the taxing authority to pay such taxes.

(d) Characterisation of the Refinancing Notes

Based on the terms of the Refinancing Notes and subject to other relevant facts and circumstances on the Issue Date, the Issuer will receive an opinion from Milbank, Tweed, Hadley & McCloy LLP on the Issue Date to the effect that, for U.S. federal income tax purposes, the Class X Notes, the Class A Notes, Class B Notes, Class C Notes and Class D Notes will be treated as debt and the Class E Notes should be treated as debt. The Issuer also intends to treat the Class F Notes as debt for U.S. federal income tax purposes.

In general, the characterisation of an instrument for U.S. federal income tax purposes as debt or equity by its issuer as of the time of issuance is binding on a holder. This characterisation, and counsel's opinion, however, are not binding on the IRS or the courts. In particular, there can be no assurance that the IRS would not contend, and that a court would not ultimately hold, that a Refinancing Notes, in particular the Class F Notes, constitute equity of the Issuer. Investors should consult their tax advisors regarding the tax rules that would apply if a Class of Refinancing Notes were recharacterised as equity by the IRS. The discussion in the remainder of this section assumes that the Refinancing Notes will be treated as debt.

(e) Interest and OID on the Refinancing Notes

Subject to the discussion of original issue discount ("**OID**") below, a U.S. Holder of a Refinancing Note that uses the cash method of accounting must include in income the U.S. dollar value of Euro interest paid when received. Euro interest received is translated at the U.S. dollar spot rate of Euro on the date of receipt, regardless of whether the payment is converted into U.S. dollars on the date of receipt. A cash method U.S. Holder therefore generally will not have foreign currency gain or loss on receipt of a Euro interest payment but may have foreign currency gain or loss upon disposing of the Euro received.

A U.S. Holder of a Refinancing Note that uses the accrual method of accounting or any U.S. Holder required to accrue OID will be required to include in income the U.S. dollar value of Euro interest or OID accrued during the accrual period. An accrual basis U.S. Holder may determine the amount of income recognised with respect to such interest using either of two methods, in either case regardless of whether the payments are in fact converted into U.S.

dollars on the date of receipt. Under the first method, the U.S. dollar value of accrued interest is translated at the average Euro rate for the interest accrual period (or, with respect to an accrual period that spans two taxable years, the partial period within the taxable year). An accrual method U.S. Holder of a Refinancing Note that uses this first method will therefore recognise foreign currency gain or loss, as the case may be, on interest or OID paid to the extent that the U.S. dollar/Euro exchange rate on the date the interest is received differs from the rate at which the interest income was accrued. Under the second method, the U.S. Holder can elect to accrue interest or OID at the Euro spot rate on the last day of an interest accrual period (or, in the case of an accrual period that spans two taxable years, at the exchange rate in effect on the last day of the partial period within the taxable year) or, if the last day of an interest accrual period is within 5 business days of the receipt of such interest, the spot rate on the date of receipt. An election to accrue interest or OID at the spot rate generally will apply to all foreign currency denominated debt instruments held by the U.S. Holder, and is irrevocable without the consent of the IRS. An accrual method U.S. Holder of a Refinancing Note that uses the second method but does not accrue interest at the spot rate on the date of receipt will therefore recognise foreign currency gain or loss, as the case may be, on interest or OID paid to the extent that the U.S. dollar/Euro exchange rate on the date the interest is received differs from the rate at which the interest income was accrued. Regardless of the method used to accrue interest and OID, a U.S. Holder may have additional foreign currency gain or loss upon a subsequent disposition of the Euro received.

In general, if the issue price of a Refinancing Note (the first price at which a substantial amount of the relevant Class of Notes is sold to investors) is less than its "stated redemption price at maturity" by at least a statutory de minimis amount, the Note will be considered to have OID. OID generally will be de minimis if it is less than 25 basis points multiplied by the "weighted average maturity" of the Class of Refinancing Notes (as defined in applicable Treasury regulations). If a U.S. Holder acquires a Refinancing Note with OID, then, regardless of such holder's method of accounting, the U.S. Holder will be required to include such OID in income on a constant yield to maturity basis, whether or not it receives a cash payment on any payment date. Interest and OID on a Refinancing Note will be ordinary income from sources outside the United States.

Because payments of stated interest on the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes ("**Deferred Interest Notes**") are contingent on available funds and subject to deferral, the Deferred Interest Notes will be treated for U.S. federal income tax purposes as having OID. The total amount of such discount with respect to a Deferred Interest Note will equal the sum of all payments to be received under such Deferred Interest Note less its issue price. A U.S. Holder of Deferred Interest Notes will be required to include OID in income as it accrues.

Treasury regulations applicable to debt instruments issued with OID do not provide definitive rules for accrual of OID on debt instruments the payments on which are contingent as to time, in the manner of the Deferred Interest Notes. In the absence of such definitive guidance, the Issuer intends to treat the amount of OID accruing in any interest accrual period as generally equal to the stated interest accruing in that period (whether or not currently due) plus any additional amount representing the accrual under a constant yield method of any additional OID represented by the excess of the principal amount of the Deferred Interest Notes over their issue price. Accruals of any such additional OID will be based on the projected weighted average life of the Deferred Interest Notes rather than their Maturity Date. Because the Deferred Interest Notes provide for interest at a floating rate, accruals of OID should be calculated by assuming that interest will be paid over the life of the Deferred Interest Note based on the value of EURIBOR used in setting interest for the first interest accrual period, and then adjusting the

income for each subsequent interest accrual period for any difference between the actual value of EURIBOR used in setting interest for those periods and the assumed rate.

However, it is also possible the Deferred Interest Notes may be subject to an income accrual method analogous to the methods applicable to debt instruments whose payments are subject to acceleration (under section 1272(a)(6) of the Code) using an assumption as to the expected payments on the Deferred Interest Notes reflected on an assumed payment schedule prepared by the Issuer. In that case, adjustments (generally forward looking) will be made to the extent actual payments do not correspond to the assumed payment schedule. Alternatively, it is possible that the Deferred Interest Notes could be treated as subject to special rules applicable to contingent payment debt instruments. In that event, the timing of income and character of gain or loss on the Deferred Interest Notes would be different. A U.S. Holder of Deferred Interest Notes should consult its own tax advisor about the possible application of these rules.

(f) Sale, Exchange, Redemption or Repayment of the Refinancing Notes

In general, a U.S. Holder of a Refinancing Note will have a basis in such Refinancing Note equal to the cost of such Refinancing Note to such holder, increased by any amount includible in income by such holder as OID and reduced by any payments thereon other than, in the case of the Refinancing Notes that are not Deferred Interest Notes, payments of stated interest. Upon a sale or exchange of the Refinancing Note, a U.S. Holder will generally recognise gain or loss equal to the difference between the amount realised (less any accrued interest, which would be taxable as interest) and the holder's tax basis in such Refinancing Note.

