		<p>such case, each exercised Certificate will be terminated for an amount equal to the product of (i) EUR 790 multiplied by (ii) the Leveraged Index on the fifth Business Day immediately following the date on which an Exercise Notice relating to the Certificates was duly delivered minus 3 per cent., payable on the third Business Day following such fifth Business Day on which the Leveraged Index is determined.</p> <p>(c) Scheduled maturity: If the Certificates are not exercised or terminated prior to the Expiration Date (being 31 May 2022), they will be deemed to have been exercised on that date. In such case, each Certificate will be terminated for an amount equal to the product of (i) EUR 790 multiplied by (ii) the Leveraged Index on the Expiration Date, payable on 7 June 2022.</p> <p>The Certificates could also be terminated due to illegality, tax event, event of default or a reference fund event, all as described below.</p> <p>All valuation dates are subject to postponement for disruption events relating to the Reference Funds, and all payment dates are subject to postponement for non-Business Days.</p> <p>The Cash Settlement Amount will not be less than zero.</p> <p>Key Dates:</p> <p>“Business Day” means a London, Milan and TARGET business day.</p> <p>“Common Fund Business Day” means a day which is both (i) a Business Day and (ii) a reference fund business day (which means a day that the net asset value of a Reference Fund is scheduled to be published) for all the Reference Funds.</p> <p>“Coupon Payment Date” means each of 11 June 2018, 10 June 2019, 8 June 2020 and 7 June 2021, provided that if any such date is not an Observation Date, the following Observation Date. There shall be a total of 4 Coupon Payment Dates.</p> <p>“Distribution Fee Payment Date” means each of 11 June 2018, 10 June 2019, 8 June 2020 and 7 June 2021, provided that if any such date is not an Observation Date, the following Observation Date. There shall be a total of 4 Distribution Fee Payment Dates;</p> <p>“Expiration Date” means 31 May 2022.</p> <p>“Observation Date” means each day which is both a Business Day and Common Reference Fund Business Day from (and including) the Strike Date to (and including) the Expiration Valuation Date.</p> <p>“Strike Date” means 14 June 2017 or, if such day is not an Observation Date, the next following Observation Date.</p> <p>Leveraged Index</p> <p>The Leveraged Index on any Observation Date represents the increase or decrease in the net asset value of the proportionate notional holdings of the Reference Funds represented by the Certificates since the Strike Date (as measured by Asset Performance and as may be periodically rebalanced) less: (i) the financing cost of providing additional leveraged economic exposure to the Reference Funds beyond the invested amount per Certificate of EUR 790 (as measured by the Cash Account); (ii) the Coupon; and (iii) the Distribution Fee.</p> <p>On the Strike Date, the Leveraged Index is set at a notional value of 1.00. The Leveraged Index on any subsequent Observation Date (including any Valuation Date) is calculated as follows:</p> <p>(a) the Leveraged Index on the Rebalance Date preceding such Observation</p>
--	--	---

		<p>Date;</p> <p>(b) PLUS the Asset Performance;</p> <p>(c) MINUS the change in the Cash Account from the Rebalance Date preceding such Observation Date (which shall include adjustment for financing costs);</p> <p>(d) MINUS the Coupon; and</p> <p>(e) MINUS the Distribution Fee.</p> <p>The “Distribution Fee” means a fee equal to EUR 10 per Certificate or 1.2658228 per cent. of the Nominal Amount payable to and retained by the Distribution Agent paid on each Distribution Fee Payment Date. The total maximum Distribution Fee payable to and retained by the Distribution Agent is EUR 50</p> <p>Asset Performance</p> <p>The “Asset Performance” on an Observation Date is the sum of the change in the value of each Reference Fund in the Reference Fund Basket from the Rebalance Date preceding such Observation Date to such Observation Date, multiplied by the then economic exposure to such Reference Fund in the Reference Fund Basket as determined on the last Rebalance Date. The economic exposure to the Reference Funds is “notional” or “synthetic” only as a holder will have no legal or beneficial ownership whatsoever in the Reference Funds.</p> <p>Cash Account</p> <p>The “Cash Account” measures the financing cost for providing the additional leveraged economic exposure to the Reference Fund Basket beyond the invested amount per Certificate of EUR 790 and accrues on a daily basis as against the entire Basket Value over the term of the Certificates. It is charged as the 3-month EURIBOR interest rate (as recorded at the start of each financing period) plus a financing spread of 1.05 per cent., applied to the value of the Cash Account (as at the start of each financing period), and is deducted from the level of the Leveraged Index to reduce the amount otherwise payable on the Certificates.</p> <p>Rebalancing and leverage features</p> <p>The investment objective of the Certificates is to provide an investor with a target leveraged economic exposure to the Reference Fund Basket of 125 per cent. This means that, after reducing the nominal amount of each Certificate having an Offer Price of EUR 800 by the amount of the distribution fee of EUR 10, each Certificate of nominal amount of EUR 790 will provide economic exposure at the Strike Date to the Reference Fund Basket having a value of EUR 987.5 (being, EUR 790 multiplied by 125 per cent.). However, this target exposure of 125 per cent. can increase or decrease over time as the net asset value of each Reference Fund will change and does not remain constant. If the aggregate net asset value of the units of all the Reference Funds in the Reference Fund Basket (for the purpose of this paragraph, the “Aggregate NAV”):</p> <p>(a) increases, the target exposure will fall from 125 per cent; and</p> <p>(b) decreases, the target exposure will rise above 125 per cent.</p> <p>In order to maintain the target exposure at 125 per cent., the Aggregate NAV must increase or decrease, as applicable, and to achieve that, the Determination Agent will periodically adjust the units of the Reference Funds in the Reference Fund Basket so that the target exposure after such adjustment will be equal to 125 per cent. again. This act of rebalancing will take place on a Rebalance Date, which is:</p> <p>(a) each Coupon Payment Date; and</p> <p>(b) an Observation Date:</p> <p>(i) which is not a Disrupted Day in respect of all the Reference Funds in the Reference Fund Basket;</p> <p>(ii) where the previous Observation Date was not a Rebalance Date;</p>
--	--	---

		<p>and</p> <p>(iii) where one or more of the following applies: (A) 90 days have elapsed since the last Rebalance Date; or (B) the effective leverage is greater than 135 per cent. or less than 115 per cent.</p> <p>Return on each Certificate in the case of unscheduled early termination</p> <p>The Certificates may be terminated prior to the cash settlement payment date:</p> <p>(a) at the Issuer's option for illegality or a tax event. In such case, the amount payable on early termination shall be, for each Certificate, an amount determined by the Determination Agent, in its sole and absolute discretion, as representing the fair market value of such Certificate immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion;</p> <p>(b) upon an event of default: In such case, the amount payable on early termination shall be, for each Certificate, an amount determined by the Determination Agent, acting in good faith and in a commercially reasonable manner, as at such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 Business Days prior to the date fixed for termination of the Certificates), to be the amount that a Qualified Financial Institution would charge either to assume all of the Issuer's payment and other obligations with respect to the Certificates as if no such Event of Default had occurred or to undertake obligations that would have the effect of preserving the economic equivalent of any payment by the Issuer to the Securityholder with respect to the Certificates;</p> <p>(c) upon a reference fund event: In such case, the amount payable on early termination shall be, for each Certificate, an amount determined by the Determination Agent to be the fair market value of a Certificate based on the market conditions prevailing at the date of determination reduced to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any interest issued to or held by an investor in the relevant reference fund, options, swaps or other instruments of any type whatsoever hedging the Issuer's obligations under the Certificates),</p> <p>in each case, if you have purchased the Certificates at the Issue Price, the early termination amount may be less than your initial investment and therefore you may lose some or all of your investment.</p>
C.19	Final reference price of the underlying:	<p>The net asset value of each Reference Fund in the Reference Fund Basket will be determined by the Determination Agent on the Valuation Date of the Certificate. For the purposes of calculating the final termination amount payable on the Cash Settlement Payment Date, the net asset value of each Reference Fund in the Reference Fund Basket on the Valuation Date is taken into account.</p>

Section D – Risks																						
D.2	Key Risks Specific to the Issuer:	<p>The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSI plc, also impact MSI plc:</p> <p>Market Risk: Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley.</p> <p>Credit Risk: Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.</p> <p>Operational Risk: Morgan Stanley is subject to the risk of loss, or of damage to its reputation, resulting from inadequate or failed processes, people and systems or from external events (e.g. fraud, theft, legal and compliance risks, cyber attacks or damage to physical assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g. sales and trading) and support and control groups (e.g. information technology and trade processing).</p> <p>Liquidity and Funding Risk: Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend significantly on its credit ratings. Morgan Stanley is a holding company and depends on payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets; or be unable to meet its financial obligations without experiencing significant business disruption or reputational damage that may threaten its viability</p>																				

		<p>as a going concern.</p> <p>Legal, Regulatory and Compliance Risk: Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering and terrorist financing rules and regulations. Further, in today's environment of rapid and possibly transformational regulatory change, Morgan Stanley also views regulatory change as a component of legal, regulatory and compliance risk.</p> <p>Risk Management: Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk.</p> <p>Competitive Environment: Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition (for example, by putting increased pressure on bid-offer spreads, commissions, markups or comparable fees). Finally, Morgan Stanley's ability to retain and attract qualified employees is critical to the success of its business and the failure to do so may materially adversely affect its performance.</p> <p>International Risk: Morgan Stanley is subject to numerous political, economic, legal, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways.</p> <p>Acquisition, Divestiture and Joint Venture Risk: Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes and strategic alliances.</p> <p>The existence of substantial inter-relationships (including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees) between MSI plc and other Morgan Stanley Group companies exposes MSI plc to the risk that, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Further, Certificates issued by MSI plc will not be guaranteed by Morgan Stanley. The application of regulatory requirements and strategies in the United Kingdom to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued by MSI plc.</p>
D.6	<p>Key information on the key risks that are specific to the Certificates and risk warning to the effect that investors may lose the value of their entire investment or part of it:</p>	<p>The Certificates are subject to the following risks:</p> <ul style="list-style-type: none"> <p>THE CERTIFICATES ARE NOT PRINCIPAL PROTECTED AND INVESTORS COULD LOSE SOME OR UP TO ALL OF THEIR INVESTMENT. THE PERFORMANCE OF THE REFERENCE FUNDS ON THE VALUATION DATE RELATIVE TO SUCH PERFORMANCE ON THE STRIKE DATE (TOGETHER WITH THE AMOUNT OF ANY FINANCING COSTS AND COUPONS AND OTHER AMOUNTS AS DESCRIBED IN THIS PROSPECTUS DEDUCTED) WILL DETERMINE THE RETURN ON THE CERTIFICATES ON THE CASH SETTLEMENT PAYMENT DATE, AND A LOWER PERFORMANCE ON THE VALUATION DATE MAY RESULT IN INVESTORS LOSING SOME OR ALL OF THEIR MONEY AND THE RETURN ON THE CERTIFICATES</p>

		<p>MAY BE EQUAL TO ZERO.</p> <ul style="list-style-type: none"> • The Certificates may be mandatorily terminated prior to their scheduled maturity if on any Observation Date, the Leveraged Index as of the second Observation Date preceding such Observation Date is less than (i) the sum of the Coupons (each equalling 5.06329%) from, and including, such immediately preceding second Observation Date to, and including, the Expiration Date plus (ii) 10%. In the event of such early termination, investors will not be able to participate in any future potential upside performance of the Reference Funds. • The Certificates are not deposits or savings accounts and are not insured by the U.S. Federal Deposit Insurance Corporation or any other governmental agency, instrumentality or deposit protection scheme in any jurisdiction nor are they obligations of, or guaranteed by, a bank. • An investment in the Certificates bears the risk that the Issuer is not able to fulfil its payment obligations under the Certificates. In such case investors may lose some or all of their money. <p>Investors may lose some and up to all of their money in the event that the Certificates are subject to an unscheduled early termination (for illegality, tax event, event of default or reference fund event) or if an investor sells its certificates prior to maturity at a loss. In the event of such early termination, investors will not be able to participate in any future potential upside performance of the Reference Funds.</p> <ul style="list-style-type: none"> • Investors have the right to exercise the Certificates prior to their scheduled maturity. If they exercise the Certificates, investors will receive an amount which will be dependent on the performance of the Leveraged Index on the fifth Business Day immediately following the date on which an Exercise Notice relating to the Certificates was duly delivered minus EUR 23.70 (being 3 per cent of par). Such amount could be less than the amount invested. • The investors will bear the risk of the performance of each of the Reference Funds. A high correlation of Reference Funds may have a significant effect on amounts payable. The negative performance of a single Reference Fund may outweigh a positive performance of one or more other Reference Funds. • Investments – like the Certificates – which offer direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including, but not limited to, market risks, to a direct investment in the funds. • The performance of a Reference Fund will be heavily dependent on the performance of investments selected by its advisers or investment managers and the skill and expertise of such reference fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the adviser's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the reference fund's adviser or investment manager, the value or profitability of the reference fund's investments may be adversely affected as a result. • The Certificates are a leveraged investment. The leverage feature gives the potential for a higher rate of return than would otherwise be the case, but it will also increase the volatility of the value of the Certificates and will increase the size of any potential loss suffered by an investor on the return on the Certificates. • The potential return on the Certificates will be reduced by financing costs (represented by the "Cash Account" calculation) which are deducted from the amount otherwise payable. The financing costs will increase, and
--	--	--

