## **Re: Central Bank’s expectations of firms in respect of sales, securitisations, purchases and transfers of residential mortgage loans**

The protection of consumers in arrears remains a key priority for the Central Bank of Ireland (“the Central Bank”). In its approach to mortgage arrears resolution, the Central Bank focuses on, *inter alia*, ensuring the fair treatment of consumers through its consumer protection framework. The regulatory framework ensures that where credit institutions choose to reduce their levels of non-performing loans through sales, securitisations, purchases or transfers of residential mortgage loans<sup>1</sup> (“Mortgage Loan Transactions”), consumers retain all regulatory protections afforded under the Code of Conduct on Mortgage Arrears, 2013 (“CCMA”) and the Consumer Protection Code, 2012 (“CPC”).

Firms are required to conduct their affairs in a manner that ensures that consumers are protected. In this regard, the Central Bank is satisfied that, in the context of the sale of loans, the CCMA is working effectively and as intended for those borrowers who engage with the process<sup>2</sup>. However, in the context of recent activity in the Irish residential mortgage market and evidence of specific instances that could give rise to potential customer detriment, the purpose of this letter is:

1. to set out the Central Bank’s expectations of firms in relation to Mortgage Loan Transactions and to remind firms of their reporting obligations; and
2. to seek assurance from the board of [XXXXXX] (“the firm”) that it has taken the necessary steps to ensure that the policies, procedures, systems and controls of the firm are sufficiently robust.

---

<sup>1</sup> Including residential mortgage loans which are secured by a borrower’s primary residence (as defined in the CCMA) and residential mortgage loans held by a personal consumer (as defined in CPC).

<sup>2</sup> As evidenced as part of the [Report on the Effectiveness of the Code of Conduct on Mortgage Arrears in the context of the Sale of Loans by Regulated Lenders](#).

Based on our supervisory experience and evidence gathered through risk-based supervision to date, the Central Bank will pay specific attention to the following in assessing firms' compliance with the regulatory framework in relation to Mortgage Loan Transactions<sup>3</sup> and firms' reporting obligations:

**a. Due diligence and information sharing between parties**

While the Central Bank recognises that errors occur, our expectation is that sufficient due diligence and information sharing takes place at the outset to ensure that complete customer files transfer as part of a Mortgage Loan Transaction. Sufficient due diligence must, therefore, be facilitated by the firm selling/securing the loans and conducted by the firm purchasing the loans, to ensure that any errors identified can be rectified efficiently and correctly in the interests of consumers, irrespective of whether the error occurred pre- or post- the Mortgage Loan Transaction.

To ensure that customers' interests continue to be protected, it is of particular importance that the firm purchasing loans receives all relevant documentation from the firm selling/securing the loans to allow the loans to be administered in accordance with:

- I. the terms and conditions (including the correct interest rates, calculation of monthly loan repayments and non-standard terms and conditions); and
- II. any specific commitments made to consumers (e.g. in facility letters or annual statements).

**b. Reporting Obligations**

The Central Bank expects all parties to a Mortgage Loan Transaction to have appropriate technical and operational solutions and other transitional arrangements as necessary, to ensure that reporting obligations to the Central Bank can continue to be met. Firms that are party to Mortgage Loan Transactions must ensure that they fulfil their obligations to report statistics and data to the Central Bank in an accurate, consistent and timely manner, in particular under:

- I. the Credit Reporting Act 2013, including but not limited to obligations concerning regular mandatory reporting of information to the Central Credit Register - in particular, reporting of Forename, Surname, Date of Birth, Address and Telephone No. (personal information) to create an accurate "Single Borrower View" of that consumer; and
- II. Section 22 of the Central Bank (Supervision and Enforcement) Act 2013 regarding consistent and accurate reporting of data in the Central Bank's Mortgage Arrears and Repossession Statistics.

---

<sup>3</sup> Including in the context of the regulatory requirements referenced in the Annex to this letter.

In order to ensure a culture where consumers' best interests are protected, where a co-operating borrower is complying with the terms of an alternative repayment arrangement ("ARA") and the loan is subsequently sold to another regulated entity, the new regulated entity cannot unilaterally change the ARA agreed between the borrower and the original lender. The new regulated entity should continue to honour an ARA until review, expiry or by agreement, as appropriate. This includes honouring timelines and terms and conditions for reviews of the ARA. In circumstances where the borrower's circumstances have changed, any change to the ARA must comply with the CCMA and be appropriate, sustainable and proportionate to any change(s) in the borrower's circumstances.

Furthermore, the Central Bank expects that firms undertake a formal consumer impact analysis in the context of decisions regarding Mortgage Loan Transactions. As part of this analysis, the Central Bank expects that firms be able to evidence discussion and challenge at board, board committee and management committee level.

Finally, the Central Bank is seeking assurance of the board of your firm that the firm's policies, procedures, systems and controls have been appropriately tested and are sufficiently robust to ensure the risks and expectations outlined above in the best interest of consumers, are effectively managed and implemented.

Please respond **no later than 18 October 2019** confirming that the board of your firm has considered the contents of this letter and providing the assurances sought above. The firm's response should reference any relevant first, second or third line of defence controls or reviews and include an explanation of how these provide the requisite assurance to the board.

If you have any questions or would like to discuss the contents of this letter, please contact Claire Nevin at [claire.nevin@centralbank.ie](mailto:claire.nevin@centralbank.ie).