The amount realised on the sale, exchange, redemption or repayment of a Refinancing Note generally is determined by translating the Euro proceeds into U.S. dollars at the spot rate on the date the Refinancing Note is disposed of, while a U.S. Holder's adjusted tax basis in a Refinancing Note generally will be the cost of the Refinancing Note to the U.S. Holder, determined by translating the Euro purchase price into U.S. dollars at the spot rate on the date the Refinancing Note was purchased, and increased by the Euro value of any OID accrued and reduced by the Euro value of any payments other than, in the case of the Refinancing Notes that are not Deferred Interest Notes, payments of stated interest. If, however, the Refinancing Notes are traded on an established securities market, a cash basis U.S. Holder or electing accrual basis U.S. Holder will determine the amount realised on the settlement date. An election by an accrual basis U.S. Holder to apply the spot exchange rate on the settlement date will be subject to the rules regarding currency translation elections described above, and cannot be changed without the consent of the IRS. The amount of foreign currency gain or loss realised with respect to accrued but unpaid interest is the difference between the U.S. Dollar value of the interest based on the spot exchange rate on the date the Refinancing Notes are disposed of and the U.S. Dollar value at which the interest was previously accrued. The amount of foreign currency gain or loss with respect to principal will equal the difference between the U.S. dollar value of the principal amount of the Refinancing Note when payment is received or a Refinancing Note is disposed of (determined by the U.S. dollar spot rate for Euro on that date) and the U.S. dollar value of principal amount of the Refinancing Note on the date the Refinancing Note was acquired (determined by the U.S. dollar spot rate for Euro on the date of acquisition). Foreign currency gain or loss on a sale, exchange, redemption or repayment of a Refinancing Note is generally recognised only to the extent of total gain or loss on the transaction. A U.S. Holder will have a tax basis in Euro received on the sale, exchange or retirement of a Refinancing Note equal to the U.S. dollar value of the Euro on the relevant date.

Foreign currency gain or loss recognised by a U.S. Holder on the sale, exchange or other disposition of a Refinancing Note (including repayment at maturity) generally will be treated as ordinary income or loss. Gain or loss in excess of foreign currency gain or loss on a Refinancing Note generally will be treated as capital gain or loss. The deductibility of capital

losses is subject to limitations. In the case of a non-corporate U.S. Holder, preferential rates may apply to any capital gain if such U.S. Holder's holding period for such Refinancing Notes exceeds one year.

(g) Additional Offerings

Refinancing Notes issued in additional offerings by the Issuer may not be fungible for U.S. federal income tax purposes with the Refinancing Notes issued in this original offering and, in such case, will be issued under a separate ISIN.

(h) Net Investment Tax

Section 1411 of the Code imposes a 3.8 per cent. tax (in addition to other federal income taxes) on the net investment income of U.S. Holders who are individuals, estates or trusts to the extent net investment income exceeds an income threshold. Net investment income generally will include all income from the Refinancing Notes.

U.S. Holders, and in particular U.S. Holders of any Class of Refinancing Notes that may be recharacterised as equity of the Issuer for U.S. federal income tax purposes, are urged to consult their tax advisors regarding the effect, if any, of Section 1411 and regulations thereunder on their investment in the Refinancing Notes in their particular circumstances.

(i) Transfer and Other Reporting Requirements

U.S. Holders, and in certain cases Non-U.S. Holders, of the Refinancing Notes may be subject to other information reporting requirements. More than one reporting requirement may apply to an investor. The failure to comply with these reporting requirements may result in penalties, which may be substantial, and, in certain instances, the failure to file a required form will suspend the statute of limitations with respect to any tax return, event, or period to which such information relates. As a result, even if an investor reports all of its taxable income from its investment in Refinancing Notes, if the investor fails to file a required information return, the period during which the IRS can assess taxes will remain open, potentially including with respect to items that do not relate to the holder's investment in the Notes. The Issuer assumes no responsibility to advise holders or other affected parties about how to comply with generally applicable reporting requirements relevant to their purchase, ownership and disposition of Refinancing Notes and purchasers of Refinancing Notes are urged to consult their own tax advisors regarding these reporting requirements, including penalties that may apply for failure to comply. However, for the convenience of holders certain of the reporting requirements that may apply to the acquisition, ownership or disposition of Refinancing Notes are listed below.

Specified Foreign Financial Assets (IRS Form 8938).

Certain U.S. Holders that own "specified foreign financial assets" with an aggregate value in excess of U.S.\$50,000 are generally required to file an information statement along with their tax returns, currently on Form 8938, with respect to such assets. "Specified foreign financial assets" include any financial accounts held at a non-U.S. financial institution, as well as securities issued by a non-U.S. issuer that are not held in accounts maintained by financial institutions.

For U.S. Holders who acquire any Class of Notes recharacterised as equity in the Issuer, please see the section "United States Federal Income Taxation" in the prospectus relating to the Original Notes for further information.

(j) Tax Treatment of Non-U.S. Holders of Refinancing Notes

Subject to the discussion of FATCA below, assuming that the Issuer is not treated as engaged in a trade or business within the United States, as discussed above, payments on the Refinancing

Notes to a Non-U.S. Holder, or gain realised on a sale, exchange, or redemption of such Refinancing Notes by such holder, will not be subject to U.S. federal withholding tax unless such Non-U.S. Holder is subject to backup withholding tax, as described below, as a result of failing to comply with applicable certification procedures to establish that it is not a U.S. Holder. Interest paid to a Non-U.S. Holder generally will not be subject to U.S. net income tax unless the interest is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States. Gain realised by a Non-U.S. Holder on the redemption or disposition of a Refinancing Note will not be subject to U.S. tax unless (i) the gain is effectively connected with the Non-U.S. Holder's conduct of a U.S. trade or business or (ii) the holder is an individual present in the United States for at least 183 days during the taxable year of disposition and certain other conditions are met. A Non-U.S. Holder will not be considered to be engaged in a trade or business within the United States solely by reason of holding Refinancing Notes as capital investments for U.S. federal income tax purposes.

If the Issuer were determined to be engaged in a trade or business within the United States, then interest paid on the Refinancing Notes to a Non-U.S. Holder could be subject to a 30 per cent. U.S. withholding tax unless an exemption applies. Interest paid on the Refinancing Notes to a Non-U.S. Holder would, however, generally be exempt if, among other things, the beneficial owner of such Notes (a) is not a "10-percent shareholder" (under the Code) in respect of the Issuer, (b) is not a controlled foreign corporation (under the Code) related to the Issuer through equity ownership and (c) satisfies, directly or indirectly, applicable certification or documentary evidence requirements as to its non-U.S. status. As discussed above, the Issuer intends to continue to conduct its affairs in a manner designed to prevent the Issuer from being treated as engaged in the conduct of a trade or business within the United States for U.S. federal income tax purposes and to comply with the requirements of the Operating Guidelines and the Transaction Documents designed to prevent the Issuer from being engaged in a trade or business in the United States.

(k) Information Reporting and Backup Withholding Tax

Information reporting to the IRS generally will be required with respect to payments on the Notes and proceeds of the sale of the Refinancing Notes to holders other than corporations or other exempt recipients. A "backup" withholding tax will apply to those payments if such holder fails to provide certain identifying information (e.g., such holder's taxpayer identification number) to the Trustee or other paying agent. Non-U.S. Holders generally will be required to comply with applicable certification procedures to establish that they are not U.S. Holders in order to avoid the application of such information reporting requirements and backup withholding.

Backup withholding is not an additional tax. The amount of any backup withholding collected from a payment will be allowed as a credit against the recipient's U.S. federal income tax liability and may entitle the recipient to a refund, so long as the required information is properly furnished to the IRS. U.S. Holders should consult their own tax advisers about any additional reporting requirements that may arise as a result of their purchasing, holding or disposing of Notes.

(l) FATCA Tax Reporting and Withholding

Under FATCA, the Issuer may be subject to a 30 per cent. withholding tax on U.S.-source payments it receives with respect to Collateral Debt Obligations of, and Eligible Investments in, U.S. obligors unless the Issuer complies with the regulations in Ireland implementing the Ireland IGA. The Ireland IGA requires, among other things, that the Issuer collect and, in certain circumstances, provide to the Irish Revenue Commissioners (which will provide such information to the IRS) substantial information regarding certain direct and indirect holders of

the Notes unless the Issuer qualifies as a "Non-Reporting Irish Financial Institution" (as defined in the Ireland IGA) or is otherwise entitled to an exemption under FATCA. The required information will include the name, address, U.S. tax identification number and certain other information with respect to holders and certain direct and indirect owners of the holders.