		<p>therefore the potential return on the Certificates will be reduced, where the 3-month EURIBOR interest rate increases during the term of the Certificates.</p> <ul style="list-style-type: none"> • Consultinvest Investimenti SIM S.p.A. is the Distribution Agent of the Certificates and belongs to the same group as the manager of the Reference Funds. This may give rise to potential conflicts of interest with investors, including in relation to any recommendations to potential investors to purchase the Certificates. • The exposure of the Certificates to the Reference Funds will be periodically rebalanced, as the value of the Reference Funds increases or decreases. The effect of such periodic rebalancing may be to increase or reduce the potential return on the Certificates than would otherwise be the case. • The terms of certain Certificates differ from those of ordinary debt securities because the Certificates may not pay interest and, on maturity, depending on the performance of the Reference Fund Basket, may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuer, the value of which is less than the amount invested. • Secondary trading of the Certificates may be limited. Further, if the Certificates are traded via one or more electronic trading systems and these systems become partially or completely unavailable, this would affect the investor's ability to trade the Certificates. • The market price of Certificates may be very volatile. Further, payment of principal or coupon amount may occur at a different time or in a different currency than expected. The Reference Fund Basket may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies, shares, indices or other underlying assets. The timing of changes in the Reference Fund Basket may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Reference Fund Basket the greater the effect on yield. • The Determination Agent may determine that a Market Disruption Event, Settlement Postponement Event and/or Potential Adjustment Event has occurred and such event may lead to a postponement of valuation and may affect the Reference Fund Basket and lead to adjustments of the Certificates. • The Determination Agent may determine that a Reference Fund Event has occurred and such event can affect the Reference Fund Basket and lead to early termination of the Certificates. • Potential conflicts of interest may exist between the investor and the Determination Agent, who, under the terms of the Certificates, may make such adjustments as it considers appropriate as a consequence of certain events affecting a Reference Fund, and in doing so, is entitled to exercise substantial discretion. • Because the Global Registered Certificates may be held by or on behalf of a clearing system investors will have to rely on such clearing system's procedures for transfer, payment and communication with the Issuer. • The terms and conditions applicable to the Certificates permit defined majorities to bind all holders of the Certificates, including those who did not attend and vote at the relevant meeting. • If an event of default occurs in respect of the Issuer, investors would have an unsecured claim against the Issuer for the amount due on the early termination of the Certificates.
--	--	--

		<ul style="list-style-type: none"> • The Issuer may amend the terms and condition of the Certificates and the deed of covenant in relation to the Certificates, without Securityholder consent if, in its opinion, such amendments are not materially prejudicial to Securityholders. • It is impossible to predict how the price of the Reference Funds will vary over time. The historical performance value (if any) of the Reference Funds does not indicate the future performance of the Reference Funds. Factors such as volatility, distributions on any Reference Fund, interest rates, remaining term of the Certificates and exchange rates will influence the price investors will receive if an investor sells its Certificates prior to maturity. • The Issuer's and/or its affiliates' hedging costs tend to be higher the less liquidity the Reference Funds have or the greater the difference between the “buy” and “sell” prices for the Reference Funds or derivatives contracts referenced to the Reference Funds, and this may impact payments on the Certificates. • The issuers of the Reference Funds are not affiliates of the Issuer, but the Issuer and its affiliates may presently or from time to time engage in business with the issuers of the Reference Funds. • General exchange rate and exchange control risks, including the risk that exchange rates will affect an investment in the Certificates, the risk of the Issuer's lack of any control over exchange rates and the risk that some currencies may become unavailable and of an alternative payment method used if the payment currency becomes unavailable. • No issuer of the Reference Funds has participated in the preparation of this Prospectus or in establishing the terms of the Certificates. Macroeconomic factors affecting the performance of Reference Funds may adversely affect the value of the Certificates. Holders have no claim or recourse to the Reference Funds.

RISK FACTORS

Prospective investors should read the entire Prospectus. Words and expressions defined elsewhere in this Prospectus have the same meanings in this section.

Prospective investors should consider the section entitled "Risk Factors" at pages 4 to 15 in the Registration Document in respect of MSI plc referred to in the section entitled "Incorporation by Reference" in this Prospectus and the factors described below and consult with their own professional advisors if they consider it necessary.

The Issuer believes that such factors represent the principal risks inherent in investing in Certificates but the inability of the Issuer to pay the principal, coupon amount or other amounts on or in connection with the Certificates may occur for other reasons, which may not be considered significant risks by Issuer based on information currently available to it or which it may not currently be able to anticipate.

Morgan Stanley & Co. International plc ("MSI plc") (in its capacity as Issuer and Dealer) disclaims any responsibility to advise prospective purchasers of any matters arising under the laws of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments on the Certificates. These persons should consult their own legal and financial advisors concerning these matters. This section describes generally the most significant risks of investing in the Certificates. Each investor should carefully consider whether the Certificates, as described herein, are suited to its particular circumstances before deciding to purchase the Certificates.

Risk Warning

The Certificates may not be a suitable investment for all investors

An investment in the Certificates entails certain risks, which vary depending on the specification and type or structure of the Certificates.

Each potential investor should determine whether an investment in the Certificates is appropriate in such potential investor's particular circumstances. An investment in the Certificates requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment in the Certificates and be aware of the related risks.

An investment in the Certificates is only suitable for potential investors who:

- have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Certificates and the information contained in, or incorporated by reference into, this document;
- have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Certificates will have on their overall investment portfolio;
- understand thoroughly the terms of the Certificates and are familiar with the behaviour of the reference funds (the "**Reference Funds**") in the basket of reference funds (the "**Reference Fund Basket**") to which the Certificates are linked and financial markets;
- are capable of bearing the economic risk of an investment in the Certificates until the maturity date of the Certificates;
- recognise that it may not be possible to dispose of the Certificates for a substantial period of time, if at all before the maturity date; and
- are familiar with the behaviour of the Reference Funds and relevant financial markets and be able to evaluate (either alone or with the help of a financial and legal adviser) possible scenarios for economic, interest rate and other factors that may affect the potential investor's investment and its ability to bear the applicable risks.

The Certificates are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as standalone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in any Certificates unless such potential investor has the expertise (either alone or with a financial and legal adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

A potential investor should not invest in the Certificates unless it has the expertise (either alone or with a financial and legal adviser) to:

- ***understand the terms and conditions of Certificates and the mechanics for the calculation of the investment returns;***
- ***evaluate how the Certificates will perform under changing conditions;***
- ***evaluate the resulting effects on the value of the Certificates; and***
- ***understand and assess the impact this investment will have on the potential investor's overall investment portfolio.***

Risk Factors relating to the Certificates

Potential investors should be aware that:

- (a) **they may lose all or a substantial portion of their investment, depending on the performance of the Reference Fund Basket;**
- (b) they may lose all or a substantial portion of their principal or investment if (i) the Issuer defaults on its payment obligations under the Certificates, (ii) the Certificates are subject to unscheduled early termination at less than par or (iii) the investor sells its Certificates in the secondary market for less than the purchase price;
- (c) the returns of the Certificates are calculated on the basis of complex mathematical formulae and that it is important that the investor has read and understood the methodology for calculating how the movement of the Reference Fund Basket, the financing costs (as represented by the Cash Account) and the deduction of the distribution fee will influence the value of the Certificates;
- (d) the market price of the Certificates may be very volatile;
- (e) payment of principal or coupon amount, if applicable, may occur at a different time or in a different currency than expected;
- (f) a Reference Fund may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies, shares, indices or other underlying assets; and
- (g) the timing of changes in a Reference Fund may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Reference Funds, the greater the effect on yield.

The Certificates are not ordinary debt securities

The terms of the Certificates differ from those of ordinary debt securities because the Certificates pay the coupon amount only on specified coupon payment dates and not throughout the life of the Certificates, and the coupon paid will subsequently be deducted from the return on the Certificates, and on maturity depending on the performance of the Reference Funds, may return less than the amount invested or nothing. Prospective investors who consider purchasing the Certificates should reach an investment decision only after carefully considering the suitability of the Certificates in light of their particular circumstances. The price of the Certificates may fall in value as rapidly as it may rise, and investors in the Certificates may potentially lose all of their investment.

The value of the Certificates linked to the Reference Funds may be influenced by unpredictable factors

The value of the Certificates may be influenced by several factors beyond the Issuer's, and/or its Affiliates', control including:

1. ***Valuation of the Reference Funds.*** The market price or value of a Certificate at any time is expected to be affected primarily by changes in the level of the Reference Funds to which the Certificates are linked. It is impossible to predict how the level of the Reference Funds will vary over time. The historical performance value (if any) of the Reference Funds does not indicate the future performance of the Reference Funds. Factors which may have an effect on the value of the Reference Funds include the rate of return of the Reference Funds and the market price or value of the Reference Funds. In addition, the level of the Reference Funds may depend on a number of inter related factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that whilst the market value of the Certificates is linked to the Reference Funds and will be influenced (positively or negatively) by the Reference Funds, any change may not be comparable and may be disproportionate. It is possible that while the Reference Funds is increasing in value, the value of the Certificates may fall. Further, the Conditions of the Certificates will allow the Determination Agent to make

adjustments or take any other appropriate action if circumstances occur where the Certificates or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities;

2. *Volatility.* The term “**volatility**” refers to the actual and anticipated frequency and magnitude of changes of the market price with respect to a Reference Fund. Volatility is affected by a number of factors such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a Reference Fund will move up and down over time (sometimes more sharply than at other times);
3. *Interest Rates.* Investments in the Certificates may involve interest rate risk. The interest rate level may fluctuate on a daily basis and cause the value of the Certificates to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In general, the effects of this risk increase as the market interest rates increase;
4. *Distributions.* The value of the Certificates could, in certain circumstances, be affected by fluctuations in the actual or anticipated distributions on a Reference Fund;
5. *Remaining Term.* Generally, the effect of pricing factors over the term of the Certificates will decrease as the scheduled cash settlement payment date approaches. However, this reduction in the effect of pricing factors will not necessarily develop consistently up until the scheduled cash settlement payment date, but may undergo temporary acceleration and/or deceleration. Even if the value of the Reference Funds rises or falls, there may a reduction or increase, as the case may be, in the value of the Certificates due to the other value determining factors. Given that the term of the Certificates is limited, investors cannot rely on the value of the Reference Funds or the value of the Certificates recovering again prior to maturity;
6. *Creditworthiness.* Any prospective investor who purchases the Certificates is relying upon the creditworthiness of the Issuer and has no rights against any other person. If the Issuer becomes insolvent, investors may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as the Reference Funds; and
7. *Exchange Rates.* Even where payments in respect of the Certificates are not expressly linked to a rate or rates of exchange between currencies, the value of the Certificates could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Certificates is to be made and any currency in which a Reference Fund is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of the Certificates will be representative of the relevant rates of exchange used in computing the value of the Certificates at any time thereafter.

Some or all of the above factors will influence the price investors will receive if an investor sells its Certificates prior to maturity, which is usually referred to as "secondary market practice". For example, investors may have to sell certain Certificates at a substantial discount from the principal amount or investment amount if the market price or value of the applicable Reference Funds is at, below, or not sufficiently above the initial market price or value or if market interest rates rise. The secondary market price may be lower than the market value of the issued Certificates as at the Issue Date to take into account, amongst other things, amounts paid to distribution agents and other intermediaries relating to the issue and sale of the Certificates and amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, any investor that sells the Certificates before the stated expiration or scheduled cash settlement payment date, may receive an amount in the secondary market which may be less than the then intrinsic market value of the Certificates and which may also be less than the amount the investor would have received had the investor held the Certificates through to maturity.

