

How to: Log In to the System for the First Time:

This step-by-step guidance provides information on the process for logging onto the Online Reporting System for the first time.

To Log In for the first time, please complete the following steps:

- i. The Online Reporting System will require all Administrator(s) and User(s) to change their password when logging into the system for the *first* time. To begin with, enter your log in details into the *Login Screen* as shown in figure 1.1. If you are logging in as a Firm/System Administrator, the password will be the temporary one issued to you by the Central Bank. If you are logging in as a Business Administrator or User, the password will be the one created for you by the Administrator who set you up on the system.

The screenshot shows the 'Login to Online Reporting' interface. At the top left is the Central Bank of Ireland logo and name. The main title is 'Online Reporting System'. Below this is a sidebar with 'Login Instructions' and a main content area with the title 'Login to Online Reporting'. The main area contains three input fields: 'Institution Code:', 'Login Name:', and 'Password:'. A blue 'Login' button is located below the 'Password:' field. A red callout box points to the 'Login' button with the text 'Enter Login Details and click Login'.

Figure 1.1 Login Screen

- ii. You will then be taken to the screen shown in figure 1.2 below. In the '**Enter Old Password**' box, enter the temporary password issued to you either by the Central Bank (if you are a Firm/System Administrator) or by the Administrator who set up your account (if you are a Business Administrator or User). You must then enter your new personal password in the other two boxes. Tips on creating a strong password are available by clicking on the link '**What is a strong password?**'. Once satisfied with your new password, click '**Change**'.