The Issuer intends to comply with its obligations under the Ireland IGA and FATCA more generally. The Issuer anticipates that withholding will not be imposed on payments made to the Issuer, or on payments made by the Issuer, unless the IRS has specifically listed the Issuer as a non-participating financial institution, the Issuer has otherwise assumed responsibility for withholding under U.S. tax law, or the Issuer is unable to comply with FATCA, including the Ireland IGA. In some cases, the Issuer's ability to achieve FATCA Compliance could depend on factors outside of the Issuer's control. For example, if an affiliate of the Issuer that is an FFI is not FATCA compliant (i.e., it fails to comply with, and is not exempted from complying with, FATCA), the Issuer itself may be prohibited from complying with FATCA. For this purpose an FFI affiliate generally is an FFI that is deemed to be part of an affiliated group that includes the Issuer (where, in general, such affiliates and the Issuer are deemed related through more than 50 per cent. ownership (by vote and value)). For example, if an FFI owns (for U.S. federal income tax purposes) more than 50 per cent. of the Issuer's equity and such FFI equity owner is not FATCA compliant, the Issuer may be prevented from complying with FATCA. Furthermore, if any person is deemed (for U.S. federal income tax purposes) to own more than 50 per cent. of the equity of both (i) the Issuer and (ii) another FFI, such other FFI may be treated as an FFI affiliate of the Issuer for this purpose and, thus, if such other FFI is not FATCA compliant, the Issuer may be prevented from complying with FATCA.

Although the Issuer will not prohibit any person from holding more than 50 per cent. of the Issuer's equity, it may force the sale of all or a portion of the equity held by such a person if such holder is an FFI affiliate of the Issuer that is preventing the Issuer from complying with FATCA. For these purposes, the Issuer may sell a Holder's or beneficial owner's interest in a Note in its entirety notwithstanding that the sale of a portion of such an interest would permit the Issuer to achieve FATCA Compliance. Moreover, if a holder fails to provide the Issuer with correct, complete and accurate information that may be required for the Issuer to achieve FATCA Compliance, the Issuer is authorised to withhold amounts otherwise distributable to the holder, to compel the holder to sell its Notes and, if the holder does not sell its Notes within 10 Business Days after notice from the Issuer, to sell the Holder's Notes on behalf of the Holder.

No assurance can be given that the Issuer will be able to take all necessary actions or that actions taken will be successful to minimise the impact of FATCA. The Issuer's ability to avoid adverse consequences under FATCA may not be within the control of the Issuer and, for example, may depend on the actions of the holder (and each foreign withholding agent (if any) in the chain of custody). The rules under FATCA or under the Ireland IGA, may also change in the future. Notwithstanding the foregoing discussion, future guidance under FATCA or Irish regulations implementing the Ireland IGA may subject payments on Classes of Refinancing Notes that are recharacterised as equity for U.S. federal income tax purposes and Refinancing Notes that are materially modified more than six months after the issuance of such future guidance, to a withholding tax of 30 per cent. if each FFI that holds any such Note, or through which any such Note is held, has not entered into an information reporting agreement with the IRS under FATCA or complied with the terms of a relevant intergovernmental agreement.

If the Issuer were to move from Ireland to another jurisdiction, the Issuer would be required to enter into an agreement with the IRS or comply with the terms of that jurisdiction's intergovernmental agreement with the United States relating to FATCA in order to avoid the imposition of FATCA withholding. FATCA may also apply to intermediaries and Holders may be subject to withholding or forced transfers if they do not comply with similar information

requests made by an intermediary (or if an intermediary otherwise fails to comply with FATCA).

FATCA, including the provisions of the Ireland IGA and the regulations implementing the Ireland IGA are complex and their application to the Issuer is not entirely certain as the rules and regulations continue to be issued and revised. Each Noteholder should consult its own tax advisor to obtain a more detailed explanation of FATCA and to learn how it might affect such holder in its particular circumstance.

THE DISCUSSION ABOVE IS A GENERAL SUMMARY. IT DOES NOT COVER ALL TAX MATTERS THAT MAY BE OF IMPORTANCE TO A PARTICULAR HOLDER. EACH HOLDER IS STRONGLY URGED TO CONSULT ITS OWN TAX ADVISER ABOUT THE TAX CONSEQUENCES OF AN INVESTMENT IN THE REFINANCING NOTES UNDER THE NOTEHOLDER'S OWN CIRCUMSTANCES.

CERTAIN ERISA CONSIDERATIONS

ERISA imposes certain requirements on "**employee benefit plans**" subject thereto including entities (such as collective investment funds, insurance company separate accounts and some insurance company general accounts) the underlying assets of which include the assets of such plans (collectively, "**ERISA Plans**"), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of prudence, diversification and investments being made in accordance with the documents governing the plan. The prudence of a particular investment must be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan's particular circumstances and all of the facts and circumstances of the investment.

Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan, as well as assets of those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts and Keogh plans, and entities the underlying assets of which include the assets of such plans (together with ERISA Plans, "**Plans**") and certain persons (referred to as "**parties in interest**" under ERISA or "**disqualified persons**" under the Code (collectively, "**Parties in Interest**")) having certain relationships to such Plans, unless a statutory or administrative exception or exemption is applicable to the transaction. A Party in Interest who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code and the transaction may have to be rescinded at significant cost to the Issuer.

Governmental plans, certain church plans and certain non-U.S. plans, while not subject to the fiduciary responsibility or prohibited transaction provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to substantially similar rules under Federal, state, local or non-U.S. laws or regulations, and may be subject to the prohibited transaction rules of Section 503 of the Code.

Under ERISA and a regulation issued by the United States Department of Labor (29 C.F.R. Section 2510.3-101, as modified by Section 3(42) of ERISA, the "**Plan Asset Regulation**"), if a Plan invests in an "**equity interest**" of an entity that is neither a "**publicly offered security**" nor a security issued by an investment company registered under the Investment Company Act of 1940, the Plan's assets are deemed to include both the equity interest and an undivided interest in each of the entity's underlying assets, unless it is established (a) that the entity is an "**operating company**," as that term is defined in the Plan Asset Regulation, or (b) that less than 25 per cent. of the total value of each class of equity interest in the entity, disregarding the value of any equity interests held by persons (other than Benefit Plan Investors) with discretionary authority or control over the assets of the entity or who provide investment advice for a fee (direct or indirect) with respect to such assets (such as the Investment Manager), and their respective Affiliates (each a "**Controlling Person**"), is held by Benefit Plan Investors (the "**25 per cent. Limitation**"). A "**Benefit Plan Investor**" means (1) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to the provisions of part 4 of Subtitle B of Title I of ERISA, (2) a plan to which Section 4975 of the Code applies, or (3) any entity whose underlying assets include plan assets by reason of such an employee benefit plan's or plan's investment in such entity.

If the underlying assets of the Issuer are deemed to be Plan assets, the obligations and other responsibilities of Plan sponsors, Plan fiduciaries and Plan administrators, and of Parties in Interest, under Parts 1 and 4 of Subtitle B of Title I of ERISA and Section 4975 of the Code, as applicable, may be expanded, and there may be an increase in their liability under these and other provisions of ERISA and the Code. In addition, various providers of fiduciary or other services to the entity, and any other parties with authority or control with respect to the Issuer, could be deemed to be Plan fiduciaries or otherwise parties in interest or disqualified persons by virtue of their provision of such services (and there could be an improper delegation of authority to such providers).