Credit risk

Holders of Certificates bear the credit risk of the Issuer, that is the risk that the Issuer, is not able to meet its obligations under the Certificates, irrespective of how any principal, coupon amount or other payments under the Certificates are to be calculated. Any rating of the Issuer reflects the independent opinion of the relevant rating agency and is not a guarantee of the credit quality of the Issuer.

Risks relating to funds

The return on the Certificates depends on the performance of the Reference Funds. Investments offering direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including but not limited to, market risks to a direct investment in funds.

Prospective investors should note that payments on termination of the Certificates at maturity, expiration, early termination may be postponed, in accordance with the Conditions, up to a specified long stop date and if the specified

long stop date is reached, for the purposes of determining the cash settlement amount, the affected reference fund interest units may be deemed to have a zero value.

Prospective investors should also be aware that if one or more events occur in relation to any Reference Fund, including the insolvency of such Reference Fund, then the Certificates shall be terminated early. The amount investors receive on such early termination of the Certificates will be based on the value of the Certificates on or around the time of termination and may be considerably less than their original investment and may even be zero.

The risks associated with investing in Certificates are similar to the risks attached to a direct investment in the Reference Funds. There are substantial risks in directly or indirectly investing in funds including, without limitation, the risks set out below. Prospective investors should note that references to funds below can refer both to the Reference Funds and also to any funds in which any of those Reference Funds invests its assets from time to time:

Investments risks that prospective investors should be aware of include the following:

1. Different types of funds are subject to differing levels of regulatory supervision.
2. Funds may have varying restrictions on leverage. Leverage presents the potential for a higher rate of return but also increases the volatility of the fund and increases the risk of a total loss of the amount invested.
3. Funds may have differing investment restrictions and some funds may invest in assets which are illiquid or difficult to transfer. This may have an effect on the realisation of such assets and in turn, the value and performance of the fund. In addition, a fund's assets or investments may be concentrated in a few markets, countries, industries, commodities, sectors of an economy or issuers. If so, adverse movements in a particular market, country, industry, commodity, economy or industry or in the value of the securities of a particular issuer could have a severely negative effect on the value of such a fund. In addition, a fund may use a single advisor or employ a single strategy, which could mean a lack of diversification and higher risk.
4. Substantial redemptions by holders of units in a fund within a short period of time could require the fund's investment manager(s) and/or adviser(s) to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the fund's assets.
5. The performance of a fund will be heavily dependent on the performance of investments selected by its advisers or investment managers and the skill and expertise of such fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the adviser's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the fund's adviser or investment manager, the value or profitability of the fund's investments may be adversely affected as a result.

For further information on the risks related to each of the Reference Funds, please refer to the relevant prospectuses of the Reference Funds on the following website: (www.consultinvest.it/sgr/fondi.asp).

Please note, however, that none of the Issuer, the Dealer or any of their affiliates has had any involvement in the preparation of such prospectuses and has not reviewed them, and takes no responsibility whatsoever for the information included in them. The information contained on such websites does not form part of this Prospectus and is not incorporated by reference herein.

A high correlation of Reference Funds in the Reference Fund Basket may have a significant effect on amounts payable on the Certificates

Correlation of assets in a basket indicates the level of interdependence among the individual assets with respect to their performance. Past rates of correlation may not be determinative of future rates of correlation. Investors should be aware that, though assets may not appear to be correlated based on past performance, it may be that they suffer the same adverse performance following a general downturn or other economic or political event. Where the Reference Funds are subject to high correlation, any move in the performance of the Reference Funds will exaggerate the performance of the Certificates.

Early Termination Risk

The Certificates may be mandatorily terminated prior to their scheduled maturity if on any Observation Date, the Leveraged Index as of the second Observation Date preceding such Observation Date is less than (i) the sum of the Coupons (each equalling 3%) from, and including, such immediately preceding second Observation Date to, and including, the Expiration Date plus (ii) 10%. In the event of such early termination, investors will not be able to participate in any future potential upside performance of the Reference Funds.

Leverage risks

The Certificates represent a leveraged investment. The leverage feature gives the potential for a higher rate of return than would otherwise be the case, but it will also increase the volatility of the value of the Certificates and will increase the size of any potential loss suffered by an investor on the return on the Certificates. Please see “*Investment Objective and Description of the Potential Return on the Certificates – The Basket Value Reflects a Leveraged Exposure to the Reference Funds*” below for an explanation of the leverage feature.

Risks of financing costs

The potential return on the Certificates will be reduced by financing costs (represented by the "Cash Account" calculation) which are deducted from the amount otherwise payable. The financing cost effectively represents a borrowing charge paid to the Issuer for the leverage feature, though it is charged against the entire Basket Value. The financing costs will increase, and therefore the potential return on the Certificates will be reduced, where the 3-month EURIBOR interest rate (represented by “**RFRt(R-1)**” in the terms and conditions of the Certificates) increases during the term of the Certificates. Please see “*Investment Objective and Description of the Potential Return on the Certificates – What is the Cost of Financing the Leveraged Exposure?*” below for an explanation of the financing cost.

Potential conflicts of interest between the investors and the Distribution Agent and Managers of the Reference Funds

Consultinvest Investimenti SIM S.p.A. is both the Distribution Agent of the Certificates and belongs to the same group as the manager of the Reference Funds. As Distribution Agent, Consultinvest Investimenti SIM S.p.A. will receive a total maximum distribution fee of EUR 50 per Certificate sold. The manager of the Reference Funds will receive the benefit of increased assets under its management (and therefore fees) by virtue of the Issuer acquiring units of the Reference Funds directly for purposes of its hedging arrangements. This may give rise to potential conflicts of interest with investors, including in relation to any recommendations to potential investors to purchase the Certificates.

Rebalancing risks

In order to maintain the target multiplier level of 125 per cent., the exposure of the Certificates to the Reference Funds will periodically rebalance, as the value of the Reference Funds increases or decreases. The effect of such periodic rebalancing may be to increase or reduce the potential return on the Certificates than would otherwise be the case. Please see “*Investment Objective and Description of the Potential Return on the Certificates – Rebalancing*” below for an explanation of the rebalancing feature.

Certain considerations regarding the use of the Certificates as hedging instruments

Any person intending to use the Certificates as a hedging instrument should recognise the "correlation risk" of doing this. Correlation risk is the potential differences in exposure for a potential investor that may arise from the ownership of more than one financial instrument. The Certificates may not hedge exactly a Reference Fund. In addition, it may not be possible to liquidate the Certificates at a level which directly reflects the price of the Reference Funds. Potential investors should not rely on the ability to conclude transactions during the term of the Certificates to offset or limit the relevant risks. This depends on the market situation and the specific Reference Funds conditions. It is possible that such transactions will only be concluded at an unfavourable market price, resulting in a corresponding loss for the Securityholder.

Effect on the Certificates of hedging transactions by the Issuer

The Issuer may use a portion of the total proceeds from the sale of the Certificates for transactions to hedge the risks of the Issuer relating to the Certificates. In such case, the Issuer or any of its Affiliates may conclude transactions that correspond to the obligations of the Issuer under the Certificates. As a rule, such transactions are concluded prior to or on the Issue Date, but it is also possible to conclude such transactions after issue of the Certificates. On or before a valuation date the Issuer or any of its Affiliates may take the steps necessary for closing out any hedging transactions. It cannot, however, be ruled out that the price of a Reference Fund will be influenced by such transactions. Entering into or closing out these hedging transactions may influence the probability of occurrence or non-occurrence of determining events in the case of Certificates with a value based on the occurrence of a certain event in relation to a Reference Fund.

Effect of the liquidity of the Reference Funds on Certificate pricing

The Issuer's and/or its Affiliates' hedging costs tend to be higher the less liquidity the Reference Funds has or the greater the difference between the "buy" and "sell" prices for the Reference Funds. When quoting prices for the Certificates, the Issuer and/or its Affiliates will factor in such hedging costs and will pass them on to the Securityholders by incorporating them into the "buy" and "sell" prices. Thus, Securityholders selling their Certificates on an exchange or on the over the counter market may be doing so at a price that is substantially lower than the actual value of the Certificates at the time of sale.

The pricing of the Certificates takes into account that investors may exercise the Certificates on a daily basis during the term of the Certificates until its scheduled maturity, subject to 5 Business Days' notice. If the investor exercises such right, then EUR 23.70 (being an amount equal to 3 per cent. of par) will be deducted from the cash settlement amount otherwise payable by the Issuer to the investor. The deducted amount of EUR 23.70 represents costs and commissions payable by the Issuer for the unwinding of the transactions that it has entered into in order to hedge its exposure under the Certificates. The amount payable on early termination may be less than the initial amount invested.

Provided that there is a secondary market for the Certificates at the relevant time, an investor wishing to exit the investment prior to maturity could instead choose to sell the Certificates in the secondary market. In such case, the price received by the investor may be less than the purchase price paid by it and it may lose some of the invested amount (see "*Secondary trading of the Certificates may be limited*" below).

No affiliation with underlying companies

None of the administrator or manager of any of the Reference Funds will be an affiliate of MSI plc. MSI plc or its subsidiaries may presently or from time to time engage in business with any of such entities, including entering into loans with, or making equity investments in, such entity or its affiliates or subsidiaries or Reference Fund or providing investment advisory services to any of such entities, including merger and acquisition advisory services. Moreover, no Issuer has the ability to control or predict the actions of the administrator, manager or Reference Fund, of the type that would require the Determination Agent to adjust the payout to the investor at maturity. No administrator, manager or Reference Fund, is involved in the offering of the Certificates in any way or has any obligation to consider the investor's interest as an owner of the Certificates in taking any corporate actions that might affect the value of the Certificates.

Fluctuations in the value of a Reference Fund in the Reference Fund Basket may, where applicable, be offset or intensified by fluctuations in the value of other Reference Funds. The historical value (if any) of the Reference Funds does not indicate their future performance.

Secondary trading of the Certificates may be limited

Potential investors should be willing to hold the Certificates until maturity. The nature and extent of any secondary market in the Certificates cannot be predicted and there may be little or no secondary market in the Certificates. As a consequence any person intending to hold the Certificates should consider liquidity in the Certificates as a risk. The listing and quotation of the Certificates on an exchange or quotation system does not imply greater or lesser liquidity than if equivalent securities were not so listed or quoted and the Issuer cannot guarantee that the listing or quotation will be permanently maintained.

Further, although the Issuer will apply for the Certificates to be listed (i) on the Official List and admitted to trading on the Irish Stock Exchange, a regulated market for the purposes of Directive 2004/39/EC on Markets in Financial Instruments, and (ii) admitted to trading on the Euro TLX market, an MTF organised and managed by Euro TLX SIM S.p.A. and which is not a regulated market for the purposes of Directive 2004/39/EC on Markets in Financial Instruments, approval for any listing is subject to meeting the relevant listing requirements. Even if there is a secondary market, it may not provide enough liquidity to allow the investor to sell or trade the Certificates easily. MSI plc, and other affiliates of MSI plc, may from time to time, make a market in the Certificates, but they are not required to do so. If at any time MSI plc and other affiliates of the Issuer were to cease making a market in the Certificates, it is likely that there would be little or no secondary market for the Certificates.

Investors have no rights in the Reference Funds

As an owner of Certificates, investors will not have voting rights or rights to receive dividends, interest or other distributions, as applicable, or any other rights with respect to the underlying Reference Funds.

Exchange rates may affect the value of a judgment

The Certificates and any non-contractual obligations arising out of or in connection with them shall be governed by English law. Although an English court has the power to grant judgment in the currency in which a Certificate is denominated, it may decline to do so in its discretion. If judgment were granted in a currency other than that in which a Certificate is denominated, the investor will bear the relevant currency risk.

Potential conflicts of interest between the investor and the Determination Agent of the Certificates

As Determination Agent for Certificates linked to a basket of funds, MSI plc or an affiliate will determine the pay-out to the investor at maturity. MSI plc and other affiliates may also carry out hedging activities related to the Certificates, including trading in the underlying Reference Funds as well as in other instruments related to the Reference Fund Basket. MSI plc may also trade the applicable underlying Reference Funds and other financial instruments related to the underlying Reference Funds on a regular basis as part of their general broker dealer and other businesses. Any of these activities could influence the Determination Agent's determination of adjustments made to the Certificates and any such trading activity could potentially affect the price of the underlying Reference Funds and, accordingly, could affect the investor's pay-out on the Certificates.

