Dear Ms. McAlinden,

As I understand it, the Control Function of Head of Legal is not a PCF under Appendix 1, Schedule 2, Part 1 of CP51.

I note that the Control Function of Head of Finance is a PCF (PCF-12) and I wondered why, in the context of CP51, someone with a legal qualification would be treated differently from someone with an accountancy qualification?

I should be greatly obliged if you could let me know the policy reason for this apparent difference in treatment of people in similar Control Functions coming from, and regulated by, different professional bodies.

Please do not hesitate to contact me if you have any questions or comments.

Thank you,

Linda O'Shea Farren