The Plan Asset Regulation defines an "equity interest" as any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and that has no substantial equity features. Although it is not free from doubt, the Class X Notes, the Class A Notes, Class B Notes, Class C Notes and the Class D Notes offered hereby will be treated by the Issuer as indebtedness with no substantial equity features for purposes of ERISA. However, the characteristics of the Class E Notes, the Class F Notes and the Subordinated Notes for purposes of the Plan Asset Regulation are less certain. The Class E Notes, the Class F Notes and the Subordinated Notes may be considered "equity interests" for purposes of the Plan Asset Regulation. Accordingly, the Issuer intends to limit investments by Benefit Plan Investors in such Class E Notes, Class F Notes and Subordinated Notes. In reliance on representations made by investors in the Class E Notes, the Class F Notes and the Subordinated Notes, the Issuer intends to limit investment by Benefit Plan Investors in Class E Notes, Class F Notes and Subordinated Notes to less than 25 per cent. of the total value of the Class E Notes, the Class F Notes and the Subordinated Notes (determined separately by Class) at all times (excluding for purposes of such calculation Class E Notes, Class F Notes and Subordinated Notes held by a Controlling Person). Each prospective purchaser (including a transferee) of a Class E Note, a Class F Note or a Subordinated Note will be required or deemed to make certain representations regarding its status as a Benefit Plan Investor or Controlling Person and other ERISA matters as described under "*Transfer Restrictions*" below. No Class E Notes, Class F Notes or Subordinated Notes will be sold or transferred to purchasers that have represented that they are Benefit Plan Investors or Controlling Persons to the extent that such sale may result in Benefit Plan Investors owning 25 per cent. or more of the total value of the Class E Notes, the Class F Notes or the Subordinated Notes (determined separately by Class and in accordance with Section 3(42) of ERISA, the Plan Asset Regulation and the Trust Deed). Except as otherwise provided by the Plan Asset Regulation, each Class E Note, Class F Note and Subordinated Note held by persons that have represented that they are Controlling Persons will be disregarded and will not be treated as outstanding for purposes of determining compliance with such 25 per cent. Limitation.

Even if the Class X Notes, the Class A Notes, Class B Notes, Class C Notes and Class D Notes would not be treated as equity interests in the Issuer for purposes of ERISA, it is possible that an investment in such Notes by a Benefit Plan Investor (or with the use of the assets of a Benefit Plan Investor) could be treated as a prohibited transaction under ERISA and/or Section 4975 of the Code. Such a prohibited transaction, however, may be subject to a statutory or administrative exemption. Even if an exemption were to apply, such exemption may not, however, apply to all of the transactions that could be deemed prohibited transactions in connection with an investment in the Notes by a Benefit Plan Investor.

Each of the Issuer, the Initial Purchaser, the Investment Manager, or their respective Affiliates may be the sponsor of, or investment adviser with respect to one, or more Plans. Because such parties may receive certain benefits in connection with the sale of the Notes to such Plans, whether or not the Notes are treated as equity interests in the Issuer, the purchase of such Notes using the assets of a Plan over which any of such parties has investment authority might be deemed to be a violation of the prohibited transaction rules of ERISA and/or Section 4975 of the Code for which no exemption may be available. Accordingly, the Class X Notes, Class A Notes, Class B Notes, Class C Notes and Class D Notes may not be acquired using the assets of any Plan if any of the Issuer, the Initial Purchaser, the Investment Manager or their respective Affiliates has investment authority with respect to such assets (except to the extent (if any) that a favourable statutory or administrative exemption or exception applies or the transaction is not otherwise prohibited).

It should be noted that an insurance company's general account may be deemed to include assets of Plans under certain circumstances, e.g., where a Plan purchases an annuity contract issued by such an insurance company, based on the reasoning of the United States Supreme Court in *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, 510 U.S. 86 (1993). An insurance company considering the purchase of Notes with assets of its general account should consider such purchase and the insurance company's ability to make the representations described above in light of *John Hancock*

Mutual Life Ins. Co. v. Harris Trust and Savings Bank, Section 401(c) of ERISA and a regulation promulgated by the U.S. Department of Labor under that Section of ERISA, 29 C.F.R. Section 2550.401c-1.

Each purchaser and transferee of a Class X Note, Class A Note, Class B Note, Class C Note or Class D Note or any interest in such Note will be deemed to have represented, warranted and agreed that (i) either (A) it is not and is not acting on behalf of (and for so long as it holds any such Note or interest therein will not be, and will not be acting on behalf of), a Benefit Plan Investor or a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law or regulation that is similar to the prohibited transaction provisions of Section 406 of ERISA and/or Section 4975 of the Code ("**Other Plan Law**"), and no part of the assets to be used by it to acquire or hold such Notes or any interest therein constitutes the assets of any Benefit Plan Investor or such governmental, church, non-U.S. or other plan, or (B) its acquisition, holding or disposition of such Notes (or interests therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or, in the case of a governmental, church, non-U.S. or other plan, a non-exempt violation of any Other Plan Law, and (ii) it will not sell or transfer such Notes (or interests therein) to a transferee acquiring such Notes (or interests therein) unless the transferee makes the foregoing representations, warranties and agreements described in clause (i) hereof.

If you are an acquiror of a Class E Note, Class F Note or Subordinated Note in the form of a Regulation S Global Certificate or a Rule 144A Global Certificate you will be deemed to represent, warrant and agree that (i) you are not, and are not acting on behalf of (and for so long as you hold such Note or interest therein, will not be and will not be acting on behalf of), a Benefit Plan Investor or Controlling Person unless you receive the written consent of the Issuer, provide an ERISA certificate to a Transfer Agent and the Issuer as to your status as a Benefit Plan Investor or Controlling Person and exchange and hold such Note in the form of a Definitive Certificate; (ii) if you are a governmental, church, non-U.S. or other plan (A) you are not, and for so long as you hold such Notes or interest therein will not be, subject to any federal, state, local non-U.S. or other law or regulation that could cause the underlying assets of the Issuer to be treated as assets of the investor in any Note (or any interest therein) by virtue of its interest and thereby subject the Issuer or the Investment Manager (or other persons responsible for the investment and operation of the Issuer's assets) to Other Plan Law ("**Similar Law**") and (B) your acquisition, holding and disposition of such Notes will not constitute or result in a non-exempt violation of any Other Plan Law and (iii) you will agree to certain transfer restrictions regarding your interest in such Notes.

If you are a purchaser or transferee of a Class E Note, Class F Note or Subordinated Note in the form of a Definitive Certificate, you will be required to (i) represent, warrant and agree in writing to the Issuer (1) whether or not, for so long as you hold such Notes or interest therein, you are, or are acting on behalf of, a Benefit Plan Investor, (2) whether or not, for so long as you hold such Notes or interest therein, you are a Controlling Person and (3) that (a) if you are, or are acting on behalf of, a Benefit Plan Investor, your acquisition, holding and disposition of such Notes (or interests therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code and (b) if you are a governmental, church, non-U.S. or other plan, (x) you are not, and for so long as you hold such Notes (or interests therein) will not be, subject to Similar Law and (y) your acquisition, holding and disposition of such Notes or interests thereof will not constitute or result in a non-exempt violation of any Other Plan Law; (ii) agree to certain transfer restrictions regarding your interest in such Notes and (iii) provide a completed ERISA certificate in or substantially in the form set out at Annex A (*Form of ERISA Certificate*) hereto to the Issuer and a Transfer Agent. Any purported transfer of the Class E Notes, Class F Notes or Subordinated Notes in violation of the requirements set forth in this paragraph shall be null and void ab initio and the Issuer will have the right to cause the sale of such Notes to another acquiror that complies with the requirements of this paragraph in accordance with the terms of the Trust Deed.