Actions taken by the Determination Agent may affect the Reference Funds

The Determination Agent may make such adjustments as it considers appropriate as a consequence of certain corporate events affecting the Reference Funds, including Market Disruption Events, Reference Fund Events, Settlement Postponement Events and Potential Adjustment Events. In making these adjustments the Determination Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest, including the conflicts of interest highlighted above, in exercising this discretion. The Determination Agent is not required but has the discretion to make adjustments with respect to each and every corporate events. Please see Condition 14 (*Provisions relating to Reference Fund Basket Securities*) in the “*Terms and Conditions of the Certificates*” below.

Certificates in Global Form

Because the Global Registered Certificate (as defined below) will be held by or on behalf of Euroclear Bank S.A./N.V. (“Euroclear”), investors will have to rely on their procedures for transfer, payment and communication with the Issuer.

The Certificates are represented by interests in a global registered certificate (the “**Global Registered Certificate**”). The Global Registered Certificate Form will be deposited with a common depositary for Euroclear. Except in the circumstances described in the Global Registered Certificate Form, investors will not be entitled to receive definitive Certificates. Euroclear will maintain records of the beneficial interests in the Global Registered Certificate Form. While the Certificates are represented by the Global Registered Certificate Form, investors will be able to trade their beneficial interests only through Euroclear.

While the Certificates are represented by the Global Registered Certificate Form, the Issuer will discharge its payment obligations under the Certificates by making payments through Euroclear for distribution to their account holders. A holder of an interest in the Global Registered Certificate Form must rely on the procedures of Euroclear, to receive payments under the Certificates. The Issuer does not have responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Registered Certificate Form. Holders of beneficial interests in the Global Registered Certificate will not have a direct right to vote in respect of the Certificates. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear to appoint appropriate proxies.

Modification and waiver

The Conditions of the Certificates contain provisions for calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders of the Certificates, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Change of law

The Conditions of the Certificates are based on English law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice in England after the date of this Prospectus.

Restricted secondary trading if the electronic trading system is unavailable

Trading in the Certificates may be conducted via one or more electronic trading systems so that “buy” and “sell” prices can be quoted for exchange and off exchange trading. If an electronic trading system used by the Issuer and/or its Affiliates were to become partially or completely unavailable, such a development would have a corresponding effect on the ability of investors to trade the Certificates.

Provision of information

Neither the Issuer nor any of its Affiliates makes any representation as to the issuer for any Reference Funds. Any such persons may have acquired, or during the term of the Certificates may acquire, non-public information with respect to any such issuer, publisher or specified entity, their respective affiliates or any guarantors that is or may be material in the context of the Certificates. The issue of Certificates will not create any obligation on the part of any such persons to disclose to the Securityholders or any other party such information (whether or not confidential).

Independent review and advice

Each prospective investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Certificates is (i) fully consistent with its (or if it is acquiring the Certificates in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Certificates as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Certificates in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Certificates. The Issuer disclaims any responsibility to advise prospective investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments on the Certificates.

Subscription periods

The Issuer has the right to close the offering of the Certificates prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased currency exchange rate volatility. Such early closure may occur even where the maximum amount for subscription in relation to the offering of the Certificates has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Certificates issued and, therefore, may have an adverse effect on the liquidity of the Certificates.

The Issuer has also reserved itself certain other rights in connection with the offering of Certificates: see “7. Terms and Conditions of the offer” in “Contractual Terms” below (such as to extend the offer period and to postpone the originally designated issue date, and related interest payment dates and the maturity date).

Market Disruption Event, Reference Fund Event, Settlement Postponement Event, Potential Adjustment Events and early termination of the Certificates or postponement and potential reduction of payment on the Certificates

The Determination Agent may determine that a Market Disruption Event has occurred or exists on a relevant date of valuation, and any consequential postponement of such date of valuation may have an adverse effect on the value of the Certificates.

In addition, on the occurrence of one or more Reference Fund Events, the Issuer will early terminate the Certificates. On the occurrence of one or more of certain events, such as Settlement Postponement Events and/or Potential Adjustment Events, the Issuer may early terminate or postpone and potentially reduce the payment on the Certificates. In this case, in relation to each Certificate, the Issuer will pay an amount, if any, determined as provided in the Conditions.

Prospective investors should review the Conditions to ascertain whether and how such provisions apply to the Certificates and what constitutes a Market Disruption Event, a Reference Fund Event, a Settlement Postponement Event or a Potential Adjustment Event.

Issuer's credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Issuer. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Certificates. A credit rating is not a recommendation to buy, sell or hold Certificates and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Certificates are legal investments for it, (ii) the Certificates can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of the Certificates. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of the Certificates under any applicable risk based capital or similar rules.

Representations and acknowledgments by Securityholders

Representations and acknowledgments by Securityholders. Each Securityholder shall be deemed to represent and acknowledge to the Issuer on acquiring the Certificates that:

- (a) neither the Issuer and/or any Affiliate nor any of their agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Certificates and that such holder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuer or any Affiliate as (i) legal, regulatory, tax, business, investment, financial, accounting or other advice, (ii) a recommendation to invest in the Certificates or (iii) an assurance or guarantee as to the expected results of an investment in the Certificates (it being understood that information and explanations related to the terms and conditions of the Certificates shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);
- (b) such Securityholder (i) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer or any Affiliate or any of their agents and (ii) is acquiring the Certificates with a full understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and
- (c) the Issuer and/or any Affiliates may have banking or other commercial relationships with issuers of the Reference Funds to which the Certificates relate and may engage in proprietary trading in the Reference Funds to which the Certificates relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuer and/or any Affiliate deem appropriate in their sole discretion to hedge the market risk on the Certificates and other transactions between the Issuer and/or any Affiliates and any third parties), and that such trading (a) may affect the value thereof and consequently the amounts payable under the Certificates and (b) may be effected at any time.

Disclosure

None of the administrators or managers of the Reference Funds has participated in the preparation of this document or in establishing the Conditions of the Certificates and neither the Issuer nor any of their Affiliates will make any investigation or enquiry in connection with such offering with respect to any information concerning any such Reference Fund or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the Issue Date (including events that would affect the accuracy or completeness of any publicly available information described in this document) that would affect the value of the Reference Funds have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the Reference Fund could affect the value of the Reference Funds and therefore the trading price of the Certificates.

Potential U.S. Withholding Tax under FATCA

Sections 1471 through 1474 of the U.S. Internal Revenue Code (the "**Code**") and any regulations thereunder, an agreement entered into with the IRS pursuant to such sections of the Code, an intergovernmental agreement (an "**IGA**") between the United States and another jurisdiction in furtherance of such sections of the Code, or any non-U.S. laws or rules implementing an IGA (collectively referred to as "**FATCA**") may impose a withholding tax of 30 per cent. on payments made on the Certificates (including payments made by financial intermediaries), unless various U.S. information reporting and due diligence requirements have been satisfied.

United Kingdom stamp duty and stamp duty reserve tax

Potential purchasers of Certificates should note that each Certificate may constitute an instrument which is subject to United Kingdom stamp duty on issue by reference to the amount of the consideration given for the Certificates so represented. If stamp duty is payable on the Certificates, interest will be payable (in addition to the stamp duty) in respect of the period from 30 days after the date of execution of the Certificates to the date of payment. Penalties may also be payable if the Certificates are not stamped within 30 days of the date of execution of the Certificates. If a Certificate is subject to United Kingdom stamp duty, it would be inadmissible in evidence in an English court unless duly stamped. Potential purchasers should note that UK stamp duty reserve tax may become payable upon the issue of the Certificates depending on the nature of the underlying securities and the precise terms of the Certificates. Furthermore, potential purchasers should also note that UK stamp duty or stamp duty reserve tax may be payable on the transfer and / or exercise of the Certificates depending on the nature of the Relevant Factor and the precise terms of the Certificates.

for a payment not being a Business Day or (B) a cheque mailed in accordance with this Condition 5 (Exercise) arriving after the due date for payment or being lost in the mail.

- (e) Each payment or delivery in respect of a Registered Certificate will be made to the person shown as the holder in the Register at the opening of business in the place of the Securities Registrar's Specified Office on the fifteenth day before the due date for such payment (the "Record Date"). Where the payment in respect of a Registered Certificate is to be made by cheque, the cheque will be mailed to the address of the holder in the Register at the opening of business on the relevant Record Date as specified in the Contractual Terms.

5.9 *Effect of Exercise Notice:*

- (b) Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Securityholder to exercise the Certificates specified therein, provided that the person exercising and delivering such Exercise Notice is the person then appearing in the Register as the holder of the relevant Registered Certificate. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become void and shall be deemed not to have been so delivered.
- (c) After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void pursuant to Condition 5.1(b) above) by a Securityholder, such Securityholder shall not be permitted to transfer either legal or beneficial ownership of the Certificates exercised thereby. Notwithstanding this, if any Securityholder does so transfer or attempt to transfer such Certificates, the Securityholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently: (i) entering into replacement hedging operations in respect of such Certificates; or (ii) paying any amount on the subsequent exercise of such Certificates without having entered into any replacement hedging operations.

14.1 **Adjustments for Disrupted Days**

- (a) The Determination Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been a Valuation Date.
- (b) If a Scheduled Valuation Date is a Disrupted Day for any Reference Fund Interest in respect of any Reference Fund in the Reference Fund Basket, then the Valuation Date for the Reference Fund Interest in respect of each Reference Fund in the Reference Fund Basket shall be the first succeeding Relevant Date following such Scheduled Valuation Date, unless no Relevant Date has occurred by the Cut-off Date in respect of such Scheduled Valuation Date. In that case, (i) the Cut-off Date shall be deemed to be such Valuation Date, and (ii) the Determination Agent shall determine its good faith estimate of the net asset value for that Reference Fund Interest as of the Valuation Time on such Valuation Date.

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Cash Settlement Amount and/or any other amounts payable under the Certificates, and no interest or other amount shall be payable to Securityholders in respect of any such delay, or making the appropriate adjustment to the calculation of the Cash Settlement Amount and/or any such other amounts, all in the determination of the Determination Agent.

14.2 *Postponement of Settlement*

- (a) Unless otherwise specified in the Contractual Terms, if the Determination Agent determines on the date which is not later than 3 Business Days prior to any date on which the Cash Settlement Amount or any other amounts would otherwise be due to be paid (each a “**Scheduled Settlement Date**”) that a Settlement Postponement Event has occurred, then the Determination Agent shall make such adjustment to account for such Settlement Postponement Event and such adjustment shall include the postponement of the obligation of the Issuer to pay the Cash Settlement Amount or any such other amounts, as applicable, until the Postponed Settlement Date and no interest or other amount shall be payable to Securityholders in respect of such postponement.
- (b) If the Postponed Settlement Date is the Postponed Settlement Long Stop Date, for the purposes of determining the Cash Settlement Amount or any other relevant amounts, as applicable, each Reference Fund Interest Unit will be deemed to have a net asset value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in respect of such Reference Fund Interest Unit would have received in respect of such redemption on or before each Long Stop Date Reference Fund Interest Unit (if any) comprising the Reference Fund Basket.
- (c) For the purposes hereof:
 - (i) a “**Settlement Postponement Event**” shall be deemed to occur if, as determined by the Determination Agent, a Hypothetical Investor which had submitted a Final Redemption Notice in respect of each Reference Fund Interest Unit comprised in the Reference Fund

Basket would not have received in full the redemption proceeds in respect of such redemptions on or before the date which is 4 Business Days prior to the Scheduled Settlement Date;

- (ii) the “**Postponed Settlement Date**” means, unless otherwise specified in the Contractual Terms, the earlier of (A) the date which is 3 Business Days after the date on which, as determined by the Determination Agent, such Hypothetical Investor would have received such redemption proceeds in full and (B) the Postponed Settlement Long Stop Date;
- (iii) the “**Postponed Settlement Long Stop Date**” means, unless otherwise specified in the Contractual Terms, the date which is 3 months after the Scheduled Settlement Date;
- (iv) “**Long Stop Date Reference Fund Interest Unit**” means, in relation to the Reference Fund Basket, any Reference Fund Interest Unit in respect of which, if a Hypothetical Investor had submitted a Final Redemption Notice in respect of such Reference Fund Interest Unit, such Hypothetical Investor would not have received in full the redemption proceeds in respect of such redemption on or before the Postponed Settlement Long Stop Date; and
- (v) “**Final Redemption Notice**” means, in respect of a Reference Fund Interest Unit, a valid redemption notice submitted on the last date permitted pursuant to the Reference Fund Documents of the related Reference Fund for a redemption notice that would be timely for redemption prior to the Scheduled Settlement Date.

14.3 *Potential Adjustment Events*

Following the declaration by any Reference Fund or Reference Fund Service Provider of the terms of any Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Reference Fund Interest Units or amount of Reference Fund Interest and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the Cash Settlement Amount and/or any such other amounts payable under the Certificates and, in any case, any other variable relevant to the calculation, valuation, payment or other terms of Certificates as the Determination Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends or liquidity relative to the relevant Reference Fund Interest) and (b) determine the effective date(s) of the adjustment(s).

14.4 *Corrections and Adjustment*

With the exception of any Adjustments (as defined below) made after the day which is 5 Business Days, unless otherwise specified in the Contractual Terms, prior to a due date for any payment under the Certificates calculated by reference to the price or level of any Reference Fund Interest Unit, if the Determination Agent determines that a Reference Fund adjusts the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming the number of Reference Fund Interest Units that are subject to valuation and such adjustment would be reflected in either an additional payment to such Hypothetical Investor or a claim for repayment of excess Redemption Proceeds made against such Hypothetical Investor (each an “**Adjustment**”), then the price or level to be used shall be the price or level of the relevant Reference Fund Interest Units as so adjusted.

14.5 *Reference Fund Events*

- (a) If at any time the Determination Agent determines that a Reference Fund Event has occurred and/or is continuing then the Determination Agent shall provide written notice thereof to the Issuer (a “**Reference Fund Event Notice**”). The Determination Agent shall not have any obligation to monitor the occurrence of a Reference Fund Event nor shall it have any obligation to make a determination that a Reference Fund Event has occurred or is continuing.
- (b) The Issuer may, in its sole and absolute discretion, determine the mechanics for determining and calculating the valuation of any Affected Reference Fund Interest. Any payments under the Certificates shall be suspended, subject to Condition 14.5(c) below.
- (c) Upon receipt of a Reference Fund Event Notice, the Issuer shall terminate each Certificate at its Reference Fund Event Settlement Amount on such date as the Issuer may notify to Securityholders in accordance with Condition 21 (*Notices*).

14.6 *Notice of Reference Fund Event*

Notice of the consequences of a Reference Fund Event shall be given to the Securityholders in accordance with Condition 21 (*Notices*). Such notice shall (i) identify the Affected Reference Fund Interest (if applicable) and the relevant Reference Fund Event and contain a summary of the facts constituting such event and (ii) specify the date on which the Certificates are to be terminated.

8. REBALANCING

- 8.1 On the first Rebalance Date (being the Strike Date), the number of units of each Reference Fundi represented in the Reference Fund Basket on the Strike Date (“**N**_{t(0)}ⁱ”) is determined by the Determination Agent in accordance with the following formula:

$$\frac{\text{Target Multiplier} \times \text{Leveraged Index}_{t(0)} \times w^i}{RF_{t(0)}^i}$$

- 8.2 On each Rebalance Date following the Strike Date, the number of units of each Reference Fundi represented in the Reference Fund Basket on such Rebalance Date (“ $N_{t(R)}^i$ ”) is adjusted by the Determination Agent and determined in accordance with the following formula:

$$\Delta N_{t(R)}^i + N_{t(R-1)}^i$$

- 8.3 Where:

“ $\Delta N_{t(R)}^i$ ” means, in respect of a Rebalance Date, a value determined by the Determination Agent as follows:
if ΔDiff_t is:

- (a) greater than zero, $\Delta N_{t(R)}^i$ shall be determined in accordance with the following formula:

$$\frac{\Delta \text{Diff}_t}{RF_t^i} \times \overline{w^i}$$

The Issuer has determined that the Certificates should not be subject to

withholding under Section 871(m) of the Code, and hereby instructs its agents and withholding agents that no withholding is required, unless such agent or withholding agent knows or has reason to know otherwise.

INVESTMENT OBJECTIVE AND DESCRIPTION OF THE POTENTIAL RETURN ON THE CERTIFICATES

This section provides a narrative, nontechnical explanation of the intended investment objective of the Certificates and of the methodology for the calculation of the potential returns. The information in this section is by way of further description and explanation of information appearing elsewhere in this Prospectus. The Certificates will be governed by the "Terms and Conditions of the Certificates" as completed and amended by the "Contractual Terms" including the "Annex to Contractual Terms (Special Terms and Conditions)", and therefore a full understanding of the Certificates can only be achieved with a full reading of those sections.

Investment objective

The investment objective of the Certificates is to provide an investor with a target *leveraged economic exposure* to the performance of an equally weighted basket of funds (each a "Reference Fund" and, together, the "Reference Fund Basket").

The Reference Funds are

The Reference Funds are Italian domiciled UCITS III funds, managed by Consultinvest Asset Management SGR S.p.A., an affiliate of the Distribution Agent.

How much are the distribution fees and what is their impact?

For each investment of EUR 800 in the Certificates, EUR 10 (1.25 per cent.) is retained by the Distribution Agent on account of its distribution fee. This means that, for each EUR 800 of investment, only EUR 790 will be invested in the Certificates. All payments under the Certificates which investors are entitled to receive will therefore be calculated by reference to a nominal amount of EUR 790. As Distribution Agent, Consultinvest Investimenti SIM S.p.A. will receive a maximum total distribution fee of EUR 50 for each Certificate sold

What are the potential returns on the Certificates?

The Certificates offer the potential for payment of Coupon Amounts (subject to early termination of the Certificates) and a Cash Settlement Amount.

The Coupon Amount is, in respect of each Certificate, EUR 40, being 5.06329 per cent of the Nominal Amount, after rounding up to the nearest minimum unit of the Settlement Currency, payable on an annual basis on the relevant Coupon Payment Date.

The Cash Settlement Amount is calculated by reference to the performance of the Basket Value and reduced by the amount of the financing cost and the Coupon Amount. The Cash Settlement Amount will be payable on 7 June 2022, provided that the Certificates have not been early terminated or purchased and cancelled.

Warning: Potential to lose up to the entire amount invested

The Certificates are not capital protected and investors may lose some or up to all of their investment. Anyone wishing to purchase Certificates must be able to withstand up to a complete loss of the amount invested. Any potential investor should also carefully consider the information in “Risk Factors” above.

What is the Basket Value?

The Basket Value at any time represents the weighted sum of the NAV of each Reference Fund in the Reference Fund Basket multiplied by the number of units of the Reference Fund in which a Certificate is notionally invested at such time. The Basket Value is set at EUR 987.5 (prior to being “unitised” for the purposes of calculation) at the start of the investment and will subsequently fluctuate in line with the increase or decrease in value of the Reference Funds, and changes to the “units” of each Reference Fund following each rebalancing (as described below).

The Certificates reflect a leveraged exposure to the Reference Funds

The return of the Certificates depends on the performance of the Reference Fund Basket, amongst other things, as described in “*What are the potential returns on the Certificates?*” above. The exposure of the Certificates to the Reference Funds is “leveraged” through multiplying the initial exposure to each Reference Fund by the “target multiplier” of 125 per cent. This is why the value of the initial Basket Value (prior to being “unitised” for purposes of the calculation) is EUR 987.5 instead of the nominal amount of EUR 790. As a result of this leveraging feature, the effect on the return on the Certificates of the increase or decrease in the value of the Reference Funds will be magnified.

This can be explained by the following example:

In a non-leveraged product, EUR 1 invested in the Certificate would give an investor exposure to EUR 1 worth of the underlying asset. If the underlying asset increases by EUR 0.10 in value (10 per cent. performance), the Certificate would also increase by EUR 0.10 in value (10 per cent. performance). However, in a leveraged scenario, where the leverage is set at 125 per cent., EUR 1 invested in the Certificate would give an investor exposure to EUR 1.25 worth of the underlying assets. If the underlying asset increases by EUR 0.125 in value (10 per cent. performance) the value of the certificates will increase by EUR 0.125 in value, but will be a percentage increase of 12.5 per cent. thus magnifying the impact by 1.25 times. Similarly, a loss in the value of the underlying assets will be reflected in magnified terms as a loss in the value of the product.

A holder of Certificates could therefore realise a bigger gain (if the Reference Fund Basket increases in value) or a bigger loss (if the Reference Fund Basket decreases in value) than if there was no leverage.

The degree of leverage will change depending on the value of the Reference Fund Basket and rebalancing (as described below).

However, it is important to note that such leverage is only achieved by effectively paying a financing cost (as described immediately below) which will reduce the return on the Certificates.

How is the leveraged exposure achieved?

In order for the Certificates to provide a leveraged exposure, Morgan Stanley & Co. International plc effectively finances EUR 197.5 for each EUR 790 investment. When the two components (EUR 790 of investment and EUR 197.5 of financing) are combined together, the investor is put in a position where although it has invested EUR 790, it has a leveraged exposure to the Reference Fund Basket equal to EUR 987.5 (i.e. EUR 790 x 125 per cent.), as described above.

What is the cost of financing the leveraged exposure?

The financing cost for providing the additional leveraged economic exposure to the Reference Fund Basket beyond the invested amount of EUR 790 accrues on a daily basis as against the entire Basket Value (that is, not just the amount acquired through the effective financing, but also from the investor's purchase funds of EUR 790) over the term of the Certificates. The reference interest rate is calculated as the 3-month EURIBOR interest rate as recorded at the start of each financing period (being the last Rebalance Date) plus a financing spread of 1.05 per cent, applied to the value of the Cash Account at the last Rebalance Date. The potential return on the Certificates on any date is reduced by the financing costs, by deducting such costs from the performance measure of the Reference Fund Basket (being the “**Leveraged Index**” value, as described below) and further reduced by deduction of the Coupon (being 5.06329 per cent. of the Nominal Amount if such date is a Coupon Payment Date and zero if such date is not a Coupon Payment

Date) and by deduction of the Distribution Fee (being 1.2658228 per cent of the Nominal Amount if such date is a Distribution Fee Payment Date and zero if such date is not a Distribution Fee Payment Date). The financing cost is effectively a borrowing charge paid to Morgan Stanley & Co. International plc.

What is the Leveraged Index?

The Leveraged Index represents a value equal to the changes in the Basket Value (an increase in the Basket Value will increase the Leveraged Index) and the financing (the cost of financing will reduce the Leveraged Index) less the Coupon (being 5.06329 per cent. if such date is a Coupon Payment Date and zero if such date is not a Coupon Payment Date) less the Distribution Fee (being 1.2658228 per cent of the Nominal Amount if such date is a Distribution Fee Payment Date and zero if such date is not a Distribution Fee Payment Date).

On the Issue Date, the Leveraged Index corresponds to a monetary value of EUR 790, (that is the investment made in the Certificates), but is calculated as a value of 100 per cent. (expressed as 1.00). Throughout the term of the Certificates, the Leveraged Index will represent the unitised value of the Reference Fund Basket since the Strike Date, less the financing costs of providing the leveraged economic exposure and less the Coupon (being 5.06329 per cent. if such date is a Coupon Payment Date and zero if such date is not a Coupon Payment Date) less the Distribution Fee (being 1.2658228 per cent of the Nominal Amount if such date is a Distribution Fee Payment Date and zero if such date is not a Distribution Fee Payment Date).

How is the value of the Certificates affected by changes in the value of the underlying Reference Fund Basket?

The value of the Certificates will increase/decrease one for one as the aggregate NAV of the Basket Value increases/decreases, less the financing cost of providing the additional leveraged economic exposure less the Coupon (being 5.06329 per cent. if such date is a Coupon Payment Date and zero if such date is not a Coupon Payment Date), less the Distribution Fee (being 1.2658228 per cent of the Nominal Amount if such date is a Distribution Fee Payment Date and zero if such date is not a Distribution Fee Payment Date). For example, if the Basket Value increases/decreases by a given amount since the Strike Date, the Leveraged Index will increase/decrease by a corresponding amount, minus the applicable financing cost.

What is “rebalancing”?