No transfer of an interest in Class E Notes, Class F Notes or Subordinated Notes will be permitted or recognised if it would cause the 25 per cent. Limitation described above to be exceeded with respect to the Class E Notes, the Class F Notes or the Subordinated Notes (determined separately by Class). There can be no assurance that there will not be circumstances in which transfers of an interest in a Class E Note, a Class F Note or a Subordinated Note will be restricted in order to comply with the aforementioned limitations

Any Plan fiduciary considering whether to acquire a Note on behalf of a Plan or an employee benefit plan not subject to ERISA or Section 4975 of the Code should consult with its counsel regarding the potential consequences of such investment, the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and the Code and/or similar provisions of Other Plan Law, and the scope of any available exemption relating to such investment.

The sale of Notes to a Plan or an employee benefit plan not subject to ERISA or Section 4975 of the Code is in no respect a representation or warranty by the Issuer, or any other person that this investment meets all relevant legal requirements with respect to investments by Plans or such other plans generally or any particular plan, that any prohibited transaction exemption would apply to the acquisition, holding, or disposition of this investment by such plans in general or any particular plan, or that this investment is appropriate for such plans generally or any particular plan.

PLAN OF DISTRIBUTION

Credit Suisse Securities (Europe) Limited (in its capacity as initial purchaser, the "**Initial Purchaser**") has agreed with the Issuer, subject to the satisfaction of certain conditions, to subscribe and pay for each Class of the Refinancing Notes and to use all reasonable efforts to place the Refinancing Notes with investors pursuant to the Subscription Agreement. The Subscription Agreement entitles the Initial Purchaser to terminate it in certain circumstances prior to payment being made to the Issuer.

The Initial Purchaser may offer the Refinancing Notes at prices as may be privately negotiated at the time of sale, which may vary among different purchasers and may be different from the issue price of the Refinancing Notes.

It is a condition of the issue of the Refinancing Notes of each Class that the Refinancing Notes of each other Class be issued in the following principal amounts: Class X Notes: €2,000,000, Class A-1 Notes: €190,000,000, Class A-2 Notes: €50,000,000, Class B Notes: €53,000,000, Class C Notes: €22,000,000, Class D Notes: €22,000,000, Class E Notes €23,000,000 and Class F Notes €10,000,000.

The Issuer has agreed to indemnify the Initial Purchaser, the Investment Manager, the Collateral Administrator, the Trustee and certain other participants against certain liabilities or to contribute to payments they may be required to make in respect thereof.

Certain of the Collateral Debt Obligations may have been originally underwritten or placed by the Initial Purchaser. In addition, the Initial Purchaser may have in the past performed and may in the future perform investment banking services or other services for issuers of the Collateral Debt Obligations. In addition, the Initial Purchaser and its Affiliates may from time to time as a principal or through one or more investment funds that it or they manage, make investments in the equity securities of one or more of the issuers of the Collateral Debt Obligations, with a result that one or more of such issuers may be or may become controlled by the Initial Purchaser or its Affiliates.

No action has been or will be taken by the Issuer or the Initial Purchaser that would permit a public offering of the Refinancing Notes or possession or distribution of this Prospectus or any other offering material in relation to the Refinancing Notes in any jurisdiction where action for the purpose is required, other than application for the approval of this Prospectus to and by the regulated market of the Irish Stock Exchange and the Central Bank. No offers, sales or deliveries of any Notes, or distribution of this Prospectus or any other offering material relating to the Refinancing Notes, may be made in or from any jurisdiction, except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on the Issuer or the Initial Purchaser.

United States

The Refinancing Notes have not been and will not be registered under the Securities Act and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. Persons or to U.S. Residents except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act and in the manner so as not to require the registration of the Issuer as an "investment company" pursuant to the Investment Company Act.

The Refinancing Notes sold in the initial syndication of this Offering may not be purchased by, and will not be sold to any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Waiver from the Investment Manager. Each holder of a Refinancing Note or a beneficial interest therein acquired in the initial issuance of the Refinancing Notes, by its acquisition of a Refinancing Note or a beneficial interest in a Refinancing Note, will be deemed to represent to the Issuer, the Trustee, the Investment Manager and the Initial Purchaser that (1) it either (a) is not a Risk Retention U.S. Person or (b) has received a U.S. Risk Retention Waiver from the Investment Manager, and (2) it is not acquiring such Refinancing Note or a beneficial interest therein as part of a plan or scheme to evade the requirements of section 15G of the Securities Exchange

Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules. Any purchase or transfer of the Refinancing Notes in breach of this requirement will result in the affected Refinancing Notes becoming subject to forced transfer provisions. See "*U.S. Risk Retention*" and "*Forced Transfer*".

The Issuer has been advised that the Initial Purchaser proposes to resell the Refinancing Notes (a) outside the United States to non-U.S. Persons in offshore transactions in reliance on Regulation S and in accordance with applicable law and (b) in the United States (directly or through its U.S. broker dealer Affiliate) in reliance on Rule 144A only to or for the accounts of QIBs, provided that each of such purchasers or accountholders is also a QP.

The Refinancing Notes sold in reliance on Rule 144A will be issued in minimum denominations of €250,000 and integral multiples of €1,000 in excess thereof. Any offer or sale of Rule 144A Notes in reliance on Rule 144A will be made by broker dealers who are registered as such under the Exchange Act. After the Refinancing Notes are released for sale, the offering price and other selling terms may from time to time be varied by the Initial Purchaser.

The Initial Purchaser has acknowledged and agreed that it will not offer, sell or deliver any Regulation S Notes to, or for the account or benefit of, any U.S. Person or U.S. Resident as part of their distribution at any time and that it will send to each distributor, dealer or person receiving a selling concession, fee or other remuneration to which it sells Regulation S Notes a confirmation or other notice setting forth the prohibition on offers and sales of the Regulation S Notes within the United States or to, or for the account or benefit of, any U.S. Person or U.S. Resident.

This Prospectus has been prepared by the Issuer for use in connection with the offer and sale of the Refinancing Notes and for the listing of the Refinancing Notes on the regulated market of the Irish Stock Exchange. The Issuer and the Initial Purchaser each reserves the right to reject any offer to purchase, in whole or in part, for any reason, or to sell less than the principal amount of Refinancing Notes which may be offered. This Prospectus does not constitute an offer to any person in the United States or to any U.S. Person. Distribution of this Prospectus to any such U.S. Person or to any person within the United States, other than in accordance with the procedures described above, is unauthorised and any disclosure of any of its contents, without the prior written consent of the Issuer and the Initial Purchaser, is prohibited.

The Initial Purchaser agrees to comply with the following selling restrictions:

- (a) **European Economic Area:** In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") the Initial Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of the Refinancing Notes to the public in that Relevant Member State at any time:
 - (i) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
 - (ii) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant dealer or dealers nominated by the Issuer for any such offer; or
 - (iii) in any other circumstances falling within Article 3(2) of the Prospectus Directive, *provided that* no such offer of Refinancing Notes shall require the publication by the

Issuer or any other entity of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an '**offer of the Refinancing Notes to the public**' in relation to any Refinancing Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Refinancing Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Refinancing Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and for the purposes of this provision, the expression "**Prospectus Directive**" means Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 (and amendments thereto, including by Directive 2010/73/EU) and includes any relevant implementing measure in each Relevant Member State.