The Target Multiplier and the initial leverage is 125 per cent. The multiplier is calculated as the Basket Value (EUR 987.5, prior to being “unitised” for calculation purposes) divided by the Leveraged Index (EUR 790). As the value of the Reference Fund Basket fluctuates, the multiplier or leverage also changes. This is because, as the NAV of each Reference Fund increases or decreases, each notional unit invested in such Reference Fund will reference a smaller or bigger portion of the Reference Fund. In particular, as the NAV of the Reference Fund Basket increases, the effective leverage decreases, and as the NAV of the Reference Fund Basket decreases, the effective leverage increases. For example, if the NAV of the Reference Fund Basket decreases by EUR 25, the effective leverage will be $(987.5 - 25) / (790 - 25) = 125.81$ per cent. (subject to the financing cost).

In order to maintain the leverage at the target level of 125 per cent., the exposure to each Reference Fund in the Reference Fund Basket rebalances where either of the following apply (subject to certain restrictions): (i) 90 days have elapsed since the last Rebalance Date or (ii) the effective leverage is greater than 135 per cent. or less than 115 per cent. On a Rebalance Date, the number of notional Units of each of the Reference Funds is adjusted, such that the targeted exposure to the equally weighted basket of Reference Funds is re-set to 125 per cent.

Termination of the Certificates

Certificates will be terminated following any one of the circumstances described immediately below. The Cash Settlement Amount payable on the Cash Settlement Payment Date depends on the circumstance leading to the termination of the Certificates:

- (a) ***Automatic early termination (floor):*** The Certificates will be terminated on any Observation Date (being any day which is both a (i) business day and a (ii) a reference fund business day for all the Reference Funds) during the term of the Certificates if the Leveraged Index (as described below) as of the second Observation Date preceding such Observation Date is less than the sum of (i) 0.10 and (ii) the sum of the Coupon, from, and including, the second Observation Date immediately preceding such Observation Date to, and including, the Expiration Date. In such case, each Certificate will be terminated for an amount equal to the product of (i) EUR 790 (being the initial investment amount of EUR 800, less the distribution fee of EUR 10) multiplied by (ii) the Leveraged Index on such Observation Date, payable on the fifth Business Day following such Observation Date. A “reference fund business day” for a reference fund is a day that the net asset value of a Reference Fund is scheduled to be published. **In the event of such early termination, investors will not be able to participate in any future potential upside performance of the Reference Funds.**

- (b) **Holder exercise:** Each holder of Certificates may, at its option, elect to terminate the Certificates on 5 Business Days' notice during the term of the Certificates until the Expiration Date (being 4 April 2017). In such case, each exercised Certificate will be terminated for an amount equal to the product of (i) EUR 790 multiplied by (ii) the Leveraged Index on the fifth Business Day immediately following the date on which an Exercise Notice relating to the Certificates was duly delivered minus 3 per cent., payable on the third Business Day following such fifth Business Day on which the Leveraged Index is determined.
- (c) **Scheduled maturity:** If the Certificates are not exercised or terminated prior to the Expiration Date (being 31 May 2022), they will be deemed to have been exercised on that date. In such case, each Certificate will be terminated for an amount equal to the product of (i) EUR 790 multiplied by (ii) the Leveraged Index on the Expiration Date, payable on 7 June 2022.

The Certificates could also be terminated due to illegality, tax event, event of default or a reference fund event, all as described below.

All valuation dates are subject to postponement for disruption events relating to the Reference Funds, and all payment dates are subject to postponement for non-Business Days.

The Cash Settlement Amount will not be less than zero.

No rights in or to the Reference Funds

Investors in the Certificates will have no legal or beneficial interest whatsoever in the Reference Funds. The “economic exposure” to the Reference Funds is achieved “synthetically” or “notionally” through the use of derivatives, and there is no physical holding of Reference Funds which is used to make payments on the Certificates or to secure amounts outstanding under the Certificates.

FORM OF THE CERTIFICATES

MSI plc will issue Certificates in registered form (“**Registered Certificates**”). Registered Certificates may be in either individual certificate form or in global certificate form.

Registered Certificates

Registered Certificates will be in the form of either individual certificates in registered form (“**Individual Registered Certificate**”) or a global certificate in registered form (a “**Global Registered Certificate**”), in each case as specified in the Contractual Terms. Each Global Registered Certificate will be registered in the name of a common depositary (or its nominee) for the Relevant Clearing System and the relevant Global Registered Certificate will be deposited on or about the issue date with the common depositary and will be exchangeable in accordance with its terms.

If the Contractual Terms specify the form of Certificates as being “Individual Registered Certificates”, then the Certificates will at all times be in the form of Individual Registered Certificates issued to each Securityholder in respect of their respective holdings.

If the Contractual Terms specify the form of Certificates as being “Global Registered Certificates exchangeable for Individual Registered Certificates”, then the Certificates will initially be in the form of a Global Registered Certificate which will be exchangeable in whole, but not in part, for Individual Registered Certificates:

- (a) on the expiry of such period of notice as may be specified in the Contractual Terms; or
- (b) at any time, if so specified in the Contractual Terms; or
- (c) if the Contractual Terms specify “in the limited circumstances described in the Global Registered Certificate”, then (i) if the Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (ii) an Event of Default occurs with respect to any Certificate in accordance with the Terms and Conditions of the Certificates.

Whenever the Global Registered Certificate is to be exchanged for Individual Registered Certificates, the Issuer shall procure that Individual Registered Certificates will be issued in an aggregate nominal amount or number of Certificates equal to the nominal amount or number of Certificates represented by the Global Registered Certificate within five business days of the delivery, by or on behalf of the registered holder of the Global Registered Certificate to the Securities Registrar of such information as is required to complete and deliver such Individual Registered Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Registered Certificates are to be registered and the quantity of each such person's holding) against the surrender of the Global Registered Certificate at the specified office of the Securities Registrar.

Such exchange will be effected in accordance with the provisions of the Securities Agency Agreement and the regulations concerning the transfer and registration of Certificates scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Securities Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Registered Certificates

The terms and conditions applicable to any Individual Registered Certificate will be endorsed on that Individual Registered Certificate and will consist of the terms and conditions set out under “Terms and Conditions of the Certificates” above and the provisions of the Contractual Terms which supplement, amend and/or replace those terms and conditions.

The terms and conditions applicable to any Global Registered Certificate will differ from those terms and conditions which would apply to the Certificate were it in individual form to the extent described under “*Summary of Provisions Relating to the Certificates while in Global Form*” below.

SUMMARY OF PROVISIONS RELATING TO THE CERTIFICATES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Registered Certificates (or any Tranche thereof) represented by a Global Registered Security, references in the “Terms and Conditions of the Certificates” to “**Securityholder**” are references to the person in whose name such Global Registered Security is for the time being registered which, for so long as the Global Registered Security is held by or on behalf of a depositary or common depositary for the Relevant Clearing System, will be that depositary or common depositary.

Each of the persons shown in the records of the Relevant Clearing System as being entitled to an interest in a Global Registered Security (each an “**Accountholder**”) must look solely to the Relevant Clearing System (as the case may be) for such Accountholder’s share of each payment made by the Issuer to the holder of such Global Registered Security and in relation to all other rights arising under such Global Registered Security, including any right to exchange any exchangeable Certificates or any right to require the Issuer to repurchase such Certificates. The respective rules and procedures of the Relevant Clearing System from time to time will determine the extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Registered Security and the timing requirements for meeting any deadlines for the exercise of those rights. For so long as the relevant Certificates are represented by the Global Registered Security, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Certificates and such obligations of the Issuer will be discharged by payment to the holder of the Global Registered Security, as the case may be, in respect of each amount so paid.

So long as the Relevant Clearing System or its nominee is the registered holder of a Global Registered Security, the Relevant Clearing System or such nominee, as the case may be, will be considered the sole owner of the Securities represented by such Global Registered Security for all purposes under the Securities Agency Agreement and such Certificates, except to the extent that in accordance with the Relevant Clearing System’s published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Exchange of Global Registered Certificates

Whenever a Global Registered Certificate is to be exchanged for Individual Registered Certificates, the Issuer shall procure that the relevant quantity of Individual Registered Certificates will be issued within five business days of the delivery, by or on behalf of the holder of the Global Registered Certificate to the Registrar of such information as is required to complete and deliver such Individual Registered Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Registered Certificates are to be registered and the quantity of each such person’s holding) against the surrender of the Global Registered Certificate at the specified office of the Securities Registrar. Such exchange will be effected in accordance with the provisions of the Securities Agency Agreement and the regulations concerning the transfer and registration of Registered Certificates scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Securities Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Registered Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Certificate; or
- (b) any of the Certificates represented by a Global Registered Certificate (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Certificates, payment or delivery (as applicable) in full has not been made to the holder of the Global Registered Certificate in accordance with the terms of the Global Registered Certificate on the due date for payment or delivery (as applicable),

then 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above), each person shown in the records of the Relevant Clearing System as being entitled to interest in the Certificates (each an “**Accountholder**”), shall acquire rights under the Deeds of Covenant to enforce against the Issuer, the Issuer’s obligations to the Securityholder in respect of the Certificates represented by the Global Registered Certificate, including the obligation of the Issuer to make all payments and deliveries when due at any time in respect of such Certificates as if such Certificates had been duly presented and (where required by the Conditions) surrendered on the due date in accordance with the Conditions. Each Accountholder shall acquire such right without prejudice to any other rights which the Securityholder may have under the Global Registered Certificate and the Deeds of Covenant. Notwithstanding the rights that each Accountholder may acquire under the Deeds of Covenant, payment to the Securityholder in respect of any Certificates represented by the Global Registered Certificate shall constitute a discharge of the Issuer’s obligations to the extent of any such payment or delivery and nothing in the Deed of

Covenant shall oblige the Issuer to make any payment under the Certificates to or to the order of any person other than the Securityholder.

Conditions Applicable to Global Registered Securities

Each Global Registered Security will contain provisions which modify the terms and conditions set out in “Terms and Conditions of the Certificates” as they apply to the Global Registered Security. The following is a summary of certain of those provisions:

Transfers of interests in the Certificates: Any transfers of the interest of an Accountholder in any Certificates that are represented by a Global Registered Security must be effected through the relevant Accountholder's account with Euroclear and/or any other relevant clearing system (each a “**Clearing System**” or “**Relevant Clearing System**”) and in accordance with the rules of the relevant Clearing System.

Exercise procedures: Subject to Condition 4.9 (*Certificates void on expiry*) of the “*Terms and Conditions of the Certificates*” and to prior termination of the Certificates as provided in the Conditions, Certificates may be exercised by an Accountholder (at his own expense) at such time and on such day(s) as provided in Condition 4.1 (*American Style Securities*) of the “*Terms and Conditions of the Certificates*” by delivery of a duly completed and signed Exercise Notice to (i) the Relevant Clearing System and (ii) the Securities Registrar, with a copy to the Determination Agent. Any such exercise shall be subject to the rules and procedures of the relevant Clearing System and any Exercise Notice will be irrevocable and may not be withdrawn by the Accountholder. The holder of the Global Registered Security, upon the exercise of the Certificate in full must, within the period specified therein for the deposit of the relevant Certificate, deposit such Global Registered Security with the Securities Registrar.

Subject to Condition 4.9 (*Certificate void on expiry*) of the “*Terms and Conditions of the Certificates*”, any Exercise Notice delivered after the Latest Exercise Time on any day shall be deemed to have been delivered on the next following day on which such Securities are exercisable (unless no such day occurs on or prior to the Expiration Date, in which case that Exercise Notice shall be void).

Exercise dates and times: Exercise of Certificates represented by a Global Registered Security may only be effected on a day on which the relevant Clearing System is open for business in addition to any other relevant day as provided in the Conditions. Such Certificates must be exercised as provided in the “Terms and Condition of the Certificates” (as modified as set out below) by 10 a.m. in the place where the Relevant Clearing System through which the relevant Certificates are exercised (unless otherwise specified in the Contractual Terms).