- (b) **Ireland:** The Initial Purchaser has represented and warranted that it has not offered, sold, placed or underwritten and will not offer, sell, place or underwrite the issue of any Refinancing Notes in Ireland otherwise than in conformity with:

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of the Notes.

Rule 144A Notes

Each prospective purchaser of Rule 144A Notes, by accepting delivery of this Prospectus, will be deemed to have represented and agreed that such person acknowledges that this Prospectus is personal to it and does not constitute an offer to any person or to the public generally to subscribe for or otherwise acquire Notes other than pursuant to Rule 144A or in offshore transactions in accordance with Regulation S. Distribution of this Prospectus, or disclosure of any of its contents to any person other than such offeree and those persons, if any, retained to advise it with respect thereto is unauthorized and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited.

Each purchaser of Notes represented by a Rule 144A Global Certificate will be deemed to have represented and agreed, and each purchaser of Notes represented by a Rule 144A Definitive Certificate will be required to represent and agree, as follows:

- (1) The purchaser (a) is a QIB, (b) is aware that the sale of such Rule 144A Notes to it is being made in reliance on Rule 144A, (c) is acquiring such Notes for its own account or for the account of a QIB as to which the purchaser exercises sole investment discretion, and, in respect of Rule 144A Notes representing Notes of each Class in a principal amount of not less than €250,000 for the purchaser and for each such account and (d) will provide notice of the transfer restrictions described in the section entitled "*Notice to Investors*" to any subsequent transferees.
- (2) The purchaser understands that such Rule 144A Notes have not been and will not be registered under the Securities Act, and may be reoffered, resold or pledged or otherwise transferred only (a)(i) to a person whom the purchaser reasonably believes is a QIB purchasing for its own account or for the account of a QIB as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 144A or (ii) to a non-U.S. person in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S and (b) in accordance with all applicable securities laws including the securities laws of any state of the United States. The purchaser understands that the Issuer has not been registered under the Investment Company Act. The purchaser understands that before any interest in a Rule 144A Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in the Regulation S Notes, the Registrar is required to receive a written certification from the purchaser (in the form provided in the Trust Deed) as to compliance with the transfer restrictions described herein. The purchaser understands and agrees that any purported transfer of the Rule 144A Notes to a purchaser that does not comply with the requirements of this paragraph (2) shall be null and void *ab initio*.
- (3) The purchaser is not purchasing such Rule 144A Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The purchaser understands that an investment in the Rule 144A Notes involves certain risks, including the risk of loss of its entire investment in the Rule 144A Notes under certain circumstances. The purchaser has had access to such financial and other information concerning the Issuer and the Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Rule 144A Notes, including an opportunity to ask questions of, and request information from, the Issuer.
- (4) In connection with the purchase of the Rule 144A Notes: (a) none of the Issuer, the Initial Purchaser, the Trustee, the Investment Manager or the Collateral Administrator is acting as a fiduciary (other than the Trustee) or financial or investment manager for the purchaser; (b) the

purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuer, the Initial Purchaser, the Trustee, the Investment Manager or the Collateral Administrator other than in this Prospectus for such Notes and any representations expressly set forth in a written agreement with such party; (c) none of the Issuer, the Initial Purchaser, the Trustee, the Investment Manager or the Collateral Administrator has given to the purchaser (directly or indirectly through any other person) any assurance, guarantee or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Rule 144A Notes; (d) the purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the Trust Deed) based upon its own judgement and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer, the Initial Purchaser, the Trustee, the Investment Manager or the Collateral Administrator; (e) the purchaser has evaluated the rates, prices or amounts and other terms and conditions of the purchase and sale of the Rule 144A Notes with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming and willing to assume (financially and otherwise) those risks; and (f) the purchaser is a sophisticated investor.

The purchaser is acquiring the Rule 144A Notes in respect of Rule 144A Notes representing Notes of each Class in a principal amount of not less than €250,000. The purchaser and each such account is acquiring the Rule 144A Notes as principal for its own account for investment and not for sale in connection with any distribution thereof. The purchaser and each such account: (a) was not formed for the specific purpose of investing in the Rule 144A Notes (except when each beneficial owner of the purchaser and each such account is a QP); (b) to the extent the purchaser is a private investment company formed before April 30, 1996, the purchaser has received the necessary consent from its beneficial owners; (c) is not a pension, profit sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made; and (d) is not a broker dealer that owns and invests on a discretionary basis less than U.S.\$25,000,000 in securities of unaffiliated issuers. Further, the purchaser agrees with respect to itself and each such account: (x) that it shall not hold such Rule 144A Notes for the benefit of any other person and shall be the sole beneficial owner thereof for all purposes; (y) that it shall not sell participation interests in the Rule 144A Notes or enter into any other arrangement pursuant to which any other person shall be entitled to a beneficial interest in the distributions on the Rule 144A Notes; and (z) that the Rule 144A Notes purchased directly or indirectly by it constitute an investment of no more than 40 per cent. of the purchaser's and each such account's assets (except when each beneficial owner of the purchaser and each such account is a QP). The purchaser understands and agrees that any purported transfer of the Rule 144A Notes to a purchaser that does not comply with the requirements of this paragraph (5) will be of no force and effect, will be void *ab initio* and the Issuer will have the right to direct the purchaser to transfer its Rule 144A Notes to a Person who meets the foregoing criteria.

- (10) The purchaser will not, at any time, offer to buy or offer to sell the Notes by any form of general solicitation or advertising, including, but not limited to, any advertisement, article, notice or other communication published in any newspaper, magazine or similar medium or broadcast over television or radio or seminar or meeting whose attendees have been invited by general solicitations or advertising.
- (11) Prospective purchasers are hereby notified that sellers of the Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A.

- (12) Without limiting the foregoing, by holding a Note, the purchaser, transferee or beneficial owner will be deemed to acknowledge and agree that, among other things, the Issuer is not registered as an investment company under the Investment Company Act, and that the Issuer is exempt and excluded from registration as such by virtue of Section 3(c)(7) of the Investment Company Act and Rule 3a-7 under the Investment Company Act; *provided* that, on any date, subject to the satisfaction of the Opt Out Condition or the Regulatory Change Condition (which applies if the Investment Manager has obtained legal advice from U.S. nationally recognised legal counsel knowledgeable in such matters to the effect that the Issuer can no longer rely on Rule 3a-7 under the Investment Company Act for an exclusion from registration as an investment company thereunder due to a change in applicable law or regulation (or the interpretation thereof) or requirements or guidance from the SEC or its staff) on such date, as applicable, the Issuer (or the Investment Manager on its behalf) may elect (by written notice from the Issuer (or the Investment Manager, acting on behalf of the Issuer) to the Collateral Administrator and the Trustee) not to rely on Rule 3a-7 for its exclusion from registration under the Investment Company Act.
- (13) Each holder and beneficial owner of a Rule 144A Note, by acceptance of its Rule 144A Note or its interest in a Note, shall be deemed to understand and acknowledge that failure to provide the Issuer, the Trustee or any Paying Agent with the applicable U.S. federal income tax certifications (generally, a U.S. Internal Revenue Service Form W-9 (or successor applicable form) in the case of a person that is a "United States person" within the meaning of Section 7701(a)(30) of the Code or an appropriate U.S. Internal Revenue Service Form W-8 (or successor applicable form) in the case of a person that is not a "United States person" within the meaning of Section 7701(a)(30) of the Code) may result in U.S. federal back up withholding from payments in respect of such Note.
- (14) If the purchaser (1) owns more than 50 per cent. of the Subordinated Notes by value or (2) is otherwise treated as a member of the Issuer's "expanded affiliated group" (as defined in Treasury regulations section 1.1471-5(i)(2)), the purchaser represents that it will (A) confirm that any member of such expanded affiliated group (assuming that the Issuer and any Blocker Subsidiary is a "registered deemed-compliant FFI" within the meaning of Treasury regulations section 1.1471-5(f)(1)) that is treated as a "foreign financial institution" within the meaning of Section 1471(d)(4) of the Code and any Treasury regulations promulgated thereunder is either a "participating FFI", a "registered deemed-compliant FFI" or an "exempt beneficial owner" within the meaning of Treasury regulations section 1.1471-4(e)(1), and (B) promptly notify the Issuer in the event that any member of such expanded affiliated group that is treated as a "foreign financial institution" within the meaning of Section 1471(d)(4) of the Code and any Treasury regulations promulgated thereunder is not either a "participating FFI", a "registered deemed-compliant FFI" or an "exempt beneficial owner" within the meaning of Treasury regulations section 1.1471-4(e)(1), in each case except to the extent that the Issuer or its agents have provided such purchaser with an express waiver of this requirement.
- (15) With respect to the Subordinated Notes, if the purchaser is not a "United States person" (as defined in Section 7701(a)(30) of the Code), such purchaser is not purchasing the Notes in order to reduce its U.S. federal income tax liability pursuant to a tax avoidance plan within the meaning of U.S. Treasury Regulation Section 1.881-3.
- (16) With respect to the Subordinated Notes, if the purchaser is not a "United States person" (as defined in Section 7701(a)(30) of the Code), such purchaser either (x) is not a bank or affiliate thereof (within the meaning of Section 881(c)(3)(A) of the Code), (y) is a person that is eligible for benefits under an income tax treaty with the United States that eliminates U.S. federal income taxation of U.S. source interest not attributable to a permanent establishment in the United States, or (z) has provided an Internal Revenue Service Form W-8ECI representing that

all payments received or to be received by it from the Issuer are effectively connected with the conduct of a trade or business in the United States.

For these purposes, the Issuer may sell a beneficial owner's interest in a Note in its entirety, notwithstanding that the sale of a portion of such an interest would permit the Issuer to achieve FATCA Compliance. The purchaser acknowledges that any such transfer of Notes may be for less than the fair market value of such Notes.
- (20) The purchaser understands and acknowledges that the Issuer has the right, under the Conditions, to withhold up to 30 per cent. on all payments made to any beneficial owner of an interest in the Notes that fails to comply with the requirements of clause (18) above or otherwise cannot receive payments free of FATCA withholding.
- (21) The purchaser of a Refinancing Note, by acceptance of such Refinancing Note, agrees to treat such Refinancing Note as debt for U.S. federal, state and local income and franchise tax purposes unless otherwise required by any relevant taxing authority, provided that this shall not limit a holder of Class E Notes or Class F Notes from making a protective qualified electing fund election. The purchaser of a Subordinated Note, by its acceptance of such Note, agrees to treat such Subordinated Note as equity in the Issuer for U.S. federal, state and local income and franchise tax purposes unless otherwise required by any relevant taxing authority.
- (22) The purchaser understands and acknowledges that no purchase or transfer of a Subordinated Note in the form of a Definitive Certificate will be recorded or otherwise recognised unless the purchaser or transferee has provided the Issuer and a Transfer Agent with a certificate in or substantially in the form of that set out in Annex A (*Form of ERISA Certificate*) hereto.
- (23) The purchaser understands and acknowledges that the Issuer has the right under the Trust Deed to compel any Non-Permitted Holder or Non-Permitted ERISA Holder to sell its interest in the Notes, or may sell such interest in its Notes on behalf of such Non-Permitted Holder or Non-Permitted ERISA Holder.
- (24) With respect to the purchase and holding of any Subordinated Note, by its continued holding of an interest in a Subordinated Note that is a Rule 144A Note, each holder shall be deemed to represent that it is, and has been, a QP at all times since it acquired its interest in such Note.
- (25) The purchaser acknowledges that the Issuer, the Initial Purchaser, the Trustee, the Investment Manager, the Collateral Administrator and their Affiliates, and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements.

- (3) If the purchaser acquires such Regulation S Notes in the initial issuance of the Refinancing Notes, the purchaser (1) either (a) is not a Risk Retention U.S. Person or (b) has received a U.S. Risk Retention Waiver from the Investment Manager, and (2) is not acquiring such Refinancing Note or a beneficial interest therein as part of a plan or scheme to evade the requirements of section 15G of the Securities Exchange Act of 1934, as added by section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and section 246.20 of the U.S. Risk Retention Rules.

ANNEX A

Form of ERISA Certificate

The purpose of this ERISA Certificate (this "**Certificate**") is, among other things, to (i) endeavour to ensure that less than 25 per cent. of the total value of the [Class E Notes] [Class F Notes] [Subordinated Notes] (determined separately by class) issued by Avoca CLO XII Designated Activity Company (the "**Issuer**") is held by (a) an employee benefit plan that is subject to the fiduciary responsibility provisions of Title I of the Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), (b) a plan that is subject to Section 4975 of the Internal Revenue Code of 1986, as amended (the "**Code**") or (c) any entity whose underlying assets include "plan assets" by reason of any such employee benefit plan's or plan's investment in the entity (collectively, "**Benefit Plan Investors**"), (ii) obtain from you certain representations and agreements and (iii) provide you with certain related information with respect to your acquisition, holding or disposition of the [Class E Notes] [Class F Notes] [Subordinated Notes]. By signing this Certificate, you agree to be bound by its terms.

Please be aware that the information contained in this Certificate is not intended to constitute advice and the examples given below are not intended to be, and are not, comprehensive. You should contact your own counsel if you have any questions in completing this Certificate. Capitalised terms not defined in this Certificate shall have the meanings ascribed to them in the Trust Deed.

If a box is not checked, you are representing and agreeing that the applicable Section does not, and will not, apply to you.

1. ☐ **Employee Benefit Plans Subject to ERISA or the Code.** We, or the entity on whose behalf we are acting, are an "employee benefit plan" within the meaning of Section 3(3) of ERISA that is subject to the fiduciary responsibility provisions of Title I of ERISA or a "plan" within the meaning of Section 4975(e)(1) of the Code that is subject to Section 4975 of the Code.

Examples: (i) tax qualified retirement plans such as pension, profit sharing and section 401(k) plans, (ii) welfare benefit plans such as accident, life and medical plans, (iii) individual retirement accounts or "IRAs" and "Keogh" plans and (iv) certain tax-qualified educational and savings trusts.

2. ☐ **Entity Holding Plan Assets.** We, or the entity on whose behalf we are acting, are an entity or fund whose underlying assets include "plan assets" by reason of a Benefit Plan Investor's investment in such entity as determined pursuant to 29 C.F.R. Section 2510.3-101 as modified by Section 3(42) of ERISA (the "**Plan Asset Regulations**").

Examples: (i) an insurance company separate account, (ii) a bank collective trust fund and (iii) a hedge fund or other private investment vehicle where 25 per cent. or more of the total value of any class of its equity is held by Benefit Plan Investors.

If you check Box 2, please indicate the maximum percentage of the entity or fund that will constitute "plan assets": _____per cent.