Form of Exercise Notice: Each Exercise Notice shall be in the form (for the time being current) available from the Securities Registrar and must:

- (a) specify the name, address, telephone, facsimile and telex details of the Accountholder in respect of the Certificates being exercised;
- (b) specify the number of Certificates of the relevant Series being exercised by the Accountholder (which must not be less than the Minimum Exercise Number);
- (c) specify the number of the Accountholder's account at the relevant Clearing System to be debited with the Certificates being exercised and irrevocably instruct, or, as the case may be, confirm that the Accountholder has irrevocably instructed, the relevant Clearing System to debit the Accountholder's account with the Certificates being exercised and credit the same to the account of the Principal Securities Agent (for the account of the Issuer);
- (d) where applicable, specify the number of the Accountholder's account at the relevant Clearing System to be credited with the Cash Settlement Amount for the Certificates being exercised;
- (e) include an irrevocable undertaking to pay any applicable Taxes due by reason of exercise of and an authority to the Issuer and the relevant Clearing System to deduct an amount in respect thereof from any Cash Settlement Amount due to such Accountholder or otherwise (on, or at any time after, the Cash Settlement Payment Date) and to debit a specified account of the Accountholder at the relevant Clearing System with an amount or amounts in respect thereof; and
- (f) authorise the production of such certification in any applicable administrative or legal proceedings.

Verification of Accountholder: To exercise any Certificates, the relevant Accountholder must duly complete an Exercise Notice. The relevant Clearing System shall, in accordance with its normal operating procedures, verify that each person exercising Certificates is the Accountholder thereof according to the records of such Clearing System and that such Accountholder has an account at the relevant Clearing System which contains Certificates in an amount being exercised and funds equal to any applicable Taxes in respect of the Certificates being exercised.

If, in the determination of the relevant Clearing System, the Securities Registrar:

- (a) the Exercise Notice is not complete or not in proper form;
- (b) the person submitting an Exercise Notice is not validly entitled to exercise the relevant Certificates or not validly entitled to deliver such Exercise Notice; or
- (c) sufficient Certificates and sufficient funds equal to any applicable Taxes are not available in the specified account(s) with the relevant Clearing System on the Exercise Date,

that Exercise Notice will be treated as void and a new duly completed Exercise Notice must be submitted if exercise of the Accountholder's Certificates is still desired.

Any determination by the relevant Clearing System, the Securities Registrar as to any of the matters set out above shall, in the absence of manifest error, be conclusive and binding upon the Issuer, the Accountholder and the beneficial owner of the Certificates exercised.

Notification to the Securities Registrar: Subject to the verification set out above, the relevant Clearing System will:

- (a) confirm to the Securities Registrar (copied to the Issuer and the Determination Agent) the number of Certificates being exercised and the number of the account to be credited with the Cash Settlement Amount; and
- (b) promptly notify the common depositary of receipt of the Exercise Notice and the number the Certificates to be exercised.

Upon exercise of less than all of the Certificates represented by the Global Registered Security, the Securities Registrar will note such exercise in the Register relating to such Global Registered Security and the aggregate nominal amount or number of Certificates so exercised as represented by the Global Registered Security shall be cancelled pro tanto.

Debit of Accountholder's Account: The relevant Clearing System will on or before the Cash Settlement Payment Date debit the relevant account of the Accountholder and credit the relevant account of the Principal Securities Agent (in favour of the Issuer) with: (i) the Certificates being exercised, (ii) any applicable Taxes (if any) in respect of the Certificates being exercised and (iii) any other amounts as may be specified in the Contractual Terms.

If any of the items set out in the paragraph above are not so credited to the relevant account of the Principal Securities Agent (in favour of the Issuer), then the Issuer shall be under no obligation to make any payment of any nature to the relevant Accountholder in respect of the Certificates being exercised, and the Exercise Notice delivered in respect of such Certificates shall thereafter be void for all purposes.

Effect of Exercise Notice: Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Accountholder to exercise the Certificates specified therein, provided that the person exercising and delivering such Exercise Notice is the person then appearing in the records of the relevant Clearing System as the holder of the relevant Certificates. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become void and shall be deemed not to have been so delivered.

After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void) by an Accountholder, such Accountholder shall not be permitted to transfer either legal or beneficial ownership of the Certificates exercised thereby. Notwithstanding this, if any Accountholder does so transfer or attempt to transfer such Certificates, the Accountholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently: (i) entering into replacement hedging operations in respect of such Securities; or (ii) paying any amount on the subsequent exercise of such Certificates without having entered into any replacement hedging operations.

Payments: All payments in respect of a Global Registered Security which, in accordance with the “*Terms and Conditions of the Certificates*”, require presentation and/or surrender of a Registered Certificate Form will be made against presentation and (in the case of payment in full) and/or surrender of the Global Registered Security at the Specified Office of the Principal Securities Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Certificates. On each occasion on which a payment is made in respect of a Global Registered Security, the Issuer shall procure that the same is entered pro rata in the records of the Relevant Clearing System. Any payments shall be made in accordance with the rules and procedures of the relevant Clearing System and the Issuer, the Securities Registrar and the Securities Transfer Agent, shall not be liable, under any circumstance, for any acts or defaults of any Clearing System in the performance of the Clearing System's duties in relation to the Certificates.

Payment Record Date: Each payment in respect of a Global Registered Security will be made to the person shown as the holder in the Register at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the “**Record Date**”) where “**Clearing System Business Day**” means a day on which each relevant Clearing System for which the Global Registered Security is being held is open for business.

Notices: Notwithstanding Condition 21 (Notices) of the “*Terms and Conditions of the Certificates*”, while all the Certificates are represented by a Global Registered Security and the Global Registered Security is deposited with a Clearing System, notices to Accountholders may be given by delivery of the relevant notice to the Relevant Clearing System and, in any case, such notices shall be deemed to have been given to the Accountholders in accordance with Condition 21 (Notices) of the “*Terms and Conditions of the Certificates*”, as applicable, on the date of delivery to the Relevant Clearing System.

Terms used in this paragraph have the meanings given to them in Regulation S.

An offer or sale of Certificates within the United States by any dealer (whether or not participating in the offering of such Certificates) may violate the registration requirements of the Securities Act.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), the Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, in relation to each Tranche of Certificates, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Certificates to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Certificates to the public in that Relevant Member State:

Republic of Italy

The offering of the Certificates has not been registered pursuant to Italian securities legislation and, accordingly, the Distribution Agent has represented and agreed that, save as set out below, it has not offered or sold, and will not offer or sell, any Certificates in the Republic of Italy in an offer to the public and that sales of the Certificates in the Republic of Italy shall be effected in accordance with all Italian securities, tax and exchange control and other applicable laws and regulation.

Accordingly, the Distribution Agent has represented and agreed that it will not offer, sell or deliver any Certificates or distribute copies of this Prospectus and any other document relating to the Certificates in the Republic of Italy except:

- (a) to “qualified investors”, as referred to in Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the “Decree No. 58”) and in Articles 34-ter of CONSOB Regulation No. 11971 of 14 May 1999, as amended (“Regulation No. 11971”).
- (b) that it may offer, sell or deliver Certificates or distribute copies of any prospectus relating to such Certificates in a solicitation to the public in the period commencing on the date of publication of such prospectus, provided that such prospectus has been approved in another Relevant Member State and notified to CONSOB, all in accordance with the Directive 2003/71/EC of 4 November 2003 (the “Prospectus Directive”) and the Directive 2010/73/EU of 24 November 2010 (the “Amending Directive”), as implemented in Italy under Decree 58 and Regulation No. 11971, and ending on the date which is 12 months after the date of approval of such prospectus; and
- (c) in any other circumstances where an express exemption from compliance with the solicitation restrictions applies, as provided under Decree No. 58 or Regulation No. 11971.

Any such offer, sale or delivery of the Certificates or distribution of copies of the Prospectus or any other document relating to the Certificates in the Republic of Italy must be:

- (a) made by investment firms, banks or financial intermediaries permitted to conduct such activities in the Republic of Italy in accordance with Legislative Decree No. 385 of 1 September 1993 as amended, Decree No. 58, CONSOB Regulation No. 16190 of 29 October 2007, as amended and any other applicable laws and regulations; and
- (b) in compliance with any other applicable notification requirement or limitation which may be imposed by CONSOB or the Bank of Italy.

Provisions relating to the secondary market in Italy

Investors should also note that, in any subsequent distribution of the Certificates in the Republic of Italy (with a minimum denomination lower than €50,000 - or €100,000 from 1st July 2012 - or its equivalent in another currency), Article 100-bis of Decree No. 58 may require compliance with the law relating to public offers of securities. Furthermore, where the Certificates are placed solely with “qualified investors” and are then systematically resold on the secondary market at any time in the 12 months following such placing, purchasers of Certificates who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Certificates were purchased, unless an exemption provided for under Decree No. 58 applies

NO OWNERSHIP BY U.S. PERSONS

The Certificates may not be legally or beneficially owned by U.S. Persons at any time. Each holder and each beneficial owner of a Certificate hereby represents, as a condition to purchasing or owning the Certificate or any beneficial interest therein, that neither it nor any person for whose account or benefit the Certificates are being purchased is located in the United States, is a U.S. Person or was solicited to purchase the Certificates while present in the United States. Each holder and each beneficial owner of a Certificate hereby agrees not to offer, sell or deliver any of the Certificates, at any time, directly or indirectly in the U.S. or to any U.S. Person. The term "U.S. Person" will have the meaning ascribed to it in both Regulation S under the Securities Act.

BENEFIT PLAN INVESTORS

The Certificates may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), or any individual retirement account or plan subject to Section 4975 of the Code or any entity whose underlying assets include “plan assets” within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein.

The Global Registered Certificates and the Individual Registered Certificates will bear a legend to the following effect:

THE INVESTOR SHALL BE DEEMED TO REPRESENT BY ITS ACQUISITION AND HOLDING OF AN INTEREST HEREIN THAT IT IS NOT ACQUIRING THE SECURITIES WITH THE ASSETS OF ANY EMPLOYEE BENEFIT PLAN SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED (“**ERISA**”), ANY INDIVIDUAL RETIREMENT ACCOUNT OR PLAN SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE “PLAN ASSETS” WITHIN THE MEANING OF SECTION 3(42) OF ERISA BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S ACCOUNT'S OR PLAN'S INVESTMENT THEREIN.

UNITED KINGDOM TAXATION

The following disclosure applies only in respect of Certificates.

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest (if any) in respect of the Certificates. The comments do not deal with other United Kingdom tax aspects of acquiring, holding, disposing of, or abandoning Certificates. Transactions involving Certificates, including the issue and subscription of Certificates, any purchase or disposal or settlement of Certificates, may have United Kingdom tax consequences for potential purchasers (including but not limited to, transfer taxes and possible withholding or deduction for or on account of United Kingdom tax from payments made in respect of the Certificates). The tax consequences may depend, amongst other things, on the status of the potential investor and the terms and conditions of a particular Certificate as specified in the Contractual Terms. It is based on current law and practice of HM Revenue and Customs (“**HMRC**”), which may be subject to change, sometimes with retrospective effect. The comments relate only to the position of persons who are absolute beneficial owners of the Certificates. Prospective Securityholders should be aware that the particular terms of issue of any series of Certificates as specified in the Contractual Terms may affect the tax treatment of that and other series of Certificates. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Prospective Securityholders who are in any doubt as to their tax position should consult their professional advisors about tax implications of purchasing and holding a Certificate, any transaction involving a Certificate, and any transaction involved in the exercise and settlement of a Certificate. Securityholders who may be liable to taxation in jurisdictions other than the United Kingdom are particularly advised to consult their professional advisors as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom withholding taxation aspects of payments in respect of the Certificates. In particular, Securityholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Certificates even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

Certificates – UK Withholding Tax on payments by the Issuers

Unless payments under the Certificates are (or are deemed to be for United Kingdom tax purposes) interest, annual payments, or income arising from UK real property or certain types of intellectual property, they may be made without withholding or deduction for or on account of United Kingdom income tax.

Other Rules Relating to United Kingdom Withholding Tax

1. Where interest (if any) has been paid under deduction of United Kingdom income tax, Securityholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
2. The references to “interest” above mean “interest” as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of “interest” or “principal” which may prevail under any other law or which may be created by the terms and conditions of the Certificates or any related documentation. Where a payment on a Certificate does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment, rent or royalties for United Kingdom tax purposes. Where a payment is subject to United Kingdom withholding tax, depending on the nature of the payment (which will be determined by, amongst other things, the terms and conditions specified by the Contractual Terms of the Certificate), the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to any exemption from withholding which may apply and to such relief as may be available under the provisions of any applicable double tax treaty.

IRISH TAXATION

The following is a summary based on the laws and practices currently in force in Ireland of certain matters regarding the tax position of investors who are the absolute beneficial owners of Certificates. Particular rules not discussed below may apply to certain classes of taxpayers holding Certificates, including dealers in securities and trusts. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Certificates. Prospective investors in the Certificates should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Certificates and the receipt of payments thereon under the laws of their country of residence, citizenship or domicile.

Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The Issuer will not be obliged to withhold Irish income tax from payments of interest on the Certificates so long as such payments do not constitute Irish source income. Interest paid on the Certificates may be treated as having an Irish source if:

- (a) the Issuer is resident in Ireland for tax purposes; or
- (b) the Issuer has a branch or permanent establishment in Ireland, the assets or income of which are used to fund the payments on the Certificates; or
- (c) the Issuer is not resident in Ireland for tax purposes but the register for the Certificates is maintained in Ireland or (if the Certificates are in bearer form) the Certificates are physically held in Ireland.

It is anticipated that, (i) the Issuer is not and will not be resident in Ireland for tax purposes; (ii) the Issuer does not and will not have a branch or permanent establishment in Ireland; and (iii) bearer Certificates will not be physically located in Ireland and the Issuer will not maintain a register of any registered Certificates in Ireland. For so long as this remains the case, interest payable on the Certificates should not be regarded as Irish source interest.

If payments of interest on the Certificates are found to constitute Irish source interest, the Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Certificate so long as the interest paid on the Certificate falls within the following category and meets the relevant conditions:

Interest paid on a quoted Eurobond

A quoted Eurobond is a security which is issued by a company (such as the Issuer), is listed on a recognised stock exchange (such as the Irish Stock Exchange) and carries a right to interest. Provided that the Certificates (i) carry an amount in respect of interest and (ii) are listed on the Irish Stock Exchange (or any other recognised stock exchange), interest paid on them can be paid free of withholding tax provided the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:

- (a) the Certificate is held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
- (b) the person who is the beneficial owner of the Certificate and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form.

Thus, if interest payable on the Certificates is found to have an Irish source, so long as the Certificates (i) are interest bearing, (ii) continue to be quoted on the Irish Stock Exchange (or any other recognised stock exchange) and (iii) are held in a recognised clearing system, interest on the Certificates can be paid by any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax. If the Certificates continue to be quoted but cease to be held in a recognised clearing system, interest on the Certificates may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

Encashment Tax

Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) on any interest, dividends or annual payments payable out of or in respect of the stocks, funds, shares or securities of a company not resident in Ireland, where such interest, dividends or annual payments are collected or realised by a bank or encashment agent in Ireland.

Encashment tax will not apply where the holder of the Certificates is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank.

Taxation of Receipts

Notwithstanding that a holder of Certificates may receive payments of interest, premium or discount on the Certificates free of Irish withholding tax, the Certificate holder may still be liable to pay Irish income or corporation tax (and in the case of individuals, the universal social charge) on such interest, premium or discount if (i) such interest, premium or discount has an Irish source, (ii) the Certificates holder is resident or (in the case of a person other than a body corporate) ordinarily resident in Ireland for tax purposes (in which case there may also be a pay related social insurance (PRSI) liability for an individual in receipt of interest, premium or discount on the Certificates), or (iii) the Certificates are attributed to a branch or agency of the Certificate holder in Ireland. Ireland operates a self-assessment system in respect of income and corporation tax, and each person must assess their own liability to Irish tax.

Relief from Irish income tax may be available under the specific provisions of a double taxation agreement between Ireland and the country of residence of the recipient.

Tax on Capital Gains

A holder of Certificates will not be subject to Irish tax on capital gains realised on a disposal of Certificates unless (i) such holder is either resident or ordinarily resident in Ireland; or (ii) such holder carries on a business or a trade in Ireland through a branch or agency in respect of which the Certificates were used or held or acquired; or (iii) the Certificates cease to be listed on a stock exchange in circumstances where such Certificates derive their value or more than 50% of their value from Irish real estate, mineral rights or exploration rights.

Capital Acquisitions Tax

A gift or inheritance comprising of Certificates will be within the charge to capital acquisitions tax (which subject to available exemptions and reliefs is currently levied at 33 per cent.) if either (i) the disponer or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or in certain circumstances, if the disponer is domiciled in Ireland irrespective of his residence or that of the done/successor) on the relevant date or (ii) if the Certificates are regarded as property situate in Ireland.

A foreign domiciled individual will not be regarded as being resident or ordinarily resident in Ireland at the date of the gift or inheritance unless that individual (i) has been resident in Ireland for the five consecutive tax years immediately preceding the tax year in which the gift or inheritance is taken, and (ii) is either resident or ordinarily resident in Ireland on that date.

Bearer instruments are generally regarded as situated where they are physically located at any particular time. Certificates in registered form are regarded as property situate in Ireland if the register of the Certificates is in Ireland. The Certificates may, however, be regarded as situated in Ireland regardless of their physical location if they secure a debt due by an Irish resident debtor and/or are secured over Irish property. Accordingly, if Irish situate Certificates are comprised in a gift or inheritance, the gift or inheritance may be within the charge to tax regardless of the residence status of the disponer or the donee/successor.

Stamp Duty on Transfer of Certificates

As the Issuer is not registered in Ireland, stamp duty will not arise on a document effecting a transfer of the Certificates so long as the instrument of transfer of the Certificates does not relate to:

- (a) any immovable property situated in Ireland or any right over or interest in such property; or
- (b) stocks or marketable securities of a company which is registered in Ireland (other than a company which is (i) an investment undertaking within the meaning of section 739B of the Taxes Consolidation Act, 1997 ("TCA") or (ii) a qualifying company within the meaning of section 110 of the TCA).

ITALIAN TAXATION

The following is a summary of current Italian law and practise relating to the direct taxation of the Certificates. The statements herein regarding direct taxation are based on the laws in force in Italy as at the date of this Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Certificates and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Prospective investors are advised to consult their own tax advisors concerning the overall tax consequences of their interest in the Certificates.

Tax treatment of the Certificates

The Certificates may be subject to different tax regimes depending on whether:

- (a) they represent derivative financial instruments or bundles of derivative financial instruments, through which the Securityholders purchase indirectly underlying financial instruments; or
- (b) they represent a debt instrument implying a “use of capital” (*impiego di capitale*), through which the Securityholders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity.

Certificates representing derivative financial instruments or bundles of derivative financial instruments

Italian resident Securityholders

Where the Italian resident Securityholder is (i) an individual not engaged in an entrepreneurial activity to which the Certificates are connected, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, payments in respect of Certificates qualifying as securitised derivative financial instruments as well as capital gains realised on any sale or transfer for consideration or exercise or termination thereof are subject to a 26% substitute tax (*imposta sostitutiva*). The recipient may opt for three different taxation criteria:

- (1) Under the tax declaration regime (*regime della dichiarazione*), which is the standard regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Certificates are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all payments in respect of Certificates and all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Certificates not in connection with an entrepreneurial activity pursuant to all disposals of the Certificates carried out during any given tax year. Italian resident individuals holding the Certificates not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses realised before 30 June 2014 may be carried forward to be offset against subsequent capital gains realised from 1 July 2014 for an overall amount of 48.08 per cent. of the relevant capital losses with reference to losses realised before 1 January 2012 and for an overall amount of 76.92 per cent. with reference to losses realized between 1 January 2012 and 30 June 2014.
- (2) As an alternative to the tax declaration regime, Italian resident individuals holding the Certificates not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on payments received in respect of Certificates and capital gains realised on each sale or termination of the Certificates (the “*risparmio amministrato*” regime). Such separate taxation of capital gains is allowed subject to (i) the Certificates being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express election for the *risparmio amministrato* regime being timely made in writing by the relevant Securityholder or Securityholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or termination of the Certificates (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder using funds provided by the Securityholder for this purpose. Under the *risparmio amministrato* regime, where a sale or termination of the Certificates results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Capital losses realised before 30 June 2014 may be carried forward to be offset against subsequent capital gains realised from 1 July 2014 for an overall amount of 48.08 per cent. of the relevant capital losses with reference to losses realised before 1 January 2012 and for an overall amount of 76.92 per cent. with reference to losses realized between 1

January 2012 and 30 June 2014. Under the *risparmio amministrato* regime, the Securityholder is not required to declare the capital gains in the annual tax return.

(3) Any payments received and any capital gains accrued by Italian resident individuals holding

the Certificates not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Certificates, to an authorised intermediary and have opted for the so-called “*risparmio gestito*” regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under *this risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Depreciation of the managed assets accrued before 30 June 2014 may be carried forward to be offset against subsequent increase in value of the managed assets accrued from 1 July 2014 for an overall amount of 48.08 per cent. of the relevant capital losses with reference to losses realised before 1 January 2012 and for an overall amount of 76.92 per cent. with reference to losses realized between 1 January 2012 and 30 June 2014. Under *the risparmio gestito* regime, the Securityholder is not required to declare the capital gains realised in the annual tax return.

In case the Certificates entitling the holder to purchase shares, the capital gains realised on the redemption or the transfer or sale of the Certificates are not subject to *imposta sostitutiva* but a portion equal to 49.72% of the capital gains must be included in the relevant Securityholder's income tax return (and subjected to the ordinary income tax) if the underlying of such Certificates transferred or terminated within any 12-month period represent a participation representing more than 2% of the voting rights or 5% of the capital of the issuing company (in the case of unlisted companies, the above thresholds are 20% and 25% respectively).

Certificates representing debt instruments implying a “use of capital”; Certificates having 100 per cent. capital protection guaranteed by the Issuer

Taxation of interest

Italian resident Securityholders

Legislative Decree April 1st, 1996, No. 239 (Decree No. 239) regulates the tax treatment of interest, premiums and other income (including the difference between the termination amount and the issue price) (hereinafter collectively referred to as Interest) from Certificates issued, inter alia, by non-Italian resident entities. The provisions of Decree No. 239 only apply to those Certificates which qualify as *obbligazioni or titoli similari alle obbligazioni* pursuant to Article 44 of Presidential Decree 22nd December, 1986, No. 917 (Decree No. 917). In accordance with Article 44 of Decree No. 917, for securities to qualify as *titoli similari alle obbligazioni* (securities similar to bonds), they must (i) incorporate an unconditional obligation to pay at maturity an amount not less than that indicated therein, and (ii) attribute to the holders no direct or indirect right to control or participate to the management of the Issuer.

Where the Italian resident Securityholder is an individual holding Certificates otherwise than in connection with entrepreneurial activity, (unless he has entrusted the management of his financial assets, including the Certificates, to an authorised intermediary and has opted for the *risparmio gestito* tax regime (see above)), Interest payments relating to the Certificates are subject to a tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent (either when Interest is paid or when payment thereof is obtained by the holder on a sale of the Certificates). Such investors are qualified as “net recipients”.

Payments of Interest in respect of Certificates that qualify as *obbligazioni or titoli similari alle obbligazioni* are not subject to the *imposta sostitutiva* if made to beneficial owners who are Italian resident individuals holding Certificates not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Certificates, to an authorised financial intermediary and have opted for *the risparmio gestito* regime. Such investors are qualified as gross recipients.

Certificates not having 100 per cent. capital protection guaranteed by the Issuer

In case Certificates representing debt instruments implying a “use of capital” do not guarantee the total reimbursement of the principal, under Italian tax law they should qualify as “atypical securities” and payments in respect of such Certificates received by Italian resident individual Securityholders would be subject to a 26 per cent. final withholding tax.

Capital gains tax

Italian resident Securityholders or Securityholders

Pursuant to Legislative Decree 21st November, 1997, No. 461, capital gains realised by Italian resident individuals not engaged in entrepreneurial activities to which the Certificates are connected, on any sale or transfer for consideration of the Certificates or termination thereof are subject to a 26% capital gain tax, which applies under the “tax declaration

regime”, the *Risparmio Amministrato* tax regime or the *Risparmio Gestito* tax regime according to the same rules described above under the caption “*Certificates representing derivative financial instruments or bundles of derivative financial instruments – Italian resident Securityholders*”.

In case the Certificates entitling the holder to purchase shares, the capital gains realised on the termination or the transfer or sale of the Certificates are not subject to *imposta sostitutiva* but a portion equal to 49.72% of the capital gains must be included in the relevant Securityholder's income tax return (and subjected to the ordinary income tax) if the underlying of such Certificates transferred or terminated within any 12-month period represent a participation representing more than 2% of the voting rights or 5% of the capital of the issuing company (in the case of unlisted companies, the above thresholds are 20% and 25% respectively).