AN ENTITY OF FUND THAT CANNOT PROVIDE THE FOREGOING PERCENTAGE HEREBY ACKNOWLEDGES THAT FOR PURPOSES OF DETERMINING WHETHER BENEFIT PLAN INVESTORS OWN LESS THAN 25 PER CENT. OF THE TOTAL VALUE OF THE [CLASS E NOTES][CLASS F NOTES][SUBORDINATED NOTES], 100 PER CENT. OF THE ASSETS OF THE ENTITY OR FUND WILL BE TREATED AS "PLAN ASSETS".

ERISA and the regulations promulgated thereunder are technical. Accordingly, if you have any questions regarding whether you may be an entity described in this Section 2, you should consult with your counsel.

-
3. ☐ **Insurance Company General Account.** We, or the entity on whose behalf we are acting, are an insurance company purchasing the [Class E Notes] [Class F Notes] [Subordinated Notes] with funds from our or their general account (i.e., the insurance company's corporate investment portfolio), whose assets, in whole or in part, constitute "plan assets" under the Plan Asset Regulations or otherwise.

If you check Box 3, please indicate the maximum percentage of the insurance company general account that will constitute "plan assets": ____ per cent. IF YOU DO NOT INCLUDE ANY PERCENTAGE IN THE BLANK SPACE, YOU WILL BE COUNTED AS IF YOU FILLED IN 100 PER CENT. IN THE BLANK SPACE.

4. ☐ **Controlling Person.** We are, or we are acting on behalf of any of: (i) the Trustee, (ii) the Investment Manager, (iii) any person that has discretionary authority or control with respect to the assets of the Issuer, (iv) any person who provides investment advice for a fee (direct or indirect) with respect to such assets or (v) any "affiliate" of any of the above persons. "Affiliate" shall have the meaning set forth in the Plan Asset Regulations. Any of the persons described in the first sentence of this Section 4 is referred to in this Certificate as a "Controlling Person".

Note: We understand that, for purposes of determining whether Benefit Plan Investors hold less than 25 per cent. of the total value of the [Class E Notes] [Class F Notes] [Subordinated Notes] (determined separately by class), the [Class E Notes] [Class F Notes] [Subordinated Notes] held by Controlling Persons (other than Benefit Plan Investors) are required to be disregarded

5. ☐ **None of Sections (1) Through (3) Above Apply.** We, or the entity on whose behalf we are acting, are a person that does not fall into any of the categories described in Sections (1) through (3) above. If, after the date hereof, any of the categories described in Sections (1) through (3) above would apply, we will promptly notify the Issuer and a Transfer Agent of such change.

6. **No Prohibited Transaction.** If we checked any of the boxes in Sections (1) through (3) above, we represent, warrant and agree that our acquisition, holding and disposition of the [Class E Notes] [Class F Notes] [Subordinated Notes] (or an interest therein) do not and will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code.

7. **Not Subject to Similar Law and No Violation of Other Plan Law.** If we are a governmental, church, non-U.S. or other plan, we represent, warrant and agree that (a) we are not subject to any federal, state, local non-U.S. or other law or regulation that could cause the underlying assets of the Issuer to be treated as assets of the investor in any Note (or interest therein) by virtue of its interest and thereby subject the Issuer or the Investment Manager (or other persons responsible for the investment and operation of the Issuer's assets) to laws or regulations that are similar to the prohibited transaction provisions of Section 406 of ERISA and/or Section 4975 of the Code, and (b) our acquisition, holding and disposition of the [Class E Notes] [Class F Notes] [Subordinated Notes] (or an interest therein) do not and will not constitute or result in a non-exempt violation of any law or regulation that is similar to the prohibited transaction provisions of Section 406 of ERISA and/or Section 4975 of the Code.

8. **Compelled Disposition.** We acknowledge and agree that:

- (A) if any representation that we made hereunder is subsequently shown to be false or misleading or our beneficial ownership otherwise causes a violation of the 25 per cent. Limitation, the Issuer shall, promptly after such determination (or upon notice from a Transfer Agent if such Transfer Agent makes the determination (who, in each case, agree to notify the Issuer of such determination, if any)), send notice to us demanding that we transfer our interest to a person that is not a Non-Permitted ERISA Holder within 10 days after the date of such notice;

-
- (B) if we fail to transfer our [Class E Notes] [Class F Notes] [Subordinated Notes], the Issuer shall have the right, without further notice to us, to sell our [Class E Notes] [Class F Notes] [Subordinated Notes] or our interest in the [Class E Notes] [Class F Notes] [Subordinated Notes] to a purchaser selected by the Issuer that is not a Non-Permitted ERISA Holder on such terms as the Issuer may choose;
- (C) the Issuer may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the [Class E Notes] [Class F Notes] [Subordinated Notes] and selling such securities to the highest such bidder. However, the Issuer may select a purchaser by any other means determined by it in its sole discretion;
- (D) by our acceptance of an interest in the [Class E Notes] [Class F Notes] [Subordinated Notes], we agree to cooperate with the Issuer to effect such transfers;
- (E) the proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to us; and
- (F) the terms and conditions of any sale under this sub-section shall be determined in the sole discretion of the Issuer, and the Issuer shall not be liable to us as a result of any such sale or the exercise of such discretion.
9. **Required Notification and Agreement.** We hereby agree that we (a) will inform the Issuer and a Transfer Agent of any proposed transfer by us of all or a specified portion of the [Class E Notes] [Class F Notes] [Subordinated Notes] and (b) will not initiate any such transfer after we have been informed by the Issuer or a Transfer Agent in writing that such transfer would cause the 25 per cent. Limitation to be exceeded.
10. **Continuing Representation; Reliance.** We acknowledge and agree that the representations, warranties and agreements contained in this Certificate shall be deemed made on each day from the date we make such representations, warranties and agreements through and including the date on which we dispose of our interests in the [Class E Notes] [Class F Notes] [Subordinated Notes]. We understand and agree that the information supplied in this Certificate will be used and relied upon by the Issuer and Transfer Agents to determine that Benefit Plan Investors own or hold less than 25 per cent. of the total value of the [Class E Notes] [Class F Notes] [Subordinated Notes] (determined separately by class) upon any subsequent transfer of the [Class E Notes] [Class F Notes] [Subordinated Notes] in accordance with the Trust Deed.
11. **Further Acknowledgement and Agreement.** We acknowledge and agree that (i) all of the representations, warranties and assurances contained in this Certificate are for the benefit of the Issuer, the Trustee, Credit Suisse Securities (Europe) Limited and the Investment Manager as third party beneficiaries hereof, (ii) copies of this Certificate and any information contained herein may be provided to the Issuer, the Trustee, Credit Suisse Securities (Europe) Limited, the Investment Manager, affiliates of any of the foregoing parties and to each of the foregoing parties' respective counsel for purposes of making the determinations described above and (iii) any acquisition or transfer of the [Class E Notes] [Class F Notes] [Subordinated Notes] by us that is not in accordance with the provisions of this Certificate shall be null and void from the beginning, and of no legal effect.
- Future Transfer Requirements.**
12. **Transferee Letter and its Delivery.** We acknowledge and agree that if we are signing this Certificate in connection with the acquisition of a Note in the form of a Definitive Certificate, we may not transfer any [Class E Notes] [Class F Notes] [Subordinated Notes] to any person unless the Issuer and a Transfer Agent have received a certificate substantially in the form of this Certificate.
-

Any attempt to transfer in violation of this section will be null and void from the beginning, and of no legal effect.

Note: Unless you are notified otherwise, the name and address of each Transfer Agent is as follows:

The Bank of New York Mellon (Luxembourg) S.A., Vertigo Building-Polaris, 2-4 rue Eugène Ruppert, L-2453 Luxembourg.
